

University Core Course Inclusion/Deletion Guidelines

- 1) Courses approved for inclusion in the University Core Curriculum must adhere to the University Core guiding principles and meet the objectives of the area in which the course is to be listed. The purpose of the University Core Curriculum is to provide students with core skills and competencies.
- 2) Courses will not be included solely based on:
 - a. Shifting credit hours to the University Core in order to relieve a course-heavy major.
 - b. Increasing enrollment in elective offerings.
- 3) Courses that have not been taught for three successive years will be considered for removal from the list of University Core courses.

Effective Fall 2008

Approved by Academic Affairs Leadership Team – May 2008
