

UNIVERSITY OF CENTRAL OKLAHOMA

SEVERE WEATHER AREAS¹

¹Disclaimer: Because this list has not been certified by engineering or scientific study, UCO does not warrant the ability of any severe weather area to protect against all possible storm threats. The severe weather areas noted here are what could be reasonably expected to provide some refuge for the average weather situations expected to be encountered in Oklahoma.

UCO REQUIRES USE OF PRIMARY SEVERE WEATHER AREAS. ALTERNATE SEVERE WEATHER AREA LOCATIONS ARE TO BE USED ONLY IF TIME DOES NOT PERMIT MOVEMENT TO PRIMARY SEVERE WEATHER AREA.
