

# TeachPad Quick Guide for Vision Classroom Management Software

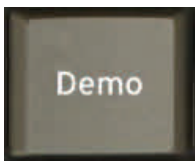

*This device helps instructors to perform easily the basic functions of the Vision Classroom Management software. Each function applies to ALL student computers*

*Software installed in: EDU 110, EDU 112, EDU 113, EDU206, EDU 214, and EVH 007*

## MY CLASSROOM

Press this button to supervise the student computers in your classroom.  
Press stop button to return to normal.  
You will see live thumbnails of all connected computers.

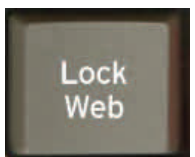

## DEMO

Press this button to share your screen with the entire class.  
Press Stop button to return to normal.

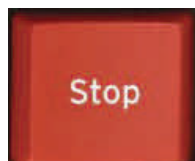

## BLANK

Press this button to blank the student screens in your classroom and lock the keyboard and mice.  
Press Stop button to return to normal.

## LOCK WEB

Press this button to disable Internet access for the entire class. Software programs are still available, but students cannot access the Internet.  
Press the Lock Web to return to normal.

## STOP

Press this button to stop sharing your screen with the class and return control of the student computers back to the students.
