Specific courses within the University Core are listed on pages 96-97.
• Courses from the major may apply to the areas marked in the University Core.

Written and Oral Communication ................................................. 9
Quantitative Reasoning/Scientific Method .................................. 10-11
• Math ................................................................. 3
  Life Science ......................................................... 4
• Physical Science .................................................... 3-4
Critical Inquiry and Aesthetic Analysis ....................................... 6
Aesthetic Analysis ............................................................... 3
• Critical Inquiry ...................................................... 3

Support Courses ................................................................. 9-18
PHIL 1123 Contemporary Moral Problems
ECON 1103 Introduction to Economics
FMKT 2323 Global Protocol and Diversity
(or Foreign Language)
*MATH 1533 Algebra for STEM OR Placement Score AND
*MATH 1593 Plane Trigonometry OR Placement Score

* A grade of ‘C’ or better is required for both MATH 1533 and 1593 to take MATH 2313.

Students majoring in the Engineering Physics program are encouraged to complete the following course in high school.

One year of high school physics OR
PHY 1003 Introduction to Physics

Major Requirements

Engineering Physics - Mechanical Engineering ........................................... 94

Physics ................................................................. 11
Required courses:
PHY 2014 Physics for Science and Engineering I and Lab
PHY 2114 Physics for Science and Engineering II and Lab
PHY 3883 Mathematical Physics I

Engineer ................................................................. 57
Required courses:
ENGR 1112 Introduction to Engineering and Laboratory
ENGR 1213 Engineering Computing and Laboratory
ENGR 2033 Statics
ENGR 2043 Dynamics
ENGR 2143 Strength of Materials
ENGR 2151 Strength of Materials Lab
ENGR 2303 Electrical Science
ENGR 2311 Electrical Science Laboratory
ENGR 3203 Thermodynamics
ENGR 3211 Thermal Engineering Laboratory
ENGR 3303 Engineering Probability and Statistics

American Historical and Political Analysis .............................. 6
American National Government ........................................... 3
American History ....................................................... 3

• Cultural and Language Analysis .................................. 3-4
  Second Language .................................................. 4
  OR
  Cultural Analysis ................................................ 3

• Social and Behavioral Analysis ...................................... 3

Life Skills ................................................................. 5
Required Health Course .................................................. 2
• Elective Life Skills ............................................... 3

American Historical and Political Analysis .............................. 6
American National Government ........................................... 3
American History ....................................................... 3

• Cultural and Language Analysis .................................. 3-4
  Second Language .................................................. 4
  OR
  Cultural Analysis ................................................ 3

• Social and Behavioral Analysis ...................................... 3

Life Skills ................................................................. 5
Required Health Course .................................................. 2
• Elective Life Skills ............................................... 3

Mathematics ........................................................ .. 15
Required courses:
MATH 2313 Calculus 1
MATH 2323 Calculus 2
MATH 2333 Calculus 3
MATH 2343 Calculus 4
MATH 3103 Differential Equations

Chemistry ................................................................. 5
Required courses:
CHEM 1315 Chemistry for Engineering and Lab

Physics or Engineering Electives .............................................. 6
Selected from the following:
ENGR 3153 Machine Dynamics
ENGR 3223 Digital Logic Design and Laboratory
ENGR 4103 Finite Element Analysis
ENGR 4153 Vibration
ENGR 4203 Refrigeration and Air Conditioning
ENGR 4303 Control Systems
ENGR 4313 Fluid Dynamics
BME 4343 Biomechanics
PHY 4163 Analytical Mechanics

*Students in the Accelerated BS/MS program in Engineering Physics must enroll in the graduate level versions of this course.

# Admission into Engineering and Physics Upper Division is required.

- CONTINUED ON NEXT PAGE -
Minimum Hours required ...................... 127*

*Total hours required for this major may exceed the minimum 124 credit hour institutional requirement and will vary according to course selection. It is recommended students complete high school algebra II, trigonometry, physics and two years of a second language in high school.

Minimum Grade Requirements

1. Average in (a) all college course work, and (b) course work at UCO .......................................................... 2.00

2. A minimum grade of “C” must be earned in all courses in the major to count toward meeting degree requirements.

For other regulations pertaining to graduation, see pages 67-68 of the 2017-2018 catalog.

Admission into Engineering and Physics Upper Division

Students seeking the B.S. in Biomedical Engineering, Engineering Physics – Electrical Engineering, Engineering Physics – Mechanical Engineering, and Engineering Physics – Physics are required to make formal application to the Chairperson of the Department of Engineering and Physics for admission into the upper division of each of these majors. Applications must be submitted to the Department of Engineering and Physics on or before the last Monday of January for Fall admission and the last Monday of August for Spring admission.

Upper division admission is open to students meeting Engineering and Physics upper division admission requirements. To be admitted into upper division, the student must have:

- A minimum retention grade point average (GPA) of 2.00 in all course work completed by the time the student is formally admitted into upper division.
- Completed 60 semester credit hours by the time the student is formally admitted into upper division.
- Completed the following courses or their equivalent with a minimum grade of “C” by the time the student is formally admitted into upper division:
  - MATH 2313 Calculus 1
  - MATH 2323 Calculus 2
  - MATH 2333 Calculus 3
  - MATH 2343 Calculus 4
  - MATH 3103 Differential Equations (Recommended)
  - PHY 2014 Physics for Science & Engineering I & Lab
  - PHY 2114 Physics for Science & Engineering II & Lab
  - ENGR 1112 Introduction to Engineering & Lab
  - ENGR 1213 Engineering Computing & Lab
  - ENGR 2033 Statics
  - ENGR 2303 Electrical Science
  - ENGR 2311 Electrical Science Lab
  - ENGR 3303 Engineering Probability and Statistics (Recommended)
  - CHEM 1112 General Chemistry I Recitation/Lab AND (for Biomedical Engineering)
