**UCO and the funeral service department may accept transfer courses from other institutions to complete your credit hours. If you are or have taken courses at other institutions please contact your advisor as to whether they will count towards your degree at UCO.**

See the chart for Funeral Service distance courses available at UCO.

This chart represents the online course availability for Funeral Service Major courses. There are other Core and Elective courses available in addition to these courses to satisfy the Core and Elective course requirements necessary for the Bachelor’s Degree.

There are several options for Distance Education Courses at UCO and in the Funeral Service Department. Much of the program may be completed online and through interactive video but some courses do require campus attendance. The Interactive Video Education technology enables a student to attend class in real time from their personal computer allowing for interaction with the instructor and other students. This requires the student be available at the time the class is being held on campus. Online or WWW course offerings have more scheduling flexibility as far as attendance requirements. These courses can be semester long, self-paced and/or short courses starting later in the term. There is further scheduling flexibility with evening course offerings.

All of these opportunities combined offer flexibility and increase opportunities for distance learning for those students needing to limit travel to campus.
