

1. Go to www.uco.edu/technology/central-tech-store and select Tech Store Online on the right side of the page.

Central Tech Store

The Central Tech Store is the one stop shop for all technology needs for the UCO community. The Central Tech Store is also in charge of handling all UCO Apple purchases. In addition, we offer full service repair for all technology devices excluding the iPhone.

Shop Central Tech Store Online!

Free software downloads, customized hardware, and institutional pricing information are available at the Central Tech Store online.

New online experience coming soon! Be sure to check back for details regarding another great way to shop Central Tech Store.

Free Microsoft Office

Microsoft Office 365 Pro Plus is now available for UCO students at no cost thanks to a campus agreement program facilitated by the Office of Information Technology. [Find out more about Office 365 Pro Plus for Students!](#)

4. Select the Windows version of AnyConnect from the list of UCO Free Downloads. The page will automatically attempt to download the Cisco AnyConnect client to your computer.

UCO Free Downloads		 Mac	 Win
AnyConnect more details		Download	Download
Endnote X8 more details		Download	Download
Respondus more details			Download
SAS more details			Download
SoftChalk Cloud more details			Visit Website
Symantec Endpoint Protection 12.1 RU6 MP9 (Windows 7/8/10 32-bit) more details			Download
Symantec Endpoint Protection 12.1 RU6 MP9 (Windows 7/8/10 64-bit) more details			Download
Symantec Endpoint Protection 14 MP2 (OS X 10.10-10.13) more details			Download
Wolfram Mathematica more details			Visit Website

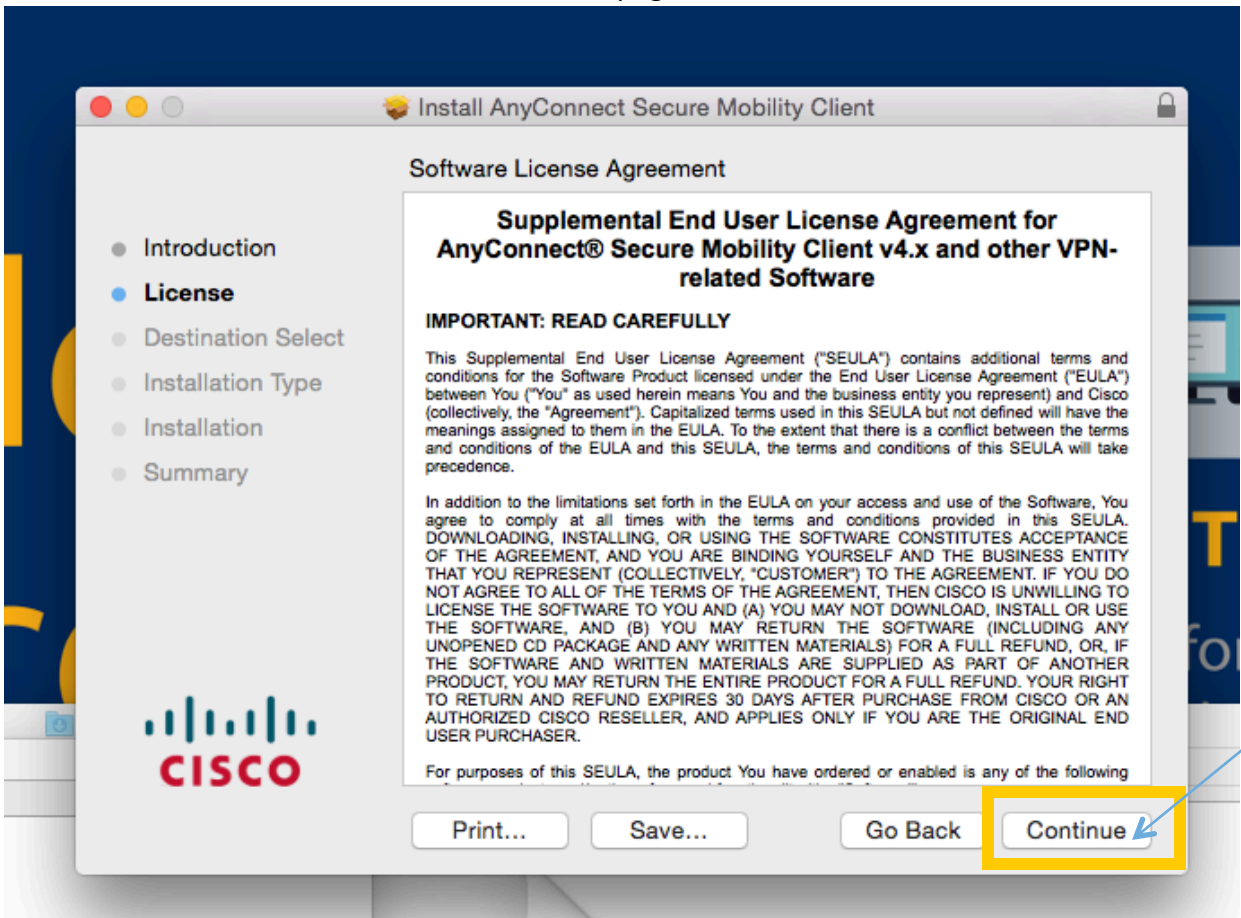

5. Open the Downloads folder and click the anyconnect-macosx.dmg file to get started.

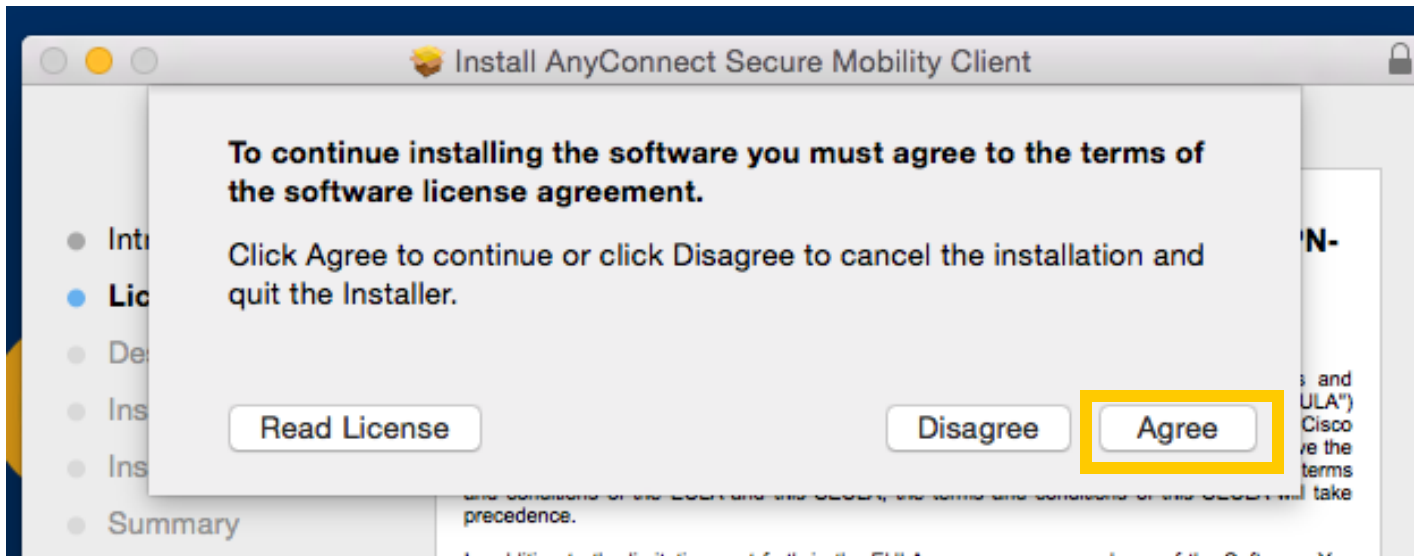

6. Double click the anyconnect-macosx.pkg file to start the installation process.

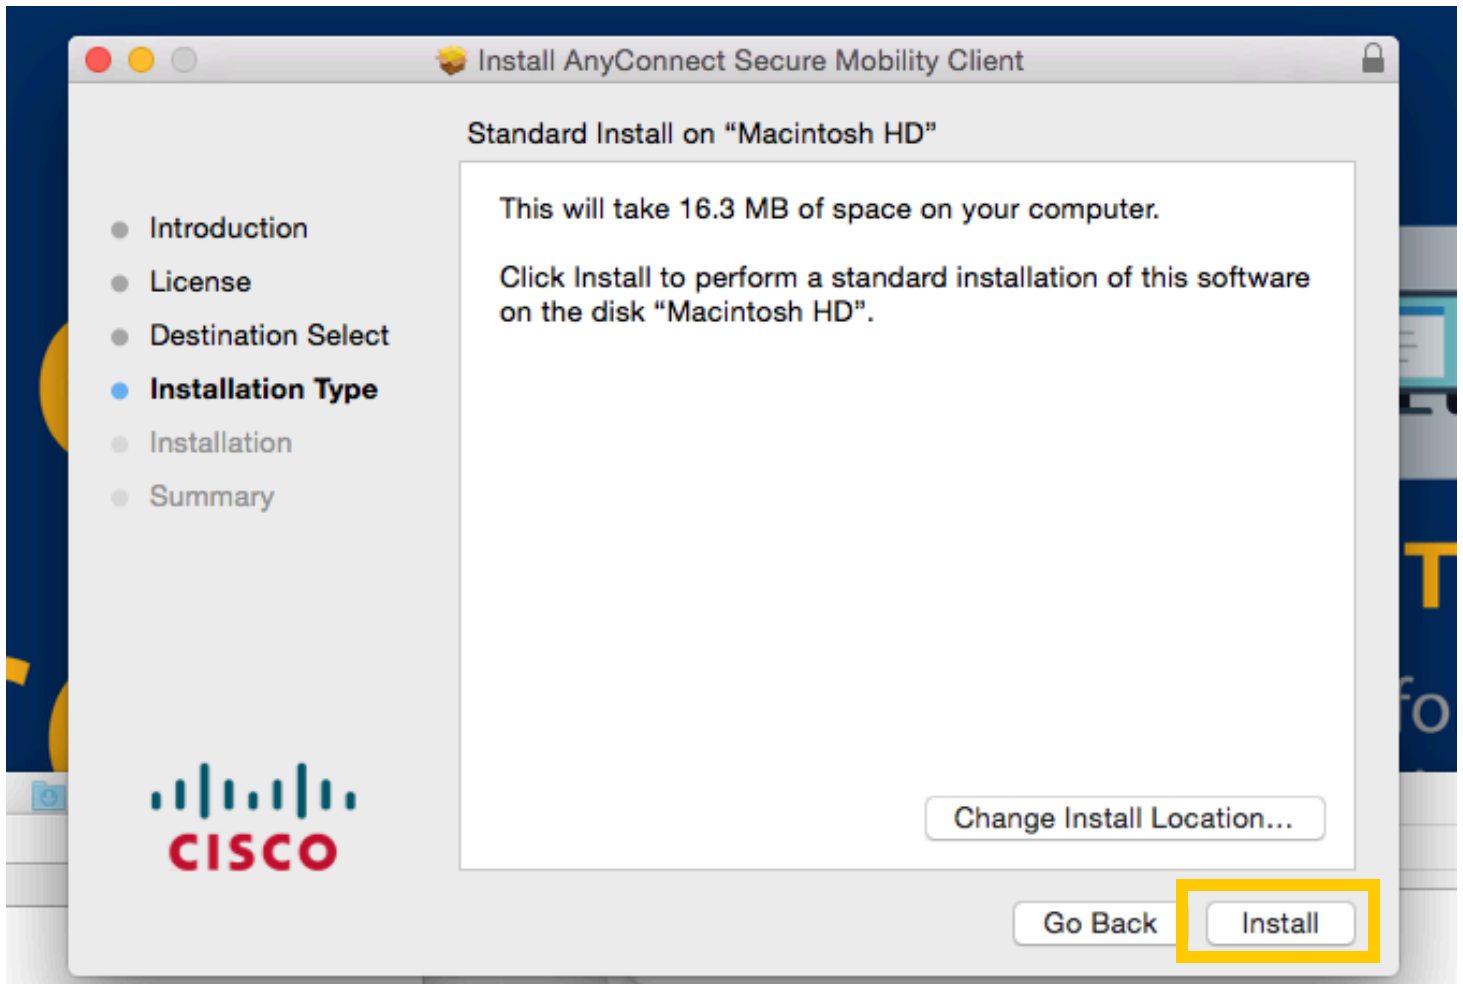

7. Click Continue on the Introduction and License pages.

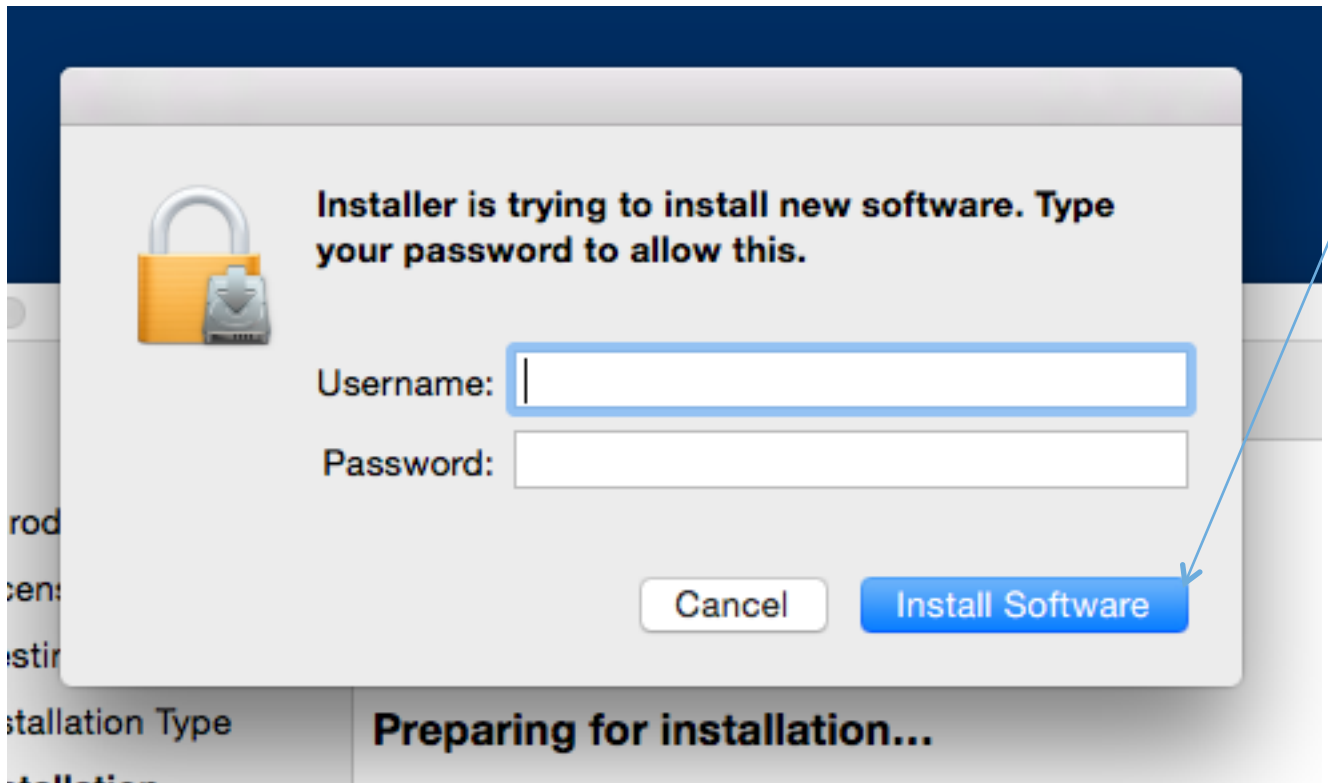

8. Read the End User License Agreement. Select "Agree" to continue the installation.

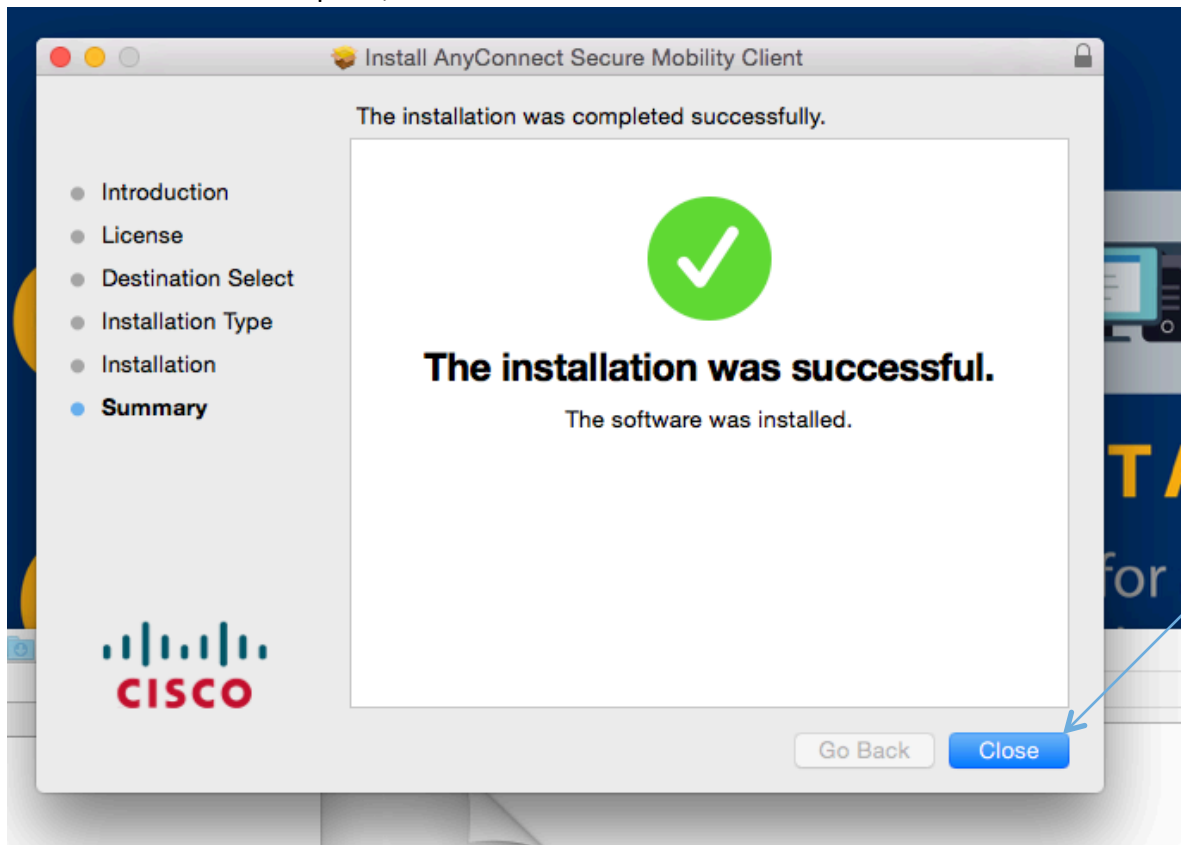

9. Click Install.

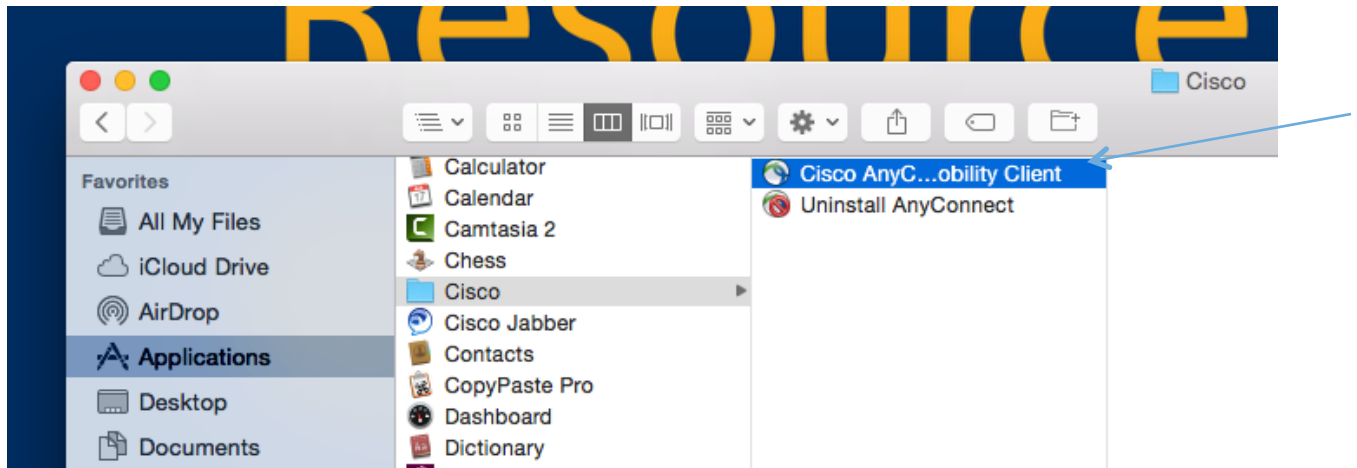

10. If prompted, enter your computer username and password and then Install Software.

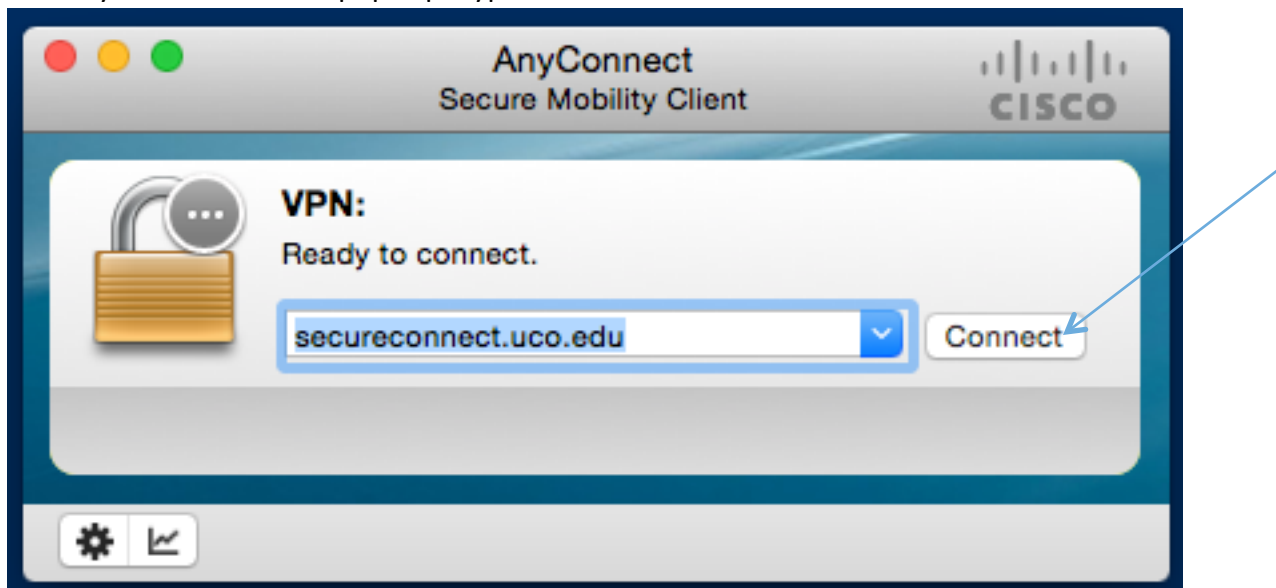

11. Once installation is complete, click Close.

12. To use the Cisco AnyConnect application, open the application folder, select Cisco > Cisco AnyConnect Secure Mobility Client.

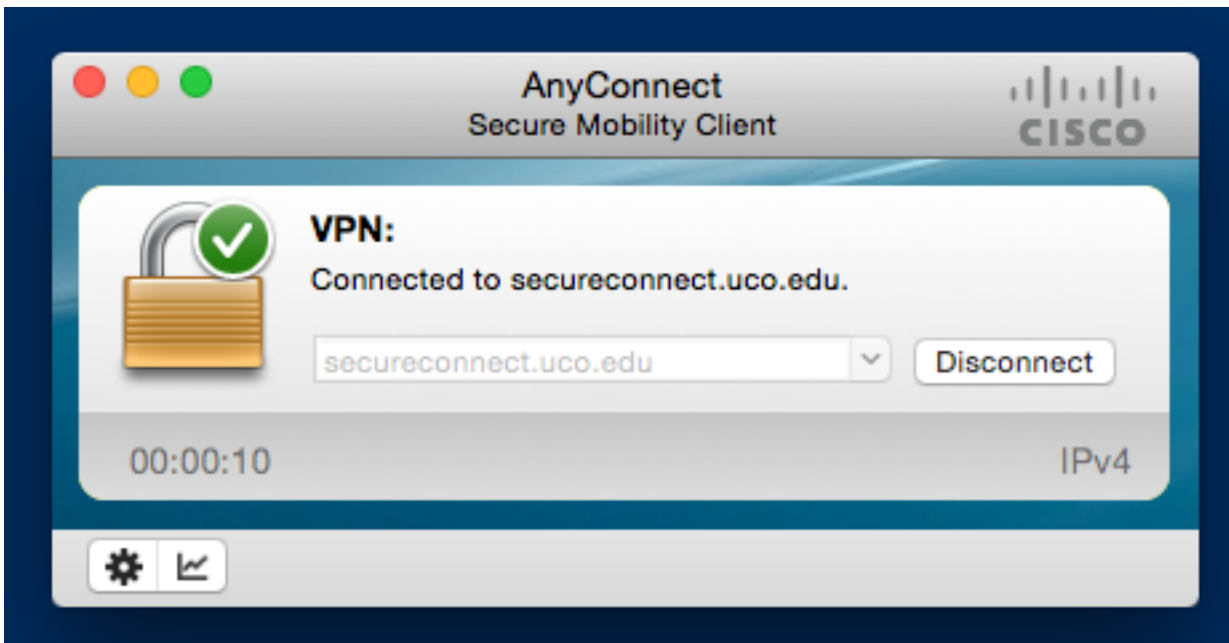

13. The AnyConnect window pops up. Type secureconnect.uco.edu into the box and click on Connect.

14. Type in your UCO username and password and click OK.

You're now connected to the UCO campus network and have access to all the resources you normally have while on campus!

15. Be sure that when you're done, you disconnect from the VPN service. Click on the Cisco logo in the menu bar at the top of the screen and select Disconnect.
