Equal Opportunity Statement
In compliance with Title VI and Title VII of the Civil Rights Act of 1964, Executive Order 11246 as amended, Title IX of The Education Amendments of 1972, Sections 503 and 504 of The Rehabilitation Act of 1973, the Americans With Disabilities Act of 1990, the Family and Medical Leave Act of 1993, the Civil Rights Act of 1991, and other Federal Laws and Regulations, the University of Central Oklahoma does not discriminate on the basis of race, color, national origin, sex, age, religion, handicap, disability, or status as a veteran in any of its policies, practices or procedures; this includes but is not limited to admissions, employment, financial aid, and educational services.
Welcome from the President

Let me welcome you to one of the most exciting and life-affirming times in your life as you engage in this great adventure of learning and participation in campus life. There are tremendous challenges that come with our fast-paced, high-tech world, and UCO is ready to help you meet them. We are dedicated to providing you with first-rate academic programs, talented and committed faculty, and rich cultural and social experiences which will help you achieve your professional and personal goals.

It is my wish that you experience graduate education to the fullest as a person of intellectual passions and discipline, a person who honors diversity, a person who connects with community. With guidance and help from UCO your aspirations for the future will transform into reality. The choices you make will determine the richness of your own life and will shape the world of the 21st century.

Congratulations on your recognition of the critical role which graduate education plays in your life journey. See you on campus!

W. Roger Webb
President
University of Central Oklahoma
Welcome from the Provost

Welcome to the University of Central Oklahoma.

We would be delighted to have you join the UCO learning community. We know that you are making serious choices about your future, and all of us at UCO are eager to assist you in meeting your educational objectives. UCO’s distinguished faculty and committed staff work tirelessly to enhance the quality of life and the quality of education that you experience here.

Our focus is helping you learn. Here at UCO, and now on the campus of Rose State College, you have the opportunity to explore your interests and to develop and refine your lifelong learning skills and habits, including critical thinking, writing, speaking, listening and the effectiveness of your technological communication skills. At UCO we recognize that learning occurs in many venues both within and outside of the classroom. We provide opportunities for transformative learning that will help you develop leadership and civic engagement skills, proficiency at undergraduate research, and global and cultural competency. These qualities prepare you to become a productive, creative, ethical and engaged citizen.

UCO is a community of caring teachers and learners striving each day to be more effective in serving the needs and aspirations of the educational faculty, staff, and most importantly, our students. We sincerely hope that you will become a member of our dynamic educational institution as we purposefully shape its role in the coming century. At UCO, learning and service are our passions. We want them to be yours as well.

Empowered and inspired by President Webb’s creative leadership and his call for community, character and civility, the hundreds of dedicated faculty and staff, who are the life force of this university, openly and sincerely invite you to bring your dreams and aspirations for the future to UCO. We are eager to match your commitment, diligence and persistence to achieve your goals with our expertise, vision, and a clear sense of service. We are here for you.

Mission Statement
The mission of the Dr. Joe C. Jackson College of Graduate Studies is to insure challenging learning opportunities at the graduate level and to promote scholarly research and creative activity at all academic levels. The JCGS is committed to transforming the lives of learners, scholars, and artists while connecting them to the global community.

Beliefs and Values
UCO’s fundamental responsibility is the advancement of student learning, which involves instilling and fostering in students the joy of learning, an ability to think critically, and a desire to achieve their creative potential.

Our other major responsibilities include the promotion of creative and scholarly activities, research, and service to students, to other individuals, and to the larger community.

A UCO master’s degree signifies that its recipient possesses the disciplinary knowledge, analytical skills and mature judgment of an advanced professional and a well-educated person. Completion of this degree brings the satisfaction of indepth mastery of a chosen field and confidence needed for the discovery and application of that new knowledge.

UCO requires and encourages a free flow of information, ideas and opinions in a community which fosters social justice and values diversity and which demands the highest standards of ethical conduct, mutual respect and civility.

UCO as an institution, and all its constituents, are committed to continuous processes of self-examination and self-improvement to encourage innovation, receptiveness and adaptation to change.

UCO maintains open and mutually beneficial relationships with its surrounding communities and views itself and its graduates as part of an increasingly interdependent global society.

Statement of Administrative Policy
The president and staff of the University of Central Oklahoma reaffirm the policy as set forth in the previous statements of Compliance with Title VI and Title VII of The Civil Rights Act of 1964, Executive Order 11246 as amended, Title IX of The Education Amendments of 1972, Sections 503 and 504 of The Rehabilitation Act of 1973, the Americans With Disabilities Act of 1990, the Family & Medical Leave Act of 1993, the Civil Rights Act of 1991, and other Federal Laws and Regulations, that no discrimination on the grounds of race, color, religion, sex, age, national origin, handicap, disability, or status as a veteran will exist in any area of the university.

The policy statement further reaffirms commitment of continuing and expanding positive programs which will assure the strengthening of this policy not only to the legal requirements of compliance but also to further employment opportunities and promotions for all ages, minorities, veterans, handicapped individuals, and women. The president of the University of Central Oklahoma assures that this commitment will embrace the development and maintenance of our Affirmative Action Compliance Program which will involve necessary additional efforts with respect to the recruitment, selection, placement, termination, training, and promotions of all employees and with respect to personnel action such as compensation, benefits, transfers, layoffs, return from layoffs, education, tuition assistance, recreation programs, and other appropriate programs.

No institutional policies are in effect at the University of Central Oklahoma that knowingly deviate, in wording or intent, from the above stated administrative policy. The University’s Legal Counsel/Affirmative Action Officer is responsible for compliance. For further information, contact the department at (405) 974-3377, or visit the office in the Lillard Administration Building, Room 114D.

Accreditation
The University of Central Oklahoma is accredited by the Higher Learning Commission, formerly the North Central Association of Colleges and Schools. UCO’s teacher-education programs are accredited by the National Council for the Accreditation of Teacher Education for the preparation of elementary and secondary teachers and school service personnel as a bachelor’s and master’s degree granting institution.

BBA and MBA degree programs are accredited by the Association of Collegiate Business Schools and Programs (ACBSP).

Specialized accreditation has been granted by the National League for Nursing and the American Chemical Society.

The Speech-Language Pathology program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

The School of Music is accredited by the National Association of Schools of Music.

The M.A. in Psychology is accredited by the North American Association of Masters in Psychology (NAMP). UCO holds membership in the Council of Applied Master’s Programs in Psychology (CAMPP).

In addition, the University is affiliated with the American Association of Colleges for Teacher Education, the Association of Teacher Education Institutions, the American Association of University Women, the American Council on Education, the North Central Conference on Summer Schools and the Oklahoma State Board of Education.

Credits received in courses taken in residence at the University of Central Oklahoma are normally transferable to other accredited colleges or universities.

Location
The University of Central Oklahoma is located in Edmond, one of the state’s most desirable places to live with its thriving historic downtown, excellent school system and fantastic cultural offerings. The community enjoys year-round music, art, theater, and sporting events. Known worldwide for its outstanding golf courses, Edmond hosts some of the most exciting PGA and celebrity events. Edmond tennis courts have a history of hosting USTA tournaments. Also available are competitive soccer and rugby fields, including one indoor soccer facility, and competitive ice skating, rugby, and roller skating facilities. The Lazy E Arena, the country’s largest indoor arena, provides a full calendar of rodeo events. Just minutes east of the campus is Lake Arcadia, offering hiking trails, fishing and water skiing. Fifteen minutes south is downtown Oklahoma City with Bricktown and other attractions. Just as close is Oklahoma’s state Capitol, the Oklahoma City Zoo, the Omniplex and a surrounding complex of museums. Then there’s Edmond’s July 4 LibertyFest celebration, selected as one of the top 10 holiday places in America by CNN and USA Today.

History of the University
The University of Central Oklahoma is the oldest institution of higher learning in Oklahoma, dating back to December 24, 1890, when it was established as the Territorial Normal School.

The first class, a group of 23 students, met Nov. 9, 1891, in the Epworth League Room, located in the unfurnished First Methodist Church.

Work started in the summer of 1892 on Old North Tower, the first building on campus. Occupancy began Jan. 3, 1893.

At first, the school offered two years of college work and a complete preparatory school. In 1897, the first graduating class — two men and three women — received their Normal School diplomas.

In 1904, Territorial Normal became Central State Normal School. Statehood was still three years away.

On December 29, 1919, the State Board of Education transformed Central into a four-year teachers’ college conferring bachelor’s degrees and renamed it Central State Teachers’ College. Two years later, the Class of 1921 had nine members, the first graduates to receive the four-year degrees.

In 1939, the state legislature again changed the name of the institution to Central State College and authorized it to grant degrees without teaching certificates.

In 1954, the Oklahoma State Regents for Higher Education gave Central permission to offer the Master of Teaching Degree, which became the Master of Education in 1969. In 1971, the college added the Master of Arts in English and the Master of Business Administration degrees. Other undergraduate and graduate degrees followed.

On April 13, 1971, the state legislature officially changed the institution’s name to Central State University. On May 18, 1990, during the institution’s Centennial Year, the name became the University of Central Oklahoma.

Today, UCO has grown from 23 frontier students seeking teaching certificates in a local church to a metropolitan, four-year university with an enrollment of about 16,000 studying on a 200-acre campus.

Campus and Buildings
The Lillard Administration Building, occupied in the spring of 1963, contains the main administrative offices of the University including those of the President, Provost/Vice President for Academic Affairs, the Executive Vice President for Administration, the Vice Presidents for Information Technology, Student Services, and Leadership.

The Art and Design Building was originally constructed in 1952 as the Student Union. Following completion of the Nigh University Center in 1967, the building was completely renovated to include classrooms, studios, and the Central Museum of Art.

Hamilton Field House, first occupied in the spring semester of 1965, has a basketball court with a seating capacity of 4,000. The athletic complex contains a classroom building, a swimming pool, exercise rooms, and locker rooms for varsity athletes. The name was changed from Broncho Field House in 1993.

The Business Building, opened in 1962, houses the offices and classrooms of the College of Business Administration. A second building was added in 1983 and the two were connected in 1996.

The Central Cafeteria which was recently redesigned as Buddy’s, can serve a capacity of 1,200 students. Students housed in resident halls were served meals there for the first time in 1965-66.

The Max Chambers Library opened its doors to students in January 1969. This four-story building is one of the most modern libraries in the Southwest. It includes convenient computer stations, seminar rooms, conference and study rooms, a document room, and offices. A major addition was completed in 1997.

Following the completion of the new library in 1968, the former Max Chambers Library (constructed in 1956) was renovated to become the Communications Building. It supplies offices, classrooms, and labs for the departments of Mass Communication, KCSC Radio, KUCO Radio, the Vista, and the KCSU-TV television studios.

The Education Building, with its post-modern architecture, was completed and occupied in 1996. It houses the College of Education and Professional Studies, the college’s dean, classrooms, computer labs, and multimedia facilities.

Evans Hall was completed and occupied in 1916 and housed the University library until 1957. It underwent a major renovation in 1989 and now provides offices for the UCO Foundation, and the dean of the College of Arts, Media, and Design.

The Health and Physical Education Building, adjacent to Wantland Hall, was completed in the fall of 1958. It contains offices, classrooms, and a dance studio for the Kinesiology and Health Studies Department. The top floor houses the Broncho Corral, now used as a class and meeting room.

The Coyner Health Sciences Building opened in the spring of 1984. It houses the offices and classrooms of the departments of Nursing and Funeral Service. The building was dedicated in honor of the Dr. Coyner family on October 13, 1989.

The Human Environmental Science Building was dedicated in the spring of 1969. It contains the offices and classrooms of the Human Environmental Sciences Department, a modern food laboratory, a living room for receptions, and a laboratory school for pre-school children.

Howell Hall, first occupied in 1948, has been extensively modernized by a 1997 addition to the building that has more than doubled the floor space. Housed in the hall are offices, labs and classrooms for the Chemistry, Engineering and Physics, and Biology Departments. A three story laboratory wing was added in 1997.

The UCO Jazz Lab, constructed with cooperative funding from Edmond Economic Development Authority, adds to the sense of community for both our campus population and citizens of Edmond by providing quality entertainment. The Jazz Lab is located at 5th and Littler. It includes several offices, a recording studio, a performance club, and a restaurant.

The Liberal Arts Building was completed during the summer of 1969 and houses most of the departments of the College of Liberal Arts. Complete with faculty offices and classrooms, it has two language laboratories and the Pegasus Theatre.

Mitchell Hall Theatre was dedicated June 29, 1926. It has recently been remodeled and seating expanded for performing arts productions.

The Music Building was first occupied in the fall of 1952. It houses vocal and instrumental music, together with a number of private practice studios and a recital hall. The building was enlarged in 1968.

Old North, the first campus building, is built of native sandstone quarried near Edmond, and it is the center of the University of Central Oklahoma traditions. The University clock is located in its tower with faces in all four directions. Old North is listed in the National Historical Register.

The President’s House official residence, including a guest house, has over 7,000 square feet, is located on Boulevard within a mile of the campus. The house was donated by an Edmond businessman and is symbolic of the sense of partnership between UCO and the Edmond community.

Thatcher Hall, a former residence hall named after the first president, Richard Thatcher, celebrated its “re-grand opening” in the fall of 1995. The building now houses a variety of offices, classrooms, the Edmond Language Institute, the Assessment Office, Academic Support Center, the Testing Center, Correspondence Studies, Planning and Analysis Office, the ROTC program, the University’s “12-Live” classroom, and a mini-museum.

The Nigh University Center was dedicated in the fall of 2001 to honor former President George Nigh. Originally built in 1967, an addition in 1997 doubled the floor space. It is a center for campus and community activities and includes such student facilities as the University Bookstore, convenience store, beauty shop, post office, food court, restaurant, and recreation area.

The building provides a centralized location for student admissions, registration, advisement, financial aid, international, and graduate services. Also included in the building are a large ballroom, meeting rooms, and offices for Campus Life, Student Senate, Counseling Services, Career Services, and the Dr. Joe C. Jackson College for Graduate Studies.

Wantland Field and Stadium is home for the Bronchos football team. First used in 1965, Wantland Stadium underwent a $16 million renovation in 2005, which increased seating capacity to 10,000.

Wantland Hall, officially dedicated February 7, 1928, serves the Kinesiology and Health Studies Department and includes a gymnasium, basketball court, locker rooms, and offices.

The Wellness Center exists to provide students, faculty, staff, and community members with a premier facility that promotes health and wellness. The Wellness Center strives to link positive healthy lifestyles and intellectual growth, so that participants can reach their full potential.

A multi-purpose recreational facility totaling 57,140 square feet, the Center includes two indoor basketball/volleyball courts; one outdoor basketball court; group fitness rooms; walking/running track; 65 pieces of cardiovascular equipment; strength training area including free weights and selectorized equipment; classrooms, and a vending area.

The Y Chapel of Song construction began in 1941 and was completed in 1949 through the services and gifts of hundreds of students, faculty, alumni, friends, and through the efforts of the Y.M.C.A. and Y.W.C.A. The chapel was placed on the National Register of Historic Places in 2001 because of the significance of its design in art. It is used today for initiation ceremonies, weddings, meetings and meditation.

Admission to Graduate Studies at UCO

How to obtain an Application for Graduate Admission

By Mail or in Person:
Jackson College of Graduate Studies
University of Central Oklahoma
100 N. University Drive, NUC 404, Box 117
Edmond, OK 73034

The JCGS Website:
http://uco.edu/graduate/forms_downloads/Admit_form.pdf to download the application form in PDF format. (You must have Adobe Acrobat installed in your computer in order to view and print the pdf file format). To download Acrobat for free go to: www.adobe.com.

The UCO Website:
You may also apply online through the UCO website at: http://www.uco.edu/registrar/admit/Admissions.htm. Follow the instructions listed.

Email:
gradcoll@uco.edu

Phone:
(405) 974-3341

Applicants should also contact specific academic departments in order to verify additional admission requirements for admission.

Who Must Submit an Application?
1. Those who are new to UCO;
2. Those UCO students who are moving from undergraduate status to graduate status;
3. Those who have not been enrolled at UCO for over one year;
4. Those who were suspended and are now applying to return to UCO, regardless of length of time away;
5. Returning but non-continuously enrolled students;
6. Non-Degree-Seeking Students
7. International Students

Application Materials:
Applicants must submit the following to the Jackson College of Graduate Studies, Room 404, Nigh University Center.
1. UCO application packet for Graduate Admission;
2. Two (2) letters of Recommendation (if required by the program);
3. Official copies of undergraduate and graduate transcripts from each institution attended with all degrees posted. The degrees must be from accredited institutions.
4. $50.00 non-refundable application fee;
5. Any other documents required by the program.

Admission Examinations

A. Graduate Management Admission Test (GMAT)
The GMAT is required for all students seeking an MBA degree at UCO. Test scores must be submitted before the student will be admitted to the program. The computer version of the GMAT is offered every day except Sunday, holidays and the first two days of the month at the Pearson Professional Center of Oklahoma, 5100 N. Brookline Ave., Ste. 282, Oklahoma City, OK 73112. Phone 405-917-7325 for appointment. For regularly updated information about the availability of test centers, call 405-917-7325 or 1-800-247-8731. UCO School code for testing purposes is 6091.
Test bulletins for the GMAT are available in the University Testing Service, Room 302, Thatcher Hall. See the website at: http://www.mba.com for GMAT information, sample questions and testing sites.

B. Graduate Record Exam (GRE)
The GRE is required for students seeking several graduate degrees at UCO (see list below). Examination scores must be sent to the Jackson College of Graduate Studies. Examination schedules and expenses are the responsibility of the student. No scores more than five years old will be accepted. The computer version of the GRE is offered every day except Sundays and holidays at the Prometric Learning Center, 2224 NW 50th, Suite 196, Oklahoma City, OK. For regularly updated information about the availability of test centers, call Prometric at 405-843-8378 or 1-800-4732255. UCO school code for testing purposes is 6091. Test bulletins are available in the University Testing Service office, Room 302, Thatcher Hall.

The degrees requiring the Graduate Record Exam and the means by which they use the results are as follows:

1) Biology (M.S.) Minimum combined score of 1000 on the verbal and quantitative.
2) Criminal Justice (M.A.) An index calculated by a combination of GRE and GPA as listed on the program page.
3) Family and Child Studies (M.S.), LMFT major, minimum combined score of 900 on the verbal and quantitative test.
4) Forensic Science (M.S.) Minimum combined score of 900 on verbal and quantitative tests.
5) History, General & Museum Studies (M.A.) Obtain a score of 500 on the verbal portion and 4.0 on the written assessment.
Graduate Admission Information

Types of Admission

6. Psychology (M.A.) Minimum combined score of 900 on the verbal and quantitative tests or 3.5 or higher on the written assessment.

7. Engineering & Physics (M.S.) GRE Test scores are required for admission determination. A total of 1150 (combined GRE verbal and quantitative scores) is recommended. Scores must be submitted before acceptance to the program.

8. Nutrition Food Management, Dietetic Internship - (M.S.) Minimum combined score of 900 on the verbal and quantitative tests or 4.0 or greater on the written assessment.

Types of Admission

Regular Admission:

- All programs accept resident and non-resident students who meet the graduate program requirements and submit the required documentation.
- A completed post baccalaureate degree from an accredited institution with at least a 3.00 GPA.

Conditional Admission:

Selected Graduate Programs allow conditional admission. Conditional admission relates to undergraduate grade point average (GPA) only. The rules for conditional admission are as follows:

1. Students must have an overall undergraduate GPA of at least 2.50 or at least 2.25 with five years having passed since the date of the first bachelor's degree.
2. Students must meet all other admission requirements, as defined by the Graduate College and the Program.

Provisional Admission

Otherwise-qualified students who have not completed program prerequisites will be provisionally admitted. They must complete all of these prerequisites within their first year of full-time enrollment. With the approval of the graduate program advisor, students admitted provisionally may simultaneously enroll in graduate courses.

Non-Degree Seeking Students

Non-Degree students are those who wish to take graduate-level courses, and are not seeking admission to a graduate program at the University of Central Oklahoma.

Non-degree students may enroll for a maximum of twelve graduate hours per semester. Taking a course as a non-degree student does not constitute admission to a program or guarantee later applicability of these courses toward a program. Only nine hours taken as a non-degree candidate may be applied toward a master's degree. These rules apply unless UCO has a Memorandum of Understanding and/or a Transfer Agreement with the sending institution or its agents providing for an exception to this rule.

If non-degree students subsequently seek admission to a graduate degree program, courses taken in “non-degree” status will be evaluated by the graduate program advisor to determine their applicability to the degree.

Graduate students will be allowed to change their status from non-degree to degree seeking or vice versa at the beginning of each semester. Exception: Programs which admit students only once a year. In those cases, student status changes are limited to the programs’ admission periods. Those seeking to become degree-seeking would still have to meet all regulations, including graduate program advisor approval.
Non-degree seeking graduate students may apply for admissions and enroll online, in-writing, or in-person, subject to their meeting university and program GPA standards.

Non-degree seeking students wishing to take restricted courses must gain written permission from the instructor or the department before they can enroll in the course.

All students wishing to take classes under the new MBA program must be degree-seeking. Non-degree seeking students may enroll in courses offered under the old MBA curriculum but only with written permission.

All students wishing to take classes under the new MFA-Creative Writing program must be degree-seeking. Non-degree seeking students may enroll in courses offered under the ongoing MA in English (Creative Writing major) without permission.

International students on F-1 visas are not eligible to enroll as part-time and/or non-degree students. International students on J-1 visas enroll as full-time students, and they may be either degree-seeking or non-degree seeking.

International Graduate Students

A. Deadlines

Due to the amount of time needed to process an international admission application, the Graduate College has in place the following deadlines:

<table>
<thead>
<tr>
<th>Semester</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall semester</td>
<td>July 1</td>
</tr>
<tr>
<td>Spring semester</td>
<td>November 1</td>
</tr>
<tr>
<td>Summer semester</td>
<td>April 1</td>
</tr>
</tbody>
</table>

Deadlines for applications to specific graduate programs vary. If the graduate program application deadline precedes the international application deadline, the program deadline will apply. If the international graduate student application deadline precedes the program deadline, the international graduate student application deadline will apply.

B. Enrollment and the F1 Visa

While studying at the University of Central Oklahoma, international graduate students on F1 Visas must maintain full time enrollment each semester to preserve his/her Department of Immigration and Naturalization Service status. International students must be admitted to a specific graduate program and course of study and are not eligible to enroll as non-degree students.

C. Undergraduate Transcripts and Grades

Admission to graduate study requires the completion of an undergraduate degree, usually of three to four years in length but sometimes longer and comparable to a bachelor’s degree or an advanced degree from an accredited U.S. institution. Certain grade levels are required. These vary by program. Transcripts are proof of those degrees and grades.

Applicants must submit to UCO’s Jackson College of Graduate Studies official transcripts, which are signed and embossed, from all universities, colleges, and professional schools attended. Students unwilling to part with their official copies may gain provisional admission by submitting photocopies of their original transcripts. These copies, however, must clearly show classes completed, degrees granted, signatures of university or college officials, embossed institutional seals, and, in the case of non-English language transcripts, certified English translations. Students provisionally-admitted using such copies must bring the official documents themselves to the JCGS Office for processing before they can enroll. Please note: Students who fail to provide original documents will not be allowed to enroll.

For the purpose of calculating Grade Point Averages (GPAs), UCO converts grades listed on the transcripts of other institutions to UCO’s 4.0 grading scale. Because UCO does not grant grades of “plus” or “minus,” a grade of “B+” from another institution’s, as an example, is recorded at UCO as a grade of “B,” and given the value of 3.0.

D. English Language Proficiency

All students for whom English is a second language must present evidence of proficiency in the English language as required by the Oklahoma State Regents for Higher Education (OSRHE). The following are acceptable ways for potential graduate students to present such evidence of English proficiency:

1. Test of English as a Foreign Language (TOEFL)
   a. score of 550 or higher on the paper exam
   b. score of 213 or higher on the computer exam
   c. score of 79 or higher on the internet exam
   d. score of 6.5 on IELTS

2. Oklahoma State Regents for Higher Education (OSRHE) Approved English Language School
   Students in limited categories may present evidence of completion of a minimum 12-week course of study at an OSRHE-approved English language school. The categories include those who score as follows on the TOEFL exam:
   a. score between 500 - 549 on the paper exam
   b. score between 173 - 212 on the computer exam
   c. score between 61 - 78 on the internet exam
   d. score of 6.0 on International English Language Testing System (IELTS)

3. Earn a bachelor’s degree from an accredited US college or university.

4. Attend an accredited US college or university for a minimum of three full-time semesters of graduate work.

E. Contact Information

International student inquiries and requests for application packets should be made to the International Student Services Office, Nigh University Center, Rm. 137, Box 163, UCO, 100 N. University Dr., Edmond, OK 73034, 405-974-2390. E-mail: international@uco.edu

Graduate Academic Information
Rules & Regulations

Changes in Degree Requirements

Graduate degree requirements in effect at the time of a graduate student’s first enrollment will remain in effect for six years. In no case shall the University of Central Oklahoma be obligated to make such required courses or activities available for more than six years.

Individual plans of study, once approved, will remain in force regardless of succeeding changes in degree programs. Students who have not enrolled for one year or longer will be required to meet the standards in force at the time of readmission.

Types of Graduate Courses

Traditional Courses

A traditional course is a 16-week class conducted in a classroom setting where the instructor meets face-to-face with the students. The course may have lectures, discussions, activities, or demonstrations with or without web requirement.

Intersession Courses

An intersession course is one offered in the time period between the end of one term and the start of another. Students may take a maximum of 5 credit hours per intersession.

Electronic and Hybrid Courses

Internet and other electronic courses are offered beyond the classroom setting. Hybrid courses require both electronic and in-class activities. UCO accepts these classes for credit, whether the students take them from UCO or transfer them to UCO (subject to the same restrictions on other transfer courses). Students taking UCO electronic or hybrid courses earn residential credit.

Correspondence Courses

Correspondence courses are offered via paper mail and email. With the approval of their program directors a student may obtain a maximum of six credit hours through traditional correspondence courses. This limitation does not apply to courses taken via the internet or other electronic transmission mechanisms.

Types of Graduate Credit

Graduate Credit from Graduate Courses

A student admitted unconditionally to the Jackson College of Graduate Studies at the University of Central Oklahoma may enroll in any courses offered for graduate credit for which he/she has completed the prerequisites.

Graduate level courses will not count toward graduate degree requirements if the student enrolled in the course for undergraduate credit.

Graduate Credit from Mixed Undergraduate/Graduate Courses

UCO seniors are eligible for mixed undergraduate and graduate enrollment in their final semester before undergraduate graduation, providing they meet the established criteria:

1. Their undergraduate advisors have certified that they are enrolled in their final semester for bachelor’s degrees.
2. Their total enrollment (undergraduate and graduate) may not exceed 16 hours.
3. Their overall undergraduate grade point average (GPA), must be 3.00 or higher.
4. They take no more than eight (8) graduate hours before the undergraduate degree has been posted to the transcript.

Students wishing to apply for mixed enrollment must complete an application and the Mixed Enrollment Form, both available in the Jackson College of Graduate Studies.

Transfer Credit

A maximum of 9 (nine) semester hours of transfer graduate credit from an appropriately accredited, degree-granting institution may be applied toward a graduate degree program at the University of Central Oklahoma, unless UCO has a Memorandum of Understanding and/or a Transfer Agreement with the sending institution or its agents providing for an exception to this rule. These 9 hours may be applied only if they contribute to the program and are on a plan of study. Courses must be approved by the Graduate Advisor, the College Dean, and the Dean of the Jackson College of Graduate Studies.

Some programs require that transfer students present letters to the program advisor, prior to enrollment, indicating that the students are in good academic standing with their former institutions.

If the courses are used to satisfy degree requirements at other universities, they cannot count toward degrees at UCO, unless UCO has a Memorandum of Understanding and/or a Transfer Agreement with the sending institution or its agents providing for an exception to this rule. All graduate courses taken at other accredited institutions, regardless of applicability to current program, must be transferred to the University of Central Oklahoma and included on the student’s academic record. Only those courses approved by Graduate Program Advisors for credit toward UCO degrees will count toward GPA calculations.

Internships

Internships may not exceed a maximum of 8 credit hours.

In-Service Training

In-service courses will be counted toward a degree only when offered through a fully-accredited institution of higher education and listed on a certified transcript from that institution.

Workshop Credit

No more than six hours may be earned by the participation in workshops except that for the years 2007-2009, no more than three hours may be earned by participation in the Okla-
Graduate Academic Information

Graduate credit may be earned through individual study or directed reading. A student is limited to 12 hours of individual study/directed reading with no more than 6 hours in any one discipline.

Individual Study

Graduate credit may be earned through individual study or directed reading. A student is limited to 12 hours of individual study/directed reading with no more than 6 hours in any one discipline.

Graduate Enrollment

Enrollment Periods

Enrollment at the University of Central Oklahoma begins in April for the Summer and Fall Semester, and in November for the Spring Semester. Graduate students in good standing, academic and otherwise, may enroll on the first floor of the Nigh University Center or on the UCO website at http://www.uco.edu.

Students should refer to the Class Schedule to determine dates and times of enrollment, payment and late fee dates, thesis deadline dates, application for graduation dates, and other enrollment information.

Enrollment Status (Full Time, Part Time)

The Jackson College of Graduate Studies uses the following schedule when determining full-time, and part-time graduate student status. Rules may vary for teaching assistants. Please consult your graduate program director.

Advisement

The Graduate Advisors for graduate degree programs advise students on enrollments. After admission, students meet with their graduate advisors to develop their individual Plan of Study. It is important that students work closely with their advisors to ensure that all program requirements are met.

Graduate Advisors are not always on campus during semester breaks. Students should make appointments to ensure their availability.

Course-Load Limits

Without advance written approval, graduate students may enroll in no more than 12 graduate hours during the fall or spring semester (16 weeks) and 9 hours during the (8 week) summer. With such approval from the Graduate Dean, students may enroll in 15 graduate credits during spring or fall semesters or 12 graduate hours during the summer term.

Overload permission forms are available in the Jackson College of Graduate Studies. All on-campus courses, workshops, intersessions, institutes, and course work taken electronically at other institutions are included in this total. Up to five hours of intersession credit are allowed immediately following each semester. Graduate enrollments above maximums will not be applied toward a master’s degree at the University of Central Oklahoma.

Students may enroll in up to or including eighteen (18) hours of mixed-enrollment (graduate and undergraduate) credits in a regular semester including no more than 12 hours in graduate credit courses. The maximum number of mixed-enrollment in the summer is 12 hours with 8 of those hours in graduate courses.

Graduate students on academic probation may only enroll for a maximum of 9 (nine) graduate hours in the fall and spring and 6 (six) graduate hours in the summer.

Enrollment in New Graduate Programs

In the case of enrollment in new programs, students may complete no more than one-half of the total required hours before the program is approved by the Oklahoma State Regents for Higher Education.

Changing Programs

Students who wish to change from one graduate program to another must meet all admission requirements for the new degree programs, meet with their Graduate Advisor to complete the Graduate Program Change Request form (available in the Jackson College of Graduate Studies office) and submit the request along with a formal Plan of Study for their new program, to the Jackson College of Graduate Studies. Students must meet all admission requirements for their new programs, including those involving the undergraduate GPAs.

Adds, Drops and Withdrawals

Adds

Students may add classes anytime before the end of the first week of classes.

Drops

Pre-Semester Drops: Students may drop a class before the first day of the semester either at the Enrollment Management Office or online. No records of courses dropped before the start of the semester will appear on transcripts. There are no financial penalties for such drops.
**Early Semester Drops**: As long as they do not withdraw from all classes, students may drop classes before the end of the third week of a semester by completing the appropriate forms either at the Enrollment Management Office or online. All early drops will show on transcripts with the word “withdrew” and the date. There are no financial penalties for such drops.

**Late Semester Drops with Permission**: As long as the student does not withdraw from all classes, students may under unusual circumstances, as defined by the university, drop classes after the end of the third week of classes and before the final exam dates for the classes. Examples of unusual circumstances include emergencies, hospitalization, military deployments and moving to out-of-state jobs. Poor academic performance or lack of deadline compliance does not merit approval. Requests to drop in this manner require documentation, instructor confirmation of relevant information, and permission of the Director of Admissions and Records. All such requests must be initiated within one year of the end of the semester. All approved drops show on transcripts as either “withdraw” if the student is passing the course or “F” if not passing. No student may drop a course on the day of its final exam or later.

Students who abandon their studies without formally dropping their courses will receive grades of “F.”

**Note**: A late drop can have a significant negative impact on financial aid.

**Withdrawals from All Courses**

**Pre-Semester Withdrawals**: Students may withdraw from all of their classes before the first day of the semester at the Enrollment Management Office. No records of courses withdrawn before the start of the semester will appear on transcripts. There are no financial penalties for such withdrawals.

**Early Semester Withdrawals**: Students may withdraw from all classes before the end of the third week of classes by completing the appropriate forms at the Enrollment Management Office. All early withdrawals will show on transcripts with the word “withdrew” and the date. There are no financial penalties for such withdrawals. Withdrawals are not official until processed by Enrollment Services.

**Late Withdrawals with Permission**: Under unusual circumstances, as defined by the university, students may withdraw from all classes after the end of the third week of classes and before the final exam dates for the classes. Examples of unusual circumstances include emergencies, hospitalization, and moving to out-of-state jobs. Poor academic performance or lack of deadline compliance does not merit approval. Requests to withdraw in this manner require documentation, instructor confirmation of good standing, and permission of the Director of Admissions and Records. All such requests must be initiated within one year of the end of the semester. All approved withdrawals show on transcripts as either “Withdraw” if the student is passing the course or “F’s” if not passing. No student may withdraw on or after the first day of final exams. Withdrawals are not official until processed by Enrollment Services. Students who abandon their studies without formally withdrawing will receive grades of “F.”

**Note**: A late withdrawal can have a significant negative impact on financial aid.

**Administrative Withdrawals from Courses for Non-Attendance**: The university may withdraw students for failure to attend between the end of the third week and the end of the eleventh week of class. The university charges students who withdraw in this manner an amount equal to 25 percent of the courses’ original costs for tuition and fees. Withdrawals are not official until processed by Enrollment Services.

### Grading System

The following system of grading is used at the University of Central Oklahoma.

**Grades Used in Calculating Grade Point Average**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Note</th>
<th>Points/Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>EXCELLENT</td>
<td>4</td>
</tr>
<tr>

</thead>
<tbody>
<tr>
<td>S</td>
<td>SATISFACTORY</td>
</tr>
<tr>
<td>U</td>
<td>UNSATISFACTORY</td>
</tr>
<tr>
<td>P</td>
<td>PASS</td>
</tr>
</tbody>
</table>

*Failure - given when students fail to meet minimum standards for passing. Also given when students discontinue class attendance and do not formally drop or withdraw. An “F” grade is also assigned by the instructor when a student is failing the course but is allowed to drop or withdraw after the established deadlines.

**Symbols Used to Indicate Course Status**

<table>
<thead>
<tr>

</tr>
<tr>
<td>AUD</td>
<td>AUDIT</td>
<td>X</td>
<td>THESIS IN PROGRESS</td>
</tr>
</tbody>
</table>

**P** Passing - given for workshops, student teaching, physical education activity courses, and extramural credits.

**S** Satisfactory - given for 0-level (non-collegiate/developmental) courses.

**U** Unsatisfactory - given for 0-level (non-collegiate/developmental) and physical education activity courses and indicates the student’s level of understanding is not sufficient to take the next level of course work.

**I** Incomplete - given at the instructor’s discretion to indicate that additional work is necessary to complete a course. It is not a substitute for an “F” grade and no student may be failing a course at the time an “I” grade is awarded. To receive an “I” grade, the student should have satisfactorily completed a substantial portion of the required course work for the semester. Students have one year to
resolve incomplete grades. In extenuating circumstances, exceptions may be requested. “I” grades not changed by the instructor to a letter grade, within one year, will remain as a permanent “I” and not contribute to the student’s GPA. “F” grades cannot be changed to “I” grades.

W Withdrawal - given when a student initiates a withdrawal by the established procedures and deadlines.

N Not Reported - given when an instructor fails to submit grades by the established deadline.

*AUDIT—given when students formally audit classes.

*AUD-U—given when a student enrolled for audit but did not meet the instructor’s attendance and/or participation requirements for auditors.

*All audited courses require permission from the class instructor. Students receive no credit for audit of classes. Fees are the same for audit as for credit. Students may not drop courses for audit and pick them up for credit after the end of enrollment for that term. The only admission material needed for audit is a completed admission form. Audited hours are not included in any calculation for verification of enrollment for financial aid, student loans, veterans’ benefits, or athletic eligibility.

X Thesis in Progress

Grade Appeals

In cases where graduate students wish to appeal a final grade, they must follow the Academic Appeal Policy located online under the UCO Academic Affairs website at: http://www.busnuco.edu/academicaffairs. Click on “Academic Appeals.”

Prerequisites or Corequisites

A prerequisite is a course, skill, or knowledge required to be completed PRIOR to taking another course. Prerequisites are established for courses requiring a specific background knowledge or skill level for successful completion. Most courses have more than one prerequisite.

Corequisites are complementary courses which require concurrent enrollment and which together comprise a body of knowledge or skills for the student.

Prerequisites and corequisites are established for the BENEFIT OF STUDENTS. Insufficient background knowledge is an obstacle to success and often results in frustration, lower grades, and withdrawal. More study time and effort is generally needed if the prerequisite(s) have not been met.

MEETING PREREQUISITES AND COREQUISITES IS THE RESPONSIBILITY OF STUDENTS. (Exceptions must be cleared by the appropriate department or instructor.) Prerequisites and corequisites are listed in the catalog and on the web class listings. Some prerequisites may be taken concurrently, and are listed as such in the course descriptions.

Students who pre-enroll in a course which requires a prerequisite or corequisite in which the student is currently enrolled may be dropped from that course by the university if they subsequently fail or drop the prerequisite/corequisite course.

Repeating Courses

If a graduate course is repeated to enhance the grade, both grades will be used in calculating the graduate grade point average. No course may be counted toward more than one degree.

Academic Probation and Suspension

Graduate students must maintain an overall graduate grade point average of 3.00 or higher to remain in “good academic standing” with the University and the Jackson College of Graduate Studies.

A. Academic Probation

1. A student, regardless of admission status, may be placed on academic probation if:
   a. The student has completed nine graduate hours; and
   b. The student’s cumulative graduate grade point average (GPA) falls below 3.00.

2. While a student is on academic probation, the student may not enroll in more than nine (9) graduate credit hours in regular semesters and six (6) graduate credit hours in the Summer semester.

B. Academic Suspension

1. A student will be placed on academic suspension if:
   a. the student fails to achieve a minimum graduate GPA of 3.00 in any semester while on probation or
   b. the student’s cumulative graduate GPA falls below 2.00 in any semester.

2. A suspended student may not take graduate courses for at least 16 weeks while awaiting adjudication from the Graduate Council.

3. Readmission After Suspension

   a. Students who wish to be considered for readmission must submit a written appeal and a recommendation for readmission from their program graduate advisor to the Dean of the Jackson College of Graduate Studies within 30 days of issuance of the notification of their academic status. This is the only opportunity for the students to provide information relating to the substance of their appeals, thus, students must include all information which they want to have considered. The Admissions and Retention Committee of the Graduate Council will review their appeals and recommend readmission or dismissal to the Graduate Council.

   b. If the Graduate Council votes to deny readmission, the Graduate Dean will then notify the students of the Council’s decision and of their suspension.

   c. Within 30 days of issuance of the notification, students may appeal these decisions in writing to the Graduate Dean but only on a claim that a university official had failed to follow proper procedures or laws. The Dean will not reevaluate
Graduate Academic Information

the facts of the students’ cases, but if he or she finds that procedural errors may have occurred, the dean will resubmit the students’ appeals to the Admissions and Retention Committee which will recommend readmission or dismissal to the Graduate Council. The Council’s decisions would then be final.

d. If the Graduate Council approves readmission, the student must fill out a new application to graduate school, pay the $50.00 non-refundable application fee at the Bursar’s office, first floor, Nigh University Center, and will continue on academic probation. The student must maintain a graduate GPA of 3.00 each semester.

e. Failure to achieve a graduate GPA of 3.00 or above during any semester after readmission will result in immediate dismissal from graduate studies at UCO with no reprieve for further graduate work.

Exceptions and Waivers

Exceptions or waivers to any graduate studies requirement must be formally requested in writing and approved by the Graduate Advisor, the Chair of the Department, Dean of the College, and the Graduate Dean.

Student Responsibilities

Accuracy of the student’s enrollment, class changes, and withdrawals are the student's responsibility.

Other Information

Diplomas

Students who complete degree requirements will receive diplomas by mail approximately six weeks following the last day of the semester in which they graduated.

I.D. Cards

All entering students must have an identification (I.D.) card issued the first semester of enrollment and used while the student is enrolled in classes at UCO. Students must show the I.D. card when conducting business on campus. The card also entitles the bearer to discounts at area movie theaters and other community businesses. Students are charged the $10.00 I.D. fee at first enrollment, to be paid at the Bursar’s counter. ID Cards may be obtained in the Nigh University Center, Room 128.

Parking

Student cars parked on campus must display parking permits. Current license plate numbers are required to purchase parking permits. Students may purchase permits annually from the Transportation and Parking Services Office, located in the Nigh University Center, Room 309.

Transcripts (Official) Free of Charge

Transcripts reflecting degrees earned will be available approximately three weeks after the last day of the semester in which the student graduated.

Exceptions & Waivers - Residence Status

Official transcripts can be obtained in Room 124, 1st floor in the Nigh University Center.

Written requests should be submitted to the:

University of Central Oklahoma
Academic Records
100 N University Drive, Box 151
Edmond, OK  73034-5209
Fax: (405) 341-4964.

The written or faxed request must include
1)Full name or any other name used when attending here
2)Student ID# or Social Security number
3)Date of Birth
4)Dates attended at UCO
5)Address
6)Copy of photo ID with birthday.

Kiosks are available outside room 128 in Nigh University Center for students to print their own official transcripts.

Honors and Awards

Graduation with Honors

The University of Central Oklahoma grants degrees "with honors" to students who complete the master’s degree with grade-point averages of 4.00 for all graduate work attempted.

President’s Honor Roll

Graduate students who earn all “A’s” in a semester in which they complete nine hours of residence graduate work (five in the summer), are listed on the President’s Honor Roll.

The E.C. Hall Graduate Scholar Award

The E.C. Hall Award, named in honor of the first Graduate Dean, goes each year to the graduate student with the highest academic record. In the case of a tie, the award goes to the student who completed the most total graduate credit hours and after that, to the student who completed the most UCO graduate credit hours. If two or more students are still tied, each receives the award.

Residence Status

A uniform policy concerning resident status exists for all state-supported institutions of higher education in Oklahoma. An information sheet and a petition to determine residency are available in the Jackson College of Graduate Studies, NUC 404, and the Office of Admissions and Records, first floor, Nigh University Center.
Graduation Requirements

Graduate Degrees
The University of Central Oklahoma offers the following graduate degrees:
- Master of Arts
- Master of Fine Arts
- Master of Business Administration
- Master of Music
- Master of Education
- Master of Science

Total Hours to Degree
All master's degrees at the University of Central Oklahoma require a minimum of 32 graduate hours, but many graduate programs require more than 32 hours. Refer to the section of the Graduate Catalog which describes the degree requirements for each graduate program. If in the opinion of the advisor, the student is deficient in certain areas, additional course work may be mandated.

A course taken for fewer hours than indicated in the degree requirements may satisfy the specific program requirement but not the total hours requirement.

Time to Degrees
UCO awards full credit for graduate hours completed within six years of completion of students' first graduate courses. Courses seven to ten years old are awarded one-half credit. Credit hours more than 10 years old at the time of graduation will not be applied toward the master's degree.

Graduation Procedures
Application for Graduation
Degrees are conferred at the end of the Fall, Spring and Summer Semesters. Commencement exercises are held at the close of the Fall and Spring Semesters. In order to graduate, students must:
1. Pay the $35.00 graduation fee at the Bursar’s Counter, Nigh University Center, Room 134.
2. Present the receipt from the Bursar when you apply for graduation in the JCGS, NUC, Room 404. The deadlines for application are listed below.
3. To apply online, go to: http://www.ucd.edu/graduate/mgr-adapp.asp and follow the instructions. The $35.00 fee will be charged to your UCO account.

Application for Graduation Deadlines
September 15............. Fall Semester
February 15............... Spring and Summer Semesters
A $25.00 late fee will be applied for applications submitted after the deadline.

Once these steps are complete, a final degree check will ascertain if all degree requirements have been met. The degree check will take one to four weeks. JCGS will notify students of the results by mail. Please contact the Graduate Program Specialist, 974-2527, if you have questions.

Students may change only Spring and Summer graduation semesters without additional fees.

Commencement Information
Approximately two weeks before graduation, applicants will receive information about caps and gowns, times, dates, and location of commencement ceremonies.

Second Master’s Degree
To obtain a second Master’s degree, a student must complete a minimum of 32 additional graduate hours and meet all requirements for the second degree. The second degree cannot be in the same specific area as the first degree. A course cannot be used to complete requirements for more than one degree. This applies even if the second degree is at another university.

An official transcript from a U.S.-accredited institution with a master’s degree posted is required for admission.

Grade Point Average
JCGS requires a cumulative grade-point average of 3.00 or “B”, or better in all graduate work. No grade below “C” is acceptable for graduate credit, and no more than six semester hours of “C” shall be applied toward the degree. Grades of “S” and “X” are neutral grades and do not affect the grade point average, but grades of “C”, “D” and “F” are included in the calculation of GPAs.

Requirements for Certain Degrees
Comprehensive Exams
Comprehensive exams, required for certain master’s degrees, must be scheduled no later than three weeks before the beginning of the final examination week for the Fall and Spring Semesters and no later than 10 days prior to the beginning of the final examination week for the Summer Semester.

Continuous Enrollment
Master’s Thesis, Creative Writing Project, Applied Mathematics Project
All programs involving a thesis or special project require continuous enrollment from the beginning of the first semester of enrollment in a 5990 (thesis) or a 5980 (project) course until the requirements for the degree are completed. Students failing to complete theses in time for instructors to meet deadlines for submitting grades must enroll in at least one additional hour of thesis credit for the following semester. This will delay graduation by one semester.

Thesis
Some graduate programs require a master’s thesis. Students completing a thesis should follow the instructions of their thesis committees concerning the development and preparation of their projects. Additionally, thesis students must comply with the JCGS and the Chambers Library requirements.
**Thesis Committee**

Students should consult their graduate program advisor early in their master’s programs for requirements or thesis committees and for thesis preparation.

Once a student’s thesis committee has been formed, the student must submit a signed copy of the Graduate Thesis Committee Form to the JCGS. Students can obtain the forms from their program department.

**Thesis Hours**

The maximum number of thesis hours which may be applied toward any graduate program is six (6).

Once enrolled in thesis hours, a student must remain continuously enrolled in thesis hours until full completion of all thesis requirements have been met.

**Thesis Grading**

Thesis hours completed during the development and preparation of a thesis but prior to its final completion will be assigned an “X” grade and will contribute to the “Hours Attempted” and “Hours Earned” sections of the student’s transcript. The “X” grade will not, however, contribute to the Graduate GPA.

Once the thesis is completed, the thesis committee chair will assign a Passing or Failing grade (“P” or “F”). While a grade of “P” will not contribute to the graduate GPA, an “F” grade will contribute to the overall graduate GPA.

**Timing of Thesis**

Any student who has completed all course work must complete his/her thesis within the following two full academic semesters. The terminal MFA degree is the one standard exception to this thesis timing rule. Any other exception request to extend beyond two years must be made in writing to the Graduate Dean.

**Public Thesis Defense**

All graduate students who submit theses must publicly defend their theses with a representative from the Graduate Council present.

**Thesis Summary Document**

Students are required to prepare a thesis summary document for faculty use in theses defenses. The intent is to cause thesis students to verbalize their rationales for key research decisions and thus to assist them in defending those rationales before their committee. The document would include requests for:

1. Statement of the Problem or Issue (one paragraph)
2. Brief Summary of the Literature (one or two paragraphs)
3. Thesis Statement (one or two sentences)
4. Statement of the Research Methodology (one sentence)

**Examples of Qualitative Analysis**, most applicable to studies of small groups, whole populations, or non-repetitive or non-repeatable phenomena. Analytical approaches include but are not limited to: Case study, participant observation, narrative, biography, focus group, textual and contextual, qualitative theory, philosophical and artistic.

**Examples of Quantitative Analysis**, most applicable to studies of population samples and of repetitive or repeatable phenomena. Analytical approaches include but are not limited to: Scientific, survey, quantitative theory, statistical, and predictive.

5. Brief Summary of Findings (one paragraph)
6. Confirmation, Modification, or Denial of Thesis (one sentence)
7. Statement of the Significance of the Findings (one or two paragraphs)
8. Suggestions for Future Research (one or two sentences; optional)

**Thesis Format Requirements**

The JCGS requires a title page, an original signature page and an abstract page for each thesis defended and submitted. Students must turn these documents into the JCGS after the defense. These documents must be on file to graduate. Candidates completing theses for their master’s degree must submit the original title page, signature page and abstract page to the JCGS **no later than the last day of classes** in the same term they plan to graduate.

**Submission Requirements for Theses**

Following successful public defense of the thesis, students must submit the thesis in both paper and electronic formats. For additional information, contact Syretha Leverett, Graduate Program Specialist, sleverett2@uco.edu.

1. **Paper Submission Process**

   - Students completing a thesis for the master’s degree program must submit two (2) copies of their thesis for binding to the Archives & Special Collections in the Max Chambers Library located on the 2nd floor, room 215.

   - The primary responsibility for content, form and style of the thesis rests with the student and the student’s thesis committee members. The student is responsible for the complete and accurate collation of the thesis before submitting it to the library for binding.

   - Both copies of the thesis must be presented with an original signature page signed by all members of the thesis committee, on white 25%-100% cotton or rag paper and not bound or punched.

   - The Archives accepts theses Monday through Friday from 8:30am until 4:30pm.

   - After the thesis returns from the bindery, one copy will be placed in the Archives Theses Collection for reference only, and the second copy will be forwarded to the academic department which supervised the work. A full text, electronic version of your thesis will be made available through the UCO Chambers Library online catalog.

   - There is a charge of $7.45 per copy for binding the two theses to be retained by the University. If the student wants additional copies bound, a $7.45 fee is required for each copy. A money order made out to Heckmans.
Bindery in the exact amount for each additional copy requested must accompany the copies when submitted for binding. No personal checks or cash will be accepted.

- For an additional fee, the library will return personal copies by mail. The fee for mailing is $3.00 per copy and must be paid, by check or cash, to Archives and Special Collections when the copies are submitted for binding.
- It takes approximately two months for the binding process to be completed. Students may pick-up their additional copies in the Archives & Special Collections Monday through Friday from 8:30am to 4:30pm.

*All students pay mandatory tuition and fees based on their total hours. In addition, colleges within the university charge per credit hour fees for their courses. These fees are:

- Arts, Media & Design: $30.00
- Business Administration: $25.30
- Education & Professional Studies: $8.00
- Liberal Arts: $10.00
- Mathematics & Science: $18.40
- Average Cost/Credit Hour: $15.26

Some fees for specific services also apply to students who use those services. For a complete list of all fees, go either to the Jackson College of Graduate Studies or to: http://www.uco.edu/registrar/sched/SPRING/front1.pdf, and scroll down to p. 12, “Enrollment Expenses.”

‡Housing varies from basic residence hall accommodations to student apartments. Students may choose not to live in university housing. See: http://www.uco.edu/residence_life/rates.htm.

§The university meal plan charge listed here is for 14 set meals and variable meals costing up to $105 per week over the course of the term. Students have many choices and may also choose not to buy meal plans. See: http://www.uco.edu/residence_life/gallery/documents/2007-2008%20Meal%20Rates.pdf.

¶Costs for books vary considerably.

�Transportation and personal costs vary considerably.

To estimate their own costs, students should obtain from the table their tuition and mandatory fees and add college course fees (see footnote), the listed estimates for housing, food, and books, and their own best estimates for transportation and personal costs.

For example, a full-time, Oklahoma resident taking Liberal Arts courses (9 hours in Fall; 9 hours in Spring; and, 6 hours in Summer) and living and eating inexpensively in university housing and cafeterias would pay the following:

**Total for Fall $4508.10**
- Mandatory Tuition & Fees ..........$1620.00
- College of Liberal Arts Fees ......$98.10
- Housing ......................................$1370.00
- Food ..........................................$1420.00

**Total for Spring $4508.10**

**Total for Fall & Spring $9016.20**

**Total for Fall, Spring, Summer $12,021.60**

*Plus transportation and personal costs.

Changes in enrollment or living arrangements can affect costs and may require repayment of previously allocated financial aid and other awards. It is the student’s responsibility to notify the Bursar’s Office of any such changes.

The following are the estimated costs for one academic-year of nine months for International Graduate Students in F-1 status.

- Tuition & Fees*............................*$7685.00
- Insurance ...........................................$450.00
- Books & Supplies .........................$900.00
- Housing & Meals**...........................**$4750.00
- Personal Expenses ..........................$1880.00

**Total ..................................................$15,655.00

Costs are subject to change. The above total costs are an average estimate only.

*Costs are calculated based on the minimum requirement for Fall and Spring semesters, i.e., eighteen credit hours.

**The cost of housing & meals is calculated based on dormitory living and meal plan provided by the cafeteria on-campus.

Financial Aid

UCO awards over $52 million in federal, state, and private aid to more than 9,600 students annually. The University participates in the following Federal and State Programs for graduate students, Federal Family Education Loan Program (FFEL) and the Federal Work-Study Program (FWS).

On the web site, students will find a number of required financial aid forms that may be downloaded. They can also view financial aid updates and announcements which carry the latest information and important deadlines.

Enrollment Changes and Financial Aid
During the semester students sometimes drop courses. If federal funds have already been issued to the student or credited to the students account, students may be liable for repayment of these funds. Federal aid recipients who completely withdraw after school begins, but prior to completing at least 60% of the semester will have to repay some portion of the federal funds received.

Graduate Tuition Waiver Program
The JCGS supports and encourages superior academic performance by Oklahoma graduate students through the Graduate Tuition Waiver Program.

This Fall and Spring semester program awards up to three graduate-credit hour tuition waivers to qualified students. Those students must be Oklahoma residents who have been formally admitted to graduate study in a degree program, who have a 3.50 GPA, and who have enrolled in at least 9 graduate credit hours.

Deadlines for submitting applications for the Fall and Spring semester programs will be posted on the JCGS website at: http://www.uco.edu/graduate/.

we extend this definition to include significant faculty mentoring in research, creative, and scholarly activities (RCSA) that have the potential for peer-reviewed dissemination in the form of presentations, publications, creative projects, exhibitions, or performances.

Engaging students in RCSA is one of the academic goals of UCO. RCSA opportunities contribute to the production of well-rounded, better-educated students who will have a greater probability of becoming productive, creative, ethical, and engaged citizens in a post-graduate environment. While UCO encourages and supports RCSA at all levels across the UCO campus, it is especially encouraging and supportive when students are involved. Students of all disciplines can engage in the benefits and excitement of student-focused RCSA.

Some of the initiatives available to graduate students in research, creative and scholarly activities are the Student RCSA Presentation Grant Program, which supports up to $500 of air travel expenses for the presentation of student research, creative and scholarly activities. In addition, students can submit proposals to the Student RCSA Research Grant program.

Students who are selected for the Student RCSA Research Grant program will receive an award of up to $500 per year to support research, creative, or scholarly activities. Awards may be used to support travel to a library, museum, or field site to collect data, to purchase laboratory or project expendables, equipment, or support travel to a local, regional, or national professional conference to present the findings of the funded project.

Students are eligible to receive funding, under the following conditions:

- Have a Graduate standing in any field and be enrolled in 6 credit hours at UCO for the duration of the award, with the exception of those graduate students who are enrolled in their final semester before graduation (they must enroll in at least 3 credit hours);
- Have a minimum of 3.0 GPA;
- If two students wish to collaborate on the same project, they would be required to split the award (payable at a maximum of $250/student);
- Each student must have a faculty mentor who is a full-time, tenure-track, or tenured faculty member at UCO; and
- Each student is eligible for only a single award during a given academic year, but is eligible to reapply for an award each academic year as long as they meet all other conditions.

For more information on these programs and other research opportunities available to graduate students, contact the Office of Research and Grants at 974-2526. The office is located in the Administration Building, Room 216. You may also access the OR&G website at: http://www.uco.edu/facres/.

Teaching and Research Assistantships

Assistantships at UCO are intended to be awarded only to the best students. The requirements to be granted assistantship status are intentionally rigorous and, as a result, the awarding of an assistantship is not always automatic.

For information on Teaching Assistantships, contact the graduate advisor or deans’ office over your program. Nearly all teaching assistantships are in the college of Liberal Arts. For information on Research Assistantships, contact the Office of Research and Grants, ADM 216, 974-2526 or visit their website at: http://www.uco.edu/facres/

Student Support Services

The following services are available to UCO graduate students.

Academic Support Services

Edmond English Language Institute

As UCO continues to expand globally, the Edmond Language Institute, a privately-owned school located on campus, is reaching out to international students by providing English as a Second Language programs on nine levels of instruction in addition to special private courses. International students participate in twelve-week classes designed to give them English skills necessary to succeed and to exhibit requirements for admission into U.S. colleges and universities. For more information contact Jackie Buher, (405) 341-2125.

Library Services

The library has been designed to improve access for students with disabilities. There are ramps up to the walkway leading to the library, wide entrances and exits with an automatic door opener on one door, elevators and 36” aisles between the ranges in open stack areas. The library has a collection of large print books and cassettes. A color, text magnification system provides enlargement of up to 60 power for maps, textbooks, and other reading materials.

Staff members are available to assist students find materials and provide help in locating, retrieving, and photocopying materials. A student with a disability should contact any library staff member and request assistance when needed.

Chambers Library’s web page is: http://library.uco.edu
Library Hours: Mon-Fri (7:30-11:00pm)
Sat-Sun (Noon-11:00pm)
Computer Lab Hours: Mon-Fri (7:00-2:00 am)
Sat (10:00-11:00pm)
Sun (10:00-11:00pm)

Library information can be found at the web site for hours, services, and access to many electronic full-text journals, e-books, and reference materials. The Periodical Title List provides information on journals (with dates) available electronically, paper or microfilm.

The Library Catalogs provide information on print, media and microfilm collections in the Library, Oklahoma, and nationally. The My Account feature allows patrons to renew library materials, review any fines and fees owed, or set research preferences. UCO students, faculty and staff can access these resources from home using their UCONNECT username and password. Librarians answer questions remotely via the web page as well as by telephone at 974-2878 or in person at the Reference Desk on the first floor. Chambers Library is very user friendly. Service desks are available on all four floors. Please ask if help is needed.

InterLibrary Loan services (items borrowed from another library) can also be viewed using the MyAccount feature (click on renew ILL) to see what has been requested and the status of the request. If assistance is needed in setting up an ILL account, please call the Reference Desk at 974-2878. Once an ILL account is set up, there will be no need to key in personal data for future requests.

The UCO Archives/Special Collections houses the permanent historical records of the University and the many Special Collections acquired by the University through donation and purchase. The materials in these rare and unique collections include manuscripts, photographs, scrapbooks, memorabilia, works of art, books, and periodicals related to the history, literature, and culture of Oklahoma and the Southwest. Special Collections materials must be used in the Library.

Student Testing Services

The University of Central Oklahoma’s Testing Center is a national test center for Educational Testing Services (ETS), The College Board, and the American College Testing Program (ACT). Testing Services administers national college entrance exams such as the ACT, SAT, GRE Subject Exam, and the PPST; visit those web sites for schedule and registration information. Testing Services also offers residual ACT and institutional TOEFL exams to prospective UCO students on a weekly basis (results of residual and institutional exams cannot be transferred to other institutions). Moreover, Testing Services offers two types of “challenge” examinations designed to evaluate learning for the purpose of awarding college credit: 1) Nationally Standardized tests CLEP, Dantes, Advanced Placement (AP); and 2) Departmental tests based specifically on UCO curriculum which may be objective, essay, and/or performance based. For more information, visit Thatcher 301; call (405) 974-2388; or visit http://www.uco.edu/testing_services.

Technology Assistance

For All Your Technology Needs Call Technology Support: 974-CALL (2255); or online: http://technology.uco.edu

The Office of Information Technology is responsible for all technology-related applications and systems which cross two or more departmental or functional areas. It offers students, faculty, and staff a wide range of technology services in support of their educational experience. OIT comprises Technology Resource Center, Support and Operations, Technology Applications, Enterprise Service Professionals, and Telecommunications departments.

OIT has negotiated reduced pricing for software and hardware available through our UCO Techstore. For more information visit www.uco.edu/techstore.
General purpose microcomputer labs are located in the Chambers Library Microcomputer Lab Room 107 and the Cyber Café located on the second floor of the Nigh University Center. The microcomputer labs provide students with access to microcomputers utilizing campus standard software, including Internet browsers, UCONNECT, WebCT, Microsoft Office, Adobe and SPSS.

UCO is a completely wireless campus. The standard for the wireless network is IEEE 802.11 a/b/g. For connection settings visit: http://technology.uco.edu/networking

The Technology Resource Center (TRC) provides computing applications training for students, faculty, and staff to learn how to use the campus e-mail system and campus standard software; e.g. Microsoft Office, WebCT, etc. TRC also provides technical support for distance learning and e-learning technologies.

Technology Applications maintains systems for administrative use, academic teaching, research support, and web services.

Support and Operations provides system administrative services for the campus wide mission critical systems. This group is responsible for advanced technology implementation, enterprise data backup and storage, and disaster recovery. Technology Support (Help Desk) is also part of this group’s mission. The Technology Support Desk answers questions regarding personal computer and software usage and logs technology-related requests and problems. Individuals or departments may contact Technology Support for technical consulting, support, and for troubleshooting and repair of computing/networking equipment or services. Support and Operations is responsible for assisting in all technology related operational and support needs on the UCO campus.

Enterprise Service Professionals provides network connectivity for voice data and video applications. Responsibilities also include network security, e-mail systems administration, and advanced troubleshooting.

Telecommunications maintains the phone system and the campus voice and data infrastructure.

The Office of Information Technology maintains all campus-wide technology licenses for university standard software and provides anti-virus software for students’ personal computers for the cost of the media. The Office of Information Technology offers assistance in writing specifications, implementation documents, and support contract review for any UCO organization. This office also provides student e-mail and access to the student’s personal records through a web interface.

Disability and Rehabilitative Support Services

The Office of Disability Support Services (DSS) aims to assist students with qualifying disabilities achieve access to educational opportunities that are on par with those enjoyed by their peers without disabilities. Students with disabilities who require accommodations may contact the Disability Support Services Office where they will be given an opportunity to identify specific academic needs. Additionally, students will be asked to provide documentation regarding their disability and request for accommodation prior to receiving services.

Reasonable accommodations are based on the individual need of the student. Services such as note takers, sign language interpreters, and alternative testing procedures are some examples of the kinds of accommodations that may be granted to qualifying students.

The Disability Support Office can assist the student in removing architectural or attitudinal barriers on campus. A student who believes he/she has been treated inappropriately because of his/her disability is encouraged to report the incident to the Disability Support Services Office.

For further information on services provided, visit the Disability Support Services Office, Room 309, Nigh University Center, call (405) 974-2549 or visit us on the web at: http://www.uco.edu/disability_support/

Sections 503 and 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 require the University to make reasonable accommodations in providing students with disabilities access to equal educational opportunity. Students needing special accommodations should contact the office below for their particular needs.

1. Reasonable Accommodations
2. Building Accessibility
   Buildings on campus are accessible to students with disabilities. Automatic door openers have been installed at numerous entrance doors throughout campus. Elevators and chair lifts are located in several buildings around campus. Additional designated parking, curb cuts and ramps have been installed throughout campus. The swimming pool in the Hamilton Field House is accessible by ramp. Restrooms have been remodeled to permit accessibility, water fountains lowered, and emergency alarm systems updated.

4. Students Identification of Their Needs

Reading Evaluation Services

Students who feel a need for improvement of reading and study efficiency and/or rate improvement may enroll in College Reading and Study Skills. This course is offered each fall, spring, and summer semester. College Reading and Study Skills is an individualized course designed to meet the reading and study skill needs of a diverse student population.

The University Reading Clinic offers diagnostic and remedial services to elementary and middle school pupils on a fee basis. With the supervision of a professor, education students working on their Master of Education in Reading conduct diagnosis and provide instruction to students in the Reading Clinic to fulfill degree requirements. Those interested in obtaining these services should contact the Director of the Reading Clinic, University of Central Oklahoma, Edmond, OK 73034, or call (405) 974-5711.

College Reading and Study Skills

Students who feel a need for improvement of reading and study efficiency may enroll in College Reading and Study Skills. This course is offered each semester and is an indi-
individualized course designed to meet the needs of each student in reading comprehension, study skills, vocabulary, and rate (speed) of reading.

Rehabilitative Driving
Dan Lutz Rehabilitative Driving Program
The Dan Lutz Rehabilitative Driving Program is established as a non-credit program of continuing education. The University of Central Oklahoma, with the support of the Department of Rehabilitative Services (DRS), provides driver education services to DRS clients with severe disabilities. The Dan Lutz Rehabilitative Driving Program has the expertise to design and initiate driver education and driving aptitude evaluation services for any individuals with physical/mental impaired conditions. For more information contact John McGivern at (405) 974-5450 or (405) 834-3877.

Speech and Hearing Evaluation Services
The Speech and Hearing Clinic at the University of Central Oklahoma offers clinical evaluations and treatment for speech, language, and hearing difficulties. Services are available for infants, toddlers, preschoolers, school-age persons, and adults. Services are available to the public on a fee basis. Fees are waived for UCO students, staff, faculty, and members of their immediate family who are in need of evaluation or treatment. Clinical services are provided through students in training under the supervision of licensed staff members. Those interested in receiving individual services are invited to contact the Clinical Coordinator, Speech and Hearing Clinic, University of Central Oklahoma, Edmond, OK 73034, or call 974-5419.

The Speech and Hearing Clinic at the University offers speech, language, and hearing evaluations and treatment services. UCO students and members of their immediate families who are in need of clinical services may receive individual services at the clinic under the supervision of staff members. Students are invited to come to the clinic by appointment and discuss speech, language, and/or hearing problems. For more information contact (405) 974-5403.

Vocational Rehabilitation Services
The Oklahoma Department of Rehabilitation Services works closely with the University and provides vocational rehabilitation services to students with impairments who qualify. Services are varied and individualized, according to each student's need. The main focus is to assist the student in preparing for employment. Additional information may be obtained directly from the Vocational Rehabilitation Office at Shepherd Mall, Oklahoma City or by phone at (800) 845-8476.

Residential Accommodations
The University of Central Oklahoma offers unique living environments designed to meet the needs of UCO's diverse student body.

West Hall, Central Plaza, Suites and Commons each have rooms fully accessible for students with physical disabilities. These facilities have fully accessible bathrooms, including roll-in showers.

Living on campus provides numerous opportunities to become involved in campus life. The Housing program consists of professional, paraprofessional, and student staff who strive to provide safe and secure housing which enhance the educational experiences of UCO students.

Each resident hall has accessible recreation rooms. The Central Cafeteria is located east of West Hall, and the University Suites Food Court is located in the University Suites. Both cafeterias are accessible and provide a comfortable atmosphere for dining. The Central Café is located on the first floor of Central Plaza. All of the dining areas are accessible and provide a comfortable atmosphere for enjoying the variety of options provided for students' meals.

Should students with disabilities require assistance carrying trays, ordering food, or have special dietary needs, they should contact the managers of the cafeterias.

The Housing Office is open 8:00 a.m. - 5:00 p.m. weekdays, (405) 974-2746. The UCO Housing website address is: http://www.uco.edu/residence_life/. To reach them via e-mail use the following address: housing@uco.edu

Student Conduct
The mission of the Student Conduct Office is to enlighten the campus citizenry regarding conduct regulations and responsibilities, and enforce the social guidelines necessary to maintain a comfortable atmosphere of living and learning in the University community. The Student Conduct Office determines responsibility in referred cases and decides how to develop and/or restore character, community and civility to those students who have made mistakes, as well as others who may have been impacted. The Student Conduct Office may develop and restore students and the affected community through a variety of appropriate developmental sanctions and/or programming. The Student Conduct Office communicates expected standards of behavior through the publication of the Code of Student Conduct. The student Conduct Office serves as a channel of communication between instructors and those students unable to attend class because of an emergency, which may include death of a family member, extreme illness/hospitalization, jury duty, military leave, or victimization by a natural disaster. Authentic documentation is required. For more information about the services and publications of the Student Conduct Office, contact the Director of Student Conduct in Lillard Administration 213, (405) 974-2361, or visit www.uco.edu/ssvp/conduct/.

Student Support Offices
Alumni Services
The UCO Alumni Relations Office serves as the voice and link for all graduates and former students to the university. Its goal is to maintain a close relationship with alumni through specialized events and communication pieces. The office also helps alumni (graduates and former students) reconnect with former classmates and faculty. The UCO Alumni Relations Office also works in tandem with the non-profit UCO Alumni Association. Membership is open to any graduate, former
The Program Design includes peer counseling, student skills workshops, and cultural awareness programs. The office serves as a resource for the rest of the campus on issues surrounding minority students. Student staff helps their peers adjust socially and academically to university life, learn basic college survival skills, and assist them in exploring the myriad opportunities the university community has to offer.

Photographic Services

Photographic support is provided by the UCO Photographic Services Department, which takes virtually all of the student photos used by the VISTA, Sports Publicity, and Public Information.
Postal Service
Postal services are available including post office box rental. The Broncho Stamp N Post is located in the Nigh University Center on the first floor. There are three mail deposit centers on campus. One is located in the Nigh University Center, one in the lobby of the University Suites, and one in the lobby of Central Plaza.

Public Safety and Security
The mission of the University of Central Oklahoma’s Department of Public Safety (DPS) is to provide a safe and secure environment for the furtherance of educational activities within the confines of the campus, its buildings, facilities and service areas. To accomplish this mission, DPS delivers a variety of services through its Police Operations Division, Environmental Health and Safety Division, Access Control (Key Control) Division and Transportation & Parking Services Division.

Police patrol services are provided by commissioned, armed and state-certified police officers. DPS police officers are responsible for building security, response to emergencies, investigation of crimes that occur on campus, crime prevention activities and a myriad of other activities that help support the educational mission of UCO. DPS also employs students through the Student Public Safety Officer program to perform general safety and security services. These include building security, Safe-Walk escorts and motorist assistance.

Police officers and students are supported by full-time certified dispatch communications officers who operate DPS’ radio and telephone system as well as the Oklahoma Law Enforcement Teletype System. Using the National Crime Information System, UCO police have immediate computer access to nearly all law enforcement agencies in the United States.

DPS coordinates and publishes an Annual Security Report to better inform members of the university community about safety and security issues on campus. This report is available to all faculty, staff, students and prospective students/employees via the UCO web site at www.uco.edu. Paper copies of the report are also available at the Public Safety building and other locations on campus. The report conforms to and exceeds requirements imposed on all institutions of higher education by the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The report involves the work of many campus departments. The report is published by October 1st each year.

The UCO DPS building is located immediately northwest of Old North, next to University Drive. They operate twenty-four hours a day, seven days a week year round. For non-emergency matters, call (405)974-2345. Emergencies may be reported via 9-1-1 from any campus telephone.

The Environmental Health and Safety Division manages a number of programs and training initiatives including fire alarm system management and fire safety programs, asbestos abatement, mold remediation, occupational safety programming, chemical disposal programs and a number of other programs engineered to ensure that UCO remains a safe environment for everyone. They can be reached at (405)974-2216

Student Counseling Center
The University of Central Oklahoma’s Student Counseling Center is a place where students can learn to deal more effectively with personal concerns or situations, such as coping with friendships, divorce or a break-up, anxiety, depression, academic difficulties, career change, and adjustment to college life. Services are available to currently enrolled students of UCO only. The Student Counseling Center is located in Nigh University Center, Room 402, and is open between the hours of 8 a.m. to 5 p.m., Monday through Friday, excluding university holidays. Call (405) 974-2215 or visit http://www.uco.edu/student_counseling for more information.

Student Health Services
Environmental Health and Safety
Environmental Health & Safety (EHS) compliance at the University of Central Oklahoma is the responsibility of all faculty, staff and students. The EHS Division of the Department of Public Safety is responsible for coordinating health and safety efforts campus-wide. These efforts include life and fire safety code compliance. Students are expected to honor all university environmental and safety requirements and policies. Students should follow the guidance of faculty and staff working in their respective areas to ensure that the academic and residential environments are as safe as possible in terms of EHS issues. Safety questions should be addressed to (405) 974-2216. The EHS division has two full-time safety professionals to assist UCO departments in meeting their safety and environmental needs, including:
Student Support Services

- Environmental & Safety Compliance
- Life Safety Monitoring
- Asbestos Management
- Hazardous Materials Management
- Assistance with Material Safety Data Sheets
- EHS Awareness Training
- Determination of training needs and requirements in EHS matters campus-wide
- Development of EHS systems for UCO Departments
- Emergency Preparedness and Management
- Other assistance as required or requested

Students who have a safety question or concern related to class work should first address it to the faculty member of the specific class. If the faculty member cannot answer the question or concern, the issue should be brought to EHS. Some classes require a safety component within the class framework. If a student feels that the safety aspect of any class is not being properly addressed by the instructor, that student should contact EHS. Unsafe conditions or environmental problems can be reported on the UCO Safety Line, (405) 974-3000, or simply 3000 from any campus telephone.

Health Insurance

Information on hospitalization and accident insurance is available in the brochure rack near the Center for Undergraduate Academic Advisement, Nigh University Center, Room 121. Information is also available through the Student Health Center, Wellness Center 105, (405) 973-2317, or http://www.uco.edu/student_health_center/. International students should contact the International Student Services Office, Nigh University Center 137, (405) 974-2390.

Immunizations

Beginning Fall semester, 2004, Oklahoma state law required that all new students who attend Oklahoma colleges and universities for the first time provide proof of immunization for certain diseases. Contact the Student Health Center for more information, either by phone at (405) 974-2317 or on the web at http://www.uco.edu/student_health_center/.

Student Health Center

The University of Central Oklahoma Student Health Center and Pharmacy serve as a convenient and affordable source of health care for UCO faculty, staff, and enrolled students. Available services include immunizations and TB testing, women’s health care, routine physicals, care of minor injuries and sudden illness, pharmaceuticals, nutritional counseling, allergy injections, health education and counseling, psychiatric services, and laboratory testing.

The UCO Student Health Center is open according to the University calendar, Monday through Friday, 8:00 am to 5:00 pm. To schedule an appointment with the medical doctor or the nurse practitioners, please call (405) 974-2317. The UCO Student Health Center accepts most health insurance plans, as well as other forms of payment.

Patients can also be seen without an appointment. Walk-in patients are accommodated on a first-come, first-served basis.

The Student Health Center is in the Wellness Center, Room 105 on the northwest corner of campus on University Drive. For more information about the Student Health Center, please visit http://www.uco.edu/student_health_center.

Y Chapel of Song

The Y Chapel of Song, initiated by the campus Y.W.C.A. in 1941, was designed, created and constructed by the students, faculty, staff and friends of then Central State College. It was completed in 1949, and has fourteen stained glass windows that illustrate songs commemorating scripture and its relationship to daily life. The Y Chapel was placed on the National Register of Historic Places in 2001 because of its unique stained glass windows and level of student involvement. The Y Chapel of Song is located north of Wantland Hall and west of the Music Building.

The Y Chapel is open daily for students, faculty and staff to use for meditation and prayer. It is also available for student activities and ceremonies, as well as weddings. The Y Chapel seats 125; an organ and piano are available. For more information regarding reservations and fees, contact the Office of the Vice President for Student Affairs, 213 Lillard Administration 213, (405) 974-2361, or visit www.uco.edu/ychapel.
Design, M.F.A.

The MFA in Design is a terminal degree that provides opportunities for students who are interested in Design education, research and proficiency.

Designers are innovative problem solvers who process information and user needs to improve communication and environments. The Department of Design at UCO offers coursework in Graphic Design and Interior Design.

Admission Requirements
Submit the following items to the Jackson College of Graduate Studies, Nigh University Center, Room 404, University of Central Oklahoma, 100 N. University Drive, Edmond, OK 73034.

1. Paper or online application for admission (www.uco.edu/graduate/admissions.html). Application deadlines: April 1 for fall; October 1 for spring, and March 1 for summer.

2. Official copies of undergraduate and graduate transcripts from each institution attended with all degrees posted. All transcripts must be from accredited institutions. Undergraduate transcripts must show a minimum 2.50 GPA overall or 2.50 GPA in the last 60 hours attempted.

3. Evidence of English language proficiency, if not a native speaker. See Graduate Admissions Information - English Language Proficiency.

4. An essay that includes the following:
   a. Why you wish to pursue a Master of Fine Arts degree in Design at UCO.
   b. Your professional career plan and objectives.

5. Three (3) letters of recommendation. At least one letter must be written by a design professional. Letters from UCO faculty are not acceptable.

6. A design portfolio that includes 10 – 15 examples of your design work with project titles, dates, descriptions and other relevant information.

7. A current resume.

8. Evidence of completion of all prerequisites (if any), as determined by the graduate advisor.

Students falling below these standards may qualify for provisional admission. See Graduate Admission Information section.

Please Note:
In the State of Oklahoma, Interior Design professionals need to register if they wish to be designated as Interior Designers. The Oklahoma Board of Architects, Landscape Architects and Interior Designers requires a degree from a program accredited by CIDA (formerly FIDER) for registration. At UCO the BFA in Interior Design is an accredited program.

Business Administration, M.B.A.

The mission of the MBA Program at the University of Central Oklahoma is to provide a unique learning experience that will give each graduate the managerial and leadership skills to be productive, creative, ethical, and engaged, excelling in everyday decision-making in varied business environments.

The Master of Business Administration (MBA) degree at the University of Central Oklahoma (UCO) is designed for students who desire broad preparation for managerial and executive positions in business, industry, government, and education. Courses in the innovative, integrated curriculum focus on the knowledge and expertise that today’s managers need to solve everyday problems.

The MBA is intended to provide students with a 21st-Century MBA education using integrated learning strategies for teaching integrated organizational functions. The UCO MBA student will learn to combine the theoretical and practical knowledge necessary to develop the leadership and management skills required in today’s business world.

The College of Business Administration is accredited by the Association of Collegiate Business Schools and Programs (ACBSP) as well as the Higher Learning Commission.

Admission Policy and Procedure

The University of Central Oklahoma and the College of Business Administration are committed to a qualified and diverse student population and encourage applications from individuals who hold bachelors’ degrees in any field from accredited colleges or universities. Admission decisions are recommended to the Jackson College of Graduate Studies by the MBA Admissions Committee upon review of the complete application.

Applicants are evaluated based on academic ability, as evidenced by a strong undergraduate record and performance on the Graduate Management Admission Test (GMAT) and on maturity, motivation, leadership, communication skills, and interest in professional management. These admission standards ensure that applicants admitted to the Jackson College of Graduate Studies are well qualified to study at the University of Central Oklahoma and have a reasonable expectation of successfully completing the Program.

Admission Requirements

Submit the following items to the Jackson College of Graduate Studies, Nigh University Center, Room 404, University of Central Oklahoma, 100 N. University Drive, Edmond, OK 73034. Application deadlines: July 15 for Fall and November 15 for Spring Semesters. Applications completed after those deadlines will be considered on a space-available basis.

1. Paper or online application for admission (www.uco.edu/graduate/admissions.html).

2. Official copies of undergraduate and graduate transcripts from each institution attended with all degrees posted. All transcripts must be from accredited institutions. Undergraduate transcripts must show a minimal 3.00 GPA overall or 3.25 GPA in the last 60 hours attempted. Applicants who do not meet the above requirements, may be considered for admission to the MBA program if they have a minimum 2.50 overall undergraduate GPA and together their overall undergraduate GPA and GMAT score combine in the following formula for an index score of at least 1000.

   (Overall UG GPA x 200) + GMAT = 1000  or higher

   The MBA program does not require any specific prerequisite coursework, however, students entering the program are expected to be proficient in common computer software applications for business.

3. Evidence of a GMAT score of 450 or higher. The Jackson College of Graduate Studies, with the approval of the College of Business Administration admits as provisional students those who have not taken the GMAT and those who have taken the GMAT but scored below 450 if they meet one of the GPA requirements above.

   The purpose of a provisional admission to the MBA is to permit students to prepare for the GMAT for one-year after their provisional admission. Within one year, provisional students must score at least 450 to continue and enroll in MBA courses. Before taking the GMAT, provisional students must do one of the following.

   a. Native-English speaking students must enroll in nine or more hours in designated graduate business courses. These courses do not count toward an MBA degree.

   b. Non-Native English speaking students who have TOEFL scores of 550 or higher must enroll full-time each semester and must enroll in nine or more hours
Program: Business Administration  
Degree: Master of Business Administration (M.B.A.)

in designated graduate business courses or twelve hours or more of undergraduate business courses. Designated courses are determined solely by MBA Office advisors. These courses do not count toward an MBA degree.

c. Non-Native English speaking students who have TOEFL scores of 500 to 549 and have an undergraduate degree in business or a related field must enroll full-time each semester in undergraduate business courses or other approved undergraduate courses. These courses do not count toward an MBA degree. Within a year these students must also obtain a TOEFL score of 550 or higher before enrolling in any graduate courses.

Computer-based testing is available several times per month. Contact the Pearson Professional Center at (405) 917-7325 for fees, dates, and test times. In addition, the website http://www.mba.com contains official GMAT information, sample test questions, and a list of testing sites and phone numbers.

4. Current Resume

5. Two completed recommendation forms or letters of recommendation from former instructors, employers, or other professionals who can evaluate the applicant’s potential to complete graduate study.

6. Evidence of English language proficiency, if not a native speaker. See Graduate Admissions Information - English Language Proficiency.

Upon notification of acceptance from the Jackson College of Graduate Studies, a student must schedule an appointment with the Director of the MBA Program to complete the admission process.

Athletic Training, M.S.

The Master of Science in Athletic Training degree is a 45-hour, entry-level athletic training degree which provides graduate students with the knowledge, skills and clinical education necessary to meet the Board of Certification Inc. (BOC), eligibility. The program is designed for students who have completed an undergraduate degree but are seeking entry into the athletic training profession through a graduate education program which meets Commission on Accreditation of Athletic Training Education (CAATE) standards.* This program is not intended for students who already have an undergraduate athletic training degree from a CAATE accredited institution or are currently eligible for the BOC Certification Examination.

According to the National Athletic Trainers’ Association, www.nata.org, “Athletic trainers are health care professionals who collaborate with physicians to optimize physical activity and participation of patients and clients.” Athletic training encompasses the prevention, diagnosis, and intervention of emergency, acute, and/or chronic medical conditions which may lead to impairment, functional limitations, and disabilities. To become a certified athletic trainer, a student must graduate with bachelors or master’s degree from an accredited professional athletic training education program and pass a certification examination. More than 70 percent of certified athletic trainers hold at least a master’s degree. Certified Athletic Trainers must meet ongoing continuing education requirements established by the Board of Certification, Inc., www.bocatc.org. Although not yet a universal requirement, more and more athletic organizations and insurance companies are requiring the presence of Certified Athletic Trainers due to concerns about participant safety and organizational liability.

An athletic trainer is not the same as a personal trainer, who is not usually considered a health care professional and whose vocation is exercise management. A personal trainer may or may not be certified.

The mission of the Graduate Athletic Training Education Program (Graduate Athletic Training Education Program) is to provide transformative educational opportunities for students to achieve intellectual, professional, personal and creative growth within a nationally accredited curriculum in the field of athletic training to service the health care needs of Oklahoma.

The goals of the Graduate Athletic Training Education Program are:

1. To provide students the opportunity to learn, develop and apply critical thinking, decision-making skills necessary to become an allied-health care provider.
2. To provide students opportunity to learn, develop and demonstrate ethical leadership and professional behaviors as they relate to health care in a global society.

Admission Requirements

Admission to the Graduate Athletic Training Education Program is competitive. (See: http://ceps.uco.edu/node/831). Applicants will not be admitted to the Jackson College of Graduate Studies until they have been accepted to the Graduate Athletic Training Education Program. International students must first meet the university’s international admission requirements before applying for program admission. These students should first talk with an advisor in the International Students Office.

Applicants may obtain application forms and instructions from the program’s web page at http://ceps.uco.edu/node/858 or the program director. Students wishing to transfer into the program from other graduate programs must be aware of the program’s the transfer policies, (http://ceps.uco.edu/node/839).

Submit the following directly to the Program Director in one envelope to: Graduate Athletic Training Education Program, Box 189, 100 N. University Dr., Edmond, OK 73034. (Fax: 405.974.3805). Application deadlines: December 15 for early fall admissions; March 1 for regular fall admissions.
Program: Athletic Training  
Degree: Master of Science (M.S.)

1. A Graduate Athletic Training Education Program application by advertised date.

2. A Jackson College of Graduate Studies, paper or online, application for admission. (http://www.uco.edu/registrar/admit/Admissions.htm)

3. Official copies of undergraduate and graduate transcripts in sealed envelopes from each institution attended with all degrees posted. All transcripts must be from accredited institutions. Transcripts must show:
   a. A minimal 2.75 GPA overall or 2.75 GPA in the last 60 hours attempted.
   b. Completion of at least 19 hours from the following: HLTH 3493, BIO 2504, BIO 2604, PHED 3503, PHED 3333, and HLTH 3412. Applicants must have completed these courses within the last 10 years and must have earned a grade of “C” or better for course. A candidate with a deficient prerequisite course may still gain provisional admission, if otherwise qualified. A candidate with a deficient prerequisite course may be extended special consideration for “Provisional Admission” if otherwise qualified. See Graduate Admission Information.

4. A completed application reviewed by Selection Committee and meeting competitive admission requirements.

5. Two letters of recommendation: One letter each from: professor/instructor and one from an athletic trainer, physician or allied-health provider, http://ceps.uco.edu/node/858

6. A Statement of Goals regarding your athletic training future or philosophy

7. A signed Technical Standards document verifying that the student can meet or exceed the minimum mental, physical, emotional, communicative and intellectual abilities necessary for athletic training.

8. A completed GATEP Physical Form, which requires a signed report from a physical examination by a licensed medical physician (or designee) and a signed release form.

9. Immunization records with HBV information.

10. Professional Rescuer CPR and First Aid certification or equivalent (submit copies of both sides of cards).

Once all application materials are received and reviewed by the program, the program director will notify the candidates and invite the successful ones to interviews. Selected applicants must then complete an on-campus or phone interview with Selection Committee. http://ceps.uco.edu/node/836.

Only after being accepted and admitted to Graduate Athletic Training Education Program will the Jackson College of Graduate Studies consider the student for admission as a graduate student. This step completes the admission process.

Immediate Post-Admission Requirements

Once accepted to both the program and the Jackson College of Graduate Studies, students must participate in the July semester academic program and complete clinical requirements of the GATEP between the first summer and fall semester. This is mandatory because pre-professional level requirements must be completed before participation in the professional clinical program. Students who have been accepted, admitted and enrolled in the July semester but who failed to complete the pre-professional level requirements will be placed on probation for one semester or until those requirements are met. (See Probation Procedure http://ceps.uco.edu/node/846). Students must then complete the following.

1. Pass Kins 5313 and Kins 5623 with a “B” or better.
   a. Complete Bloodborne Pathogen training in Kins 5623

2. Complete all psychomotor-skill proficiencies. If all proficiencies are not completed, students will receive a grade of “I” (incomplete) and the students will not be allowed to enroll in the professional level courses.

3. Review with program director the program’s policy and procedure manual, academic advisement and graduation requirements

4. Pay $150.00 One-Time Clinical Program Fee
   a. Uniform and Program Badge
   b. Personal Clinical Equipment

5. Submit application for Apprentice Athletic Trainer License with the Oklahoma State Board of Medical License and Supervision, $25.00-$35.00.
   b. Criminal background check, $15.00 - 35.00.

6. Purchase Student Liability Insurance through the University’s Bursar Office - $15.00 - 25.00 and provide a receipt to the program director.

Note: Fees are subject to change. Check with program director for verification of specific amount.

The above requirements must be met during the July semester. Each student will then be required to complete approximately two weeks of Clinical Orientation during fall preseason sports as a pre-professional level program requirement. The following must be completed.

a. Clinical Site Orientation
b. Clinical Observation-two weeks in early August – fall preseason sports.
Program: Athletic Training  
Degree: Master of Science (M.S.)  

Clinical Program Requirements

The Graduate Athletic Training Education Program’s philosophy is that each student must be continually and actively involved in every aspect of the clinical program in order to learn, apply and appreciate the art and science of athletic training.

The standards are rigorous. Students must attend all clinical field experience and rotations assignments in order to observe and demonstrate the NATA Education Council Foundational Behaviors of Professional Practice, including the application of psychomotor and clinical proficiency skills, when interacting with patients, coaches, parents and medical personnel. Supervisors record clinical participation information as part of the student’s progression/retention and graduation requirement documentation.

Clinical Standards: Students must meet the following standards.

a. Attendance at all clinical field experience and rotations assignments. Attendance will be measured by hours, days, weeks and semesters completed as well as clinical site rotations, sports and events participation. Clinical participation information will be recorded on the program’s forms which will be used for retention/progression and graduation requirement documentation.

b. Adherence to the GATEP and each clinical site’s dress code, behavior and facility protocols. Failure to do so may result in removal from the clinical site. Travel costs and transportation are the responsibility of the student and will be needed to complete clinical requirements.

Note. It is imperative that the student understands that only directly supervised clinical experiences by an ACI/CI will count towards the clinical education requirements. The student must be in both visual and auditory contact with the ACI/CI during all clinical courses/labs and field experiences. At no time should it be the responsibility of the student to cover teams or facilities, if unsupervised. Complete clinical program requirements can be found at [http://ceps.uco.edu/node/841](http://ceps.uco.edu/node/841)

Note: The amounts of all fees are subject to change. In preparation for graduation, students must obtain correct fee amounts from their program advisor.

Graduation Requirements

1. Meet all University and Graduate College requirements.
2. Complete all Graduate Athletic Training Education Program academic requirements.
3. Earn a “B” or better in each Graduate Athletic Training Education Program major courses.
Program: Athletic Training
Degree: Master of Science (M.S.)

4. Overall GPA of 3.00 or higher with no more than 6 hours of “C” and no more than six advisor-approved hours from traditional correspondence courses.

5. Meet all clinical program requirements of Graduate Athletic Training Education Program.

Other Requirements
1. Plan of Study. File a Plan of Study with your advisor and the Jackson College of Graduate Studies by the end of the first semester of Graduate work. The plan must be signed and dated by the student and the graduate advisor before it can be considered official.

2. Final Requirements. Apply for graduation through the JCGS by advertised deadline.

Grievance Policy.
Specific policies regarding the GATEP can be found on the program’s webpage and manual [http://ceps.uco.edu/node/840](http://ceps.uco.edu/node/840), [http://ceps.uco.edu/node/846](http://ceps.uco.edu/node/846). If a policy is not specifically stated in the GATEP documents, University and Graduate Colleges policies are in effect. Policies can be found in the Student Code of Conduct [http://www.uco.edu/ssyp/conduct/](http://www.uco.edu/ssyp/conduct/) and the Graduate Catalog.

Early Childhood Education

The Early Childhood Education program is designed to provide an advanced program of study focusing on the developmentally appropriate care and education of children from birth through age eight within various early childhood and elementary school settings.

The student will be given the opportunity to demonstrate a basic knowledge of educational research including: research procedures and methods; sources and formats utilized for presenting education research; critical review of research reports; and the preparation and defense of a research proposal.

The Early Childhood Education program emphasizes the whole child and exposes the student to the scientific knowledge bases regarding: 1) development of children, 2) learning theory, and 3) appropriate educational practices as well as the opportunity to develop competence in working with parents of young children.

The scientific and theoretical foundation for the program is the study of the Constructivist Theory as it relates to cognitive and affective development and the implications for the care and education of young children. The curriculum is designed to provide an individualized program of study based on the student's experience and professional goals.

Other areas addressed will include: assessment issues and techniques, multicultural aspects of child development, principles of play in child development, principles of guidance, professionalism and advocacy.

General Education, M.Ed.

The General Education major is a 33-hour degree program designed to prepare qualified individuals to work in an educational environment relating to a specific discipline. The program encompasses (1) an orientation to education in the field of research and scholarly activities, (2) an introduction to an educational history and philosophy discipline, (3) an introduction to curriculum development and design, (4) evaluation strategies in education, and (5) teaching strategies in an education environment. The program also provides the opportunity for students to develop in-depth knowledge in their chosen discipline and endeavors to produce educator-scholars with research skills that are sufficient for a career in the discipline-specific area. Specific objectives include producing educator-scholars who:

1. Demonstrate knowledge the foundations and applications of their discipline;
2. Demonstrate an in-depth knowledge in their specific discipline;
3. Integrate and disseminate knowledge effectively;
4. Articulate the nature and characteristics of curriculum content and development;
5. Communicate effectively in their discipline;
6. Demonstrate research skills sufficient for interpreting and producing personal and work-related scholarship.

Guided Electives.....................................18-19 Hours

Choose specialization courses with Advisor approval.

TOTAL MINIMUM HOURS REQUIRED..........................33

The student, the discipline advisor and graduate advisor will determine the specific courses to be taken. A discipline-specific area requires 18-19 hours in that discipline. For example: If a student chooses Safety as their discipline area, the student must complete 18-19 hours in the Safety discipline. If there is a complementary course in a different discipline, determination for allowing that class will be made by the Graduate Advisor and Discipline Advisor.
The areas specific to this degree area: Health and Physical Education, Art, Industrial Safety, Occupational and Technology Education, and English. Any other discipline-specific area must be approved by the discipline specific advisor and the graduate program advisor. The discipline areas for this degree have approved curriculum that the student must adhere to in their selected degree program. Altering of course curriculum without prior approval could cause a delay in graduation form the program.

Other Requirements

1. Plan of Study. File a Plan of Study with your advisor and the Jackson College of Graduate Studies by the end of the first semester of graduate work. The plan must be signed and dated by the student and the graduate advisor before it can be considered official.

2. Academic Standards. Meet the following course work standards:
   (a) Overall GPA of 3.00 or higher;
   (b) overall no more than 6 hours of "C;"
   (c) GPA of 3.00 or higher in the Core Education required courses;
   (d) no more than six advisor-approved hours from traditional correspondence courses.

3. Complete a writing assessment with passing score.

4. Final Requirements. Apply for graduation through the JCGS by the advertised deadline.
Secondary Education, M.Ed.

The Secondary Education major is designed for professional educators who seek a broader cultural and professional learning experience than is possible on the undergraduate level. The curricular program enhances knowledge of content-areas and specific pedagogical techniques and skills which will be required in professional work.

Students have the opportunity to study a specific curricular area; to explore the American educational system; to demonstrate their knowledge of educational research procedures and methods, sources and formats, and critical reviews of research reports; and to prepare and defend a research proposal and its results.

Other areas of advanced learning include: The development of adolescence and social forces on adolescence and their implications for the classroom; student learning styles and behavior both individually and in classroom settings; and, professional relationships with students, parents, teachers, administrators, and other pertinent individuals.

The program is aligned to the National Board of Professional Teaching Standards (NBPTS), and program assignments simulate activities which teachers complete while pursuing National Board Certification. In fact, program students may be granted elective credit, under certain conditions, for successful completion of National Board Certification.

The program accommodates both traditionally trained and certified teachers with undergraduate education degrees and others holding bachelors degrees and seeking alternative certification. For this latter group, the program offers courses in managing classrooms, designing instruction, meeting students’ needs, and assessing students’ performances.

Bilingual Education/TESL, M.Ed.

The Masters of Education degree in Bilingual Education/Teaching English as a Second Language (TESL) major is designed to prepare teachers to work with the ever increasing number of non-and limited-English-proficient students in Oklahoma’s schools. The program provides already-certified teachers the training to better assist K-12 English language learners who are struggling to survive and succeed academically. The program provides students with the foundations of research, language-acquisition theory, and history and philosophy, current instructional and assessment practices, and grounding in English language structure and usage.

The program allows students to complete the 24-hour course requirements of UCO’s state-approved program for a teaching credential designation in Bilingual/Multicultural Education and/or English as a Second Language (non-testing endorsements) and apply them toward the 33-hour degree requirements. Students not holding Oklahoma teaching certification, but otherwise eligible for admission, will be required to complete other prerequisites.

Specific program objectives focus on developing the knowledge, skills and dispositions for professionals in the fields of Bilingual Education and/or Teaching English as a Second Language. They include the abilities to:

1. Apply knowledge of the processes of language acquisition and bilingualism to the development of classroom instructional activities.
2. Incorporate a variety of developmentally appropriate methods, techniques, and educational technology, into oral and written language development and across the curriculum.
3. Infuse into the curriculum an appreciation for cultural diversity and awareness of the influences of cultural background and experience in the educational process.
4. Develop and implement strategies to promote effective parental and community involvement in the schooling process.
5. Identify limited English proficient students and monitor their language and academic needs by developing, administering, and/or interpreting appropriate assessment.
6. Diagnose and prescribe individualized instruction and mainstreaming techniques that reflect an understanding of diverse learning styles.
7. Demonstrate classroom management techniques for various types of program models in bilingual and multilingual settings.

Education Administration, M.Ed.
The Master of Education in Education Administration offers a degree in school administration K-12. The degree program is based on requirements for the Elementary or Secondary School Principal Standard Certificate as set forth by the Oklahoma State Department of Education.

The Education Administration degree program prepares school leaders who demonstrate the knowledge and skills required of future administrators. The curricula are designed in an integrated problem-based mode to promote an understanding of the relationships between the various knowledge and skill areas in education leadership. Clinical internship tasks and field experiences provide the necessary transition from the study of content areas toward a more realistic workplace experience.

   (c) no more than six advisor-approved hours from traditional correspondence courses.
7. Final Requirements. Apply for graduation through the JCGS by advertised deadline.
Elementary Education, M.Ed.

The Elementary Education program is designed to provide a more advanced program of study for teachers in Elementary School settings.

The student will be required to demonstrate a basic knowledge of educational research including: research procedures, and methods; sources and formats utilized for presenting education research; critical review of research reports; and the preparation and defense of a research proposal.

The curriculum is designed to provide an individualized program of study based on the student’s experience and professional goals. The student will be required to demonstrate their knowledge in the following areas: curriculum theory and development; theoretical basis of instructional practices; current practices, innovations, and trends in various subjects; current instructional materials; norm-referenced and criterion-referenced evaluation of pupils’ progress including development, use, interpretation, and reporting; social class and cultural background differences among students and their implications; methods of developing and implementing instructional programs for culturally different pupils; historical development of elementary education in America; the impact of society and social change on the educational process; and major philosophical views of education and their relation to educational theory and practice.

Guided Electives...................................... 12 Hours

In Curriculum Enhancement or Elementary Education

TOTAL HOURS REQUIRED..................................36 HOURS

Other Requirements

1. Plan of Study. File a Plan of Study with your advisor and the Jackson College of Graduate Studies by the end of the first semester of graduate work. The plan must be signed and dated by the student and the graduate advisor before it can be considered official.

2. Academic Standards. Meet the following course work standards:

   (a) Overall GPA of 3.00 or higher;
   (b) no more than 6 hours of “C,” and,
   (c) no more than six advisor-approved hours from traditional correspondence courses.

3. Completion of all requirements for taking the Elementary Education certification examination.
4. Final Requirements. Apply for graduation through the JCGS by advertised deadline.

Elementary Education Certification

Students who hold a current teaching certification in Elementary Education will select enough Curriculum Enhancement elective courses from the list below to give them a total of at least 36 hours in this program.

a. Seminars, workshops or institutes in elementary education
b. Content support courses in liberal arts, mathematics, or the sciences
c. Courses approved by an advisor

Students who do not hold a current teaching certificate do not take courses from the above areas and instead complete 12 hours in 5000-level courses as a preparation for taking the Elementary Education certification examination. These courses, which may count toward both master’s degree and certification requirements, must be completed prior to taking the Required Courses above. Completing this requirement may mean that these students finish with more than the 36 hours needed by students who enter with current certification.

Guidance and Counseling, M.Ed.

The primary mission of the Masters of Education in Guidance and Counseling is to prepare professional counselors who specialize in the school environment. The program prepares both master’s students and post-master’s for the School Counselor Certification examination. This is a PK-12 certification. For information on Preparation for School Counselor Certification, see p. 125.

The UCO Guidance and Counseling Program adheres to the national standards of the American Counseling Association and the American School Counselors Association and standards of the Oklahoma State Department of Education. These standards are linked to the criteria set forth by the National Board for Certified Counselors. Meeting these standards will enable students to pursue the National Certified Counselor and the National Certified School Counselor designations. In order to promote professionalism, students are encouraged to obtain these certificates and to actively participate in professional organizations.

Admission Requirements / Jackson College of Graduate Studies (Before Enrollment)

Submit the following items to the Jackson College of Graduate Studies, Nigh University Center, Room 404, University of Central Oklahoma, 100 N. University Drive, Edmond, OK 73034.

1. Paper or online application for admission (www.uco.edu/graduate/admissions.html).

2. Official copies of undergraduate and graduate transcripts from each institution attended with all degrees posted. All transcripts must be from accredited institutions. Undergraduate transcripts must show a minimal 2.75 GPA overall or 3.00 GPA in the last 60 hours attempted.

3. Students falling below these standards may qualify for conditional or provisional admission. See Graduate Admission Information.

4. Evidence of English language proficiency, if not a native speaker. See Graduate Admission Information - English Language Proficiency.

Admission Requirements / M.Ed. in Guidance and Counseling (During the First Semester)

The Guidance and Counseling Program admits graduate students twice a year. No more than twenty students are admitted each semester (fall and spring) for a total of 40 per year. An application packet for the Guidance and Counseling Program may be obtained from the Guidance and Counseling web site.

Students seeking to enroll in the M.Ed. or preparation for the certification examination may begin course work while they complete the program application process by enrolling in GUID 5163 Theories/Techniques of Individual School Counseling, PTE 5153 Advanced Developmental Psychology, and GUID 5013 Principles of Guidance and Counseling.

By the end 14th week of the fall or spring semester, these enrolled students must submit to the Program Coordinator the following items.

1. A favorable Recommendation for Admission from an interview with at least two members of the Guidance and Counseling Curriculum Committee. The department will set the time and place of this interview. Receiving a Recommendation for Admission does not insure acceptance or continuation in the Guidance and Counseling Program.

2. A current teaching certificate

3. A completed departmental admission application

4. Three letters of recommendation.

For Fall Semester, an application must be in by the sixth week of the previous Spring Semester: for Spring Semester by the sixth week of the Fall Semester. Students must complete all theory courses (GUID 5163, 5113, 5153) prior to starting internships.

The internship has two components: A 100-hour clinical experience and a 100-hour in-school experience. This class meets on Tuesday during the Fall and Spring Semester from 4:30 to 10:00 p.m. in the Brief Counseling Clinic in the Library Speech and Hearing Clinic. Students must have malpractice insurance in order to participate in this internship. Low cost malpractice insurance specifically designed for counselors is available at student rates from the American Counseling Association and the Oklahoma Counseling Association. Applications are available from the Graduate Advisor and from faculty.

Instructional Media, M.Ed.

The Master of Education in Instructional Media offers a Library Information major according to requirements set forth by the Oklahoma State Department of Education for standard certification as a School Library Media Specialist for grades PK-12.

Upon completion of this specialized program, students will have developed a theoretical, philosophical and practical knowledge base and prescribed competencies upon which to enter the common school, private school, and other institutional job markets in school librarianship.

The major serves a twofold purpose: it enables students to earn an M.Ed. in Instructional Media that includes all the components for Oklahoma School Library Media Specialist Certification; and students already holding an M.Ed. may complete all or part of the required 24 hours of specialized course work for Library Media Specialist.

Completion of these degree requirements alone will not satisfy certification requirements for the Standard Library Specialist Certificate.

Admission Requirements

Submit the following items to the Jackson College of Graduate Studies, Nigh University Center, Room 404, University of Central Oklahoma, 100 N. University Drive, Edmond, OK 73034.

Nutrition and Food Management

The Nutrition and Food Management program provides knowledge and skills in human nutrition, principles of food management, food science, and practice in problem solving and decision making. The curriculum encourages critical and creative thought, development of skills in human relations and communications and the value of life-long learning. The academic program is sensitive to changes in our dynamic society; it emphasizes personal and professional growth as well as research. There are diverse opportunities for the graduate in the areas of food service management, education, administration, nutritional care, and health promotion.

Applicants must have either an undergraduate degree in the discipline or sufficient course work in the field to provide the background required or may complete additional undergraduate or graduate prerequisites.

Admission Requirements

Submit the following items to the Jackson College of Graduate Studies, Night University Center, Room 404, University of Central Oklahoma, 100 N. University Drive, Edmond, OK 73034.

1. Paper or online application for admission (www.uco.edu/graduate/admissions.html).

2. Official copies of undergraduate and graduate transcripts from each institution attended with all degrees posted. All transcripts must be from accredited institutions. Undergraduate transcripts must show:
   a. A minimum 2.75 GPA overall or 2.75 GPA in the last 60 hours attempted.

   b. Students falling below these standards may qualify for conditional admission. See Graduate Admission Information.

   c. An undergraduate nutrition degree in a Didactic Program in Dietetics (DPD) accredited by the Commission on Accreditation for Dietetic Education (CADE).

   (c) no more than six advisor-approved hours from traditional correspondence courses.

3. Final Requirements. Apply for graduation through the JCGS by advertised deadline.
Experimental Psychology, M.A.
The Experimental Psychology major is a flexible, multipurpose degree program. One of its major strengths is in preparing students to pursue the doctoral degree in psychology. The program is also structured to provide the knowledge and skills necessary to qualify students for specialized employment opportunities.

The Experimental major requires a minimum of 40 graduate credit hours. In addition to the core courses required for all M.A. students, students exercising the Experimental major must also enroll in PSY 5343 Psychology as Science; and PSY 5383 Multivariate Analysis in Psychology, and additional course work as required by the advisory committee.

Students enrolled in this major must submit a thesis in partial fulfillment of their degree requirements. The student’s advisory committee, with the addition of one faculty member from outside the department, will constitute the reading committee for the master’s thesis. The member from outside the department, will, at the request of the student, be appointed by the graduate dean along with confirmation of the total committee as the thesis is begun.

The master’s thesis is a research project which has the potential for publication in a psychological journal. For clarification of what qualifies as research in the field of psychology and for matters of concern regarding the design and reporting of research, the student is referred to the publication manual of the American Psychological Association.

Admission Requirements
Submit the following items to the Jackson College of Graduate Studies, Nigh University Center, Room 404, University of Central Oklahoma, 100 N. University Drive, Edmond, OK 73034.
1. Paper or online application for admission (www.uco.edu/graduate/admissions.html).
2. **Academic Standards.** Meet the following course work standards:
   
   (a) Overall GPA of 3.00 or higher;
   (b) no more than 6 hours of "C;" and,
   (c) no more than six advisor-approved hours from traditional correspondence courses.

3. **Thesis.** If applicable, complete an acceptable thesis and successfully defend it in public, two paper copies of the thesis and one electronic copy to the library through Proquest and the thesis’ title page, original signature page, and abstract page to the JCGS.

4. **Final Requirements.** Apply for graduation through the JCGS by advertised deadline.

General Psychology, M.A.
The Master of Arts in General Psychology is a 32-hour degree that is designed to meet the needs of a wide variety of students. This degree would be ideal for the student who desires a graduate degree for career advancement in the business world, or for the student who already has a master’s degree but is returning to take additional hours for certification or licensure in the mental health or school services fields. The 32-hour MA would also be appropriate for those who wish to obtain more advanced knowledge in psychology but do not necessarily want to become a counselor or complete a thesis.

The General Psychology major requires the same core courses as the other options yet has more opportunity for elective coursework and course substitutions.

Admission Requirements
Submit the following items to the Jackson College of Graduate Studies, Nigh University Center, Room 404, University of Central Oklahoma, 100 N. University Drive, Edmond, OK 73034.

1. Paper or online application for admission (www.uco.edu/graduate/admissions.html).
2. Official copies of undergraduate and graduate transcripts from each institution attended with all degrees posted. All transcripts must be from accredited institutions. Undergraduate transcripts must show:
   a. A minimal 2.75 GPA overall or 2.75 GPA in the last 60 hours attempted.
   b. Completion of 21 undergraduate hours as follows:
      PSY 1103, PSY 2753, PSY 3713, PSY 3833, PSY 3903, PSY 4753, and PSY 4763
3. Evidence of English language proficiency, if not a native speaker. See Graduate Admission Information - English Language Proficiency.
4. A GRE score of at least 900 (combined verbal and quantitative scores) or 3.5 on the writing portion.

Counseling Psychology, M.A.

Counseling Psychology prepares graduates to provide services in diverse settings including community mental health centers, youth and family service agencies, marriage and family counseling centers, child guidance clinics, university counseling centers, psychiatric hospitals, drug and alcohol treatment centers, shelters and centers for child abuse and domestic violence, and private practice. While some graduates complete additional training at the doctoral level. Students in the counseling program are typically working towards Licensure as a Professional Counselor (LPC) or Behavioral Practitioner (LBP). Each license requires that applicants complete a Master’s degree with at least sixty (60) hours of counseling related coursework. Further information concerning licensure may be obtained from the Oklahoma State Department of Health.

Students in the program are expected to:

- Develop an understanding of the ethical and legal standards of behavior for counselors and consistently function in an ethical, professional manner;
- Develop and demonstrate skills in creating effective professional relationships that facilitate the counseling process;
- Develop and demonstrate effectiveness in working with diverse models, theories, and techniques that contribute to positive outcomes in counseling including evidence based treatments;
- Develop and demonstrate skills in conducting effective assessment and treatment of children, couples and families while being sensitive to the special needs and considerations of these client populations.
- Develop an understanding of the importance of the science of psychology, applied research, and scientific inquiry and their contributions to the counseling process;
- Develop and demonstrate skills in working in gender and culturally diverse contexts and with individuals who are culturally diverse.
- Demonstrate an understanding of empirically validated group psychotherapy theory, techniques and process dynamics.
- Demonstrate a pantheoretical understanding of the development, diagnosis and treatment of psychopathology.

The Counseling major requires a minimum of 60 graduate hours. In addition to the core courses required for all M.A. students, the program also requires that students complete coursework in counseling, psychological assessment, legal and ethical aspects of counseling, psychopathology, and other counseling-related courses.

Admission Requirements

Other Requirements

1. Plan of Study. During PSYC 5051, students complete a Plan of Study. Students must then file it immediately with the Jackson College of Graduate Studies. The plan must be signed and dated by the student and the graduate advisor before it can be considered official.

2. Advisor Meeting: Meet with faculty Program Advisor in group or individual advisement session before enrolling second semester.

3. Practicum. Training in the Counseling program culminates in a two consecutive semester practicum. During practicum, students provide supervised services to a diverse clientele in a faculty-approved setting. Pre-practicum meetings are held prior to each semester’s practicum placement to provide information to students about the applications that will be submitted to the Counseling Training Committee (CTC; the Counseling faculty). Students must submit an application, an official transcript, and a curriculum vita. In addition to submitting the required materials, students must have completed all of the specified counseling and assessment courses and have no more than nine hours of coursework (not including practicum) remaining. Students who apply for practicum experience but have not completed their coursework at UCO must submit to additional review by the CTC and may require further preparation as deemed necessary. Once applications have been submitted and minimum requirements have been met, the CTC will review applications and notify students of their status. Students' performance during their course of study will be used to assess whether the student has acquired the minimum counseling and assessment skills necessary for practicum placement. Concerns about students' readiness will be addressed by the CTC and students will be notified concerning any remediation necessary. Due to the serious nature of providing counseling and assessment services, students in the Counseling Program will be reviewed periodically by the CTC regarding their personal and professional readiness to apply for practicum.

School Psychology, M.A.

The School Psychology Major at UCO is a NASP accredited program leading to state and national certification as a specialist-level school psychologist. There are two options. The MA in School Psychology option leads to a master's degree and culminates in a post-graduate 6 credit hour [1,200 clock hour] internship and awarding of the College of Education Advanced Studies in School Psychology certificate and eligibility to sit for the national exam leading to credentialing as an NCSP. The Advanced Studies option is available to those currently holding an earned graduate degree in a related field who wish to pursue state and/or national certification in school psychology. Both MA in School Psychology and Advanced Studies candidates complete the same 60 credit hour program and the culminating 6 credit hour internship. Advanced Studies candidates may apply to have courses from their previous graduate degree substitute for coursework in the 60 credit hour school psychology program if the course meets the equivalency and recency requirements set by the UCO school psychology board. Courses submitted for equivalency must be accompanied by a catalog description and a syllabus from the institution where the course was taken.

The School Psychology Program at the University of Central Oklahoma is designed to prepare school psychologists who work at the specialist level with children, youth, and families to prevent and solve individual, school and family-related problems. At UCO, school psychology is viewed as a specialty within the area of psychology. Our philosophy is that all children and youth have a right to maximize their personal potential, gain social competencies, and accomplish meaningful goals. We believe that prevention is the best intervention; however, when problems arise, we believe that problem solving must occur in the full light of cultural, ethnic, and family diversity with particular attention given the culture of the school in which the problem exists.

The program emphasizes utilizing the full range of psychological services in schools and school-related mental health settings. The school psychologist's role is viewed as one that includes the prevention, assessment, and remediation of child and adolescent learning and behavior problems through direct and indirect services. Training is broad and provided in the context of research and highest ethical standards and adheres to the conceptual framework of the College of Education. (Program objectives are based on the 11 NASP domains National Association of School Psychologists standards for training and practice.)

Program Objectives

1. Use several models and methods of assessment in order to identify individual and group strengths and needs and use these models and methods as part of a systematic data collection system for evidence-based decision making.
2. Collaborate effectively with others in planning and making decisions at the individual, group, and system levels using consultation and collaboration models best suited to the situation at hand.
3. Work collaboratively with others in developing appropriate cognitive and academic goals for students with different abilities, disabilities, strengths, and needs and evaluate the effectiveness of selected interventions.
4. Use knowledge of human developmental processes to collaboratively assess and design services that will enhance the behavioral, affective, adaptive, and social skill development of students of varying abilities, disabilities, strengths, and needs as well as implement and evaluate those services.
5. Demonstrate the sensitivity and skills needed to work within various school cultures and with individuals of diverse characteristics and implement strategies selected and/or adapted based on individual characteristics, strengths, and needs.
6. Integrate knowledge of schools, regular, and special education services as well as other service delivery systems to facilitate policies and practices that create and maintain safe, supportive, and effective learning environments for children and others.
7. Use knowledge of human development, psychopathology, and associated biological, cultural, and social influences on human behavior to provide or contribute to prevention and intervention programs that promote the mental health and physical well-being of all students.
8. Work effectively with families, educators, and others in the community to promote and provide comprehensive services to children and families by using knowledge of family systems and service delivery methods that combine home, school, and community resources.
9. Evaluate research across all the fields that impact school psychology and translate good research into practice, and
be able to plan and conduct investigations and program evaluations needed to improve services.

10. Represent the profession of school psychology by understanding the history and foundations of the profession; knowing various service models and methods, continually upgrading professional knowledge, and maintaining a posture of practice that maintains the highest ethical, professional, and legal standards.

11. Know and use information sources and technology in responsible and relevant ways to enhance and safeguard the quality of school-based psychological services.

Reading, M.Ed.

The Master of Education in Reading is designed to meet requirements set forth by the Oklahoma State Department of Education for Standard Certification as a Reading Specialist for grades one through twelve. A graduate curriculum in Reading uses multiple educational settings to prepare students for positions as reading consultants, reading teachers in public and private education, remedial reading teachers, reading clinicians, directors of reading programs, reading supervisors, reading diagnosticians, reading coaches, reading interventionists, and reading coordinators.

The program provides students opportunities to develop competencies in human relations; leadership; program development, maintenance, and improvement; and, diagnostic studies. The students learn proper methods for informing parents and teachers of the reading needs of their children, as well as a thorough knowledge of referral services.

Special Education, M.Ed. Mild/Moderate
The graduate program in mild-moderate disabilities is designed to offer advanced study to those students interested in infants, early childhood, elementary, middle, secondary, and adult education of students with mild/moderate needs.

The specific goal of the Special Education Program is to provide specialized training in the areas of mild-moderate disabilities and severe-profound/multiple disabilities. This goal includes the following objectives:
1. The program will provide training that meets academic and practicum competencies required by the Oklahoma Commission on Teacher Preparation and the National Council for Exceptional Children.
2. The program will provide graduate students opportunities to become reflective, responsive, and resourceful in meeting the academic, behavioral, emotional, and social needs of the specific area of specialization selected.
3. The program will provide experiences for graduate students to develop in them the ability to facilitate learning through implementation of various teaching strategies, manage classrooms and behavior, assess academic levels, plan individualized education programs, provide service to the community, and conduct relevant research.

Certification Requirements

Teacher certification is not a graduation requirement, but it is a requirement to teach in the public schools and many private schools. The Special Education, M.Ed. Mild/Moderate program recommends its graduates for certification examinations once they have completed their major support courses and professional education courses and pass the OGET, the OPTE, and the Oklahoma Subject Area Test in Mild-Moderate Disabilities.

Certified special education graduates wishing to teach in any of the other core academic subjects, must become “highly qualified” in their core academic subject area within two years of the date of employment. These areas include: Early Childhood or Elementary Education or Middle or Secondary Education in Math or Science or Language Arts. To obtain highly-qualified status, teachers must either build a “HOUSSE” in single core subject areas or pass an examination in the appropriate subject area. Certified special education teachers build their “HOUSSE” through required annual district professional development activities, previous core college courses, teaching and service in the content area, achievement of their students, and/or national board certification. Special educators may choose to co-teach or teach non-core courses instead of obtaining highly-qualified status.
Special Education, Severe/Profound, M.Ed.

The graduate program in severe-profound/multiple disabilities is designed to offer advanced study to those students interested in infants, early childhood, elementary, middle, secondary, and adult education of students with severe-profound/multiple needs. The program provides practicum experiences with children with disabilities in various settings.

The specific goal of the Special Education Program is to provide specialized training in the areas of mild-moderate disabilities and severe-profound/multiple disabilities. This goal includes the following objectives:

1. The program will provide training that meets academic and practicum competencies required by the Oklahoma Commission on Teacher Preparation and the National Council for Exceptional Children.

Speech Language Pathology, M.S.

The Master’s degree in Speech-Language Pathology is designed to complete the academic and practical preparation of individuals seeking the professional credentials for working with persons who exhibit disordered communication. The program is designed to prepare individuals to serve in a variety of professional settings and with a variety of populations. Completion of the program satisfies requirements for the Oklahoma State Department teaching certificate, the Oklahoma Board of Examiners license, and the American Speech-Language-Hearing Association Certificate of Clinical Competence in Speech-Language Pathology. This program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

Basic courses in normal and disordered human communication, completed either as part of the undergraduate major or as graduate prerequisites, must precede application for admission to the graduate program. Upon admission to the graduate program, students complete graduate level courses to further their understanding of normal and disordered human communication. Ultimately, students apply this knowledge in accumulating a minimum number of practicum clock hours representing experiences with a variety of disorders, settings and populations.

Application Deadline: January 31 to be considered for the following summer semester. In order for an application to be considered, ALL items must be received by or postmarked no later than January 31. This program begins in the summer semester.

Admission Requirements

Send the following items to the Jackson College of Graduate Studies Nigh University Center, 100 N. University Dr., Nigh University Center, Rm. 404, Edmond, OK 73034.

Wellness Management – Health Studies. M.S.

The Master of Science in Wellness Management program provides the student with a working knowledge to address wellness issues within multiple populations. Students will gain skills in grant writing and interpretation of statistics as well as experience in research and leadership centered on issues of health and wellness. Aspects of legal and ethical principles within wellness programs will be addressed. The student will be able to optimize their learning through elective courses in Adult Education, Family and Child Development, Gerontology, and Substance Abuse Studies. These electives will provide students with an important knowledge base that is helpful in working with diverse populations without creating the appearance of expertise in these areas.

Certification Requirements
- Special Note: Certification requirements established by the Oklahoma State Department of Education and the Oklahoma Commission for Teacher Preparation changed beginning September 1, 1999. Individuals who obtain certification after that date are subject to the new regulations.

Compliance with certification requirements is the responsibility of the individual seeking certification. Advisors can assist in the process, but compliance with all rules and regulations pertaining to certification is the responsibility of the candidate.

The individual seeking certification is responsible for following all guidelines presented in the University of Central Oklahoma undergraduate or graduate catalog, depending upon the academic level of the certificate sought. Graduate level certificates require graduate level course work and completion of a master’s degree for standard certification. Bachelor level programs require the completion of a bachelor’s degree for certification.

Periodically the program guidelines, course work, and state regulations change. It is the responsibility of the individual seeking certification to meet the revised standards. An individual should therefore periodically review the most recent UCO catalog, certification course lists, and state regulations, particularly when an extended period of time has elapsed during the completion of a program.

Program Procedures and Guidelines for Certification

The UCO Teacher Education Services office is located in Education Building, room 207, telephone 974-5710. Applications and other information regarding certification may be obtained from that office. Applications for certification based on the completion of the University of Central Oklahoma approved programs are processed through the Teacher Education Services Office.

To apply for certification, the individual should:

A. Complete all courses identified for general education and the respective professional education and specialization areas.
B. Contact the appropriate department chairperson regarding the course work for the respective program, particularly if it seems likely that some courses previously completed could substitute for required courses in the program. Official substitution forms should be completed where courses, based on their titles, do not seem to match. If course names and levels from different institutions are equivalent, substitutions are NOT necessary.

C. Apply for admission to teacher education following the procedures and guidelines enumerated in “Admission to Teacher Education.”

D. Apply to student teaching following the procedures and guidelines enumerated in the section entitled “Admission to Student Teaching.” Guidelines are in the Teacher Education Services (ED 207).

E. Apply to take the appropriate state certification examinations according to UCO guidelines and suggested timeline. Application is made online with Certification Examination for Oklahoma Educators (CEOE) at www.ceoe.nesinc.com.

F. For recommendation for the initial license or certificate, the applicant is required to meet all academic standards mandated for admission to student teaching and degree requirements.
G. After completing certification requirements obtain an application for certification from Teacher Education Services office.

H. For certification at any level the applicant must hold a bachelor’s degree. For certification in graduate programs, the applicant must hold a master’s degree.

I. After all applicable course work has been posted on the UCO transcript, including the degree, if appropriate, candidates submit a complete UCO official transcript along with the completed license or certificate application form to the UCO Teacher Education Services Office for review and recommendation. If courses needed for certification were completed at an institution other than UCO, official copies of those transcripts MUST be submitted with the application form for certification. UCO will not supply official copies of transcripts from other universities. Applications cannot be processed without official transcripts which reflect all required course work.

J. Effective November 1, 2001, Oklahoma requires applicants for initial teacher licensure to have on file with the Oklahoma State Board of Education a current OSBI and FBI fingerprint-based criminal history record. Fingerprint cards for this purpose are available in the Education Building, Room 207.

K. When the Teacher Certification Officer at UCO completes the review of course work with respect to the appropriate UCO approved program requirements and certifies that those requirements have been completed, and the Dean concurs, the application is then forwarded to the Teacher Certification Section of the State Department of Education.

Residence Requirement

In order for the University of Central Oklahoma to recommend candidates for certification, candidates must meet all requirements for teacher education. In addition, candidates must complete at least their last 24 semester hours in the area of specialization (the teaching field) and professional education at UCO. These 24 semester hours must include the following.

- PTE 4901 Practicum in Professional Teacher Education (if Educational Psychology taken elsewhere)
- PTE 4523 Instructional Designs
- PTE 4811 Contemporary Issues
- PTE 4828, 4838, or 4848 Directed Observation and Student Teaching

Neither CLEP tests nor advanced standing tests, nor teaching experience may be used to meet the UCO residency requirements.

Admission to Teacher Education

Students at the University of Central Oklahoma who expect to become candidates for the Bachelor of Arts in Education, the Bachelor of Science in Education, Bachelor of Fine Arts in Education, or the Bachelor of Music Education degrees (or otherwise qualify to teach) are required to make formal application during their sophomore year (after completing 40 semester hours and meeting criteria below) to the Council on Teacher Education. Application must be made according to published dates. There are two rounds of applications in the fall and spring semesters. Candidates must be admitted to the teacher education program to enroll in restricted, professional courses. No late applications will be accepted. Periodically, admission guidelines and requirements change. It is the responsibility of the individual seeking admission to meet requirements that are in place at the time of application to teacher education. Therefore, individuals should review the most recent UCO catalog and teacher education handbook to determine the most current admission requirements.

The conditions for admission to teacher education effective Fall 2000 are:

A. Have already successfully completed 40 semester hours of college credit.

B. Continue to meet the standard prerequisite for admission to teacher education;

   For those enrolled as entering Freshmen, transfer students, or those seeking certification beginning Fall 2000,
   1. Achieve a minimum GPA of 2.75 in all subjects completed at UCO or other colleges or universities at the time of application.
   2. Achieve a minimum GPA of 2.75 in degree certification major or common courses required for majors with no grade lower than “C” after August 15, 1990.
   3. Achieve a minimum GPA of 2.75 in Professional Teacher Education courses with no grade lower than “C.”

   Those enrolled prior to Fall 2000 and maintaining continuous enrollment should contact Teacher Education Services (EDU 207) for more information regarding admission standards.

C. Demonstrate proficiency in written and oral English as indicated by having a grade of “C” or better in 6 hours of English composition.

D. Pass the Oklahoma General Education test (OGET).

E. Interview with a departmental advisor.

F. Receive formal approval by the Council on Teacher Education.

Students transferring to UCO from other institutions will be expected to meet the above conditions before beginning teacher education training.

All students will be required to compile a Teacher Education Portfolio. The portfolio is checked periodically and will need to be up-to-date for Admission to Teacher Education.

Students of Junior standing who come to UCO for a summer term only and plan to transfer back to the school from which they came may be permitted to enroll in teacher education courses provided they bring a letter from an appropriate official, i.e., advisor, registrar, or dean stating they would be permitted to enroll in such courses at their home college.
Certification Examinations
Individuals seeking licensure must satisfactorily complete the Certification Examinations for Oklahoma Educators before applying for licensure and before a license can be issued by the state. The state curriculum examinations are administered at least four times each year on a set schedule with advanced registration required. Three different exams are required:

1. Oklahoma General Education Test (OGET) must be passed for admission to teacher education.
2. Oklahoma Subject Area Tests (OSAT) must be passed prior to the completion of the first week of the student teaching semester.
3. Oklahoma Professional Teaching Examination (OPTE) specific to the teaching level of the certificate sought.

Applications for the state competency examinations are available online at www.ceoe.nesinc.com. Study guides can be obtained on line from National Evaluation Systems.

College Credit
Only work completed in state and regionally accredited colleges and universities, or transfer credit validated by accredited colleges, will be accepted as a basis for teacher certificates. In order for the applicant to be eligible for certification, the grade point average of the applicant on all work submitted in qualifying for teacher certification shall be equal to or greater than that required for admission to the teacher education program at the University of Central Oklahoma.

Candidates transferring credit from out-of-state colleges or from Oklahoma colleges not having an approved program for a specific certificate area to an Oklahoma college or university having an approved program in that certificate area shall have their work evaluated by the receiving institution. Transferring candidates shall expect to satisfy all requirements imposed by the approved program of the receiving institution in qualifying for a standard certificate.

The amount of college credit earned during one year, including correspondence and extension work, which can be used to meet certification requirements, will be controlled by the rules and regulations of the college or university. However, not more than one-fourth of the work completed to satisfy requirements in any area of preparation (general education, professional education, specialization) nor more than one-fourth of the total academic work completed may be taken by correspondence and/or extension study.

Course Work Completed in Community Colleges
Only 64 semester hours of credit taken in an accredited community college may be counted toward satisfying the general education and specialized education requirements of an approved certificate program. Work taken in an accredited community college after achieving sixty-four (64) or more semester hours may count toward certification in the areas of general education and specialized education providing the following guidelines are met:
A. The course work is lower division work as determined by the course level assigned to the course by the four year institution that will make recommendation for certification.
B. The course work is applicable in meeting the approved program of certification at the recommending institution.
C. The course work CANNOT include any early childhood nor elementary specialization area courses (this refers to the 40 hours of specialization).
D. The course work CANNOT include any teacher education courses (this refers to courses in the 28-33 hours in teacher education).
E. The course work is counted in lieu of an equal number of hours of the 64 already taken at a junior college so that no more than 64 semester hours, in total (including all general education), are being counted from junior colleges.
F. The last nine semester hours of credit in the area of specialization were completed in an institution having an approved teacher certification program in the area of concern. Junior colleges do not have state approved teacher certification programs.

Issuance of an Initial License
The State Board of Education shall issue a license to teach to any person who completed his/her initial teacher education program after January 31, 1982, has not taught in a state accredited elementary or secondary school for a minimum of one year and completed the residency-year requirements, and who meets all of the following requirements: (If the individual completed his/her initial teacher education program prior to February 1, 1982, he/she should contact the State Department of Education regarding their certification requirements.)
A. Has successfully completed all training and courses required by the State Board of Education based on the guidelines and program in effect at the time of application for certification.
B. Has graduated from an accredited four year college or university and holds the standard baccalaureate degree. (Those seeking career-technical certificates should verify requirements with the Oklahoma Department of Career and Technology Education);
C. Has made the necessary application for the certification exams and paid the certification examination fees.
D. Has received a passing score on the certification examination.
E. Has made application to the State Department of Education on the appropriate State of Oklahoma form and paid the appropriate application fee for each class of certificate sought.
F. Has received recommendation from the preparing institution for the certificate desired if the teacher preparation work was completed in Oklahoma. The State of Oklahoma certificate application form must be signed by the Dean and Teacher Certification Officer.
G. Has met all other requirements as may be established by The State Board of Education including meeting the residency requirement at the time of application for certification. The applicant should contact the State Department of Education regarding current residency requirements.

**Issuance of Standard Certificates**
The State Board of Education shall issue a certificate to any person who meets all of the following requirements:
- If the individual completed his/her initial teacher education program after January 31, 1982, he/she must have passed the applicable state certification examination, completed one year of teaching in a state accredited elementary or secondary school, and for Oklahoma teachers, have successfully completed the residency-year program and received recommendation by the residency-year committee. The individual must then make application to the State Department of Education and pay the certification fee. (If the individual completed his/her initial teacher education program prior to February 1, 1982 he/she should contact the State Department of Education regarding their certification requirements).

**Issuance of a License or Certificate for Additional Certification Areas**
Individuals who currently hold a valid Oklahoma license or certificate at the standard certification level who desire UCO recommendation to obtain certification in another specialization area, must complete the following:
- A. Complete the specialization area courses based on the UCO state approved program.
- B. Complete a minimum of the last nine semester hours toward the new certification area through the University of Central Oklahoma.
- C. Satisfactorily complete the applicable state certification examination(s).
- D. Complete the appropriate developmental psychology course (e.g. child, adolescent, or developmental) for the level of the new certification area if the course was not completed previously (see the professional education work sheet for the new specialization area).
- E. Complete the course SPED 4123 Teaching Individuals with Disabilities if not previously completed.
- F. Make application for the new license/certificate through the Teacher Education Services Office (ED 207) following the required procedures.

**Teaching Certificate Definitions and Overview**
For certification to be received, an individual must hold a bachelor’s degree and have completed the course requirements in professional education and in the area specialization, and have received a passing score on the applicable state certification examination(s).
- A. License - The class of certification for entry-level teachers is a license. Application for licensure is made through UCO.
- B. Certificate - The license will be changed to a standard certificate upon successful completion of the residency year program and application to the State Department of Education for a certificate. Application is made directly to the Oklahoma State Department of Education.

C. Emergency Certificate - This certificate is issued only in emergency cases upon request and recommendation from a local school superintendent, who shall state the school’s intention to employ the applicant if the certificate is granted. All emergency certificates are valid only within the school district upon whose request they are granted. For those individuals who obtain emergency teaching certificates, it is recommended that they contact the Director of Field Experiences in Teacher Education Services prior to the beginning of the school year during which their emergency certificate is valid and discuss the alternative plan for student teaching.

Any person who obtains an emergency teaching certificate to teach in an Oklahoma accredited elementary or secondary school and has had no student teaching experience may complete the alternative plan for student teaching. The plan requires that the individual enroll in the four-semester hour in-service supervised teaching experience at the University of Central Oklahoma (permission and documentation of employment are required for enrollment). The in-service supervised teaching experience shall be completed during the first year that the teacher is employed in an accredited school. Permission from the school superintendent for participation in the in-service supervised teaching experience is required, and the individual must be supervised by UCO.

To complete a teacher certification program at UCO and to be recommended for teacher certification by UCO, the individual must have been admitted to the University of Central Oklahoma Professional Teacher Education program. The individual completing the alternative plan for student teaching must follow the guidelines presented in the section “Admission Requirements.”

The number of semester hours of professional education normally required for the certificate sought may be reduced by the number of student teaching semester hours that are required. This reduction may be made if the student successfully completes the four semester hours of in-service supervised teaching experience.

Upon the completion of one year of teaching, the in-service supervised teaching experience, the residency year assistance program, successful completion of the appropriate certification examination(s), and other requirements appropriate to the certificate sought, the applicant may be recommended for a standard certificate.

Individuals who hold teacher certification via a State Department of Education’s Alternative Certification method will not be recommended for additional certifications by UCO. Those individuals may apply for additional certification directly to the Oklahoma State Department of Education through that agency’s Alternative Certification program.
Library Media Specialist Certification

Completion of the required courses will enable the student to apply for official certification. This certificate authorizes the holder to supervise and/or administer Library Media services in grades K-12 in any accredited school in Oklahoma and to teach Library Media Skills in grades K-12. A list of required Courses may be obtained from the program advisor.

Standard Library Media Specialist Certificate

A master’s degree is required for Standard certification.

A. Standard certification program for applicants already holding a master’s degree

1. The applicant shall satisfy all criteria related to specific requirements for other certified personnel certificate programs as stated on page 141 of Appendix H of the Teacher Education and Certification Guidelines and Procedures Handbook, and admission standards, general education and professional education requirements as stated on pages 19-24 of the Teacher Education and Certification Guidelines and Procedures Handbook.

2. Applicants may qualify if they hold and maintain a valid certification credential in early childhood education, elementary education, elementary-secondary education, secondary education, or vocational-technical education.

3. If the applicant already holds a Master’s Degree in one of the above areas, specialized course work to fulfill standard certification requires 24 semester hours in the area of specialization from areas (a-l), with areas (a-f) being required courses:
   a. Library Media Management
      IME 5053 School Library Admin & Internship
   b. Reference
      IME 5423 Reference and Bibliography
   c. Selection of Print and Non-print Materials
      IME 5023 Materials Selection
   d. Cataloging of Print and Nonprint Materials
      IME 5453 Cataloging and Classification
   e. Books and Materials for Children
      IME 5233 Library Materials for Elem. Schools
   f. Books and Materials for Young People
      IME 5013 Library Materials for Second. Schools
   g. Instructional Materials Production
      IME 5133 Graphic & Video Production
      IME 5863 Elements of Web Design
   h. Design and Develop. of Instructional Materials
      IME 5543 Instructional Design & Develop. I
   i. Public Relations for School Library Media Prog.
      IME 5223 Public Relations and Information Skills
   j. Instructional Design for Instructional Media

4. The applicant shall pass the state teacher certification test for Library Media Specialist.

5. The applicant must have completed an undergraduate course in Psychology of Exceptional Children.

B. Standard certification program for applicants who already hold a master’s degree in library science.

Alternative Certification is available with a Master’s Degree in Library Science and 6-18 hours of teacher education courses, depending on work experience.

1. Student teaching will not be required if the applicant has at least two years of experience as a full time librarian in a non-school capacity.

2. The applicant shall pass the state teacher certification test for Library Media Specialist.

General Guidelines

1. All courses applicable to the Master of Education in Instructional Media Degree must be taken at the graduate level. Applicable courses taken at the undergraduate level may apply toward certification, but will not apply toward the Master’s Degree.

2. A minimum of at least the last nine semester hours of course work must be completed at the University of Central Oklahoma for certificate recommendation by UCO.

3. The applicant shall satisfactorily complete the state curriculum examination in the area of Library Media Specialist prior to being issued a standard license/certificate.

4. The applicant shall hold a Bachelor’s Degree from an accredited institution.

5. The applicant shall satisfy all general regulations of eligibility including, for the standard certificate, completion of the course SPED 4123 Teaching Individuals with Disabilities or its equivalent.

6. Individuals who have not previously completed a teacher education program must apply for, and be admitted to teacher education and to student teaching at the University of Central Oklahoma and complete all program requirements before certification recommendation will be made.

7. The applicant must satisfy all criteria relating to specific requirements for elementary-secondary school certification programs, including admission to teacher education and admission to student teaching.

Individuals who hold teacher certification via a State Department of Education’s Alternative Certification method will not be recommended for additional certifications by UCO. Those individuals may apply for additional certification directly to the Oklahoma State Department of Education through that agency’s Alternative Certification program.
School Principal Certification

General Guidelines
1. The applicant shall satisfy all general regulations of eligibility including, for the standard certificate, completion of the course SPED 4123 Teaching Individuals with Disabilities.

2. The applicant shall hold and maintain a valid Oklahoma standard certificate in one of the following areas: Early Childhood, Career-Technical, Library Media Specialist, Speech-Language Pathology, or an Elementary/Secondary teaching field.

3. The applicant is required to have had two years of teaching experience in an accredited elementary school, middle school, junior high school, or senior high school.

4. The applicant shall hold a Master’s Degree granted by an institution accredited by a regional accrediting association.

Board Certified Behavior Analyst

The Behavior Analyst Certification Board, Inc. has approved the following course sequence as meeting the coursework requirements for eligibility to take the Board Certified Behavior Analyst Examination. Applicants will have to meet additional requirements to qualify. In addition to the course sequence and passing the national exam, successful completion of 1600 clock hour supervised internship is required. This course sequence is available only to those with earned Master’s Degrees in related fields or those currently enrolled in Master’s Degree programs in related fields.

Prerequisite:
1. Completion of an earned Master’s Degree OR acceptance into a Master’s Degree. Program in a related field is a prerequisite for entrance into the program [Ex. Psychology, School Psychology, Experimental Psychology, Counseling Psychology, Special Education, Speech and Language Pathology, Guidance and Counseling, Early Childhood Education, Education or Nursing.) The acceptance committee will determine applicability of degree]

General Guidelines:
1. A Master’s Degree and the course sequence must be earned before the student can apply to take the Board Certified Behavioral Analyst Examination.
2. A Grade of C or higher must be earned on each course in the program.
3. The 1600 clock hour internship must be completed under supervision as prescribed by the National Board.
4. Acceptance into the program is based on submission of an application, a copy of the applicant’s transcript and recommendations from 2 people familiar with the applicant’s suitability for serving as a Behavior Analyst.
5. Admission to the program will be by cohort group. Each cohort group starts in a Fall semester and takes one course per semester for two years (one course is taken during the summer between year 1 and year 2). A portion of the internship may be earned during the course sequence as long as activities supervised are within the scope of the course(s) taken.

Certificate: Standard

Individuals who hold teacher certification via a State Department of Education’s Alternative Certification method will not be recommended for additional certifications by UCO. Those individuals may apply for additional certification directly to the Oklahoma State Department of Education through that agency’s Alternative Certification program.
### Speech-Language Pathology Certification

Completion of the required courses will enable the student to apply for official certification. This certificate authorizes the holder to provide speech-language pathology services in any accredited school in Oklahoma. A list of required courses may be obtained from the program advisor.

The speech-language pathologist is a professional concerned with clinical diagnosis, evaluation and remediation of communication handicaps which impair an individual’s ability to appropriately access social and academic learning experiences.

This program consists of an approved program at the undergraduate level and at the graduate level.

### General Guidelines for the Standard Speech-Language Pathology Certificate

1. The applicant must satisfy all criteria for elementary-secondary school certificate programs, including admission to teacher education standards.
2. Individuals who have not previously completed a teacher education program must apply for and be admitted to teacher education at the University of Central Oklahoma before certification will be recommended.
3. The applicant must hold the master’s degree for the Standard Certificate.
4. The applicant shall pass the state curriculum examination in Speech-Language Pathology or the ETS Praxis Series Speech-Language Pathology test prior to being issued a standard certificate/license.
5. The applicant shall have completed at least nine semester hours within the five years immediately preceding the date of application in order to apply for certification. Evidence of speech-language pathology experience in a hospital, other agency, or private practice may be substituted at a rate of three semester hours for each year of experience. If employment is used in lieu of course completion, official verification of employment must accompany the application for certification.
6. A minimum of the last nine semester hours of course work must be completed at the University of Central Oklahoma for certificate recommendation by UCO.

### Standard Speech-Language Pathology Certificate (Additional Guidelines)

1. The applicant must satisfy all requirements related to formal admission to Graduate Studies in the UCO approved program for the Standard Speech-Language Pathology Certificate.
2. The applicant must complete an approved program for the Speech-Language Pathology Certificate which consists of a minimum of forty-six semester hours of graduate course work culminating in a Master’s Degree.
3. The academic and practicum requirements of the ASHA C.C.C. must be met before an individual can receive a master’s degree in speech-language pathology (SLP) and before standard certification can be recommended. If an individual holds a bachelor degree in an area other than speech-language pathology, a number of prerequisites will be required in the specialization area. The standard requirements for ASHA C.C.C. and the master’s degree combined are greater than the 46 semester hours required for the Master’s Degree alone. Again, the Master’s Degree will not be conferred unless ALL academic and practicum requirements for national certification (ASHA -C.C.C.) have been met. The individual seeking a certificate/degree in speech-language pathology will need to contact an advisor in that area for specifics.
College of Liberal Arts

1. Plan of Study. File a Plan of Study with your advisor and the Jackson College of Graduate Studies by the end of the first semester of graduate work. The plan must be signed and dated by the student and the graduate advisor before it can be considered official.  
2. Create an Advisory Committee before the second semester of enrollment. An Advisory Committee of four faculty members will direct the program of each student. Three of the members will be from the content areas, and one member will be from the College of Education. One member of the Advisory Committee will serve as chairperson and will assume the major responsibility for advising the student. The department’s Director of Graduate Studies will maintain all student records and will serve as an advisor in supervising the student’s progress toward a degree.  
3. Academic Standards. Meet the following course work standards:  
   (a) Overall GPA of 3.00 or higher;  
   (b) no more than 6 hours of "C;"  
   (c) no more than six advisor-approved hours from traditional correspondence courses; and,  
   (d) a minimum of six hours of graduate-level seminars within the Social Studies courses described above.

International Studies Program

The International Studies Program is not a departmental major which leads to a degree, but is an interdisciplinary program intended to complement a major, and can be taken in conjunction with any degree program. It includes courses having international content which are offered by various departments, such as history, political science, geography, foreign languages, economics, humanities, business, education, and others.

The International Studies Program is designed for students who wish to learn about foreign countries and cultures, as well as relations among nations. The program is helpful to students who wish to apply the skills learned in their master’s program in a foreign setting, such as:

1. Business majors who want to work for companies having international operations.

2. Education majors who wish to teach abroad.

3. Journalism majors who want to report on happenings in other countries.

4. Military science students who, as officers, may be given major assignments or become involved in defense planning.

5. Other majors who wish to broaden their knowledge to include international affairs.

The Graduate International Studies Program consists of 12 hours of graduate courses with significant international content including two one-hour International Studies Program workshops. The student must demonstrate a proficiency in two United Nations approved languages.

Completion of the program is recognized on the student's transcript upon graduation by a statement indicating the area of specialization.

For further information, contact:

Dr. Jeffrey Plaks, Program Director
LAR Room 204A
Department of History and Geography
jplaks@uco.edu
Applied Math–Mathematics, M.S.

This major is designed to prepare students to meet the demands of industry, business, and government for individuals with expertise in the applications of the mathematical sciences. While ensuring sound mathematical training, the degree program concentrates on the development of widely applicable intellectual skills and provides experience with concrete problems.

Applied Mathematics–Mathematics Teaching, M.S.
This major is designed to prepare students to meet the demands of industry, business, and government for individuals with expertise in the applications of the mathematical sciences. While ensuring sound mathematical training, the degree program concentrates on the development of widely applicable intellectual skills and provides experience with concrete problems.

Admission Requirements
Submit the following items to the Jackson College of Graduate Studies, 100 N. University Dr., Nigh University Center, Rm. 404, Edmond, OK 73034.

1. Paper or online application for admission (www.uco.edu/graduate/admissions.html).

2. Official copies of undergraduate and graduate transcripts from each institution attended with all degrees posted. All transcripts must be from accredited institutions. Undergraduate transcripts must show:
   a. A minimal 3.00 GPA overall and 3.00 GPA in the last 60 hours attempted.
   b. Completion of the following prerequisite courses: Matrix Algebra or Linear Algebra, Differential Equations, Numerical Analysis, Statistical Methods I.

3. Students falling below these standard may qualify for conditional or provisional admission. See Graduate Admission Information.

4. Students with a native language other than English must submit evidence of English language proficiency. See Graduate Admission Information - English Language Proficiency.

Other Requirements

1. Plan of Study. File a Plan of Study with your advisor and the Jackson College of Graduate Studies by the end of the first semester of graduate work. The plan must be signed and dated by the student and the graduate advisor before it can be considered official.

2. Academic Standards. Meet the following course work standards:
   (a) Overall GPA of 3.00 or higher;
   (b) no more than 6 hours of “C;” and,
   (c) no more than six advisor-approved hours from traditional correspondence courses.

3. Achieve a minimum score of “pass” on competency exams.

4. Thesis (optional). If applicable, complete an acceptable thesis and successfully defend it in public, two paper copies of the thesis and one electronic copy to the library through Proquest and the thesis’ title page, original signature page, and abstract page to the JCGS.

5. Final Requirements. Apply for graduation through the JCGS by advertised deadline.

NOTE: Request for re-examination will not be granted more than one time.
Biology. M.S.

The M.S. Degree in Biology is designed to give students a breadth and depth of training in biology beyond that provided by the baccalaureate degree. The educational breadth that our students achieve through the Biology M.S. degree originates in the requirement that students complete upper level/graduate courses in six core areas: Plant Biology, Animal Biology, Microbiology, Genetics, Ecology, and Cell Biology.

All students choose one of two paths of study. The Field/Laboratory-Thesis Option and the Literature-Thesis Option both provide further educational depth through research and completion of specific courses selected for the students’ personalized programs of study.

The Field/laboratory-Thesis Option provides graduate students with experience in the design, execution, and reporting of scientific research based upon the collection of original data. Graduate students who plan to enter research professions and/or pursue a doctorate degree should enroll in the Field/Laboratory Thesis Option.

The Literature-Thesis option provides graduate students with more graduate coursework than the Field/Laboratory Thesis option. Graduate students who want to reinforce their knowledge of biology for a career as an educator at the secondary or two-year college levels may want to take advantage of this option.

Admission Requirements

Send the following items to the Jackson College of Graduate Studies, 100 N. University Dr., Nigh University Center, Rm. 404, Edmond, OK 73034.

1. Written statement of a graduate faculty member’s commitment to serve as mentor/advisor.
2. Paper or online application for admission (www.uco.edu/graduate/admissions.html).
3. Official copies of undergraduate and graduate transcripts from each institution attended with all degrees posted. All transcripts must be from accredited institutions. Undergraduate transcripts must show:
   a. A minimal 2.50 GPA overall and 3.00 GPA in the last 60 hours attempted.
   b. Completion of 18 undergraduate hours in Biology and other prerequisites (10 hrs chemistry including Organic Chemistry, one course in Physics, Calculus and Statistics with a minimum grade of "C").
4. GRE scores with a minimum overall (quantitative + verbal sections) score of 1000 or a score sufficient to generate an index score of 5.5 or higher using one of two formulae: Either (GRE/400 + GPA) or (GRE/400 + GPA for last 60 hours attempted).
5. Three letters of recommendation.
6. Students with a native language other than English must submit evidence of English language proficiency. See Graduate Admission Information - English Language Proficiency.

Note: Students must meet with faculty mentor/advisor in group or individual advisement session before enrolling.

Guided Electives (5000 level courses only)...... 28 Hours
Courses Chosen in Consultation with Thesis Advisory Committee
TOTAL HOURS REQUIRED .................................. 32 HOURS

NOTE: Each student must complete 32 hours of 5000 level coursework, which includes thesis hours. To ensure that students are broadly educated in biology, each student must have satisfactorily completed (during either their undergraduate or graduate work) at least one 3000, 4000 or 5000 level course in each of the following areas: Plant Biology, Animal Biology, Microbiology, Cellular Biology, Genetics and Environmental Biology. Students who enter the M.S. Biology Program without completing an upper-level course in each core area will be required to complete a 5000 level course in each area in which they are deficient. The Plan of Study should be designed based on this requirement and the student's academic record.

Other Requirements

1. Advisory Exam. Take the Advisory Exam over six areas: Animal Biology, Plant Biology, Cell Biology, Microbiology, Genetics, Ecology.

2. Thesis Advisory Committee. Form a Thesis Advisory Committee and meet with it each semester.

3. Plan of Study. File a Plan of Study with your advisor and the Jackson College of Graduate Studies by the end of the first semester of graduate work. The plan must be signed and dated by the student and the graduate advisor before it can be considered official.

4. Academic Standards. Meet the following course work standards:
   (a) Overall GPA of 3.00 or higher;
   (b) no more than 6 hours of "C;" and,
   (c) no more than six advisor-approved hours from traditional correspondence courses.

5. Comprehensive Exam. Complete a comprehensive exam with a minimum score of "pass" in all of the following areas: Animal Biology, Plant Biology, Cell Biology, Microbiology, Genetics, and Environmental Biology/Ecology. Note: With the approval of the graduate advisor, a student who fails one or more of these exams may once, but only once, retake those exam(s).

6. Thesis. Complete an acceptable thesis, present it to the public, and defend it successfully before the Advisory Committee. Submit two paper copies of the thesis and one electronic copy to the library through Proquest and the thesis' title page, original signature page, and abstract page to the JCGS.

7. Final Requirements. Apply for graduation through the JCGS by advertised deadline.

Engineering & Physics. M.S.
This program is designed so that its graduates can enter careers in diverse interdisciplinary fields in science and technology-related industries. The program also provides advanced study in physics and engineering for traditional students who intend to pursue the Ph.D. in Physics or Engineering.

Admission Requirements
Submit the following Items to the Jackson College of Graduate Studies, 100 N. University Dr., Nigh University Center, Rm. 404, Edmond, OK 73034.

1. Paper or online application for admission (www.uco.edu/graduate/admissions.html).
2. Official copies of undergraduate and graduate transcripts from each institution attended with all degrees posted. All transcripts must be from accredited institutions. Undergraduate transcripts must show:
   a. A minimal 2.75 GPA overall and 3.00 GPA in the last 60 hours attempted or a 3.00 overall GPA.
   b. Completion of 24 undergraduate hours in physics or the equivalent and mathematics through differential equations and other prerequisites (if any), as determined by the graduate advisor.
3. Students falling below these standards may qualify for conditional or provisional admission. See Graduate Admission Information.
4. Students with course deficiencies must complete 3000/4000 level courses in physics and engineering in addition to the program course requirements.
5. Graduate Record Examination scores. A GRE score of 1150 (combined verbal and quantitative scores) is recommended. Scores must be submitted before acceptance to the program.

</tr>
<tr>
<td>ADED 5122</td>
<td>Foundations Of Training And Development</td>
<td>Designed to provide an overview of the training and development field. The major emphasis is on the roles and responsibilities of training and development personnel, the structure of departments housing the training and development function, and how training and development personnel identify and provide for training needs.</td>
</tr>
<tr>
<td>ADED 5133</td>
<td>Philosophical Foundations Of Adult Education</td>
<td>This course is an overview of the philosophical and historical foundations influencing adult adult education including a disciplined philosophical analysis of major issues and problems in adult education. The development of individual teaching philosophies, study of significant philosophers in the field of adult education, and the impact of historical education events on today's education system are included.</td>
</tr>
<tr>
<td>ADED 5163</td>
<td>Organizational Dynamics</td>
<td>This course will examine various types of organizational structures and the impact communications has on the operations of the organization, especially when facing change. This will include efficient and effective written, verbal, and technology communications for employees and administrators. Attention is given to topics such as: multiple generational mix; attentive listening; careful negotiating; rapport building; problem solving; rumor handling; performance documenting; job designing; and employee recruiting and selecting.</td>
</tr>
<tr>
<td>ADED 5233</td>
<td>Curriculum Design in Education</td>
<td>This course will examine the techniques for the analysis of occupations and technical content pertaining to occupational, technology education, and training and development settings. Identification of specific tasks through a training analysis will be used as the basis for developing a complete program of instruction. The analysis process is followed by an examination of procedures for the selection and development of course content in occupational technology and training and development programs. Procedures of curriculum development and development of group and individualized instructional materials will also be examined.</td>

This course integrates sculptural concepts with the design of functional furniture. Methods and materials used facilitate the harmonious balance between utility and art. Prerequisite(s): ART 3053.

ART 5043 - Photo Composition
This course offers the study of photography as an art form. Students develop their visual perception using the camera, explore creative darkroom techniques, participate in an exhibition, and produce a portfolio of photographs. Prerequisite(s): JOUR 1123, three hours of art.

ART 5053 - Native American Art
This course covers the evolution of Native American art from pre-history roots through contemporary expression. Prerequisite(s): Graduate standing.

ART 5063 - Mural Painting I
This course offers graduate study in the design and painting of large murals. Students participate in on-site planning, equipment preparation and community involvement. Prerequisite(s): Graduate standing in Art and permission of instructor.

ART 5103 - Etching
A study in the intaglio process exploring such basic techniques as etching, drypoint, aquatint, inkless intaglio, and mezzotint. Prerequisite(s): ART 3603.

ART 5113 - Lithography
A course in the basic planographic printing techniques, printing surfaces such as stone, metal, and paper will be explored. Prerequisite(s): ART 3603.

ART 5123 - Serigraphy
The course explores advanced techniques in the screen printing (silk screen) process of printmaking. Prerequisite(s): ART 1063.

ART 5133 - Digital Printmaking
This course is a study of the use of the computer and other related hardware in the creation of fine art multiples. Each student will create limited edition prints using the computer and various computer printers. Prerequisite(s): ART 1042 and 1082.

ART 5143 - Glass Design I
This course offers graduate-level study of basic flat glass fabrication techniques. Students develop skill in the appropriate choice of materials, and apply art elements and principles to create original designs in glass. Prerequisite(s): Six hours of art.

ART 5152 - Watercolor
This course offers graduate study in advanced watercolor techniques. Students will create original paintings in watercolor, acrylics, or any waterbased paint medium. Prerequisite(s): ART 1023, 1082 & 2202.

ART 5173 - Ceramics III
This course is for the graduate student with advanced experience and skill level in ceramic medium. Students research and experiment with clay formulation, glazes, firing techniques and ceramic forms. Prerequisite(s): ART 2703, 2803.

ART 5203 - Advanced Painting
This course offers advanced graduate study in a wide range of painting techniques. Students will create original painting in oil, acrylic, and/or water based medium. Prerequisite(s): ART 3603 Painting II.

ART 5213 - Sculpture III
The individual expressions and techniques in various three-dimensional materials such as wood, metal, stone, and other plastic materials. Prerequisite(s): ART 3053.

ART 5223 - West African Art
This course explores the social, religious, and political influences on the creation of the arts of Africa. Arts from Western Nigeria to Guinea are discussed in relation to stylistic and functional similarities and differences.

ART 5233 - Central African Art
This course explores the social, religious, and political influences on the creation of the arts of Africa. Arts from Central Africa from Eastern Nigeria to South Africa are discussed in relation to stylistic and functional similarities and differences.

ART 5253 - Glass Design II
This course offers graduate-level study of advanced flat glass fabrication techniques. Students develop skill in the appropriate choice of materials, and apply art elements and principles to create original designs in glass. Prerequisite(s): ART 5143 plus six hours of art.

ART 5263 - Ceramics IV
This course is for the graduate student with advanced experience and skill level in ceramic medium. Students research and experiment with clay formulation, glazes, firing techniques and ceramic forms. Prerequisite(s): ART 2703, 2803, 3173.

ART 5273 - Relief Printmaking
This course offers in-depth graduate advanced study in relief printmaking techniques including woodcut, linoleum block, collagraph and monotype processes. Prerequisite(s): Graduate standing.

ART 5303 - History And Criticism Of Art
This course provides an opportunity for extended study of past and contemporary art history with a critical analysis of art content and methods. Prerequisite(s): ART 1112, 3153, 4303.

ART 5313 - Survey Of Art History II
Important movements and leaders in art since 1650 A.D.; their influence upon modern life; forces and trends in the contemporary field. Prerequisite(s): ART 1112.

ART 5343 - Multicultural Art
This course offers a study of the cultural and historical significance of the art from various cultures. Symbols that are common to cultures throughout the world will be discussed in relation to their meanings and possible origins.
**Graduate Course Descriptions**

**ART 5353 - The Business Of Art**
Students will develop business skills needed to successfully market artwork, i.e.: grant writing, record-keeping, developing a portfolio and resume, exhibiting, targeting art markets, and understanding tax requirements. Prerequisite(s): Three hours of art.

**ART 5363 - Art by Women**
This course offers study in the visual art contributions of women. Historical, cultural, and political influences on women’s art are examined.

**ART 5373 - Introduction To Art Therapy**
This course will provide a general overview of the foundation and theories of art therapy and is a required course for art therapy registration and certification. Prerequisite(s): Three hours of art and three hours of psychology.

**ART 5383 - Methods For Teaching Art History**
This course offers the graduate student methods of art history curriculum development. A variety of media is explored in research, documentation and presentation. Prerequisite(s): Graduate standing.

**ART 5403 - Advanced Visual Arts-Elementary Schools**
Development of sequential skills and concepts in the visual arts for elementary schools; survey factors of discipline-based art education (production, criticism, aesthetics, and history.) Prerequisite(s): ART 3803.

**ART 5413 - Advanced Jewelry**
Advanced study in jewelry using the casting processes. The development and production of jewelry with this method. Prerequisite(s): ART 3463.

**ART 5423 - Fiber Arts**
This course offers Graduate level study of a wide range of fiber arts techniques, such as papermaking, feltmaking, and book arts. Students create original, expressive 2-D and 3-D designs in fiber medium. Prerequisite(s): ART 3414.

**ART 5433 - Weaving**
With instructor-direction, students will develop a plan for advanced research and saturation in weaving design. Options will be chosen according to student’s interest, such as weaving for interior design, application to teaching multicultural design, or for personal expression. Prerequisite(s): ART 3403 Weaving.

**ART 5443 - Photo: Special Projects**
This course offers graduate study in a wide range of photographic techniques. Students will create original photographs with both silver and non-silver processes. Prerequisite(s): Three hours photography including darkroom experience.

**ART 5463 - Media In Art Therapy**
This course is designed to acquaint the student with the therapeutic qualities of media as used in clinical and art therapeutic applications. In addition, technical and safe uses of the media will be discussed. Strong emphasis will be placed on defining art therapy as process. Individual research in art therapy techniques and media is required. Prerequisite(s): 3 hours of art and 3 hours of psychology or sociology.

**ART 5473 - Art Therapy Process/Product**
This course will provide an overview of the foundation and theories of art therapy and is a required course for art therapy registration and certification. The course concentrates on the therapeutic benefits of the creative process and product. Prerequisite(s): Three hours of art and three hours of psychology.

**ART 5503 - Ceramic Techniques & Development**
An extended study of creative experiences in a variety of materials and methods used in the teaching of ceramics in art education. Prerequisite(s): ART 4653.

**ART 5522 - Art Presentation And Display**
This class will explore a variety of basic art presentation and display techniques. Each student will learn about and experience various ways to present a variety of artwork. Techniques in mounting, matting, shrink wrapping, laminating, and framing will be covered. Each student will actually use these and other techniques to protect, preserve and display works of art. Each student must supply a variety of artwork for presentation preparation.

**ART 5553 - Photographing Art**
This course offers graduate study in photographing works of art. Topics include cameras, film, and lighting of 2D and 3D works of art. A variety of film types are used to ensure faithful color and exposure accuracy. Prerequisite(s): Graduate standing.

**ART 5600 - Studio Art**
Credit varies from 1 to 4 hours. Prerequisite(s): Written permission.

**ART 5623 - Advanced Form And Surface Design**
An in-depth study of specialized techniques used in three-dimensional form or surface design is offered by skilled guest artists. Integration of studio visual art specializations and design concepts is emphasized.

**ART 5653 - Ceramics II**
Advanced techniques in hand-built and wheel-thrown forms. Lay body preparation and formulation. Development of glaze and advanced techniques in its application. Supervision in firing techniques. Prerequisite(s): ART 3703.

**ART 5703 - Art In America**
A progress study of the cultural arts in America by surveying architecture, sculpture, painting, minor arts, and artists from America’s beginning history throughout the years of growing American art. Prerequisite(s): ART 1112.

**ART 5703 - Art In America**
A progress study of the cultural arts in America by surveying architecture, sculpture, painting, minor arts, and artists from America’s beginning history throughout the years of growing American art. Prerequisite(s): ART 1112.

**ART 5800 - Studio Art**
A variety of film types are used to ensure faithful color and exposure accuracy. Prerequisite(s): Graduate standing.

**ART 5833 - Exhibit Presentation**
The goal of this course is to integrate exhibit design and project management into a practical medium with which the creative artist, historian, interior designer, marketer, and media specialist can impact their chosen audience. Exhibit design and its related presentation forms thereby become a vital medium for audience delivery and offer a unified context for these interdisciplinary skills to be developed into collaborative end product.

**ART 5842 - Elementary Art Educational Methods/Art Majors**
Students develop a sequential discipline-based Art Education curriculum for elementary schools. Prerequisite(s): Graduate standing.

**ART 5853 - Secondary Art Educational Methods/Art Major**
Curriculum materials for secondary school art will be developed and sequentially organized. Presentation techniques are practiced. Prerequisite(s): Graduate standing.

**ART 5900 - Practicum In Art And Design**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**ART 5910 - Seminar / Special Topics**
Credit varies from 1 to 4 hours. Directed intensive study on selected problems of special topics. Prerequisite(s): An undergraduate minor in the subject matter area and permission of graduate advisor.

Graduate Course Descriptions

BADM 5970 - Study Tour
Credit will vary. Subject matter will vary within the department's field of study.

BADM 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

BUSINESS COMMUNICATION (BCOM)
Department of General Business

BCOM 5000 - Workshop
Credit will vary from 1 to 4 hours; subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given. No more than 2 hours of workshop may be counted on a master's degree.

BCOM 5303 - Business Research Methods
Concepts and methods of the scientific research process: defining the problem; stating the hypothesis; designing the investigation; developing the proposal; collecting, organizing, presenting, analyzing, and interpreting the data; and reporting the results in both written and oral forms. Prerequisite(s): Completed all prerequisites for the MBA Program.

BCOM 5323 - Communication & Business Behavior
Application of contemporary management and behavioral theories to interpersonal group communication within business organizations. Prerequisite(s): Completed all prerequisites for the MBA Program.

BCOM 5900 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

BCOM 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study on selected problems or special topics.

BCOM 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

BIOLOGY (BIO)
Department of Biology

BIO 5012 - Intro to Biological Research
This course guides students in designing a research project, writing a proposal, and conducting and reporting research. Additionally, students learn to search the biological literature and critically evaluate published research papers. Emphasis is also placed on the development of written and oral communication skills. An individual research project is required. Prerequisite(s): Minimum 18 hours of biological science and STAT 2103.

BIO 5024 - Freshwater Biology
This course studies freshwater life with special emphasis on community relationships, ecological factors indifferent habitats and their influence on the distributions, abundances, and adaptations of freshwater organisms. It consists of three hours of lecture and three hours of laboratory per week. Extensive field work is required. Prerequisite(s): 12 hours of Biology and STAT 2103.

BIO 5024L - Freshwater Biology Lab
This is a three-hour per week laboratory to accompany BIO 5024.

BIO 5103 - History and Nature of Science
The course surveys the history of the natural sciences beginning with the natural philosophers of ancient Greece and continuing through the Middle Ages, the Renaissance and into the Modern Era. Taught as a series of historical episodes, the course will include discussion of original literature about the scientific process, including the social and philosophical implications of that process. Prerequisite(s): 12 hours of science including at least three hours at the upper division level and STAT 2103.

BIO 5113 - Biogeography
This course is a study of the distribution of organisms, both past and present. The course includes concepts from ecology, evolution, and geology. Prerequisite(s): 12 hours in Biology, including a course in Ecology, STAT 2103 and permission of instructor.

BIO 5120 - Biogeography Lab
This is a three-hour per week laboratory to accompany BIO 5113.

BIO 5124 - Herpetology
The morphology, ecology, physiology, behavior and evolution will be studied in extant and extinct Amphibians and Reptiles. General principles and functional processes will be illustrated using recent empirical findings. Concurrent enrollment in BIO 5124L is required. Prerequisite(s): 15 hours of Biological Science, BIO 2263 and STAT 2103.

BIO 5124L - Herpetology Lab
This is a laboratory for BIO 5124. Prerequisite(s): 12 hours of Biology and BIO 1404.

BIO 5204 - Plant Ecology
This course covers the principles of vegetation analysis and the interaction of plants with their environment. Characterization of important biomes (grass-land, deciduous forest, etc.) with investigations at the population, community and ecosystem levels. BIO 5204L, which includes field work, must be taken concurrently. Prerequisite(s): 12 hours of Biological Science, including BIO 2263 and STAT 2103.

BIO 5204L - Plant Ecology Lab
This is the lab for BIO 5204.

186
**BIO 5254 - Animal Behavior**
The behavior of animals will be studied emphasizing the ecological and evolutionary significance of behavior patterns in nature. General principles and processes will be illustrated using recent empirical findings. BIO 5254L, which includes field work, must be taken concurrently. Prerequisite(s): 12 hours of Biological Science, including BIO 1404 and STAT 2103.

**BIO 5254L - Animal Behavior Lab**
This is a three-hour per week laboratory to accompany BIO 5254. Field work is required.

**BIO 5264 - Mammalogy**
This course is a survey of mammals; their taxonomy, anatomy, ecology, distribution, behavior and natural history. It consists of three hours lecture and three hours laboratory per week and participation on weekend field trips is recommended. Prerequisite(s): 12 hours of Biology including BIO 1304 and STAT 2103.

**BIO 5264L - Mammalogy Lab**
This is a three-hour per week laboratory to accompany BIO 5264. Participation on weekend field trips is recommended.

**BIO 5294 - Plant Taxonomy**
This course is a study of the classification of the vascular plants with emphasis on distribution and identification of local flowering plants. BIO 5294L, which includes field work, must be taken concurrently. Prerequisite(s): 12 hours of Biology including BIO 1304 and STAT 2103.

**BIO 5294L - Plant Taxonomy Lab**
This is the laboratory for BIO 5294.

**BIO 5303 - Physiological And Biochemical Adaptation**
This course is a comprehensive study of physiological and biochemical strategies which help organisms adapt to various environmental conditions. Prerequisite(s): One course in Organic Chemistry and 12 hours of Biological Science to include at least one advanced class in Cell Physiology, Cell Biology or Biochemistry; and STAT 2103.

**BIO 5324 - Marine Biology and Laboratory**
This course studies marine life with special emphasis on community relationship, ecological factors in different habitats and their influence on the distributions, abundances, and adaptations of marine organisms. It consists of three hours of lecture and three hours of laboratory per week. Extensive field work, including a one-week trip to the Texas Gulf Coast is required. Prerequisite(s): Graduate standing, BIO 2263, STAT 2013 and written permission of instructor.

**BIO 5324L - Marine Biology Lab**
This is a three-hour per week laboratory to accompany BIO 5324.

**BIO 5334 - Environmental Microbiology & Lab**
This course is an advanced study in microbiology dealing with the use of microorganisms to mineralize, detoxify and degrade environmental contaminants. This course will study the mechanisms and processes by which microorganisms are involved in the treatment of sewage, identification of waterborne microbial diseases. The course will investigate the remediation of heavy metal contaminated soils. Laboratory exercises will enable students to become familiar with and to use standard tests for the analysis of water and wastewaters and the biodegradation of environmental pollutants. Prerequisite(s): Graduate standing and BIO 1404, 1304, 2314, 2263, CHEM 1103, 1223, 3303 and STAT 2103.

**BIO 5354 - Plant Anatomy**
This course includes a study of external and internal structures of vascular plants with attention to correlating structure with function.

**BIO 5354L - Plant Anatomy Lab**
This is the laboratory for BIO 5354.

**BIO 5443 - Microtechnique**
The course is an introduction to manual techniques of tissue processing and staining procedures along with microphotography, phase microscopy, and fluorescence microscopy. Student presentations of special projects are required. It consists of one hour lecture and six hours laboratory per week. Prerequisite(s): Minimum 12 hours of biological science and STAT 2103. BIO 5443L must be taken concurrently.

**BIO 5443L - Microtechnique Lab**
This is the laboratory to accompany BIO 5443.

**BIO 5454 - Molecular Cell Phys and Lab**
This course emphasizes a study of the molecular and physiological aspects of cell life. Topics include cell dynamics, protein structure and function, nucleic acids, recombinant DNA technology, sub-cellular organization, photosynthesis, respiration, integrated metabolism, transport, and differentiation. It consists of lecture and laboratory integrated into six hours per week; length of laboratory sessions varies with weekly topics. Prerequisite(s): 12 hours of biology including BIO 2203 and CHEM 3303, STAT 2103 and graduate standing.

**BIO 5454L - Cell Physiology Lab**
This is a three-hour per week laboratory to accompany BIO 5454.

**BIO 5504 - Mycology**
This course is a general survey covering the morphology, physiology, reproduction, and economic importance of the saprophytic and parasitic fungi, including those of medical importance, with laboratory experience in their collection, cultivation, and identification. BIO 5504L must be taken concurrently. It consists of three hours lecture and three hours of laboratory per week. Prerequisite(s): 12 hours of Biology including BIO 1304 and BIO 2314; and STAT 2103.

**BIO 5504L - Mycology Lab**
This is a three-hour laboratory to accompany BIO 5504.

**BIO 5524 - Aquatic Entomology**
This course studies the taxonomy, morphology, ecology, and evolution of aquatic insects occurring in North America. The course consists of three hours lecture and three hours of laboratory per week. A collection is required and additional laboratory time is often necessary. Prerequisite(s): 15 hours of Biological Science including BIO 1404; and STAT 2103.

**BIO 5524L - Aquatic Entomology Lab**
This is a three-hour per week laboratory to accompany BIO 5524.

**BIO 5563 - Advanced Mammalian Physiology I**
This course is a comprehensive study of human nervous, cardiovascular, and respiratory systems. Prerequisite(s): 12 hours of Animal Biology, including BIO 2604, CHEM 3303 or CHEM 3403; and STAT 2103; Physics strongly recommended.

**BIO 5563L - Advanced Mammalian Physiology Lab I**
This course is a comprehensive study of human digestive, excretory, reproductive, and endocrine systems. Prerequisite(s): 12 hours of Animal Biology including BIO 2604 and CHEM 3303 or CHEM 3403 and STAT 2103.
BIO 5633 - Scanning Electron Microscopy & Lab
This course is a study of the theory and principles of Scanning Electron Microscopy. Topics include sample preparation, critical point drying, sputter coating, and operation of scanning electron microscope (SEM). Laboratory exercises will enable students to become proficient in the operation of the SEM and supporting instrumentation. Prerequisite(s): BIO 1304, 1404, 2314, STAT 2103 and 12 hours of Biology electives and graduate standing.

BIO 5703 - Evolution
This course is a study of the theory and processes of evolution with emphasis on the importance of evolution as a unifying concept to the field of biology. Both historical and the modern concepts are incorporated. Prerequisite(s): 12 hours of biology including BIO 2233, or BIO 3304; and STAT 2103. Ecological background recommended.

BIO 5723 - Biometrics
This course will focus on univariate and selected multivariate statistical techniques used in Biology. Emphasis will be on data collection, presentation, hypothesis formation and testing. Computer data analysis will also be introduced. Prerequisite(s): 15 hours of Biology, MATH 1513 and STAT 2103.

BIO 5734 - Ornithology and Laboratory
This course is a study of the birds of Oklahoma, their taxonomy, physiology, anatomy, ecology, distribution, behavior, and natural history. There is a three-hour per week laboratory. Field trips are required. Prerequisite(s): Graduate standing and 15 hours of biology, including BIO 3534 or BIO 3454 (or permission of the instructor); and STAT 2103.

BIO 5743 - Molecular And Population Genetics
This course is an advanced study of modern genetics theory. Major topics in this course include behavior, development, immuno-genetics, quantitative and evolutionary genetics. The molecular techniques used to answer biological questions are emphasized. Prerequisite(s): BIO 2233 or 3304; CHEM 3303; STAT 2103.

BIO 5763 - Biology Of Cancer
This course is designed to develop students' understanding of the function, structure, and reproduction of normal cells and how cancer cells are different. Classification and naming of neoplasms (tumors and cancers) and spread of cancer (invasion and metastasis) will be discussed. Physical, chemical and biological agents responsible for transformation and mechanisms of oncogenesis will be examined. The clinical aspect so cancer will be characterized and methods of treatment will be included. Prerequisite(s): 15 hours of Biology including BIO 2314; and STAT 2103.

BIO 5843 - Virology
This course is a detailed study of the nature and structure of viruses on host cells. Also included will be the viral genetics, molecular cloning, pathogenesis of viral diseases, mechanism of host resistance and a survey of tumor and cancer causing viruses. Concurrent enrollment in BIO 5843L is required. Prerequisite(s): 12 hours of Biology including BIO 2314; and STAT 2103.

BIO 5843L - Virology Lab
This is the laboratory to accompany BIO 5843.

BIO 5853 - General Methods Of Teaching Science
This course is a study of different methods/approaches of teaching science (life and physical, grades 6-12) and current issues in science education for secondary science education majors. Curriculum includes individual experience involving application of methods and approaches learned in the course. It consists of two lecture hours and three laboratory hours per week. Prerequisite(s): Admission to teacher education is required plus 24 hours of Science courses and STAT 2103.

BIO 5853L - General Methods Of Teaching Science Lab
This is a three-hour laboratory to accompany BIO 5853.

BIO 5900 - Practicum In Biology
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

BIO 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Prerequisite(s): STAT 2103.

BIO 5920 - Workshop in Biology
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study and normal involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

BIO 5930 - Individual Study In Biology
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

BIO 5940 - Field Study in Biology
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study.

BIO 5950 - Internship In Biology
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

BIO 5960 - Institute In Biology
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study.

BIO 5970 - Study Tour
Credit will vary. Subject matter will vary within the department's field of study.

BIO 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

CHEMISTRY (CHEM)
Department of Chemistry

CHEM 5103 - Biochemistry II
Metabolic pathways and their regulation are studied, emphasizing enzyme reactions and regulation in mammalian systems. Topics include energy pathways, synthetic pathways, and the balancing of tissue needs via hormonal regulation. Each student will complete a paper on the use of enzymes or related proteins in forensic investigations. The instructor and the student will collaborate on the selection of the research topic; the approach may be historical, molecular biological, or biochemical, but the work must include a hypothesis originated and developed by the student. Prerequisite(s): CHEM 3403; CHEM 3323 and BIO 2203 are strongly recommended.
## Graduate Course Descriptions

**CHEM 5253 - Forensic Science Analysis & Lab**
This course provides an introduction to classical and modern forensic science laboratory techniques with emphasis on the theory of modern analytical instrumentation and application to solving forensic problems. Techniques covered include latent fingerprints, textile fibers, poisons and drugs, tool mark and firearm characterization, DNA analysis, and quantitative determination of alcohol and drugs in blood. Concurrent enrollment in CHEM 5253L is required. Prerequisite(s): CHEM 3403 Biochemistry I and CHEM 3454 Fundamentals of Instrumental Analysis and Laboratory.

**CHEM 5253L - Forensic Science Analysis Lab**
This laboratory course accompanies CHEM 5253. Concurrent enrollment in CHEM 5253 is required.

**CHEM 5454 - Advanced Instrument Analysis & Lab**
This course is a detailed study of modern analytical instruments with emphasis on the theory, design, applications and interpretation of data obtained from these instruments. Instrumental methods used will include electroanalytical and thermal analysis, NMR, atomic absorption, emission, x-ray and Raman spectroscopy, radiochemistry and selected chromatographic methods. Prerequisite(s): CHEM 3454; CHEM 3602 or concurrent enrollment.

**CHEM 5454L - Advanced Instrument Analysis Lab**
This laboratory course accompanies CHEM 5454. Concurrent enrollment in CHEM 5454 is required.

**CHEM 5603 - Advanced Organic Chemistry**
This course is a continuation of CHEM 3303 - CHEM 3323 sequence, and is primarily intended to provide a graduate-level core course in organic chemistry. The emphasis in this course is on theoretical organic chemistry, especially mechanisms of organic reactions and the evidence that supports them, including molecular orbital theory, stereochemistry, kinetics, and thermodynamics. Prerequisite(s): CHEM 3323 and CHEM 3503 or concurrent enrollment.

**CHEM 5900 - Practicum In Chemistry**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**CHEM 5910 - Seminar / Special Topics**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

**CHEM 5920 - Work shop in Chemistry**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

**CHEM 5930 - Individual Study In Chemistry**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**CHEM 5940 - Field Study In Chemistry**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**CHEM 5950 - Internship In Chemistry**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**CHEM 5960 - Institute In Chemistry**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**CHEM 5970 - Study Tour**
Credit will vary. Subject matter will vary within the department’s field of study.

**CHEM 5990 - Thesis**
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

**CHINESE (CHIN)**

### Department of Modern Languages, Literature & Cultural Studies

**CHIN 5900 - Practicum In Chinese**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**CHIN 5910 - Seminar / Special Topics**
Credit will vary from 1 to 4 hours. Subject matter will vary from within the department’s field of study.

**CHIN 5920 - Workshop In Chinese**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

**CHIN 5930 - Individual Study In Chinese**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**CHIN 5940 - Field Study In Chinese**
Credit will vary from 1 to 8 hours. Subject matter will vary from within the department’s field of study.

**CHIN 5950 - Internship In Chinese**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**CHIN 5960 - Institute In Chinese**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**CHIN 5970 - Study Tour**
Credit will vary. Subject matter will vary within the department’s field of study.

**CHIN 5990 - Thesis**
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

**CRIMINAL JUSTICE (CJ)**

### Department of Sociology/Criminal Justice/ Substance Abuse Studies

**CJ 5013 - Juvenile Justice Systems Management & Admin.**
The juvenile justice system in America will be explored in depth from juvenile intake into the system to final disposition. Juvenile and police relations, the juvenile court process, juvenile law, juvenile rights, and the organizations, management and administration of juvenile bureaus will be covered. Operating juvenile systems will be studied and compared both on a national and international basis.

**CJ 5023 - Community Oriented Policing**
This course examines police and community collaboration to solve and prevent crime with a focus on police/community relations.
Graduate Course Descriptions

CJ 5033 - Critical Issues In Criminal Justice
The object of this course is to present to the student major critical issues facing the criminal justice system in America. Major emphasis will be placed on the making of criminal law, police power in a democratic society, problems within the court and the correctional process in America. This course intends to develop an understanding in depth on the part of the student concerning major critical issues in the area of criminal justice.

CJ 5043 - Modern Criminal Investigations
This course is designed to combine the practical and theoretical aspects of criminal investigations; develop an analytical and practical understanding of the investigative process and explore future predictions of crime solving technology and techniques from a law enforcement perspective. Prerequisite(s): POL 3613.

CJ 5053 - Principles of Mgmt In Criminal Justice Organizations
The criminal justice process in America will be viewed in depth from a systems approach. Areas to be covered are: (1) criminal justice as a manageable system, (2) systems as an approach to management, (3) systems management modeling, (4) criminal justice organizational consideration, and (5) making the criminal justice model go systematically.

CJ 5063 - Innovation In Corrections & Penology
This course will be designed to explain the needs for research and the interpretation of data in the criminal justice system. Emphasis will be placed on planning, interpretation, implementation, and evaluation of programs in corrections and penology. The remainder of the course will focus on new and innovative programs in corrections and penology.

CJ 5073 - Elements Of Criminal Offenses
This course will examine the foundations of American jurisprudence and the enactments of criminal offense statutes. The elements of and defenses to inchoate offenses, offenses against persons, crimes against persons, crimes against morality, alcohol/drug offenses, white collar/organized crime, offenses against public health, offense against public order and offenses against justice and public order will be reviewed in detail as well as other miscellaneous crimes, statutes and important appellate court cases. Prerequisite(s): POL 3613.

CJ 5093 - Police Systems Management And Administration
The police process in America will be viewed from a systems approach. Police activity represents only one aspect of the total criminal justice process. Areas to be covered: (1) police systems management and administration, (2) behavioral science application to police management, (3) police management and administration tasks, (4) systems analysis for police, (5) organizational development and managerial functions, and (6) police productivity.

CJ 5113 - Research Methods In Criminal Justice
Research Methods in Criminal Justice is designed to acquaint students with quantitative and qualitative research methodologies, including an in-depth analysis of the following: conceptualization of research, types of sampling strategies, data collection methods, research design and proposal writing. Prerequisite(s): CJ 3643 and SOC 3633 with a minimum grade of “C” or permission of the instructor.

CJ 5123 - The Jury System
This course is designed to provide an in-depth study of the processes and procedures of a jury trial in the American criminal justice system. The course will cover: the origin of juries, how jury panels are developed, how juries are selected, the criminal trial court procedures during trial, the legal right of an accused during a trial, a brief overview of the appellate court system for criminal cases.

CJ 5133 - Correctional Systems Management & Administration
The correctional process will be viewed from a systems approach since it represents one element in the total criminal justice process. Attention will be given to the correctional process and its relationship to other institutional and organizational elements within the total Criminal Justice system.

CJ 5143 - Family Violence Investigations
This course will cover law enforcement/social service agency investigations of family violence and provide an overview of the many facets, characteristics and theories of family violence, including but not limited to, child abuse/neglect, elder abuse/neglect, domestic violence (spousal &non-spousal), dating violence and date rape.

CJ 5153 - Research and Planning
This course will examine the development of criminal justice policy and procedures using secondary data analysis, crime mapping, and open source data to establish the criterion for change and allocation of resources.

CJ 5203 - Dangerous/Violent Offenders
This course presents the characteristics, behaviors, and attitudes of violent offenders with particular emphasis on sex offenders. The areas of domestic violence, pedophilia, sexual assault, and mass and serial murder comprise separate sections of the course. Prerequisite(s): SOC 3633.

CJ 5213 - Drug Dependency & Crime
This course examines major categories of drugs that are sold and abused in America. The history of drug use, legislation and enforcement, sociology and psychology of drug abuse and drug prevention/treatment will be included.

CJ 5233 - Writing & Evaluating Research
This course examines advanced principles and procedures of scholarly research in the criminal justice field.

CJ 5253 - Principles of Mgnt In Criminal Justice Organizations
The correctional process will be viewed from a systems approach since it represents one element in the total criminal justice process.

CJ 5263 - Ethics And Testimony
This course is designed to provide a complete and integrated study of victimization, including a comprehensive review of the history and theories of victimology, the interaction of crime victims with others in the criminal justice system, an in-depth examination of diverse types of victimization, an examination of current as well as classical works in the field and a focus on victim services. Prerequisite(s): Graduate standing.

CJ 5413 - Delinquent Child Law
This course is a comprehensive survey of the evolution of the laws, agencies, institutions, courts and treatment for juvenile delinquents in Oklahoma and the United States, including the terminology unique to juvenile legal system and the processes and legal procedures of juvenile courts in Oklahoma and the United States. Prerequisite(s): SOC 3103, 4573.
Graduate Course Descriptions

CJ 5423 - Child Abuse And Neglect Law
This course is designed to give the student an overview of the development of unique terminology, laws, institutions, social service agencies, police units, procedures and courts to protect abused/ neglected children in Oklahoma and the United States.

CJ 5433 - Oklahoma Juvenile Correctional System
This course is a comprehensive survey of the Oklahoma juvenile correction system. Included will be a review of the statutes creating, regulating and dictating the agency, institutions, infrastructure, processes, treatment procedures and personnel of various institutions and agencies. Prerequisite(s): CJ 4413, 4423, SOC 4573.

CJ 5443 - International Juvenile Systems
This course is designed to give the student an overview of various international juvenile systems and explore how those countries deal with juvenile delinquents and other juveniles in comparison to juvenile court procedures and laws in the United States. Prerequisite(s): CJ 4413, 4423, 4433, SOC 4573.

CJ 5523 - Cyber Crime
This course provides an introduction to the investigation of computer crime and the forensic examination of digital evidence.

CJ 5533 - White Collar Crime
This course emphasizes debates about white collar crime; different types of white collar crimes; theories and explanations of white collar crime; victimization and offender sentencing issues; and difficulties in the criminal justice system response to white collar crimes. Prerequisite(s): CJ 3643 with a minimum grade of “C”.

CJ 5633 - Terrorism & Homeland Security
This course provides an overview of the historical and current context of international and domestic terrorism using a criminological and criminal justice framework.

CJ 5643 - Advanced Crime Theory
This course examines a range of criminological theories pertaining to offending populations and the correlates of crime. Prerequisite(s): SOC 3633.

CJ 5713 - Community-Based Corrections
This course is designed to give the student an in-depth overview of probation, parole, halfway houses, work furlough programs and other comprehensive aspects of community-based corrections in Oklahoma and the United States. Prerequisite(s): CJ 4703.

CJ 5723 - Critical Issues In Corrections
This course is designed to give the student a comprehensive survey of the controversial issues in Oklahoma and American corrections, including but not limited to: rehabilitation v. punishment, shaming, electronic monitoring, boot camps, privatization, community supervision v. Incarceration, drug offender incarceration v. treatment, white collar offenders, death penalty for adults and juveniles, coed institutions, incarceration of pregnant women, and other issues in the field of corrections. Prerequisite(s): CJ 4703.

CJ 5813 - Oklahoma Adult Correctional System
This course is a comprehensive survey of the Oklahoma adult correction system. Included will be a review of the statutes creating, regulating and mandating the infrastructure, processes, procedures and personnel of various institutions and agencies within the Oklahoma adult correction system. Prerequisite(s): CJ 4063, 4703, 4723.

CJ 5823 - International Correction Systems
This course is a survey of various correction systems in the world, including England, France, Sweden, Japan, Russia, China and will include a comparison to corrections in Oklahoma and the United States. The correction systems will be explored in the context of the political, historical, organizational and procedural context for the various countries. Prerequisite(s): CJ 4703, 4713, 4723, 4813.

CJ 5900 - Practicum In Criminal Justice
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Supervised practical application of previously studied theory. Limited to four semester hours per enrollment.

CJ 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

CJ 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

CJ 5930 - Individual Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study. Study completed on an individual basis covering material specified by the instructor.

CJ 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

CJ 5950 - Internship In Criminal Justice
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

CJ 5960 - Institute In Criminal Justice
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Assignments are given and students receive normal letter grades.

CJ 5970 - Study Tour In Criminal Justice
Credit will vary. Subject matter will vary within the department’s field of study. An enrollment associated with educational travel organized through university faculty. Such enrollment may be for credit or audit.

CJ 5990 - Thesis In Criminal Justice
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

COMPUTER SCIENCE (CMSC)
Department of Computer Science

CMSC 5023 - Programming Languages
This course provides a study of the underlying concepts of programming languages such as automata, grammars, translation, bindings, scope, data types, control, subprogramming, concurrency, and exception handling. Languages representing contrasting paradigms are studied. Prerequisite(s): CMSC 3613; admission to the graduate program.

CMSC 5033 - Concepts Of Artificial Intelligence
This course covers the basic concepts and techniques of artificial intelligence or intelligent systems. It includes an introduction to some of the software packages that are used to develop expert systems. Other issues of importance in this course are natural language, pattern recognition, search strategies, knowledge representation and logical inference. Prerequisite(s): CMSC 3613.
Graduate Course Descriptions

CMSC 5043 - Applications Of Database Management
This course covers the integration of theory and practice in the use of current database systems and the access of those systems. The course covers the relational land E-R models for database organization. Topics included in the course are query languages (e.g. SQL), database integrity and security, file access methods, query processing, transaction processing, and backup/recovery. Prerequisite(s): CMSC 3613 and graduate standing.

CMSC 5053 - Operating Systems
This course is a study of operating system concepts including concurrent processes, mutual exclusion techniques, deadlock, real and virtual memory management, job scheduling, auxiliary storage management, network operating systems and multiprocessing. Prerequisite(s): CMSC 3613.

CMSC 5063 - Networks
This course is a study of local and wide area networks and their implementations. Included is the theory governing layered networking architectures, the ISO-OSI communications interface, the TCP/IP protocol, packet transmission, error-correction techniques, addressing and routing, and the use of communications software. Prerequisite(s): CMSC 3613.

CMSC 5073 - Translator Design
Translator Design introduces students to the principles, tools and techniques used in designing a programming language compiler. Topics covered include lexical, syntax, and semantic analysis, finite automata, regular expressions, LL and LR grammars, type systems and checkers, code generation, interpreters, optimization, and code improvement. Prerequisite(s): CMSC 3613 and (CMSC 4023 or CMSC 4273) and graduate standing.

CMSC 5113 - Structured Design
This course covers the elements of a discipline of program and systems design. Emphasis will be placed on the architecture of programs and systems rather than programming. Prerequisite(s): CMSC 3613.

CMSC 5123 - Advanced Microcomputer Applications
This course is a survey of the installation and programming of microcomputers using microcomputer based operating systems with emphasis on maintaining tree structured directories, programming batch files, controlling i/o redirection, working with serial and parallel ports, using internal operating system commands and utilities, and installing vendor provided software.

CMSC 5133 - Theory Of Data Base Systems
This course covers the concepts, principles, implementation practices, and guidelines for the selection and installation of data base systems. Topics include choosing a dictionary, the relational approach, the hierarchical approach, and the network approach. There will be some discussion of security and integrity comparison. Prerequisite(s): CMSC 4003 or CMSC 5043.

CMSC 5243 - Artificial Intelligence
This course is a study of the basic concepts and techniques of artificial intelligence or intelligent systems. Some of the topics covered are search techniques, heuristics, expert systems, systems of logical inference, methods of representing knowledge, and AI programming. Prerequisite(s): CMSC 4133 or 5033.

CMSC 5273 - Theory of Computing
Theory of Computing is a study of computation theory encompassing three broad categories: formal languages and automata theory, computability theory, and complexity theory. The topics covered include Turing machines, finite automata, nondeterminism, pushdown automata, decidability, and NP-completeness. Prerequisite(s): CMSC 3613 with a minimum grade of "C".

CMSC 5283 - Software Engineering
Software Engineering is the application of engineering and management disciplines to computer software projects. Topics discussed are project organization, management, the system software life cycle, software development and maintenance cost estimation, software development environments, requirements engineering, testing, verification and validation, configuration management, software quality assurance, and risk analysis. Prerequisite(s): CMSC 3613.

CMSC 5373 - Web Server Programming
This course examines theory and practice of server-side programming for World Wide Web, including study on presentation logic, business logic, session control, and database management. The course also includes extensive practice in a specific server-side programming language.

CMSC 5900 - Practicum In Computing Science
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

CMSC 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

CMSC 5920 - Workshop in Computer Science
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

CMSC 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Prerequisite(s): Permission of instructor.

CMSC 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

CMSC 5950 - Institute In Computing Science
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Prerequisite(s): Permission of instructor.

CMSC 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

CMSC 5980 - Graduate Project
A contemporary problem provided by business and industry and selected with consideration of the interests and abilities of the individual student. Prerequisite(s): Permission of instructor.

CMSC 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study. Prerequisite(s): Permission of instructor.

COMM 5900 - Practicum In Communication
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

COMM 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study on selected problems or special topics. Prerequisite(s): An undergraduate minor in the subject matter area and permission of graduate advisor.
Graduate Course Descriptions

COMM 5930 - Individual Study
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special subjects, based on approved outlines or plans; conferences, oral and written reports. Prerequisite(s): An undergraduate major in the subject matter area to be studied and permission of graduate advisor.

COMM 5950 - Internship In Communication
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

COMM 5960 - Institute In Communication
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

COMM 5970 - Study Tour
Credit will vary. Subject matter will vary within the department's field of study.

COMM 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

CSDY 5103 - The Detective Story
This course will undertake to study detective stories seriously by placing them in three contexts: a historical context, in which the rise and decline of the detective story and its transformation into the novel of mystery or suspense will be considered; a morphological context, which will focus on the ludic structure common to all detective stories; and a critical context, in which several attempts to treat the detective story with self-conscious artistry will be analyzed and judged. The thrust of the course is designed to raise ever more persistent questions about what does and does not constitute seriousness in literary fiction by considering the detective story functionally, in terms of the human desires it satisfies.

CSDY 5113 - Pub Pro: Editing & Marketing
The course provides the graduate student with practical knowledge of the publishing world, including editorial techniques and proofreading, marketing book-length fiction projects and obtaining representation, concurrent enrollment, or completion of novel writing course.

CSDY 5123 - Short Story Writing I
The first course in an integrated, three-course sequence, Short Story Writing I will help students learn to write, edit, and submit their short stories to literary journals, magazines, and contests. By reading published stories, books and articles on the craft of writing short fiction, and by critiquing their colleagues' writing, students will explore the basic components of the short story: character, conflict, theme, opening, progression, climax, closure and style, while producing no fewer than forty pages of original prose. Prerequisite(s): Graduate standing.

CSDY 5133 - Short Story Writing II
The second course in an integrated three-course sequence, Short Story Writing II provides practical workshop instruction for students who are continuing to train themselves as writers of the short story. Students will continue to improve their understanding of the basic components of the short story by studying examples of published stories, by critiquing their colleagues' work, and by producing no fewer then sixty pages of original prose, in the form of at least three finished short stories in publishable form, which must be submitted to local or national publications. Students may not take Short Story Writing II until they have completed Short Story Writing I and earned a grade of B or higher in that class, unless they have received written permission from the office of the Director of Creative Writing. Prerequisite(s): CSDY 5123 with minimum grade of "B" and graduate standing.

CSDY 5143 - Short Story Writing III
The third course in an integrated, three-course sequence, Short Story Writing III provides practical workshop instruction for students who are in the process of completing a collection of short stories. Students will have at least 100 pages written prior to beginning the class and will write an additional 60 pages over the course of the term. Students will be stepping into their literary identities as writers of short stories that they will submit simultaneously to at least five markets or contests per story. (The necessary expense of postage and photocopying must be considered when taking this class.) Students will also present ten-minute oral reports accompanied by written evaluations of self-help books dealing with writing and publishing the short story, and they will read at least two complete collections of stories authored by other members of the class and will write a detailed critique of each of these collections. Finally, each student will discover at least one short story writer of international reputation and report on this writer to the class. Students not familiar with the Russian, French, or German traditions of the short story will be encouraged to select a writer from one of these traditions as the subject for their reports. Students may not take Short Story Writing III until they have completed Short Story Writing I and Short Story Writing II and earned a grade of B or higher in both classes, unless they have received written permission from the office.

CSDY 5203 - 19th Century Russian Literature In Translation
A three hour seminar for graduate students focusing on discussion and analysis of the 19th Century major Russian writers. This course fulfills either a period or translation requirement. No reading knowledge of Russian is required. Prerequisite(s): Permission of instructor.

CSDY 5213 - Literary Impressionism: Ford, Conrad, & James
This is a study of the literary which takes its name from the impressionist (first exhibited in 1874) and which reaches an apotheosis in the 1890’s. Literary impressionism is outlined in part in the writing of Ford Maddox Ford and describes a variety of recurring literary themes and styles employed in the novels of all three writers. Some of the features of this approach are: a jumbled or nonlinear narrative chronology, an unreliable narrator, an interest in special visual detail, often a kaleidoscopic effect of visual images, a skeptical or ambivalent attitude towards the hero, and an interest in the possible conflict between ethics and art, resulting in a moral evasiveness. All three writers are major figures in the modernist movement and can be seen as ushering in the modern novel.

CSDY 5223 - Greek Drama In Translation
A study of the major tragedies by Aeschylus, Sophocles, and Euripides as well as some of the works by Aristophanes and Menander. This course will give the student of literature as well as the writer in training a better grasp on the literary and cultural significance of these masterpieces.

CSDY 5233 - Fitzgerald, Hemingway & The Expatriates
This course focuses on discussion and analysis of the jazz age and the expatriate writers. This course is designed for juniors, seniors, or graduate students and assumes a high level of competence in writing. The student will explore theme and technique common to writers of this period and assess the historical impact.

<tbody>
<tr>
<td>CSDY 5243</td>
<td>Pre-Shakespearean Literature</td>
<td>This course will analyze traditional English texts from the point of view of the creativity of character and their relation to narrative. This course will be an intensive study of different literary forms and their effects on the reader.</td>
</tr>
<tr>
<td>CSDY 5253</td>
<td>Advanced Genre Studies-Creative Writing</td>
<td>A conference course for the creative studies student and special other students who have chosen creative writing as their focus in a degree pattern. The student will work through the semester on a single fiction or nonfiction project begun in CSDY 3593. Another 100 polished pages output required.</td>
</tr>
<tr>
<td>CSDY 5263</td>
<td>Character &amp; Culture-18th Century</td>
<td>To examine representative texts in eighteenth century English literature which show how human identity was conceived and presented through various literary structures, with special emphasis on the novel and the drama. The growth of the reading public and the rise of the middle class, the invention of biographical writing, the exploration of friendships between men and women, and the dialectic between the individual and his society are key issues to be covered in this course.</td>

Graduate Course Descriptions

CSDY 5473 - Creative Nonfiction III
The final course in an integrated, three-course sequence, Creative Nonfiction III will offer the student practical help in publishing his or her original creative nonfiction. Students will continue to produce professional-quality nonfiction for workshop discussion and eventual publication. Students will study current best-selling nonfiction works, such as books by Linda White, George Plimpton, Annie Dillard, and Bailey White, and will write two-page analyses of two of these works. Students will complete a total of 65 pages of original, publishable nonfiction and will send out at least 30 of these pages for publication by the end of the semester. Students may not take Creative Nonfiction III until they have completed Creative Nonfiction I and Creative Nonfiction II and earned a grade of B or higher in both courses, unless they have received written permission from the office of the Director of Creative Writing. Prerequisite(s): CSDY 5453, 5463 with a minimum grade of “B” and graduate standing.

CSDY 5513 - Playwriting
The first course in an integrated, three-course sequence, Playwriting I will help students to begin learning the basic components of writing a one-act and a three-act play. This course will present basic elements of writing drama, including generating a plot, setting up conflict, elaborating a theme, using a subplot, creating the set speech and dramatic monologue, moving towards a climax, and shaping a resolution. By writing short scenes and by learning to workshop scenes and to critique the work of others, students will gain mastery of the basic elements of the playwright’s craft. During the semester students will define a project—writing either multiple one-act plays or one three- or five-act play—to carry them through Playwriting II and Playwriting III. Some examples of plays from the tradition of drama will be studied in class; students will also be required to attend at least two locally produced dramatic performances and to write reviews of them. A minimum of 40 pages of original dramatic writing will be required. Prerequisite(s): Graduate standing.

CSDY 5523 - Screenwriting
The second course in an integrated, three-course sequence, Screenwriting II will help students to develop their mastery of the basic components of writing a play. Continuing to improve their playwriting skills in a workshop environment, students will work on the project begun in Playwriting I (either three one-act plays or a single three- or five-act play), bringing the total number of original pages produced to approximately 80. Evaluating the scripts of their peers, studying seminal theoretical texts, and producing their own plays for class reading and evaluation will allow students to review such basic elements of drama as generating a plot, setting up conflict, elaborating a theme, developing a subplot, creating the set speech and the dramatic monologue, moving towards a climax, and shaping a resolution. In addition to studying successful plays from a range of historic and cultural environments, students will attend at least three locally produced dramatic productions and write reviews of them. Students may not take Playwriting II until they have completed Playwriting I and earned a grade of B or higher in that course, unless they have received written permission from the office of the Director of Creative Writing. Prerequisite(s): CSDY 5543 with a minimum grade of “B” and graduate standing.

CSDY 5533 - Writing For Television
The first course in an integrated, three-course sequence, Writing For Television will help students learn to write, edit, and submit their poems for publication. Through reading published poems, books on the art of crafting poetry, and their colleagues’ drafts, students will explore the basic components of the poem, including voice, tone, progression, diction, transitions, and closing. Prerequisite(s): Graduate standing.

CSDY 5543 - Poetry Writing I
The first course in an integrated, three-course sequence, Poetry Writing I will help students learn to write, edit, and submit their poems for publication. Through reading published poems, books on the art of crafting poetry, and their colleagues’ drafts, students will explore the basic components of the poem, including voice, tone, progression, diction, transitions, and closing. Prerequisite(s): Graduate standing.

CSDY 5553 - Poetry Writing II
The second course in an integrated, three-course sequence, Poetry Writing II provides practical workshop instruction for students who are continuing the work that they began as poets in Poetry Writing I. Students will continue to improve their understanding of the basic components of the poem by studying both contemporary published poetry and the published work of previous generations of poets, by critiquing their colleagues’ drafts, and by working to refine and adjust their own poetic skills by writing new poems and revising their existing collections of poems. Students may not take Poetry Writing II until they have completed Poetry Writing I and earned a grade of B or higher in that class, unless they have received written permission from the office of the Director of Creative Writing. Prerequisite(s): CSDY 5543 with a minimum grade of “B” and graduate standing.

CSDY 5563 - Poetry Writing III
The final course in an integrated, three-course sequence, Poetry Writing III provides practical workshop instruction for students who are continuing the work as poets that they began in Poetry Writing I and II. Students entering this class are expected to have a portfolio of about twenty-five poems, several of which, it is hoped, will already have been published. Students will continue to improve their understanding of the basic components of the poem by studying both contemporary published poetry and the published work of previous generations of poets, by critiquing their colleagues’ drafts, and by working to refine and adjust their own poetic skills by writing new poems and revising their collections of previously written poems. Students in this course will be expected to introduce the writing of a chosen poet of note to the class and to demonstrate their ability to edit someone else’s work thoroughly and to suggest publications to which that work could be submitted. Students may not take Poetry Writing III until they have completed Poetry Writing I and Poetry Writing II and earned a grade of B or higher in both classes, unless they have received written permission from the office of the Director of Creative Writing. Prerequisite(s): CSDY 5543, 5553 with a minimum grade of “B” and graduate standing.
Graduate Course Descriptions

CSDY 5633 - Playwriting III
The third course in an integrated, three-course sequence, Playwriting III provides practical workshop instruction as well as some theoretical perspectives for students who are completing projects begun and developed in Playwriting I and II and who are beginning to submit their dramatic work both to local theaters and to national contests. Working on either the one-act plays or the three- or five-act plays developed in Playwriting I and II, students will bring the number of original pages of manuscript they have produced to at least 120. Students may not take Playwriting III until they have completed Playwriting I and Playwriting II and earned a grade of B or higher in both courses, unless they have received written permission from the office of the Director of Creative Writing. Prerequisite(s): CSDY 5613, 5623 with a minimum grade of “B” and graduate standing.

CSDY 5643 - Screenwriting I
The first course in an integrated, three-course sequence, Screenwriting I will help students to begin to master the components of writing a screenplay, including crafting the scene, writing dialogue, narrating through visual images, managing subplots, devising character, and setting up climax and closure. By studying published screenplays and viewing contemporary and traditional films, students will gain a sense of structure as well as an appreciation of the history and the art of film. Prerequisite(s): Graduate standing.

CSDY 5653 - Screenwriting II
The second course in an integrated, three-course sequence, Screenwriting II provides practical workshop instruction for students who are continuing work on the original screenplay that they began writing in Screenwriting I. Students will continue to improve their understanding of the basic components of the screenplay by studying published screenplays, critiquing their colleagues’ drafts, and working on the drafts of their original, full-length scripts. Students may not take Screenwriting II until they have completed Screenwriting I and earned a grade of B or higher in that class, unless they have received written permission from the office of the Director of Creative Writing. Prerequisite(s): CSDY 5643 with a minimum grade of “B” and graduate standing.

CSDY 5663 - Screenwriting III
The final course in an integrated, three-course sequence, Screenwriting III provides practical workshop instruction for students who are completing work on the original screenplay that they began writing in Screenwriting I and continued in Screenwriting II. Students will continue working to master the basics of the screenplay by studying published screenplays and critiquing their colleagues’ drafts. In addition, students will confront such practical considerations as finding an agent and a publisher for their work and submitting final, revised and corrected drafts of their screenplays to qualified agents chosen through a study of agent markets. Students may not take Screenwriting III until they have completed Screenwriting I and Screenwriting II and earned a grade of B or higher in both classes, unless they have received written permission from the office of the Director of Creative Writing. Prerequisite(s): CSDY 5643, 5653 with a minimum grade of “B” and graduate standing.

CSDY 5823 - Literary Criticism For Creative Writers
Literary Criticism for Creative Writers is an advanced course in the historical and contemporary theories of criticism. The student will examine poetry, fiction, and drama and respond using both scholarly and creative methodologies.

DESIGN (DES)
Department of Design

DES 5033 - Methods in Design Studies
This introductory course provides graduate students with a better understanding of the expectations and structure of the MFA degree. Students will explore advanced methods in solving design problems, research methodology and presentation. This course will be conducted with lectures, group discussions, and class exercises, and will equip students with a better understanding of the quality of work expected in the graduate program. Prerequisite(s): Permission of Graduate Advisor.
Graduate Course Descriptions

DES 5113 - History of Graphic Design
This course provides advanced study in the application of principles, philosophies, materials, and production of design. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. This course may be repeated two times for credit. Prerequisite(s): Permission of instructor.

DES 5211 - Summer Seminar
This course provides advanced study in a variety of special subjects in design. The course content will vary in each seminar. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. This course may be repeated two times for credit. Prerequisite(s): Permission of instructor.

DES 5233 - Psychology of Design
This course provides advanced study in the application of psychology, creativity thinking, and problem solving to develop effective design solutions. The student will present research, design projects, and presentations to the Design Graduate Committee for review, guidance, and evaluation. Prerequisite(s): Permission of instructor.

DES 5253 - Design in Global Cultures
This course provides advanced study of design principles, philosophies, materials, and production methods in ethnic cultures. The student will present research and projects to the Design Graduate Committee for review, guidance, and evaluation. Prerequisite(s): Permission of instructor.

DES 5273 - Business of Design
This course provides advanced study in establishing a design office, including naming, contracts, registrations, soliciting clients, invoicing, and promotion. The student will present a business plan and samples of promotions to the Design Graduate Committee for review, guidance, and evaluation. Prerequisite(s): Permission of instructor.

DES 5293 - Design Studio I
This course provides a study in the application of principles, philosophies, materials, and production of design. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. Prerequisite(s): Permission of graduate program advisor. Enrollment open to graduate design majors only.

DES 5313 - Typography
This course provides advanced study in the application of principles, philosophies, materials, and production of typographic design. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. This course may be repeated for credit. Prerequisite(s): Permission of Graduate Advisor. Enrollment is open to Graphic Design majors only.

DES 5333 - Print Design Studio
This course provides advanced study in the application of principles, philosophies, materials, and production of print design. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. This course may be repeated two times for credit. Prerequisite(s): Permission of instructor.

DES 5353 - Package Design Studio
This course provides advanced study in the application of principles, philosophies, materials, and production of package design. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. This course may be repeated two times for credit. Prerequisite(s): Permission of instructor.

DES 5373 - Advertising Design Studio
This course provides advanced study in the application of principles, philosophies, materials, and production of advertising design. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. This course may be repeated two times for credit. Prerequisite(s): Permission of instructor.

DES 5393 - Design Studio II
This course provides advanced study in creative problem solving techniques, the application of principles, philosophies, materials, and production of design. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. Prerequisites(s): DES 5293. Enrollment open to graduate design majors only.

DES 5423 - Computer Graphics Studio
This course provides advanced study in the application of principles, philosophies, materials, and production of computer graphics. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. This course may be repeated two times for credit. Prerequisite(s): Permission of instructor.

DES 5443 - Illustration Studio
This course provides advanced study in the application of principles, philosophies, materials, and production of illustration. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. This course may be repeated two times for credit. Prerequisite(s): Permission of instructor.

DES 5463 - New Media Design Studio
This course provides advanced study in the application of principles, philosophies, materials, and production of new media design. The student will present projects and solutions to the Design Graduate Committee for review, guidance, and evaluation. This course may be repeated two times for credit. Prerequisite(s): Permission of instructor.

DES 5483 - ClockTower Studio
This course is a working design studio managed and staffed by graphic design majors who work with campus and community clients, printers, and a team of designers. Students make formal presentations of concept proposals and solutions to the client for approval. This course may be repeated two times for credit. Prerequisite(s): Permission of instructor.

DES 5493 - Design Research Project
In this course students conduct academic research in the discipline of design and add to the body of existing literature. Prerequisite(s): PTE 5013 and 5413. Enrollment open to graduate design majors only.

DES 5513 - History of Interior Design I
This course is a survey of the development of the history of Interior Design from antiquity to the Renaissance including design movements, styles, furniture, and designers. The student will present a major project in historical research to the Design Graduate Committee for review, guidance, and evaluation. Prerequisite(s): Permission of instructor.

DES 5523 - History of Interior Design II
This course is a survey of the development of the history of Interior Design from the Renaissance to Art Deco including design movements, styles, furniture, and designers. The student will present a major project in historical research to the Design Graduate Committee for review, guidance, and evaluation. Prerequisite(s): Permission of instructor.

This course provides extensive research into the plays and background of the early Kings of England through literary analysis.

ENG 5883 - Asian American Literature
In this course, students will analyze and evaluate the contributions that Asian Americans made to American literature. Students will discuss the perceptions Euro-Americans have towards individual Asian cultures due to historical events and how that affected the way Asian Americans were treated and how they recorded this treatment in the literature. Prerequisite(s): Graduate standing.

ENG 5891 - Comprehensive Examination
This course, taken during the student’s last semester in the program, will prepare the student for and will assist the student in successfully completing the Comprehensive Examination.

ENG 5900 - Practicum In English
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

ENG 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study on selected problems or special topics.
Graduate Course Descriptions

ENGINEERING (ENGR) Department of Engineering and Physics

ENGR 5023 - Thermal Science
This course introduces basic thermal-energy transport processes, conduction, convection, radiation, and the mathematical analysis of systems involving these processes in both steady and time-dependent cases. Prerequisite(s): ENGR 3203, 3443, MATH 3103.

ENGR 5083 - Electromagnetic Fields II
This course presents the application of Maxwell’s equations to time-varying electromagnetic fields, electromagnetic waves, radiation, diffraction, the electromagnetic theory of light, and antenna design. Prerequisite(s): ENGR 3183.

ENGR 5163 - Engineering Optics
The principles of geometrical and physical optics are applied to the analysis and design of optical systems including uniaxial and biaxial crystals, Gaussian-beam propagation, optical resonators, lasers, q-switching and mode locking, line broadening and electro-optic modulations. Prerequisite(s): Graduate standing and permission of instructor.

ENGR 5443 - Fluid Dynamics
The fundamental equations and solution methods of fluid dynamics are presented with particular attention to solving the Navier-Stokes equation. Topics covered will include mass conservation, momentum and energy equations for continua, potential flow, incompressible and compressible flows, viscous flow, similarity and dimensional analysis, boundary-layer theory, vorticity, and turbulent flow. Prerequisite(s): ENGR 3203, 3443, MATH 3103.

ENGR 5553 - Applied Problems
The methods used to assess and solve applied problems commonly encountered in modern industry and technology are presented. Prerequisite(s): Graduate standing and permission of instructor.

ENGR 5613 - Photonics
The ray, wave, and photon-formulations of optics are developed and applied to engineering waveguides, fiber optics, and ultra-fast laser systems. Applications to nonlinear optics, laser h holography, nanostructures, quantum statistics of photons, three- and four-wave mixing, near-field microscopy, advanced spectroscopy methods, and light-scattering are covered. Prerequisite(s): ENGR 5163; or graduate standing and permission of instructor.

ENGR 5633 - Solid State Devices
The physical principles of operation of the p-n junction, metal semiconductor contact, bipolar junction transistor, MOS capacitor, MOS and junction field-effect transistors, and related electro-optical devices are presented. First-order device models reflecting the underlying physical principles are developed. Prerequisite(s): PHY 3103 and ENGR 3183 or permission of instructor.

ENGR 5910 - Seminar/Special Topics
Credit will vary from 1 to 3 hours. Subject matter will vary within the department’s field of study.

ENGR 5930 - Individual Study in Engineering
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

ENGR 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

ENGR 5990 - Thesis in Engineering
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

FAMILY AND CONSUMER SCIENCE EDUCATION (FACS) Department of Occupational and Technology Education

FACS 5112 - Home Management
The study of effective management concerning values and goals as reflected in decision-making about personal and family resources.

FACS 5123 - Professional Issues
This course is planned to assist the student in identifying professional and personal competencies needed in emerging home economic areas. Opportunities for exploring and assessing self-interests and abilities as well as the identification of competencies needed for professional level employment in a specialized area will be encouraged and required.

FACS 5133 - Methods Of Teaching
Problems and methods of teaching home economics. Prerequisite(s): Admission to teacher education.

FACS 5173 - Program Development
This class is designed to provide home economics education majors with knowledge and skills needed for developing a vocational and general home economics program.

FACS 5453 - Consumer Management
This course is designed to provide a framework for examining the key areas of personal and family financial decision-making and goal setting, consumer issues, decisions and the relationship of resource allocation for the family throughout the life cycle.
FACS 5572 - Career Education
This course is designed to provide the student with understanding of themselves relative to careers with special emphasis on the breadth of the field.

FACS 5900 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

FACS 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study of selected problems or special topics. Prerequisite(s): An undergraduate minor in the subject matter area and permission of graduate advisor.

FACS 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

FACS 5930 - Individual Study
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special subjects based on approved outlines or plans, conferences, oral and written reports. Prerequisite(s): An undergraduate major in the subject matter area and permission of graduate advisor.

FACS 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study. Prerequisite(s): An undergraduate minor in the subject matter area and written permission of graduate advisor.

FACS 5950 - Internship
Credit will vary from 1 to 8 hours; subject matter will vary within the department's field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

FACS 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

FACS 5970 - Study Tour
Credit will vary. Subject matter will vary within the department's field of study.

FACS 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

FINANCE (FIN)

FIN 5203 - Contemporary Problems In Finance
A readings and case course designed to increase the practical realism of the problems faced by financial managers in the modern business world. The course provides an environment that enhances the student's understanding of textbook issues and current business problems by requiring article reviews, case analyses, report writing, oral presentations, and participatory discussions of contemporary issues in business, economics and finance. Prerequisite(s): Completed all prerequisites for the MBA Program.

FIN 5223 - International Finance
A study of the financial problems of the multinational business firm. The course includes lectures, case discussions, and contemporary readings to extend both modern and traditional theories of financial management to the area of international business operations. Prerequisite(s): FIN 5333.

FIN 5233 - Investment Analysis
A study of the various approaches to the selection and timing of investment opportunities for the individual and for the business firm. The course includes a review of traditional and modern theories of investment strategy and portfolio analysis. Case discussions, problem solving and contemporary readings are utilized. Prerequisite(s): FIN 5333.

FIN 5243 - Money And Capital Markets
A study of the money and capital market segments of the U.S. Financial System. Emphasis is placed on the importance and role of various interest rates for lending and investment in the economy, their determination, and their measurement. The course also includes discussion of current readings, case analysis, and problem solving relating to the management of financial institutions. Prerequisite(s): Completed all prerequisites for the MBA Program.

FIN 5253 - Capital Budgeting
A theory and tools course that emphasizes the economic analysis of the firm's long-term investment opportunities. Specific emphasis is placed on determining the optimal capital budgeting techniques and processes. Extensive attention is given to the problem of explicitly incorporating risk into the analysis and to the problem of modifying decision rules when there are constraints on budget size. Prerequisite(s): FIN 5333.

FIN 5333 - Financial Administration & Control
Methods and problems involved in the financial administration of the business firm. Special attention to planning for, obtaining, controlling, and allocation of funds. Prerequisite(s): Completed all prerequisites for the MBA Program.

FIN 5353 - Derivative Securities
A study of various derivative securities traded in current financial markets. The course introduces the characteristics and pricing of various derivatives (e.g., put options, call options, forward contracts, futures contracts, and swaps) and demonstrates their use in investing and portfolio management. The course includes lectures, case discussions, computer analysis, and contemporary readings. Prerequisite(s): FIN 5333.

FIN 5413 - Financial Analysis w/ Computer
The use of computers and information technology is examined in relation to financial topics. Topics include, but are not limited to, financial statements, cash budgets, corporate performance evaluation, financial forecasting, break-even and leverage analysis, asset valuation, rates of return, the cost of capital, capital budgeting, investment applications, logical and financial functions, and graphs. Prerequisite(s): Completed all prerequisites for the MBA Program.

FIN 5423 - Employee Benefit Planning
This course examines the approaches to protecting employees' financial security from the perspective of businesses by studying the basic concepts and managerial considerations underlying the group insurance mechanism for providing life, health, disability and retirement plans. Topics covered include the theory and practice regarding employee benefits plan design, administration, cost, funding regulation and tax considerations. Prerequisite(s): Completed all prerequisites for the MBA Program with a minimum grade: C.

FIN 5900 - Practicum In Finance
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

FIN 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study on selected problems or special topics.
**Graduate Course Descriptions**

**FIN 5920 - Workshop in Finance**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

**FIN 5930 - Individual Study in Finance**  
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special subjects based on approved outlines or plans, conferences, oral and written reports.

**FIN 5940 - Field Study in Finance**  
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

**FIN 5950 - Internship in Finance**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

**FIN 5960 - Institute in Finance**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**FIN 5970 - Study Tour**  
Credit will vary. Subject matter will vary within the department’s field of study.

**FIN 5990 - Thesis**  
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

**FOREIGN LANGUAGE (FLGN)**  
**Department of Modern Languages, Literature & Cultural Studies**

**FLGN 5000 - Workshop in Foreign Language**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given. No more than 2 hours of workshop may be counted on a master’s degree.

**FLGN 5103 - Literature Of French/Hispanic Caribbean**  
This course provides an introduction to French and Hispanic Caribbean literary movements. Texts are available in original French and/or Spanish, and also in English translation. Concepts introduced include colonial independence and patriotism, negritude, social injustice, the spirituality of santeria and voodoo, among others. Prerequisite(s): 17 hours in major (French, Spanish or others) and permission of the instructor.

**FLGN 5900 - Practicum In Foreign Language**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**FLGN 5910 - Seminar / Special Topics**  
Credit will vary from 1 to 4 hours. Subject matter will vary from within the department’s field of study.

**FLGN 5920 - Directed Reading**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**FLGN 5930 - Individual Study**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**FLGN 5950 - Internship In Foreign Language**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**FLGN 5960 - Institute In Foreign Language**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**FLGN 5970 - Study Tour**  
Credit will vary. Subject matter will vary within the department’s field of study.

**FLGN 5990 - Thesis**  
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

**FAMILY AND CHILD DEVELOPMENT (FMCD)**  
**Department of Human Environmental Science**

**FMCD 5011 - Professional Development In Family/Child Development**  
This course will explain professional opportunities, professional organizations, certifications, and job opportunities in Family and Child Studies. The graduate internship and portfolio assessment will also be addressed. Prerequisite(s): Majors only.

**FMCD 5023 - Theories In Family & Child Studies**  
This graduate course is an organized study of major theoretical approaches to the study of family and child development. Prerequisite(s): 9 hours behavioral science course work. Enrollment open to Family and Child Studies majors only.

**FMCD 5043 - Family Dynamics and Sexuality**  
This course is an in-depth study of the family systems theory and circumplex model as applied to interpersonal relations. Areas to be examined include communication, conflict resolution, diversity and strengths in families, and living in a global world. The course will also examine the historical, theoretical, and research perspectives of human sexuality through the life span. Prerequisite(s): Six hours of marriage, family, or related courses (psychology, sociology).

**FMCD 5211 - Family & Child Studies Methods**  
This course will detail the principles of family life education in conjunction with the ability to plan, implement and evaluate programs. Additional areas of study will be professional organizations, certifications, career development and an overview of the Family and Child Studies graduate program.

**FMCD 5363 - Ethics/Issues In Family/Child Study**  
The study includes current issues that influence, effect and change families. The topic of ethics will permeate all issues and be discussed separately. To be taken concurrently with the last semester of the graduate program.

**FMCD 5373 - Lifespan Human Development Child/Family Studies**  
This course is a study of theory and research in life-span developmental processes from birth to death, with appropriate applications in relevant occupational fields such as: infant programs, parent, school age, adolescence, special needs, middle age and aging. Prerequisite(s): Written instructor permission.

**FMCD 5423 - Linking Families & Community**  
This course is a study of programs in the community that offer support, education, assistance, assessment and intervention to families. Students will research program’s mission and goals and effective means of program development, delivery and evaluation. Program methodology and evaluation will also be examined. Prerequisite(s): Enrollment open to Family and Child Studies majors only.
Graduate Course Descriptions

FMCD 5511 - Professional Development In Family/Child Development
This course will explain professional opportunities, professional organizations, certifications, and job opportunities in family and child studies. The graduate internship and portfolio assessment will also be addressed. Prerequisite(s): majors only.

FMCD 5523 - Family Law and Public Policy
This course is a general survey of government programs and policies that impact on the family. Topics to be covered include child care, aging, legal aspects of family life, mental health, generational equity, family violence, income maintenance, and family impact analysis. Students will be encouraged to critique past and current policies as well as develop a research policy agenda for the future.

FMCD 5542 - Leadership Principles & Advocacy
Leadership Principles and Advocacy will explore the theories and principles of leadership when working with family agencies. Areas of study will include leadership skills, characteristics and techniques, and current issues of advocacy and legislation.

FMCD 5712 - Parent Education
The course is an in-depth study of programs that facilitate parent education. The history of parent education programs, group dynamics, and home-based parent education will be discussed.

FMCD 5900 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

FMCD 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study of selected problems or special topics. Prerequisite(s): An undergraduate minor in the subject matter area and permission of graduate advisor.

FMCD 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

FMCD 5930 - Individual Study
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special subjects based on approved outlines or plans, conferences, oral and written reports. Prerequisite(s): An undergraduate major in the subject matter area and permission of graduate advisor.

FMCD 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study. Prerequisite(s): An undergraduate minor in the subject matter area and permission of graduate advisor.

FMCD 5950 - Internship
Credit will vary from 1 to 8 hours; subject matter will vary within the department's field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

FMCD 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

FMCD 5970 - Study Tour
Credit will vary. Subject matter will vary within the department's field of study.

FMCD 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

FMKT 5063 - Fashion Accessories
Analysis of the accessory needs of specialized market segments and the products produced to meet those needs with emphasis on product design, marketing, and merchandising. Prerequisite(s): FMKT 1303 or FMKT 3113.

FMKT 5073 - Heritage of Dress II
An in-depth study of the development of costume and fashion from the Ancient Egyptians to present day with an emphasis on interpreting and analyzing current fashion trends from a historical perspective. Prerequisite(s): Six credits in history/humanities or permission of the instructor.

FMKT 5093 - No-Textiles Accessories
Analysis of the non-textile accessory needs of specialized market segments and the products produced to meet those needs with emphasis on product design, marketing and merchandising. Prerequisite(s): FMKT 3113.

FMKT 5511 - Professional Development In Family/Child Development
This course will explain professional opportunities, professional organizations, certifications, and job opportunities in family and child studies. The graduate internship and portfolio assessment will also be addressed. Prerequisite(s): majors only.

**FRENCH (FRCH)**
Department of Modern Languages, Literature & Cultural Studies

**FRCH 5203 - French Culture & Civilization**
Prerequisite(s): 18 hours of French.

**FRCH 5223 - Advanced French Grammar**
Prerequisite(s): Eighteen hours of French.

**FRCH 5303 - Francophone Literatures**
This course focuses on the historical and aesthetic evolution of one or more of the literatures of Quebec, the Maghreb, Francophone West Africa, and/or the Caribbean. Prerequisite(s): 17 hours of French.

**FRCH 5900 - Practicum In French**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**FRCH 5910 - Seminar / Special Topics**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Prerequisite(s): 18 hours of French and permission of instructor. May be repeated for credit up to four hours with change in content.

**FRCH 5920 - Workshop in French**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

**FRCH 5930 - Individual Study**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. May be repeated for credit up to four hours with change in content.

**FRCH 5940 - Field Study In French**
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

**FRCH 5950 - Internship In French**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

**FRCH 5960 - Institute In French**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**FRCH 5970 - Study Tour**
Credit will vary. Subject matter will vary within the department’s field of study.

Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

**FORENSIC SCIENCES (FRSC)**
Forensic Science Institute

**FRSC 5043 - Crime Scene Processing**
Crime Scene Processing serves as a comprehensive review of all aspects of evidence collection and preservation. Students will learn the process of crime scene management and become proficient in recognizing evidence and determining proper packaging and preservation methods. Basic methods in crime scene photography, sketching, and documentation will be explored. Students will demonstrate and enhance their understanding of lecture material through participation in practical crime scene exercises. Prerequisites(s): FRSC 2503.

**FRSC 5102 - Physical Aspects Forensic Science**
This course provides a survey of the physical aspects of forensic science. Topics include the operation and function of a forensic science laboratory, fingerprint identification, firearms and tool marks identification, document examination, trace evidence examination, and crime scene investigation. Prerequisite(s): One semester of college chemistry with laboratory.

**FRSC 5112 - Physical Aspects Forensic Science Lab**
This is a laboratory course that utilizes advanced microscopic, chemical, and instrumental methods applied to crime scene samples. This course includes principles and methods of analysis of microscopic and macroscopic evidence such as glass, soil, paper, inks, and dyes, paints and other coating materials, explosives, fibers, drugs, and other materials classifiable as trace evidence. Prerequisite(s): CHEM 3454, or concurrent enrollment; and FRSC 5102 or concurrent enrollment.

**FRSC 5143 - Crime Scene Reconstruction**
Crime Scene Reconstruction serves as a comprehensive overview of computer-based and remote sensing technologies in crime scene reconstruction. The focus of this crime scene course is on the use of computer-based, automated data collection, reconstruction, analysis, and courtroom presentation technologies. Students will demonstrate and enhance their understanding of lecture material through participation in practical crime scene exercises. Prerequisite(s): FRSC 2503; FRSC 4043 or FRSC 5043.

**FRSC 5202 - Biological Aspects Forensic Science**
This course introduces principles of forensic serology, pathology, and toxicology and provides basic knowledge of the application of techniques in these areas to forensic investigations, including identification of human remains, partial individualization of biological materials, and detection of drugs in biological matrices. Prerequisite(s): One semester of college biology with lab, one semester of college chemistry with lab, and graduate standing.
FRSC 5212 - Biological Aspects Forensic Science Lab
This course presents laboratory applications of forensic serology, pathology, and toxicology. Techniques of comparison and individualization of biological evidence will be utilized. The theory and practice of microscopic, biological, immunological, and chemical analysis will be applied to the examination of blood, seminal fluid, saliva, hair, tissues, botanical samples, and other materials of forensic interest. Prerequisite(s): BIO 3304, CHEM 3442, FRSC 5202, or concurrent enrollment in FRSC 5202 is required.

FRSC 5253 - Forensic Science Analysis & Lab
Forensic Science Analysis serves as an introduction to classical and modern forensic science techniques with emphasis on the theory of modern impression evidence examinations. Techniques covered include latent fingerprints, handwriting and related document examinations, firearms and tools, and fracture glass examinations. Automated evidence database applications are discussed and practiced. Emphasis is given to quality control and quality assurance as practiced in today’s crime laboratories. Prerequisite(s): FRSC 2503. Concurrent enrollment in FRSC 5253L is required.

FRSC 5253L - Forensic Science Analysis Lab
This is the laboratory course that accompanies FRSC 5253. Prerequisite(s): FRSC 2503. Concurrent enrollment in FRSC 5253 is required.

FRSC 5313 - Forensic Pathology & Anthropo
Forensic Pathology and Anthropology serves as a comprehensive study of multidisciplinary scientific principles and techniques which comprise the modern basis in human death investigation and human remains recovery. Emphasis is placed on forensic pathology, anthropology, odontology, and the detection and recovery of human remains. Prerequisite(s): FRSC 2503.

FRSC 5323 - Forensic Toxicology & Lab
Forensic Toxicology serves as a “hands-on” introduction to modern toxicological methods in forensic science. Topics and analytical techniques covered include sampling and statistics, sample preparation, instrumentation, and the analyses of alcohol, drugs of abuse, therapeutic drugs, carbon monoxide, and cyanide in biological fluids and tissues. Prerequisite(s): FRSC 2503 and CHEM 3454. Concurrent enrollment in FRSC 5323L is required.

FRSC 5323L - Forensic Toxicology Laboratory
This laboratory course accompanies FRSC 5323. Prerequisite(s): FRSC 2503 and CHEM 3454. Concurrent enrollment in FRSC 5323 is required.

FRSC 5333 - Forensic Molecular Biology & Lab
This lecture and laboratory course presents advanced principles of serology and DNA identification techniques with forensic laboratory applications. This course includes the theory and practice of techniques used to identify and individualize biological samples having a forensic interest. Related database applications are discussed and practiced. Emphasis is given to quality control and quality assurance as practiced in today’s crime laboratory. Prerequisite(s): BIO 3304. Concurrent enrollment in FRSC 5333L is required.

FRSC 5333L - Forensic Molecular Biology Lab
This course is a laboratory course designed to accompany FRSC 5333. Prerequisite(s): BIO 3304. Concurrent enrollment in FRSC 5333 is required.

FRSC 5413 - Bloodstain Pattern Analysis
Bloodstain Pattern Analysis investigates the significance of bloodstain patterns found at violent crime scenes. Using bloodstain pattern analysis the student will learn to identify the occurrences that took place during and after a violent attack. Several practical exercises are used to assess the skill and knowledge of the student. Students will demonstrate and enhance their understanding of lecture material through participation in actual practical mock crime scene exercises. Prerequisite(s): FRSC 4043 or FRSC 5043.

FRSC 5423 - Bloodstain Pattern Analysis II
This is the second course in the study of bloodstain pattern analysis. The course provides a comprehensive review of this highly specialized crime scene reconstruction tool. Students will utilize current literature, case studies, laboratory experiments and computer simulation to gain experience in using bloodstain patterns in reconstructing crime scenes. Emphasis is given to the mathematical formulas and calculations involving trigonometry and physics. Emphasis is also given to preparing students to become qualified as expert witnesses for court testimony. Prerequisite(s): FRSC 5413.

FRSC 5443 - Forensic Arson Investigation
This is a comprehensive course on fire investigation emphasizing the use of specialized forensic techniques for the identification of causes of fires. Major topics included in this course are the chemistry of fire, how to diagram the fire scene, common types of building construction and the effects of construction on how structures burn. Proper collection of physical evidence, documentation, analysis and preservation as related to fire investigations will be emphasized. Prerequisite(s): FRSC 5102.

FRSC 5513 - Forensic Chemistry & Lab
Forensic Chemistry serves as a “hands-on” introduction to modern forensic chemistry. Topics and analytical techniques covered include sampling and statistics, sample preparation, instrumentation, and analyses related to drugs, arson, explosives, inks, paints and polymer evidence. Prerequisite(s): FRSC 2503 and CHEM 3454. Concurrent enrollment in FRSC 5513L is required.

FRSC 5513L - Forensic Chemistry Lab
This is the laboratory course that accompanies FRSC 5513. Prerequisite(s): FRSC 2503 and CHEM 3454. Concurrent enrollment in FRSC 5513 is required.

FRSC 5900 - Practicum in Forensic Science
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

FRSC 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

FRSC 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speakers, etc. A grade of “P” or “F” is given.

FRSC 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Prerequisite(s): Permission of instructor.

FRSC 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

FRSC 5950 - Internship in Forensic Science
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

GERO 5463 - Bereavement Counseling
The course will discuss death and dying, the stages of grief, hospice, the living will and techniques to be used in counseling the bereaved of all ages.

GERO 5443 - Biology of Human Aging
The course examines the biological changes associated with human aging. Emphasis is given to theories of biological aging, maintenance of homeostasis, age changes in each body system, interactions among these systems, and diseases that commonly affect older adults.

GERO 5463 - Bereavement Counseling
This course will discuss death and dying, the stages of grief, hospice, the living will and techniques to be used in counseling the bereaved of all ages.

GERO 5443 - Biology of Human Aging
The course examines the biological changes associated with human aging. Emphasis is given to theories of biological aging, maintenance of homeostasis, age changes in each body system, interactions among these systems, and diseases that commonly affect older adults.

GERO 5463 - Bereavement Counseling
This course will discuss death and dying, the stages of grief, hospice, the living will and techniques to be used in counseling the bereaved of all ages.
GUID 5133 - Multicultural Counseling
A study of the use of counseling theories and techniques in pluralistic school settings. Emphasis will be placed on changes in human roles, discrimination on the basis of human characteristics, and concerns of subgroups. Skills such as conflict resolution and helping skills will be applied. Prerequisite(s): GUID 5163.

GUID 5153 - Counseling Intervention Strategies
A study of the theoretical and practical aspects of helping children and adolescents cope with major life stressors common to this age group in contemporary society. Specific needs to be covered include divorce, drugs and alcohol, depression, stress, abuse, and others. Issues related to counseling minorities will be covered. Prerequisite(s): GUID 5163.

GUID 5163 - Theories/Techniques Individual/School Counseling
Introduction to individual counseling theory and school counseling techniques. Emphasis is placed on major counseling theories, their underlying philosophy, assumptions and techniques. Their strengths and weaknesses with an application in the school setting. Prerequisite(s): GUID 5141 or concurrent enrollment.

GUID 5172 - Capstone Experience School Counseling
An integration of the components included in the knowledge base under-girding school guidance and counseling with emphasis on preparation for professional examinations for national and state certification and licensure. Prerequisite(s): GUID 5903.

GUID 5193 - Abnormal Psychology Sch Person
A survey of individual tests, utilizing case studies and other appropriate techniques. Designed to enable school counselors and other service personnel to interpret and utilize the results of individual tests. Prerequisite(s): PTE 5203.

GUID 5333 - Individual Test Interpretation
A study of the design and management of a comprehensive developmental guidance program. Emphasis on the planning and implementation of a guidance curriculum appropriate for needs of all students. Prerequisite(s): GUID 5012 and PTE 5203.

GUID 5343 - Counseling Children/Adolescent
This course covers the process and interventions in counseling children and adolescents. Different models of play and activity therapy will be examined. Specific developmental issues will be examined along with how these issues can be addressed via the media of play and through therapeutic games and activities. This course includes clinical observation and discussion of the observed cases. Prerequisite(s): GUID 5153, 5163 or concurrent enrollment.

GUID 5443 - Career Guidance
An introduction to the theories of career development, use and interpretation of career inventory data and identification and use of community resources and materials appropriate for use in a guidance program. Prerequisite(s): GUID 5013 or concurrent enrollment.

GUID 5652 - Developing Guidance Elementary School
A study of the typical needs common to the age groups found in elementary schools. There will be demonstrations of small and large group activities to provide for the optimal development of all elementary students. Topics will include coping skills, problem solving, social skills training, stress management, family relationships and others.

GUID 5900 - Practicum In Guidance
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

GUID 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

GUID 5920 - Workshop in Guidance
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

GUID 5930 - Individual Study In Guidance
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

GUID 5940 - Field Study In Guidance
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

GUID 5950 - Internship
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student. During the internship the required Professional Portfolio will be completed and checked. CACREP guidelines require a 600 hour internship.

GUID 5960 - Institute In Guidance
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

GUID 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

GUID 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

HUMAN ENVIRONMENTAL SCIENCE (HES)
Department of Human Environmental Science

HES 5123 - Professional Issues
This course is planned to assist the student in identifying professional and personal competencies needed in emerging Human Environmental Sciences areas. Opportunities for exploring and assessing self interests and abilities as well as the identification of competencies needed for professional level employment in a specialized area will be encouraged and required.

HES 5233 - Research Methods
This course develops the basic techniques and methodology in academic and scientific research. Current research studies are reviewed and interpreted to show how the evaluation process applies to the professional areas encompassed by Human Environmental Sciences.
HES 5323 - Creative Leadership
This course explores strategies for marketing oneself effectively. Areas covered include 1) creativity and productivity, 2) leadership styles, 3) power and delegation, and 4) promotional techniques. The general information will be applied to studies of individuals as well as to student self-evaluation.

HES 5910 - Seminar / Special Topics
Credit may vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

HES 5940 - Field Study
Credit will vary from 1 to 0 hours. Subject matter will vary within the department’s field of study.

HISTORY (HIST)
Department of History & Geography

HIST 5000 - Workshop In History
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given. No more than 2 hours of workshop may be counted on a master’s degree.

HIST 5013 - Historiography
Structured as a seminar, historiography covers the main currents in historical research, the writing of history, and the influence of the great historians from Herodotus to the present.

HIST 5103 - Europe, 1919 to 1945
This course describes the history of Europe from the Treaty of Versailles through the end of World War II. In this class emphasis is placed upon the totalitarian regimes of Italy, Germany, and Russia.

HIST 5113 - American Diplomatic History—20th Century
A history of American foreign policy from the end of the Spanish-American war to the present. Key topics of the course include: U.S. intervention in Latin America, World War I, World War II, the Cold War, Korea and Vietnam.

HIST 5153 - History of Latin America
This course examines selected problems in Latin American history from the fifteenth century to the present. Prerequisite(s): Graduate standing.

HIST 5203 - American Diplomatic History To 1900
A history of American Foreign Policy from Independence through the Spanish-American war. Key themes of the course are American Expansion and America’s rise to power.

HIST 5213 - Introduction To Historic Preservation
An introduction to the basic components of the field of historic preservation/conservation, including a brief history of American architecture and the preservation/conservation movement; preservation law; historic research and restoration of historic structures.

HIST 5263 - The American Southwest
A history of the Southwest with emphasis upon the economic, cultural, and political forces which have produced its regionalism; its homogenous character, and its diversities. Articular emphasis is given to the various ethnic groups that have produced much of the essence of the region. Prerequisite(s): Six hours of American history and permission of instructor.

HIST 5303 - Weimar And Nazi Germany
An in-depth study of the rise of national socialism during the Weimar republic, the consolidation of power by Hitler, and Germany during WWII.

HIST 5313 - U.S. Military History To 1917
This course provides an overview of the military’s role in American development from English colonization through the emergence of the United States as a world power. More than just a survey of battles and leaders, this course will examine the interrelationship between the armed forces and society in both peace and war, as well as the impact of intellectual and technological change.

HIST 5323 - U.S. Military Hist Since 1900
American development from the aftermath of the Spanish through the present. More than just a survey of battles and leaders. This course will examine the interrelationship between the armed forces and society in both peace and war, as well as the impact of intellectual and technological change.

HIST 5333 - Russian History To 1917
Students in Russian history to 1917 study Russian history from 882 to the Bolshevik revolution of 1917, paying particular attention to ancient Kiev, medieval Muscovy, westernization in the 18th century, and the emergence of revolutionary movements in the 19th century.

HIST 5343 - Russian History Since 1917
Students in Russian history since 1917 study Russian history from 1917 to the present, paying particular attention to the Bolshevik revolution, the Nep era, Stalin’s “Revolution from Above,” the Gorbachev era, and post-soviet problems of transition to western political and economic models.

HIST 5353 - Women’s History: International
This course requires students to discuss, analyze and write about continuities and changes, from the nineteenth century onwards, in the “social organization of gender differences” particularly as this framework applies to women in five possible geo-political regions: Southwest Asia, Asia, South Asia, Africa, and Latin America.

HIST 5403 - Indians Of The Southwest
A study of the social, cultural and intellectual history of the Indians of the American Southwest from prehistoric times to the present.

HIST 5413 - American Indian Women
This course examines the varied historical experiences of American Indian women. It provides a chronological framework through which to examine more than four centuries of encounter, resistance, accommodation and change. Themes include: origins and cultural development; the impact of European contact; assimilation, acculturation, adaptation; U.S. federal Indian policies; boarding school experiences; American Indian arts and crafts; the Southwest tourism industry; Native women’s resistance and activism. Prerequisite(s): HIST 1483 or 1493.

HIST 5423 - Women in the American West
This course examines women in the American West from the early 1800s to the 1980s. Through the study of individual women’s lives and texts as well as historians’ interpretations of women’s experiences, this course traces regional identity, mobility and cultural representations in an effort to understand how women shaped the American West. Prerequisite(s): HIST 1483 or 1493.

HIST 5433 - American Colonial Period, 1492-1763
From the discovery of America to the Treaty of Paris in 1763.

HIST 5443 - American Revolution & Early Nationalism, 1763-1815
This course covers American History from the end of the French and Indian War in 1763 until 1815. This course and HIST 5553 replaces HIST 5533.
HIST 5502 - Critical & Analytical Study Of History
A study of the discipline of history; its evolution, interpretation, and major historians.

HIST 5513 - History Of Mexico
The history of Mexico from the Aztec civilization until modern times. Emphasis is placed on the Aztecs, the conquest by Cortez, society under Spanish independence, the Mexican Revolution, and post revolutionary Mexico.

HIST 5523 - Museum Management
This course provides a comprehensive introduction to museum organization, law, ethics; contemporary museum issues; collections management procedures and policies; collections preservation.

HIST 5543 - Black Experience In American West
An examination of the black experience in the Trans-Mississippi from the sixteenth century to the late twentieth century. Special attention is devoted to the contributions of black people to the development of American culture as cowboys, farmers, laborers, and soldiers.

HIST 5553 - Jacksonian America, 1815-1848
This course covers American history from 1815 until 1848, with emphasis on Jacksonian democracy, sectionalism, and manifest destiny. This course and Hist 5443 replaces 5533.

HIST 5563 - Civil War And Reconstruction
The history of the United States from the beginning of the Civil War in 1860 to the end of Reconstruction in 1877.

HIST 5603 - Gilded Age/Progressive Era, 1876-1919
A detailed study of American history from the Hayes-Tilden election to intervention into World War I.

HIST 5613 - Americans In World War II
Emphasis is placed on the diplomatic background, the major battles in both the European and Pacific theaters, the home fronts, and the defeat of Germany and Japan.

HIST 5623 - Museum Theory And Practice
This course focuses on the interpretation of material culture, including research and exhibit planning and evaluation; contemporary issues in museum interpretation; museum education and the public dimension of museums.

HIST 5633 - History Of U.S., 1919-1945
This course is a detailed study of American history from World War I to end of World War II.

HIST 5643 - Anth: Societies/Global Perspective
This course offers a global perspective for the anthropological and historical study of social and cultural organization, social change, and the development of the modern world system.

HIST 5663 - French Revolution And Napoleon
The origin of the French Revolution, the turbulent revolutionary years between 1789 and 1795, the rise of Napoleon, and Europe during the Napoleonic Era.

HIST 5673 - The Old West
The American frontier from the founding of the North American colonies to the Louisiana Purchase with emphasis on the social and political problems of the early westward movement.

These issues will focus on rational development and evaluation of viewpoints on increasing awareness of contemporary issues, course emphasis and current attention placed on the topics. While attention is given, the course will largely be determined by the historical appropriateness of change over time. Specific issues (i.e. bioterrorism) addressed in the course are dynamic and among different granting agencies.

**HLTH 5313 - Wellness Intervention Strategies & Skills**
This course will provide students with an understanding of the process involved in planning health interventions in health education and health promotion environments. Practical applications of the needs assessment process, program development and implementation will be executed including the skills, theory and practice involved in assisting clients to develop health related life skills. Prerequisite(s): Graduate standing.

**HLTH 5422 - Grant Writing In Health And Wellness**
This course provides knowledge and application of the grant writing process with specific focus on the health and wellness fields. This will include the development of skills required for Request for Proposals, writing, budgeting and submission of grants. The course will provide examples of sources to obtain grants and the differences that exist among different granting agencies.

**HLTH 5900 - Practicum In Health**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**HLTH 5910 - Seminar / Special Topics**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**HLTH 5920 - Workshop in Health**
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

**HLTH 5930 - Individual Study In Health**
Credit will vary from 1 to 4 hours. Supervised intensive study on selected problems or special topics.

**HLTH 5940 - Field Study In Health**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**HLTH 5950 - Internship**
Credit will vary from 1 to 8 hours; subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

**HLTH 5960 - Institute In Health**
Credit will vary from 1 to 8 hours; subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

**HIST 5883 - The Reformation, 1500-1648**
A detailed study of the religious upheaval of the sixteenth century, including its background and causes, an examination of the spread of Protestantism in northern Europe, the religious wars in France, the Catholic Reformation, and the Thirty Year War.

Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**HIST 5910 - Seminar / Special Topics**
Credit will vary from 1 to 4 hours. Directed intensive study on selected problems or special topics.

**HIST 5920 - Directed Reading In History**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**HIST 5930 - Individual Study In History**
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special subjects based on approved outlines or plans, conferences, oral and written reports.

**HIST 5950 - Internship In History**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

**HIST 5959 - Internship In Museum Studies**
Supervised practical experience gained in a professional field.

**HIST 5960 - Institute In History**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**HIST 5970 - Study Tour**
Credit will vary. Subject matter will vary within the department’s field of study.

**HIST 5990 - Thesis**
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

**HIST 5993 - Europe, 1871-1919**
A detailed study of the religious upheaval of the sixteenth century, including its background and causes, an examination of the spread of Protestantism in northern Europe, the religious wars in France, the Catholic Reformation, and the Thirty Year War.

**HIST 5995 - Internship In History**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

**HIST 5999 - Internship In Museum Studies**
Supervised practical experience gained in a professional field.

**HUM 5083 - Advanced Film Criticism**
This course covers the advanced theory and practice of scholarly film criticism, as distinct from film journalism.

**HUM 5900 - Practicum**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**HUM 5910 - Seminar / Special Topics**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.
**Graduate Course Descriptions**

**HUM 5920 - Workshop**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

**HUM 5930 - Individual Study**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**HUM 5940 - Field Study In Humanities**
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

**HUM 5950 - Internship In Humanities**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

**HUM 5960 - Institute In Humanities**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**HUM 5970 - Study Tour**
Credit will vary. Subject matter will vary within the department’s field of study.

**HUM 5990 - Thesis**
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

**INSTRUCTIONAL MEDIA (IME)**
**Department of Advanced Professional Services**

**IME 5013 - Library Materials For Secondary Schools**
This course examines qualitative historical and contemporary resources for young adult media center collections and presents media specialist and teach techniques for creating meaningful literature experiences and methods of fostering lifelong reading habits. Evaluation, examination, and application of intellectual freedom, genres, themes, literary aspects, assessment criteria, authors and curriculum integration are studied.

**IME 5023 - Materials Selection**
Principles of resource selection, including policy statements, selection tools, selection criteria for all formats, community factors, collection needs and acquisitions, the publishing industry, and legal issues will be examined. Emphasis is on school media centers. Students will receive extensive practice in evaluation of materials through use of a variety of recognized professional reviewing journals. This course replaces LME 5023 which replaced LME 5022.

**IME 5042 - Microcomputers In Classrooms/Media Centers**
A study of the appropriate utilization of microcomputers in classrooms and media center. Major emphasis is placed upon selection and evaluation of instructional software, making use of available bibliographic resources.

**IME 5053 - School Library Administration & Internship**
This course examines national, regional, and state guidelines and standards; administrative philosophies; leadership approaches; management theories; and policy development for organizing, administering, and integrating school library media center facilities, staff, resources, and budgets into the total school program. The internship portion of the class includes field experience in all major areas of library operations and services.

**IME 5063 - School Library Foundations**
This is an overview course to introduce the history, nature, development, roles, and fundamental issues in the school library media center. Students are introduced to the mission of a school library and the elements of an ideal school library media program. Foundational production skills are established and program requirements are explained. National and state standards are highlighted, as are professional organizations and the major databases and professional journals utilized in school library research.

**IME 5133 - Production in School Libraries**
This course is designed to explore concepts of school library production procedures including software and equipment. It focuses on technology integration, preparation of instructional multimedia tools and marketing plans. This course replaces LME 5133 which replaced LME 5132.

**IME 5143 - Instructional Technology Foundations**
The course covers the field of instructional technology, situating the field within the context of its historical perspective, current practices, and future directions. This is a core course in the applied technology option. It provides an introduction to the field and profession of instructional technology. Given that most entering technology students come from fields other than it, LME 5143 gives newcomers a sense of history and an explanation of how the components of the field fit together. There is a particular emphasis on the evolution of the “big ideas” of the field.

**IME 5223 - Information Literacy**
The main focus of this course is the unique role of facilitating instructional team partnerships and integrating information literacy and information access into the school’s curriculum. Emphasis includes teaching information literacy skills and creation of lessons/units to integrate those skills across various curriculum areas of PreK-12 schools. Students will analyze and apply national and state Information Literacy standards and collaborate with classroom teachers to plan, produce, and co-teach an integrated teaching unit.

**IME 5233 - Library Materials For Elementary Schools**
This course is designed for the prospective teacher or librarian who requires competence in building print and non-print collections supportive of the elementary school curriculum. It surveys qualitative historical and contemporary resources for children’s media center collections and presents media specialist and teacher techniques for creating meaningful literature experiences and methods of fostering lifelong reading habits. Evaluation, examination, and application of intellectual freedom, genres, themes, literary aspects, assessment criteria, authors, illustrators, and curriculum integration are studied.

**IME 5243 - Effective Writing for School Libraries**
This course emphasizes writing that is required in the school library media center field. It focuses on the creation of reports by analyzing, evaluating, and synthesizing information. Students develop skills in writing, as applied to grant proposals, communication, formal and informal, and school library media center policies. Styles of writing audiences are examined.

**IME 5313 - Collaborative Design/Multimedia Materials**
This course focuses on the design of educational multimedia multimedia materials. It is an applications- and research- based experience for students who have completed introductory level instructional technology courses and want to learn more about the design and development of multimedia instructional packages. The main objective of the course is to enable students to experience working as part of a multimedia team to design an instructional package for a client.
Graduate Course Descriptions

IME 5323 - Issues in Distance Education
The course examines the technologies and issues related to the development and delivery of distance learning. Topics include types, concepts, theories, history, components, design, and policy-making of distance learning programs. Emphasis is on the design and implementation of effective instructional strategies and delivery in distance learning environments. Interaction between the student, teacher, and administrator are stressed.

IME 5413 - Managing Computer/Information Centers
This course exposes students to many of the issues encountered in developing and directining computer and electronic information centers. During the course, students explore such issues as hardware and software decision making, local and wide area network operation, software support, vendor relations, electronic security, facility design, staff development, and user training.

IME 5423 - Reference and Bibliography
This course introduces students to reference materials and services in libraries. It includes a history of the reference function in school, public, and special libraries; principles and uses of bibliography; correlation of reference to other library functions; rationale and techniques of reference service; evaluations and use of selected reference tools.

IME 5453 - Cataloging and Classification
This course is a study of descriptive cataloging rules, creation of MARC records, bibliographic networks, electronic and printed catalogs, formulation of assimilation and dissemination policies and procedures, and Dewey Decimal and Library of Congress classification systems. Course content stresses instruction and applied practice in descriptive cataloging and assignment of subject headings for school library media centers. This course replaces LME 5453 which replaced LME 5454.

IME 5543 - Instructional Design & Development I
This course is a study in cooperative designing of instruction. Areas covered include determining instructional objectives, planning motivational strategies, and designing multimedia learning activities.

IME 5563 - Instructional Design & Development II
This course addresses an instructional design or performance problem through performance analysis (to determine if the problem requires an instructional or non-instructional solution); needs assessment (to determine the nature and importance of problem); and needs analysis (to identify the causes of the problem and to identify solutions). The course focuses on theories, principles, and practices of analysis and assessment of needs from the perspective of instructional design development including task analysis and instructional media. Attention is given to deficiencies and discrepancies in human performance and the root causes. Prerequisite(s): LME or IME 5543.

IME 5713 - Evaluating Change In Instructional Develop. Process
This advanced laboratory in instructional system design is an indepth study of the final stages of the instructional design process. The focus is on measurement assessment, formative and summative evaluation, the educational change process as it relates to diffusing and implementing an innovative instructional project and project management. The course requires actual field experience at an existing academic or corporate site. Prerequisite(s): LME 5543, 5613.

IME 5863 - School Library Technology
This course examines the effective implementation of technology to enhance digital literacy in the school library media center. The course includes strategies for locating, evaluating, selecting, and using appropriate information; assessing reliable access to current and emerging technologies; utilizing technology for organization and management; evaluating technology for global communication, networking, and sharing; and promoting digital citizenship and responsibility.

IME 5900 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

IME 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study on selected problems or special topics.

IME 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

IME 5930 - Individual Study
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems of special subjects based on approved outlines or plans, conferences, oral and written reports.

IME 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study.

IME 5950 - Internship
Credit will vary from 1 to 8 hours; subject matter will vary within the department's field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

IME 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

IME 5970 - Study Tour
Credit will vary. Subject matter will vary within the department's field of study.

IME 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

INE SYSTEMS AND OPERATIONS MANAGEMENT (ISOM)
Department of Information Systems and Operations Management

ISOM 5143 - Computing Systems For Mgmt
This course provides students with practical knowledge, skills, and hands-on experience necessary to develop and use end user information systems. Particular emphasis is given to the appropriate use of computer applications to enhance management problem solving and communication. Prerequisite(s): Completed all prerequisites for the MBA Program.

ISOM 5243 - Database Design/Implementation
This course examines the fundamental concepts necessary for planning, designing, using, and implementing database systems. This course will stress database modeling and design, the languages and facilities provided by database management systems, and system implementation techniques. Through case studies, students will be asked to apply concepts learned to solve actual database management problems in business organizations. Prerequisite(s): Completed all prerequisites for the MBA Program and ISOM 5143.
Graduate Course Descriptions

**ISOM 5343 - Decision Support Systems**
The design and development of end-user microcomputer applications that support semi-structured decision making in all levels of business organizations. Conceptual topics will include the decision making process, organizational data access and integration, building decision models, and design of graphical user interfaces. Students will use microcomputer client applications to gather data from multiple data sources and apply decision models from management science, accounting, finance, marketing or other business areas to provide support for business decisions. Students will be expected to design and demonstrate prototype decision support projects in the context of a real business problem. Prerequisite(s): Completed all prerequisites for the MBA Program and ISOM 5143.

**ISOM 5533 - Management Science**
This course is designed to lead students through the fields of management science/operations research and their applications in the business world, with an emphasis on modeling. The topics covered in this course include decision theory, utility theory, forecasting, linear programming modeling, the simplex method, sensitivity analysis, the transportation and assignment models, and project management. Students are introduced to the use of computer software packages which are designed for the analysis of a wide variety of business problems. Prerequisite(s): Completed all prerequisites for the MBA Program.

**ISOM 5633 - Operations Management & Analysis**
A study of operations management and its role in contributing to an organization’s competitive strengths along the dimensions of quality, cost, flexibility, and time. The relationship of product and service quality to productivity and costs. Conceptual issues and quantitative methods of decision making by operation management at the strategic, tactical, and operational levels. Prerequisite(s): Completed all prerequisites for the MBA Program and ISOM 5533.

**ISOM 5733 - Advanced Management Science**
This course is a continuation of the management science (ISOM 5533) course. The main objectives of this course are to introduce students to more advanced theory and techniques in the fields of management science/operations research and their application in the business world. Covered topics include decision theory, queuing, simulation, goal programming, integer programming, and the implementation of management science in organizations. Prerequisite(s): Completed all prerequisites for the MBA Program and ISOM 5533.

**ISOM 5900 - Practicum**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**ISOM 5910 - Seminar / Special Topics**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**ISOM 5920 - Workshop**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**ISOM 5930 - Individual Study**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**ISOM 5940 - Field Study**
Credit will vary from 1 to 9 hours. Subject matter will vary within the Departments field of study.

**ISOM 5950 - Internship**
Credit may vary from 1 to 8 hours.

**ISOM 5960 - Institute**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**ISOM 5970 - Study Tour**
Credit will vary. Subject matter will vary within the department’s field of study.

**ISOM 5990 - Thesis**
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

**JAPANESE (JAPN)**
Department of Modern Languages, Literature & Cultural Studies

**JAPN 5900 - Practicum In Japanese**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**JAPN 5910 - Seminar / Special Topics**
Credit will vary from 1 to 4 hours. Subject matter will vary from within the department’s field of study.

**JAPN 5920 - Workshop In Japanese**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

**JAPN 5930 - Individual Study In Japanese**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**JAPN 5940 - Field Study In Japanese**
Credit will vary from 1 to 4 hours. Subject matter will vary from within the department’s field of study.

**JAPN 5950 - Internship In Japanese**
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

**JAPN 5960 - Institute In Japanese**
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**JAPN 5970 - Study Tour In Japanese**
Credit will vary. Subject matter will vary within the department’s field of study.

**JAPN 5990 - Thesis In Japanese**
Credit will vary from 1 to 6 hours. Subject matter will vary from within the department’s field of study.

**KINESIOLOGY (KINS)**
Department of Kinesiology and Health Studies

**KINS 5113 - Legal/Ethical Principles Of Wellness Management**
This course provides students with the opportunity to gain insight and understanding about the law and its implications on professionals in the fields of health, wellness, sport, education, leisure, and fitness. Prerequisite(s): Graduate standing.
Graduate Course Descriptions

KINS 5213 - Organizational Behavior & Leadership In Wellness Programs
This course is designed to generate competence for prospective directors, managers, and administrators in wellness settings. Technical and conceptual skills of organizational behavior and leadership will be discussed and applied to wellness program scenarios and settings in agencies, industries, and hospitals; the focus will be on improving the health and well-being of persons in these settings. Prerequisite(s): Graduate standing.

KINS 5223 - Technology & Media For Wellness Managers
This course provides wellness professionals with the skills to initiate, maintain, and expand technology and media into daily business. It also emphasizes obtaining resources, information, skills, and strategies through practical application. Prerequisite(s): Graduate standing.

KINS 5233 - Assessment Of Health & Exercise Sciences
Assessment of Health and Exercise Sciences is designed to provide instruction in three common statistical tasks: 1) collecting data, 2) summarizing and exploring data, and 3) drawing conclusions and making decisions based on data.

KINS 5303 - Diagnostic Testing & Exercise Prescription
This course is designed to enhance the student’s knowledge and application of exercise testing and exercise prescription for apparently healthy populations. Prerequisite(s): Graduate standing and PHED 5303 and KINS 4513.

KINS 5313 - Athletic Training Principles
This course is a study of advanced theories, techniques, and applications of skills relative to athletic injury care and rehabilitation. Prerequisite(s): Enrollment open to Athletic Training majors only.

KINS 5333 - Rehabilitation Exercise For Special Populations
This course is designed to increase the student’s working knowledge about special populations in the areas of physical assessment and exercise prescription. Prerequisite(s): Graduate standing and PHED 5303.

KINS 5343 - Assessment Athletic Injuries
This course provides the student with information and basic skills used to evaluate athletic injuries and special problems including palpation methods, manual muscle tests, neurological tests, and special tests. Prerequisite(s): Enrollment is open to Athletic Training majors only.

KINS 5403 - Biomechanical Analysis
The principles of classical mechanics are applied to the study of human motion to provide students with an understanding of the internal and external forces acting on the body during human movement. The role of muscle in generating force and controlling movement is emphasized. Prerequisite(s): PHED 3333 and HLTH 3223.

KINS 5413 - Clinical Education Assessment Of Athletic Injuries
This course will provide the clinical experience to conduct comprehensive injury examinations, determine a list of different diagnoses and make clinical judgments. Prerequisite(s): Concurrent enrollment in KINS 5343 is required. Enrollment open to Athletic Training majors only.

KINS 5423 - Strength Development & Training Methods
This course is designed to address strength development and training in the context of exercise science, sports medicine, preventive medicine, health psychology and behavioral medicine, epidemiology, nutrition, and rehabilitative medicine. The focus will be on the blending of theory driven research with the practical applications of exercise prescription to specific training paradigms and that relationship to exercise adherence, maintenance, and relapse. Prerequisite(s): Graduate standing.

KINS 5433 - Therapeutic Modalities
This course will provide the athletic training student with the knowledge, theory, and techniques for the use and application of therapeutic modalities. Prerequisite(s): Enrollment open to Athletic Training majors only.

KINS 5443 - Clinical Education Therapeutic Modalities
This course provides clinical education sessions and supervised field experiences to develop clinical skills in therapeutic modalities. Prerequisite(s): Enrollment is open to Athletic Training majors only.

KINS 5513 - Medical Aspects Of Athletic Training
This course will provide the knowledge and skills necessary to recognize, manage, and refer the athletes to appropriate medical specialists. Prerequisite(s): Enrollment is open to Athletic Training majors only.

KINS 5523 - Rehabilitation Techniques For Athletic Injury
This course will provide a comprehensive look at post-injury and post-operative rehabilitation techniques. Students will study the therapeutic exercise and modality techniques involved in returning athletes from injury to full participation. Prerequisite(s): KINS 5313. Enrollment is open to Athletic Training majors only.

KINS 5561 - Clinical Education For Rehabilitation Techniques
The course will provide the opportunity to practice rehabilitation skills instructed in the clinical setting under the supervision of an accredited clinical instructor. Instruction in the clinical setting will include supervised practice and assessment of the individual rehabilitation skill and supervised application of the skill with injury treatment and rehabilitation. Prerequisite(s): Enrollment open to Athletic Training majors only.

KINS 5562 - Pathophysiology For Athletic Trainers
This course is a study of acute and chronic illnesses and musculoskeletal disorders including the pharmacologic response during physical activity. Prerequisite(s): Enrollment is open to Athletic Training majors only.

KINS 5571 - Athletic Training Administration
This course will examine the organization and administration of an Athletic Training Program with an emphasis on the formulation of policies and procedures and other administrative tasks using NATA competencies. Prerequisite(s): Enrollment open to Athletic Training majors only.

KINS 5572 - Psychosocial Aspects Of Athletic Training
This course will focus on sociological and psychological aspects of physical activities on athletes, and the effects of physical activity as related to differences based on cultural, ethnic, gender, and handicapping conditions. Prerequisite(s): Enrollment open to Athletic Training majors only.

KINS 5573 - Athletic Training Clinical I
The course will provide the student with a supervised clinical experience in order to develop foundational behaviors of professional practice through the evaluation of athletic injuries to include but not limited to: differential diagnosis, clinical judgment, skills related to psychomotor competencies, use of modalities, and acute care in equipment intensive experiences. Clinical proficiencies are required to complete the course. Students will need to provide transportation to clinical sites. Prerequisite(s): KINS 5343. Enrollment open to athletic training majors only. Concurrent enrollment in KINS 5523 and 5613 is required.
Graduate Course Descriptions

KINS 5743 - Athletic Training Clinical II
This course will expand upon the students supervised clinical experience to develop foundational behaviors of professional practice through the evaluation of athletic injuries by demonstrating a level of proficiency related to knowledge and psychomotor skills associated with the athletic training content areas of diagnosis of axial spine-trunk injuries, general medical conditions of chest/abdomen, therapeutic rehabilitation, pharmacology, nutrition, administration and professional development. Clinical proficiencies are required to complete the course. Student will need to provide transportation to clinical sites. Prerequisite(s): KINS 5733. Enrollment open to athletic training majors only. Concurrent enrollment in PHED 5393 is required.

KINS 5900 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

KINS 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study of selected problems or special topics. Prerequisite(s): An undergraduate minor in the subject matter area and permission of the graduate advisor.

KINS 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

KINS 5930 - Individual Study
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special topics based on approved outlines or plans, conferences, oral and written reports. Prerequisite(s): An undergraduate major in the subject matter area and permission of graduate advisor.

KINS 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

KINS 5950 - Internship
Credit will vary from 1 to 8 hours; subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

KINS 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

KINS 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

KINS 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

LATN (LATN)
Department of Modern Languages, Literature & Cultural Studies

LATN 5900 - Practicum In Latin
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

LATN 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

LATN 5920 - Workshop In Latin
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

LATN 5930 - Individual Study In Latin
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

LATN 5940 - Field Study In Latin
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

LATN 5950 - Internship In Latin
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

LATN 5960 - Institute In Latin
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

LATN 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

LATN 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

LEGAL STUDIES (LS)
Department of General Business

LS 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study on selected problems or special topics.

LS 5930 - Individual Study
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special subjects based on approved outlines or plans, conferences, oral and written reports.

LS 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the Department’s field of study.

LS 5950 - Internship In Legal Studies
Credit will vary from 1 to 8 hours; subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

LS 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

MEDIA ARTS (MART)
Department of Theatre, Dance and Media Arts

MART 5000 - Workshop In Media Arts
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given. No more than 2 hours of workshop may be counted on a master’s degree.

MART 5900 - Practicum In Media Arts
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**MATH 5164 - Calculus For Secondary Teachers**

This course is a continuation of MATH 5134. Prerequisite(s): MATH 5134.

**MATH 5183 - Numerical Analysis II**

This course is a continuation of MATH 3263. Topics include the study of quadrature formulae, the numerical solution of ordinary differential equations, an introduction to linear programming, and error analysis. Prerequisite(s): MATH 3263.

**MATH 5203 - Foundations Of Mathematics**

This course is a study of the fundamental concepts of mathematics. Topics include axiomatic methods in algebra and geometry, the theory of sets and other cultural aspects of mathematics.

**MATH 5243 - Vector Analysis**

Topics in this course include vector algebra, vector functions of one variable, differential invariants, integral theorems, and vector spaces. Prerequisite(s): MATH 2343.

**MATH 5233 - Non-Linear Programming**

Topics in this course include the N.L.P. problem, Kuhn-Tucker conditions, quadratic, separable, and integer programming, and the method of Griffith and Stewart. Prerequisite(s): MATH 4113 or 5113.

**MATH 5403 - Introduction To Actuarial Science**

Topics in this course include single-life mortality functions, annuities, life insurance, premiums, and reserve multiple-life functions. Prerequisite(s): STAT 4113 or 5113 or 4353 or 5353.

**MATH 5413 - Differential Equations**

Topics in this course include partial differential equations, elliptic, hyperbolic, and parabolic equations, separation of variables, special functions, eigen function expressions, and the existence and uniqueness of solutions. Prerequisite(s): MATH 5363.

**MATH 5433 - Theory Of Functions**

This course is an introduction to the theory of functions of real and complex variables.

**MATH 5443 - Introduction To Complex Variables**

This course is an introduction to the theory of functions of a complex variable. Topics include analytic functions, complex integrals, Taylor and Laurent series, and conformal mappings. Prerequisite(s): MATH 2343.

**MATH 5453 - Mathematical Modeling**

This course is a case study approach to mathematical modeling. Problems from a variety of problem areas and demonstrating various mathematical methodology will be discussed. Prerequisite(s): Permission of the instructor.

**MATH 5503 - Symbolic Logic**

Topics in this course include the logic of syntax, an analysis of truth-functional compound statements, truth tables, formal and indirect proofs, propositional functions and the use of quantifiers, the logic of relations, and a study of the nature of deductive systems. Prerequisite(s): MATH 2323 and 6 hours of mathematics.

**MATH 5543 - Applied Group Theory**

Applications of group theory to finite state machines, switching functions, and error detecting codes will be examined in this course. Other topics include groups, partially ordered sets, functions, and boolean algebras. Prerequisite(s): MATH 4583.

Graduate Course Descriptions

MGMT 5043 - Organizational Theory & Design
This course is designed to impart to the student an integrated and pragmatic approach in the application of organizational theory. An in-depth examination is undertaken to ascertain the relationship between technology, the external and internal environments and their impact upon the development of modern theory. The student will be exposed to the various classics in the field as they formulate their theories and consequences of their use. A study will be made in the evolution of those theories compared to the writings of today's management scholars. Prerequisite(s): Completed all prerequisites for the MBA Program.

MGMT 5203 - International Management
This course aims at developing student’s knowledge and awareness of international management operations, practices, and environment. Students will learn the process of planning, organizing, directing, and controlling international business activities and operations. The course objectives are met through lectures, classroom discussions, library assignments, and research work. Prerequisite(s): Completed all prerequisites for the MBA Program.

MGMT 5543 - Integrated Functions Of The Firm
A total firm concept which involves many different kinds of business problems which are conceptual in nature. Problems studied are based on the student’s career objectives, business background, and academic preparation. Prerequisite(s): Completed all prerequisites for the MBA Program and MGMT 5023.

MGMT 5563 - Corporate Social Responsibility & Business
A course designed to enable the student to develop a philosophy of the social responsibility of business, and a philosophy of personal responsibility as a leader within the field of business. Moral and ethical responsibilities of business and its administrators are considered. Prerequisite(s): Completed all prerequisites for the MBA Program.

MGMT 5900 - Practicum In Management
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

MGMT 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

MGMT 5920 - Workshop in Management
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

MGMT 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

MGMT 5940 - Field Study In Management
Credit will vary from 1 to 9 hours. Subject matter will vary within the Department's field of study.

MGMT 5950 - Internship In Management
Credit will vary from 1 to 8 hours; subject matter will vary within the department's field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

MGMT 5960 - Institute In Management
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

MGMT 5970 - Study Tour
Credit will vary. Subject matter will vary within the department's field of study.

MGMT 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

MUSIC PERFORMANCE (MPER) School of Music

MPER 5010 - Applied Music (graduate)
Credit will vary from 1 to 4 hours. Applied brass, organ, piano, voice, strings, percussion, woodwinds and jazz improvisation.

MPER 5111 - Concert Chorale
Concert choir provides an opportunity for musically talented UCO students to develop their vocal talents rehearsing and performing a wide variety of choral music. The group will perform a minimum of two on-campus performances during the semester. Prerequisite(s): Permission of instructor.

MPER 5141 - Cantilena
Cantilena is a vocal ensemble for the Soprano/Alto singer. It is open to all students, regardless of major, by audition and permission of instructor. Prerequisite(s): Permission of instructor.

MPER 5151 - UCO Chamber Orchestra
The UCO Chamber Orchestra offers advanced students the opportunity to perform orchestral works of the 17th and 18th Centuries in a chamber setting working without a conductor. Prerequisite(s): A successful audition, and permission of the instructor.

MPER 5161 - UCO Symphony Orchestra
The UCO Symphony offers a well-rounded orchestral experience through performing four to eight concerts each school year, embodying compositions in a variety of styles from various musical periods. Prerequisite(s): A successful audition.

MPER 5181 - Chamber Choir
The Chamber Choir performs advanced choral literature which is intended for smaller ensembles. Prerequisite(s): Permission of instructor required.

MPER 5210 - Band
A band is a large ensemble performing group. The university band program is open to all university students who have performance skills on band instruments. During the fall semester the marching band performs at football games, and spring semester is devoted to wind ensemble and concert band performance. Prerequisite(s): Written permission of instructor.

MPER 5281 - Wind Symphony
The wind symphony is the premier performing ensemble in the Winds & Percussion Division of the UCO School of Music. The ensemble prepares and performs music for concerts on and off campus, tour, and other activities throughout the fall and spring semesters.

MPER 5351 - Advanced Piano Ensemble
The advanced piano class is designed for piano majors or students with equivalent proficiency. The course of study will provide solo performers an opportunity for ensemble playing experience. Areas of concentration are piano duet literature, two-piano and four-piano literature, piano accompanying, and multiple score reading. Prerequisite(s): Written permission of instructor.
Graduate Course Descriptions

MPER 5421 - Advanced Chamber Music
This course provides students with a coached experience in advanced musicianship skills relating to playing in small chamber ensembles. The course emphasizes full participation in a chamber ensemble that reflects actual professional experience. Students will develop the skills necessary to interpret and perform music at a professional level. This course may be taken four (4) times for credit.

MPER 5511 - Advanced Orchestral Wind Study
This course provides students with a coached experience in orchestral wind performance, emphasizing analytical and interpretative skills. The course emphasizes full participation in a symphonic orchestra that reflects actual professional experience. Students will execute at an advanced level the skills necessary to interpret and perform orchestral literature at a professional level as well as to function in leadership positions within the ensemble. This course may be taken eight (8) time for credit.

MPER 5611 - Jazz Ensemble
UCO Jazz Ensembles provide graduate students with in-depth technical guidance in ensemble and solo performance while also developing advanced proficiency in a wide range of styles necessary to perform jazz and commercial music on a professional level. This course may be taken four (4) times for credit. Prerequisite(s): High level of performance proficiency as determined by the director.

MPER 5621 - Graduate Jazz Combo
Graduate Jazz Combo is a highly specialized small ensemble experience for advanced jazz studies students who consistently demonstrate professional performance skills. Auditions will take place at the beginning of each semester at the UCO Jazz Lab. This course may be taken four (4) times for credit. Prerequisite(s): High level of performance expertise as determined by the director.

MPER 5822 - Graduate Recital
This course is a public performance for the graduate performance major. Prerequisite(s): Two semesters of graduate instruction in the applied area and written permission of major applied instructor and graduate advisor.

MPER 5891 - Piano Pedagogy Internship
This course is an internship portion of Piano Pedagogy. Students are required to enroll in this course concurrently with MUS 5883 Piano Pedagogy. It provides observation and supervision intern teaching in piano as well as discussion with the supervising teacher. Each intern teacher will teach applied and class piano as part of the course requirements. Prerequisite(s): Four (4) semester hours of applied piano MPER 3020 or 4000.

MPER 5900 - Practicum in Music Performance
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Permission of department chairperson required.

MPER 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

MPER 5920 - Workshop in Music Performance
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

MPER 5930 - Individual Study in Music Performance
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special subjects, based on approved outlines or plans; conferences, oral and written reports.

MPER 5940 - Field Study in Music Performance
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

MPER 5950 - Internship in Music Performance
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

MPER 5960 - Institute in Music Performance
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

MPER 5970 - Study Tour In Music Performance
Credit will vary. Subject matter will vary within the department’s field of study.

MPER 5980 - Graduate Project
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

MPER 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

MARKETING (MRKT)
Department of Marketing

MRKT 5123 - Marketing Management
Marketing management is the study of the analysis, planning, implementation, and control of programs designed to create, build, and maintain mutually beneficial exchanges and relationships with target markets for the purpose of achieving organizational objectives. It relies on a disciplined analysis of the needs, wants, perceptions and preferences of target and intermediary markets as the basis for effective product design, pricing, communication, and distribution. Prerequisite(s): Completed all prerequisites for the MBA Program.

MRKT 5143 - Non-profit Marketing
A study of application of marketing concepts in noncommercial ventures such as governmental bureaus and Departments, religious or charitable activities, various causes of current concern, and any group endeavor in which profit is not the motivating force. Specific topics and emphasis will vary with different student groups. Prerequisite(s): Completed all prerequisites for the MBA Program and MRKT 5123.

MRKT 5223 - Current Issues In Marketing
Study of and attention to current and timely topics, issues, and problems in the area of marketing. Extensive utilization of current literature in the area of marketing. Major objective of the course will be to acquaint the student with the major developments of the immediate and long-range trends in the area of marketing. Prerequisite(s): Completed all prerequisites for the MBA Program and MRKT 5123.

MRKT 5553 - International Marketing
International environmental forces and their impact on international marketing decision making. Stresses marketing problem solving in the international setting. Prerequisite(s): Completed all prerequisites for the MBA Program.

MRKT 5900 - Practicum In Marketing
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

MRKT 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.
## Graduate Course Descriptions

### MUSIC EDUCATION (MUED) School of Music

**MUED 5123 - Foundations of Music Education**  
This is a presentation of the major disciplines specific to music education including history, philosophy, psychology, pedagogy and sociology of music education. The course intends to inform the practice of music education through a study and integration of those disciplines that provide a multi-dimensional view of the field.

**MUED 5213 - History of Music Education**  
This course surveys the history of music education from antiquity to the present, placing special emphasis on current music education in the United States. The survey views music education within the larger context of education history, method and philosophy and gives special attention to recent relevant developments in cognitive theory.

**MUED 5223 - Philosophy of Music Education**  
This course presents a survey of philosophical systems, subjects, and issues relating to music education in a survey of philosophies from ancient times to the present. The course concentrates on modern philosophies of music education, their distinctive differences, and the impact that these philosophies have on current music education and advocacy.

**MUED 5333 - Current Trends in Practice**  
This course acquaints students with recent developments and innovations in the philosophy, psychology, pedagogy and advocacy of music with the specific purpose of evaluating their effectiveness and applicability for today’s music classroom.

**MUED 5402 - Instructional Methods For Secondary Teacher**  
Study of the basic content and general principles of instrumental music appropriate to the secondary school program; organization of materials, procedures and techniques of instruction.

**MUED 5413 - Trends in Marching Band**  
This course covers marching band fundamentals, various types of precision marching, pageantry, charting and show planning. Each student will be required to write an original seven minute halftime show.

**MUED 5432 - Vocal Methods For Secondary Teacher**  
Study of the basic content and general principles of vocal music appropriate to the secondary school program; organization of materials, procedures and techniques of instruction.

**MUED 5513 - Music Advocacy for Schools**  
This course investigates the major issues relating to advocating music education in the public school system, considers the variety of stakeholders, and surveys the relevant research and scholarly work relating to the subject. Students will formulate for a specific situation an advocacy plan that addresses all relevant concerns and issues.

**MUED 5533 - Instructional Methods & Materials**  
This course is designed to help the graduate student identify new approaches or refine current approaches to instructional, organizational, or philosophical issues that affect instrumental music education programs.

**MUED 5842 - Elementary Music Methods - Instrumental**  
Problems and methods of teaching instrumental music in the grades. For music majors only. Prerequisite(s): Admission to Teacher Education.

**MUED 5852 - Elementary Music Methods - Vocal**  
Problems and methods of teaching vocal music in the grades. For music majors only. Prerequisite(s): Admission to Teacher Education.

**MUED 5872 - Vocal Music Methods - Secondary**  
For music majors/minors only.

**MUED 5900 - Practicum in Music Education**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Permission of department chairperson required.

**MUED 5910 - Seminar / Special Topics**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

**MUED 5920 - Workshop in Music Education**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

**MUED 5930 - Individual Study In Music Education**  
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special subjects, based on approved outlines or plans; conferences, oral and written reports.

**MUED 5940 - Field Study In Music Education**  
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study.

**MUED 5950 - Internship in Music Education**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

**MUED 5960 - Institute in Music Education**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

**MUED 5970 - Study Tour**  
Credit will vary. Subject matter will vary within the department's field of study.

**MUED 5980 - Workshop in Music Education**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

**MUED 5990 - Thesis**  
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

**MUED 5995 - Internship in Music Education**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.
Graduate Course Descriptions

MUED 5970 - Study Tour in Music Education
Credit will vary. Subject matter will vary within the department’s field of study

MUED 5980 - Graduate Project
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

MUED 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

MUSIC (MUS) School of Music

MUS 5022 - Music For Small Vocal Ensemble
Repertoire and performance practices of music for small vocal ensemble ranging from 16th century madrigal to contemporary literature.

MUS 5043 - Music in America
The course possesses a socio-historical orientation and covers a broad spectrum of the musical life of the United States since its colonization. The content includes sacred and secular, popular and classical, as well as some of the folk traditions that have made important contributions to American musical life.

MUS 5092 - Form And Analysis
The analysis of the construction of works in the various musical forms, affording an intelligent basis for musical interpretation. Prerequisite(s): MUSIC 2594.

MUS 5112 - Advanced Choral Conducting
The study of conducting techniques as related to the unique styles of each musical period. Prerequisite(s): Permission of instructor.

MUS 5133 - Baroque Music
This course presents an intensive exploration of baroque music (1600-1750) with special emphasis on its historical and social context and their influence on the music of the time. Students will participate actively through research and presentation of special topics areas, developing expertise in the historical and theoretical analysis of the repertoire and its primary sources. Prerequisite(s): Enrollment open to graduate music majors only.

MUS 5143 - Wind Instrument Literature For Ensemble
This course presents a study of the development of wind instrument literature from 1600 to the present.

MUS 5152 - Instrumentation
A survey of the four choirs of instruments and beginning orchestra tion. Prerequisite(s): 8 hours of harmony.

MUS 5163 - Classical Era Music
This course presents an intensive exploration of the music of the high classical era with special emphasis on its historical and social context and their influence on the music of the time. Students will participate actively through research and presentation of special topics areas, developing expertise in the historical and theoretical analysis of the repertoire and its primary sources. Prerequisite(s): Enrollment open to graduate music majors only.

MUS 5202 - Advanced Voice Pedagogy
A survey of methods of teaching singing with emphasis on vocal problems as illustrated through demonstration lessons with advanced students.

MUS 5213 - Music Theatre Directing I
The historical emergence of the director, production techniques, working with staff, artistic staff and performers, and coordination of all elements of pre-production, production, and post production. Prerequisite(s): MUSIC 2473, 3423, and written permission of instructor.

MUS 5223 - Music Theatre Directing II
The student will choose scenes from music theatre repertoire, cast them, and select the crew and staff. The student will take scenes through production and performance. Prerequisite(s): MUSIC 2331, 3622, 4213, and written permission of instructor.

MUS 5232 - Music For Elementary Teachers
A practical, activity-oriented approach to elementary music methods for persons holding a Bachelor of Music or Bachelor of Music Education degree. Prerequisite(s): Bachelor of Music or Music Education degree. This course replaces MUS 5033 & MUS 5032 Music for Elementary Teachers.

MUS 5242 - Instrumental Ensemble Pedagogy
This course is designed to help conductors and teachers of instrumental ensembles understand and implement various instructional strategies and teaching techniques in instrumental ensemble rehearsals. Prerequisite(s): Bachelors Degree in some field of music.

MUS 5312 - Introduction to Music Research
This course introduces students to resources and research methods, appropriate to a variety of information needs met in a professional career in music. Students also gain experience in presenting the results of research in both oral and written form, as appropriate to different audiences and purposes.

MUS 5323 - Piano Literature I
This course is a study of piano literature from the Baroque, Classical, and the early Romantic periods. It involves performance practices of these styles and periods through performing, listening, and analysis of the literature. Prerequisite(s): Four (4) semester hours of applied piano (MPER 3020, 4000).

MUS 5333 - Piano Literature II
This course is a study of the piano literature and performance practice from the Romantic period to the present day. It involves performance practices of these styles and periods through performing, listening, and analysis of the literature. Prerequisite(s): Four (4) semester hours of applied piano (MPER 3020, 4000)

MUS 5362 - Advanced Music Composition
Advanced music composition explores the creative process of writing acoustic and electroacoustic music. The computer is used to create music notation and multitrack compositions. The course may be taken more than once and can count for 2 hours of theory credit and up to 6 hours of elective credits in the master of music degree. Prerequisite(s): Eight hours of undergraduate harmony.

MUS 5372 - Computer Music Technology
Graduate Course Descriptions

MUS 5383 - Advanced Recording Technology
Advanced Recording Technology is an in-depth study of the complete schematics of the UCO Jazz Lab Recording Studio. Topics will include Microphone Selection and Placement, Signal Routing and Cabling, Analog and Digital Mixer Applications, Audio Interface Applications, Analog and Digital Recording Techniques, Digital Performer Plug-Ins, Audio Latency Management, Mixing Techniques, and Mastering Techniques. Prerequisite(s): MUS 5373.

MUS 5443 - Arts Management
Arts Management will cover the following important career topics: resumes, media kits, web page development, branding, taxes and record keeping, legalities — including contracts and copyright issues, networking, personal presentation (i.e. interviews and auditions), researching and recognizing career enhancing opportunities, and developing a career strategy. Graduate students will be required to complete additional research and present a minimum of three classroom presentations on assigned topics.

MUS 5453 - Music Theory Pedagogy
This course covers the essentials of diatonic and chromatic harmony and voice-leading, through part-writing, analysis, and aural training. Students will obtain a deeper understanding of this subject material and the methodology of teaching it through practical experience in teaching and conducting elements of the course.

MUS 5463 - Studies in Music Theory
This title embraces a continually changing variety of specific courses in the broad field of music theory, each designed around the particular expertise or research interest of the individual instructor. The subject areas include but are not limited to specific analytical techniques, the analysis of specific repertoires, issues in the history of theory, and contemporary issues in theoretical analysis. In each case an emphasis is placed on the state of current research in the field and the involvement of students in independent research.

MUS 5503 - Advanced Conducting-Score Read
This course presents a thorough study of choral, band, and orchestral scores and their interpretation, with particular emphasis on developing more advanced techniques and experiences in conducting.

MUS 5512 - Brass Pedagogy
This course will address methodological approaches to technical and musical aspects of brass teaching in the context of exercises, studies, and repertoire. Prerequisite(s): Concurrent enrollment in Applied Brass and 6 hours of Applied Brass at the graduate or undergraduate level.

MUS 5522 - Woodwind Pedagogy
This course will address methodological approaches to technical and musical aspects of woodwind teaching in the context of exercises, studies, and repertoire. Prerequisite(s): Concurrent enrollment in Applied Woodwinds and 6 hours of Applied Woodwinds at the graduate or undergraduate level.

MUS 5532 - String Pedagogy
This course will address methodological approaches to technical and musical aspects of string teaching in the context of exercises, studies, and repertoire. Prerequisite(s): Concurrent enrollment in Applied String and 6 hours of Applied String at the graduate or undergraduate level.

MUS 5542 - Percussion Pedagogy
This course will address methodological approaches to technical and musical aspects of percussion teaching in the context of exercises, studies, and repertoire. Prerequisite(s): Concurrent enrollment in Applied Percussion and 6 hours of Applied Percussion at the graduate or undergraduate level.

MUS 5602 - Woodwind Materials & Techniques
A critical examination of significant publications for woodwinds with emphasis upon instructional aids and the organization of graded literature for each of the woodwind instruments.

MUS 5613 - Jazz Pedagogy
This course will teach techniques of instruction in the areas of jazz improvisation and jazz ensemble performance appropriate for teaching at the high school and university levels. Independent research and laboratory rehearsal experiences will be required.

MUS 5622 - Strings, Materials & Techniques
no description at this time.

MUS 5633 - Jazz History
This course will examine the historical development of jazz music as well as the important elements which comprise the individual styles of jazz. The class will focus on important musicians and literature of each era. Attention will also be brought to social aspects of American history as it directly relates to the development of jazz music. Graduates will be required to complete additional research projects and give a minimum of three class presentations on assigned topics.

MUS 5643 - German Singing Diction
German singing diction is designed to address the unique challenges presented to the American career singer, the choral conductor, the teacher of singing, and the coach/accompanist who is expected to perform, teach or conduct vocal literature in a professional setting. Prerequisite(s): Written permission of the instructor.

MUS 5653 - Jazz & Commercial Music Arranging
Jazz & Commercial Music Arranging instructs the student in the art of wind, string, vocal, and rhythm section arranging as relates to jazz and commercial music styles. Students will be expected to arrange for jazz ensemble, studio rhythm section, various combinations of horns/strings, and vocals.

MUS 5662 - CD Album Pre-Production
This course is intended to give students laboratory studio time with instructor supervision to complete pre-production of the graduate CD album. This includes composition, arranging and orchestration, and scratch reference tracks. Prerequisite(s): MUS 5372, 5383, and (5653 or concurrent enrollment).

MUS 5674 - CD Album Production
CD Album Production is to be taken during the final spring semester of the Master of Music in Jazz Studies Commercial Music Production Degree. During this semester project, the student will complete all recording, editing, mixing, and mastering of the final CD Album project. Prerequisite(s): MUS 5372, 5383, and 5662.

MUS 5713 - Analytical Techniques
This course introduces students to the advanced application of techniques of harmonic and formal analysis as applied to the repertoires of western music from the eighteenth through the early twentieth century.

MUS 5723 - History of Performance
This course will survey the development of western music from medieval to modern times from the perspective of musical performance and its literature. Practical application of this knowledge will include a performance following historical performance practice. Prerequisite(s): MUS 2623, 2663, and 3273 with a minimum grade of “C”.

Graduate Catalog, 2009 - 2010
Graduate Course Descriptions

MUS 5733 - History of Theory
This course traces the impact of music theory on the development of western music from ancient to modern times. The interaction between academic and practical traditions, as revealed in the separate literatures of academic speculative theory and practical theory of composition and performance practice, will be covered. Prerequisite(s): MUS 2623, 2663 and 3273 with a minimum grade of "C".

MUS 5743 - Music History Pedagogy
This course is an advanced diachronic survey of music history, ancient through contemporary, emphasizing the historical development of musical styles with reference to selected works from the literature. Students will participate actively in the conduct of the class, gaining knowledge of the pedagogy of music history and practical experience in teaching.

MUS 5753 - Studies in Music History
This title embraces a continually changing variety of specific courses in the broad field of music history, each designed around the particular expertise or research interest of the individual instructor. The subject areas include but are not limited to genre studies, individual composers, limited period studies and contemporary issues. In each case an emphasis is placed on the state of current research in the field and the involvement of students in independent research.

MUS 5762 - Practicum In Musical Interpretations
This course is designed to help conductors and teachers of ensembles develop analytical and artistic methods to find depth and meaning in the music that they teach and perform. Emphasis will be placed on stylistic analysis and on the understanding that conductors are "the composer's advocate."

MUS 5812 - Choral Directors Institute
The choral directors institute is a three-day lecture series for choral directors. Nationally recognized clinicians will offer sessions on all areas of choral music.

MUS 5833 - Piano Pedagogy
This course is a study of the materials and techniques of teaching piano, from the elementary to advanced level, in private and group instruction. Supervised teaching and observation is included as well as research of current trends in piano teaching. Prerequisite(s): Four (4) semester hours of applied piano (MPER 3020, 4000).

MUS 5900 - Practicum In Music
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Permission of department chair required.

MUS 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study on selected problems or special topics. Prerequisite(s): An undergraduate minor in the subject matter area and permission of the Department head and the director of graduate studies.

MUS 5920 - Workshop In Music
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

MUS 5930 - Individual Study In Music
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special subjects, based on approved outlines or plans; conferences, oral and written reports.

MUS 5940 - Field Study In Music
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study.

MUS 5950 - Internship In Music
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

MUS 5960 - Institute In Music
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

MUS 5970 - Study Tour
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

MUS 5980 - Graduate Project
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

MUS 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

NUTRITION (NTRN)
Department of Human Environmental Science

NTRN 5032 - Nutrition Education
This course provides the application of learning theory and media in the design, development and delivery of nutrition education and counseling programs.

NTRN 5102 - Newer Trends In Nutrition
This course includes a thorough study of the newer trends and recent research in nutrition. Prerequisite(s): Permission of instructor.

NTRN 5184 - Advanced Nutrition
The advanced study of nutrition including digestion, absorption, and metabolism of all nutrients with an emphasis on the latest nutrition research. Prerequisite(s): NTRN 4034, CHEM 3403, CHEM 4103 or concurrent enrollment, and BIO 2604.

NTRN 5193 - Food Science
This course includes an investigation of the scientific techniques that must be utilized by food scientists and technologists to bring commercially viable products to the marketplace. Prerequisite(s): NTRN 1613 and CHEM 3303.

NTRN 5212 - Management Of Nutrition Services
This course includes the study of concepts, processes, and theories of managing clinical nutrition services. The course will emphasize the delivery of high quality, cost-effective service that can be justified to hospital administrators, health care team members and patients. Prerequisite(s): Enrollment open to Nutrition and Food Management majors only.

NTRN 5223 - Institutional Food Management
This course includes all organization and administration of food service systems. Emphasis is on physical facilities, financial control, menus and purchasing. Prerequisite(s): NTRN 4673 and 4673L.

NTRN 5233 - Research Methods In Nutrition
This course includes the basic techniques and methodology in nutrition research; reviewing current research studies and interpreting findings in order to evaluate research in the nutrition areas of specialization.
Graduate Course Descriptions

NTRN 5322 - Nutrition Assessment
This course includes the process used to assess nutritional needs of individuals or groups, and to plan a measurable nutrition intervention program appropriate for clients in various special health care settings. Prerequisite(s): Accepted into the Dietetic Internship and permission required by instructor. Enrollment is open to Nutrition and Food Management majors only.

NTRN 5333 - Computers In Nutrition
The course offers the opportunity to use state of the art software developed for food management operations and nutrition services. Prerequisite(s): Computer literacy and graduate standing in nutrition and food management.

NTRN 5402 - Nutritional Concerns Of Women
The course includes a study of scientific nutrition research on issues pertinent to women's health in all age groups.

NTRN 5422 - Sports Nutrition for Professionals
This course is an advanced study of nutrition and the application of the principles of nutrient metabolism as they relate to physical activity, sport and health. This course will emphasize the development of skills required by the professional to assess and provide dietary advice for the active individual. A study of current research and trends will be incorporated. Prerequisite(s): NTRN 4394 or (HLTH 3412 and PHYED 3503) or permission of instructor. Enrollment open to Nutrition and Food Management, Nutrition, Dietetic, and Wellness Management majors only.

NTRN 5892 - Advanced Clinical Nutrition
This course includes the development of skills required of the professional nutrition care specialist. It additionally provides an opportunity to integrate nutrition knowledge in its application in clinical care in a variety of health care practice settings. Prerequisite(s): NTRN 4394, NTRN 4034, CHEM 3403, CHEM 3442, and BIO 2604. Permission required.

NTRN 5900 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

NTRN 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Directed intensive study of selected problems or special topics. Prerequisite(s): An undergraduate minor in the subject matter area and written permission of graduate advisor.

NTRN 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

NTRN 5930 - Individual Study
Credit will vary from 1 to 4 hours. Directed intensive study on definite problems or special subjects based on approved outlines or plans, conferences, oral and written reports. Prerequisite(s): An undergraduate major in the subject matter area and permission of graduate advisor.

NTRN 5940 - Field Study in Nutrition
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

NTRN 5950 - Internship
Credit will vary from 1 to 8 hours; subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

NTRN 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

NTRN 5970 - Study Tour In Nutrition
Credit will vary. Subject matter will vary within the department’s field of study.

NTRN 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

NURSING (NURS)
Department of Nursing

NURS 5033 - Theoretical Foundations Of Nursing Practice
Students are provided with the opportunity to relate a philosophical and theoretical base to concepts and operations inherent in nursing administration. Current nursing conceptual models and theories will be analyzed. Elected theories from the behavioral, natural, and applied sciences will be studied for their application to nursing and synthesis with nursing theories. Prerequisite(s): B.S. degree in Nursing and accepted for graduate study.

NURS 5103 - Advanced Pathophysiology
This course is the study of physiological mechanisms altered by disease in the human organism, and explores the rationale for diagnosis and therapeutic interventions in disease conditions. Prerequisite(s): BIO 2604.

NURS 5513 - Psychiatric Forensic Nursing
This course overviews psychiatric concepts important to forensic nursing. The focus will be on psychiatric conditions associated with criminal behavior including the psychosocial factors that motivate same. These psychiatric issues are then related to forensic concepts for the purpose of facilitating valid and reliable investigative procedures. Prerequisite(s): Graduate standing.

NURS 5523 - Sexual Assault Forensics
The purpose of this course is to provide an overview of the types of sexual assaults to which adults fall victim, perpetrator profiles and sequelae of these assaults on victims. Prerequisite(s): Graduate standing.

NURS 5533 - Child Abuse Forensics
The course is a comprehensive examination of all forms of child maltreatment and neglect, etiological factors, perpetrator profiles, short-term and long-term sequelae of abusive experiences, and treatment modalities. Prerequisite(s): Graduate standing.

NURS 5543 - Domestic Violence Forensics
This course is a comprehensive examination of all forms of domestic violence, characteristics of perpetrators, stalking, spouse abuse, elder abuse, homicide and the short-term and long-term sequelae of the assaults on victims. Law enforcement policies and treatment modalities will also be covered. Prerequisite(s): Graduate standing.

NURS 5900 - Practicum In Nursing
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

NURS 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.
Graduate Course Descriptions

NURS 5920 - Workshop in Nursing
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

NURS 5930 - Individual Study In Nursing
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

NURS 5940 - Field Study In Nursing
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study.

NURS 5960 - Institute In Nursing
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

NURS 5970 - Study Tour In Nursing
Credit will vary. Subject matter will vary within the department’s field of study.

NURS 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

OCCUPATIONAL AND TECHNOLOGY EDUCATION (OCTE)
Department of Occupational and Technology Education

OCTE 5082 - Career & Technology Student Organizations
This course will focus on the development of a career and technology student organization (CTSO) to serve the needs of the students enrolled in career, occupational, and technology education programs by infusing employability skills, leadership skills, and peer relationship building.

OCTE 5103 - Instructional Strategies In Marketing Education
This course is designed to develop instructional strategies needed to teach business subjects, including lesson plans, unit plans, and evaluation techniques. Prerequisite(s): Permission required.

OCTE 5172 - Organization & Administration Of Health Occupations
Basic principles, philosophy, and rationale underlying the organization and administration of health occupation education programs, with special attention directed toward the total planning, development, execution, and evaluation competencies involved.

OCTE 5203 - Organization & Administration Of Marketing Education
Intensive study related to organizing local marketing education programs. Special emphasis will be given to administrative techniques of organization and operation. Prerequisite(s): Permission required.

OCTE 5213 - History & Philosophy Of Career Technology Education
This course includes basic principles and philosophy underlying the organization and development of programs in career-tech education with special attention directed toward federally-aided programs in these areas.

OCTE 5253 - Safety, Organization, & Management of OTE
The Safety, Organization, and Management of Career and Technology Education course focuses on the principles, philosophies, and rationale of safety, organization, and program management of the Career and Technology Education classroom and laboratory/clinical environments.

OCTE 5303 - Overview Of Occupational Education
This course focuses on the successful operations of programs in occupational and technology education.

OCTE 5323 - Methods For Teaching Health Occupations Education
This course will focus on the methods and techniques employed in delivering instruction in health occupations education.

OCTE 5342 - Consulting Skills In Training Development
Examines the internal and external consulting roles of the training and development professional. Topics include an overview of the consulting process, conducting contracting meetings, understanding and dealing with resistance, gathering data, and conducting feedback meetings. Responding to requests for proposals, writing proposals, developing budgets, and determining the cost benefits of training will also be examined.

OCTE 5352 - Accommodating Special Needs Students
This course will provide the participant with an explanation of the occupational instructor's roles and responsibilities in special education students' Individualized Education Programs (IEP). In addition, a discussion of the "how-to" for accommodating instruction, media, materials, equipment, work stations and facilities will be provided. Finally, securing work-site learning opportunities and job placement strategies will be discussed. Prerequisite(s): 4253 Safety Concerns and Management of Trade and Industrial Programs.

OCTE 5513 - Integration of Technology
This course gives prospective business instructors practical, integrated learning experiences necessary for success in state-of-the-art vocational business classrooms. The organization and delivery of instruction in this course adheres to a model developed by the Oklahoma Department of Career and Technology Education. The course content will focus on high performance business skills and effective applications of current technology tools. Prerequisite(s): An applications class covering computer theory, computer applications and computer hardware.

OCTE 5531 - Occupational Training Analysis
This course focuses on the process of analyzing workplace requirements and identifying the knowledge, skills, and attitudes necessary for new and existing duties within occupations.

OCTE 5613 - Managing a BITE Program
This course is designed to assist students with the management techniques to successfully facilitate a project-based Business and Information Technology Education (BITE) program.

OCTE 5622 - Integration & Transition Opportunities
This course is designed to assist occupational and technical educators to integrate academics and to implement education-to-employment activities into their programs. It explains legislation, outlines employers’ entry-level worker goals, reviews education-to-employment experiences at various grade levels, and offers strategies for integrating more academics into vocational programs. Prerequisite(s): Introduction to Trade and Industrial Education.

OCTE 5631 - Legal/Professional Issues In Occupational Education
This course provides and examination of legal and professional issues facing contemporary occupational educators. In particular, the course will consist of pertinent information relating to four major areas: teaching contracts and teacher responsibilities, teacher and student rights, classroom management issues, and teacher professionalism.
Graduate Course Descriptions

OCTE 5723 - Troubleshooting & Maintaining A Local Network
A graduate-level course in personal computer (PC), printer, fax, modem, and other peripheral, systems basic troubleshooting: simple repair procedures and testing, printed circuit board (PCB) removal and upgrading, functional circuit board component removal and replacement (disk drives). Sequential and Substitutional Troubleshooting Techniques, electronic resource management methods, diagnostic software packages, and DOS commands to access and alter CONFIG.SYS and AUTOEXEC.BAT will be applied. elecommunications techniques and media, Local Area Networks, Wide Area Networks, and network protocols are presented and applied. Prerequisite(s): OCTE 4523.

OCTE 5853 - Methods For Teaching Occupational Technology
Examination of the selection and implementation of instructional strategies for occupational and technology education. Delivery of instruction through instructional strategy selection, introducing and summarizing topics, conducting illustrated lectures, giving demonstrations, operating media equipment, and analyzing instructional techniques will be covered.

OCTE 5900 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

OCTE 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

OCTE 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of ‘P’ or ‘F’ is given.

OCTE 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

OCTE 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study.

OCTE 5950 - Internship
Credit will vary from 1 to 8 hours; subject matter will vary within the department's field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

OCTE 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

PHED 5153 - Physical Education Facilities/Equipment
A course emphasizing the functional planning of physical education facilities and equipment for outdoor and indoor areas, stadium, gymnasium, swimming pool and other.

PHED 5202 - Health & Physical Education For The Elementary Teacher
Study of the basic content and general principles of health and physical education appropriate to the elementary school program; organization of materials, procedures and techniques of instruction. Prerequisite(s): PHED 3302 or its equivalent.

PHED 5212 - Health & Physical Education For The Secondary Teacher
Study of the basic content and general principles of health and physical education appropriate to the secondary school program; organization of materials, procedures and techniques of instruction. Prerequisite(s): PHED 4303.

PHED 5222 - Physical Education In Higher Education
A study of the function of physical education in the general education and professional preparation curricula of higher education institutions. Also an intensive study of the physical education faculty member’s role as a member of the higher education community.

PHED 5233 - Contemporary Issues In Physical Education And Sport
This course involves an analysis of selected contemporary issues in the areas of physical education and sport with emphasis on rational development and evaluation of viewpoints.

PHED 5252 - Legal Aspects Physical Education, Recreation And Athletics
A study of the legal responsibilities of persons functioning in the fields of physical education, recreation, and athletics including the application and interpretation of the law.

PHED 5272 - Motor & Body Image
A diagnostic-prescriptive approach in the determination and remediation of problems in motor development. Discusses the gross and fine-motor development and body-image development as relates to problems in learning and adjustment. The student experiences theoretical and practical activities: (1) administering motor-based tests common in schools, (2) developing a prescriptive program for remediation of deficits determined through testing, and (3) writing assessment results and recommending activities for alleviation.

PHED 5303 - Physical Based Human Performance
A study of the physiological effects of physical exercise. Prerequisite(s): PHED 3503.

PHED 5313 - Applied Sports Psychology
This course is a study of psychological theories and techniques that could be used to enhance the performance and personal growth of sports and exercise participants from youth to elite levels.

PHED 5363 - Psychological Basis Of Human Performance
A study of the principles of learning as applied in the teaching of physical education.

PHED 5393 - Research In Kinesiology & Health
This course is an overview of concepts and procedures necessary for designing, conducting, and analyzing research in Kinesiology and Health Studies from multiple research paradigms. The course will focus on the steps involved in the administration of a research project, including literature review, design, data collection, and analysis. Prerequisite(s): KINS 5233.
Graduate Course Descriptions

PHED 5602 - Phys. Educ. & Recreation for the Exceptional Child
Understanding motor characteristics and assessing motor development of the exceptional child; development and adaptation of physical education and recreation programs; and field and/or laboratory experiences.

A study of the historical and philosophical bases of health and physical education.

PHED 5672 - Public Relations In Health And Physical Education
Principles and practices involved in the presentation of health and physical education to the public.

PHED 5900 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

PHED 5910 - Seminar / Special Topics
Credit varies from 1 to 4 hours. Directed intensive study on selected problems or special topics.

PHED 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

PHED 5930 - Individual Study
Credit varies from 1 to 4 hours. Directed intensive study on definite problems or special subjects, based on approved outlines or plans; conferences, oral and written reports. Prerequisite(s): An undergraduate major in the subject matter area to be studied and permission of graduate advisor.

PHED 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

PHED 5950 - Internship
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

PHED 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

PHED 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

PHED 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

PHILOSOPHY (PHIL)
Department of Humanities & Philosophy

PHIL 5163 - Philosophy Of Science
Pursues the philosophical implications of various principles and ideas in the sciences, and raises critical questions regarding assumption, hypothesis, and scientific method. Prerequisite(s): 6 hours of philosophy.

PHIL 5183 - Philosophical Issues In Social Science
An in-depth discussion of specific philosophical issues in some area of the social sciences such as the nature of psychological explanation or the covering law model of historical explanations. Specific topics may be changed, but the course will always spend the first half of the semester on the question of the science in social science. Prerequisite(s): 6 hours of philosophy; 6 hours of social science; and written permission of instructor.

PHIL 5233 - Philosophy of Language
Philosophy of Language is a study of contemporary issues in the Philosophy of Language, including the nature of truth and reference, the distinction between analytic and synthetic propositions, the verification principle, the epistemic status of linguistic knowledge, and the plausibility of skepticism about meaning and interpretation.

PHIL 5503 - Symbolic Logic
The course will begin with the logic of syntax, followed by an analysis of truth-functional compound statements and truth tables. A variety of proof procedures applicable to deductive arguments will be investigated and used, including formal and indirect proofs. Propositional functions and the use of quantifiers, the logic of relations, and finally, a study of the nature of deductive systems will complete the course.

PHIL 5900 - Practicum In Philosophy
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

PHIL 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

PHIL 5920 - Workshop in Philosophy
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

PHIL 5930 - Individual Study In Philosophy
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

PHIL 5940 - Field Study In Humanities
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

PHIL 5950 - Internship In Philosophy
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

PHIL 5960 - Institute In Philosophy
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

PHIL 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

PHIL 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

PHYSICS (PHY)
Department of Engineering and Physics

PHY 5013 - Mathematical Physics II
This course discusses the mathematical solutions to boundary value problems found in electrostatics, mechanics, heat transfer, quantum mechanics, and acoustics. The mathematical topics may include curvilinear coordinates, Fourier analysis, Fourier transformers, partial differential equations, Green’s functions, tensor analysis and group theory. Prerequisite(s): PHY 3883.
PHY 5033 - Nuclear Physics
An introduction to the physics of the nucleus and elementary particles is presented. Basic models of nuclear structure, nuclear interactions, and nuclear reactions will be emphasized. The quark model along with the families of elementary particles and their interactions will be introduced. Prerequisite(s): PHY 3103 and PHY 3883.

PHY 5043 - Solid State Physics
The purpose of this course is to acquaint the students with the fundamental physics of solids. The emphasis will be on crystal lattices, elastic scattering of waves, bonding, atomic vibrations, electron states, dielectric and optical properties, and semiconductors. Prerequisite(s): PHY 3103 and 9 additional hours upper division level physics.

PHY 5063 - Analytical Mechanics
A vector analytical approach to particle and rigid-body dynamics is presented, including a brief introduction to the Lagrangian and Hamiltonian formulations of mechanics, and special relativity. Prerequisite(s): ENGR 2043.

PHY 5071 - Nuclear Radiation Laboratory
This laboratory course provides a thorough introduction to equipment and techniques of nuclear radiation detection and measurement. The experimental properties of the types of nuclear radiation, their origin, characteristics, detection and interaction with matter are emphasized. Prerequisite(s): PHY 3103 or concurrent enrollment.

PHY 5103 - Classical Mechanics
Lagrangian and Hamiltonian methods will be introduced and applied, as appropriate, to a variety of mechanical systems. Topics will include vibration theory, elasticity, fluid mechanics, and acoustics. Prerequisite(s): PHY 5063.

PHY 5143 - Statistical Mechanics
The kinetic theory of gases, including transport phenomena, and an introduction to classical and quantum statistical mechanics are presented. Prerequisite(s): ENGR 5023 and PHY 3883.

PHY 5203 - Applied Electrodynamics
Electromagnetic theory is applied to the description of static and time-dependent electric and magnetic fields, electromagnetic radiation, wave guides, transmission lines, and related problems. Prerequisite(s): ENGR 5083 and PHY 5013.

PHY 5443 - Quantum Mechanics
An introduction to the theory of quantum mechanics and its applications is presented. Topics covered will include the historical development of quantum mechanics, the Schroedinger equation and its applications, the theory of operators, the theory of angular momentum, the hydrogen atom, and perturbation theory. Prerequisite(s): PHY 3103, MATH 3103.

PHY 5643 - Directed Study
This course is a directed study of a specialized aspect of industrial or applied physics.

PHY 5900 - Practicum In Physics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

PHY 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

PHY 5920 - Workshop in Physics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

POLITICAL SCIENCE (POL)
Department of Political Science

POL 5013 - Urban History Of Institutions & Environment
The study of contemporary political, social, and economical institutions and environment of urban areas, placed in a historical context.

POL 5023 - Scope Of The Discipline
An analysis of the various fields of political science, as well as an assessment of the contributions of other disciplines and scientific approaches to the study of politics.

POL 5033 - Research Methods
This course provides an analysis of statistical techniques and research methodology commonly used in studying political phenomena. Included are probability theory, bivariate, and multivariate techniques through regression.

POL 5113 - Advanced Contemporary Problems
The study of current happenings in the student's area of graduate specialization with emphasis on assessing the relevance of theoretical principles to actual events.

POL 5123 - Problems-The Budgetary Process
The study of the process by which financial resources of governmental institutions are allocated, emphasizing this process in local government.

POL 5133 - Problems-State & Urban Government
A study of the problems existing in relationships between state and local governmental units.

POL 5143 - Problems-International Affairs
Case studies in the resolution of geographic and functional problems in international affairs, tailored to students' specific international interests.

POL 5153 - American Politics
A survey of selected literature from the field of American politics. Subjects covered will come from among the following: Presidency, Congress, judiciary, political parties, interest groups, electoral behavior, media in politics, and public opinion.
Graduate Course Descriptions

POL 5163 - Intergovernmental Relations
An exploration of the relationships among the federal, state, metropolitan, and local units of government. Current trends, issues, administrative structures and procedures are emphasized.

POL 5173 - Land Use Planning
A comprehensive survey of American law of land use planning and controls, with emphasis on the law of nuisance: restrictive covenants, planning, zoning and subdivision controls; and recent innovations in land use controls.

POL 5193 - Public Finance Budgeting
Public Finance and Budgeting is an analysis of revenue sources and expenditures including the planning, approval, and implementation of public budgets.

POL 5213 - Political Sociology
An examination of extremism and political deviancy, emphasizing the causes and sociological implications of extremism. Prerequisite(s): POL 1113 and SOC 2103.

POL 5223 - The Presidency
The presidency in law and practice; its relationship to Congress, the public, the party structure and the administrative establishment; and its responsibilities in foreign and military affairs. Prerequisite(s): POL 1113.

POL 5233 - Political Parties/Behavior
Structure and function of the American political party system with emphasis upon the role of parties in American politics, noting the political behavior patterns of American voters. Evaluation of recent political behavior research. Prerequisite(s): POL 1113.

POL 5243 - Media And Politics
Discussion of the role of the media in politics, including how the media covers American institutions, and the impact of the media on campaigns. Our campaign coverage will examine the role of television advertising, campaign coverage, and public opinion polls. This course also examines the political and social messages of several "entertainment" media, such as television and films, as well as the dynamics behind these messages.

POL 5253 - The Congress
This course is designed to introduce the student to the first branch of government. It will evaluate Congress, its functions, relationships, members, and organization in order to determine whether it achieves the purpose for which it was created. Prerequisite(s): POL 1113.

POL 5263 - Judicial Process
This course examines the organization, jurisdiction, and functions of both federal and state courts, as well as, explores theories of judicial behavior and judicial policy-making.

POL 5273 - International Politics Risk Analysis
An analysis of techniques useful in forecasting regime changes, nationalization, controls on profit reparation, and other political risks faced by companies operating in foreign countries.

POL 5283 - Public Opinion
A study of public opinion and the techniques of mass media and propaganda in a democratic society, including its measurement and evaluation with particular reference to the role of interest groups. Prerequisite(s): POL 1113.

POL 5313 - Religion And The Law
This course examines the relationship between law and religion in the United States by focusing on the Supreme Court's interpretation of the First Amendment's Establishment and Free Exercise Clauses.

POL 5323 - Constitution & Criminal Procedure
This course covers the constitutional boundaries, established by the Supreme Court, for gathering evidence at a crime scene, questioning witnesses/suspects, arresting suspects, and seizing evidence as well as the constitutional rights of the accused at trial.

POL 5333 - Constitution & Civil Liberties
This course is an analysis of the U.S. Constitution as interpreted by federal courts, emphasizing constitutional limitations on governmental actions, particularly with respect to civil liberties.

POL 5403 - Women and Politics
This course will focus on the political status of women from a comparative perspective. The specific aim of the course is to examine the changing roles of women in recent history, the political and cultural impetuses behind these changes, and how these changes (or absence of change) have affected the lives of women in different political and cultural settings.

POL 5413 - Public Policy Analysis
Public Policy Analysis is designed to equip students to become independently capable policy analysts. The methods and procedures of policy analysis are learned and practiced, and examples of analysis of policies in the local, state, and national levels are studied.

POL 5433 - Urban Minority Politics
An examination of the intricacies of diversity and the decomposition of the American urban areas, focusing on the role of city government, urban political processes, and representation techniques.

POL 5443 - Environment Politics
This course will examine the politics of the environment by looking at the actions or inactions of the government in the areas of resource scarcity, environmental health and safety, natural esthetics, and economic groups. This class will also look at environmental politics as just one of many social movements in the United States. As such, this class will examine how interest groups supporting the environmental movement have developed in recent decades and how they seek to protect their interests.

POL 5513 - Public Program Evaluation
Public Program Evaluation enhances students' skills in quantitative and qualitative program evaluation. This course examines the nature, history, and techniques of program evaluation as well as the dissemination of information. The scientific method is applied to the program-solving process through such techniques as quasi-experimental research design, data collection, analysis, and report writing.

POL 5523 - Urban Housing Policy
A study of the various factors which affect national and local housing issues, with discussion of housing problems in the urban environment.

POL 5533 - Development Dispute Resolution
Contemporary methods of resolving development dispute through negotiation, bargaining, and mediation. Techniques and skills applicable to solving controversies over planning and implementation of public and private development projects.

POL 5543 - State Administration
A study of the administrative institutions, policy making processes, and political environment of state government, emphasizing both theory and practice. Prerequisite(s): POL 1203, 2413.
## Graduate Course Descriptions

**POL 5603 - Theories-International Relations**
An examination of the major theories of international relations, focusing on their contributions to framing the analysis of international interactions. The works of seminal authors will be studied for their insights into such central concepts of international political analysis and sovereignty, balance of power, and national interest.

**Prerequisite(s):** POL 2303.

**POL 5613 - World Politics**
An analysis of the political interactions among nation-states, multinational corporations, and international organizations; and the pattern of relationships that result. Focuses particularly on war-peace issues and the politics of international economic and social relations.

**Prerequisite(s):** POL 2303.

**POL 5623 - American Foreign Policy**
A study of the major themes and issues which have, in recent years, informed the practice of American foreign policy. Among the topics covered are: the inter-branch struggle in foreign policy making, trade and national security policy, and challenges confronting American foreign policy in specific geographic and functional areas.

**Prerequisite(s):** POL 2303.

**POL 5633 - International Law**
A study of the legal aspects of international relations, and of the generative role of international law in informing actors of the nature and limits of authoritative practices within the international community.

**POL 5643 - International Security Studies**
A study of analytical frameworks which seek to explain the nature of international conflict. Consideration will also be given to such practical threats to global peace and stability as weapons proliferation, regional military balances, strategic competition and threat psychology.

**POL 5653 - International Organization**
A study of the development and evolution of international organizations, and their role in international politics. Specific attention will be given to the United Nations system of international organizations, and other international entities such as the European Community, the Organization of American States, the World Bank, and NATO.

**POL 5663 - Politics And The World Economy**
An analysis of the political dimension of economic relationships among international actors (including nation-states, multinational corporations, and international organizations). Emphasizes the politics of foreign investment, trade, and international finance from the differing perspectives of industrialized and developing countries.

**POL 5673 - Economic Statecraft**
A study of the economic instruments and tactics available to nation-states to pursue their national interests. Specific attention will be given to examining the nature of foreign economic policy making with the U.S. and also the debate surrounding the underlying philosophy of trade between such schools of thought as: Free Trade, Trading Blocs, Managed Trade and Protectionism.

**POL 5693 - Contemporary International Issues**
An in-depth analysis of selected issues confronting the international political, security, and economic environment. Overage of issues will vary depending on the interests of the instructor and on recent international developments. May be repeated for credit with permission of the student's advisor.

**POL 5703 - Theories-Comparative Politics**
An overview of the major theories and approaches to the cross-national study of politics. The common and dissimilar characteristics of democracies will be the main focus of study, though other important issues such as nationalism, ethnicity, and economic development will also receive attention.

**POL 5713 - African Political Systems**
A survey of the dynamics of Sub-Saharan African political systems. Among the topics covered will be: the legacies of colonial influences, ethnicity, African political thought, political parties and liberation movements, comparisons of various democratic, semi-democratic and authoritarian systems, and the influence of outside powers today.

**POL 5723 - Political Systems Of Asia**
This course examines the political systems of such states as the People’s Republic of China, Japan, and the two Koreas. Important themes include the origins of their political systems, their operations, their political cultures, and the political-social-economic interactions which inform our understandings of these political systems.

**POL 5733 - Latin American Politics**
This course will study the political systems of such major Latin American countries as Mexico, Brazil, Argentina, Chile, and Columbia. It will also examine such important Latin American political themes as: dependent economic development, political stability and change, and bureaucratic authoritarianism.

**POL 5743 - European Politics**
A study of the nature of European political processes, and of issues confronting European politics. Among the topics covered are: the European "definition" of democracy, the major actors and influences within European politics, and the challenges of European integration.

**POL 5753 - Politics Of Mexico**
The course will examine Mexico’s unique political environment and political traditions, and how these manifest themselves in Mexico’s contemporary government, party politics, constitutional debate, and processes of political/social/economic change.

**POL 5763 - Politics Of Japan**
This course will examine the politics and government of Japan, incorporating a historical and cultural perspective. The main objective is to communicate a clean understanding of the Japanese political system and its decision-making processes.

**POL 5773 - Politics Of Revolution**
This course will examine the theoretical parameters of violent political change by studying the basic characteristics of major world revolutions. Specific focus will be given to recent revolutions in Latin America. The impact and duration of revolutionary change, and the methods of measuring related structural changes will also be studied.

**POL 5813 - Political Philosophy**
A focused examination of one of the major themes of political philosophy such as freedom, justice, democracy, or political economy, which applies a number of analytical methods to the selected them.

**POL 5823 - Religion And Politics**
This course examines the relationship between religion and politics in the United States, and in selected other countries, by focusing on the participation of religious organizations in the political process and the influence of religion upon leaders of governments and political movements.

**POL 5833 - Survey Of American Political Thought**
A survey of main currents in American political thought from puritanism to the present. Prerequisite(s): POL 1113.

**POL 5843 - Ancient & Medieval Political Thought**
The development of political theories from Plato to Rousseau. Prerequisite(s): POL 1113.
Graduate Course Descriptions

POL 5853 - Modern Political Thought
An analysis of the development of political philosophy from John Locke to the present, including fascism, communism, and other systems of political thought. Prerequisite(s): POL 1113.

POL 5900 - Practicum In Political Science
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

POL 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

POL 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

POL 5930 - Individual Study In Government
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

POL 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

POL 5950 - Internship
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

POL 5960 - Institute In Political Science
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

POL 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

POL 5983 - Capstone Paper
This course meets the writing requirement that is part of the department’s Master’s program. The topic of the Capstone Paper is chosen in consultation with a faculty advisor and should reflect an important issue within the discipline.

POL 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

PSYCHOLOGY (PSY)
Department of Psychology

PSY 5013 - Biosocial Psychology
Contemporary readings in cognitive social psychology, neuropsychology, evolutionary theory, and anthropology are used to examine the hypothesis that humans are unique in processing a “mental life” made possible by the evolution of a narrative brain designed to function in a social environment. Prerequisite(s): Written permission required.

PSY 5033 - Cultural And Gender Diversity
This course will address gender and cultural diversity issues as they relate to counseling clients from various cultural and ethnic groups. This course will be approached from a psychological perspective with emphasis placed on the psychosocial variables of various cultures. Prerequisite(s): Written permission required.

PSY 5051 - Professional Career Planning
The purpose of this course is to: (1) provide advisement regarding matriculation through the Master of Arts in psychology program, (2) assist students with the delineation of career goals by providing information concerning specialized job opportunities, and (3) prepare students for beginning work on the master thesis. Prerequisite(s): must be taken the first semester of graduate enrollment and written permission of instructor.

PSY 5143 - Advanced Developmental Psychology
This course provides an in-depth examination of human development from infancy through later adulthood with primary emphasis on psychological research, theory, and its application. Prerequisite(s): PSY 2833 and written permission required.

PSY 5193 - Experimental Design
This is a foundation course which stresses the complimentary relationship between research design and statistical analysis. The course emphasizes computer applications in the areas of experimentation, psychometrics, and data analysis. Prerequisite(s): Written permission required.

PSY 5233 - Psychopathology
The purpose of the course is the study of current diagnostic criteria for psychopathology and examination of theory regarding psychopathology and personality including biological, intrapsychic, phenomenological, behavioral, sociocultural and integrative perspectives. Prerequisite(s): PSY 4753 and written permission required.

PSY 5253 - Psychodiagnostic Survey
This is a survey course that includes an examination of current methodologies for the assessment of personality functioning, ranging from structured interview to objective and projective techniques. Prerequisite(s): PSY 5793 or 5803, and written permission required.

PSY 5263 - Legal & Ethical Aspects Of Counseling
This course provides a study of the essential legal and ethical aspects of the counseling profession as presented in professional organization codes and current state and federal laws. Prerequisite(s): Written permission required.

PSY 5333 - Psychopharmacology
This course is designed to provide knowledge about the physiological basis of drug effects on behavior. Emphasis will be given to drug treatments for psychological problems, drugs of abuse, and the psychophysiology of addiction. Prerequisite(s): Written permission.

PSY 5343 - Psychological Science
This course provides a foundation for the general experimental psychology student and examines science as a formalized epistemological system. The course also emphasizes the importance of understanding scientific reasoning for: (1) psychology as a science, and (2) the professional psychologist as a critical consumer of information. Prerequisite(s): Written permission from psychology chair required.

PSY 5383 - Multivariate Analysis w/SPSS
Multiple regression, multivariate analysis of variance and covariance, discriminant analysis, factor analysis, log linear analysis, cluster analysis (including quick cluster), and multidimensional scaling are seven multivariate analysis procedures that are examined in this course. A focus on when and why each technique is used, familiarization of SPSS computer output for each technique and the examination of published research articles containing the application of these techniques will be covered. Prerequisite(s): PSY 3713 or concurrent enrollment and written permission of instructor.
Graduate Course Descriptions

PSY 5473 - Individual Counseling
This course provides an overview of the theories, therapeutic approaches, and empirically supported treatments specific to working with individuals. Students will become familiar with the legal, ethical, and diversity issues applicable to the diagnosis and treatment of individuals. The course will employ instruction, role play and classroom demonstration. Prerequisite(s): Written permission of instructor.

PSY 5483 - Group Counseling
This course provides an overview of the theories, therapeutic approaches, and empirically supported treatments specific to working with groups. Students will become familiar with the legal, ethical, and diversity issues applicable to the diagnosis and treatment of groups. The course will employ instruction, role play and classroom demonstration. Prerequisite(s): PSY 5473 and written permission of instructor.

PSY 5493 - Competency Based Counseling
This course provides experience which will prepare counseling students for their first semester of practicum placement. The student will perform activities consistent with the demands of an off-campus practicum experience under the direct supervision of the UCO counseling faculty. Students will be provided with training experiences that require the integration of their counseling and assessment abilities with sensitivity to diversity, legal, and ethical issues. Emphasis will be placed on empirically supported treatments and therapeutic variables. This course should be taken immediately prior to practicum. Prerequisite(s): PSY 5473 with a minimum grade of "B" and written permission required.

PSY 5523 - Child & Adolescent Counseling
This course provides an overview of the theories, therapeutic approaches, and empirically supported treatments specific to working with children and adolescents. Students will become proficient in the legal, ethical, and diversity issues applicable to the diagnosis and treatment of children and adolescents through didactic instruction, role play and classroom demonstration. Prerequisite(s): PSY 5473 with a minimum grade of "B" and written permission.

PSY 5533 - Couples and Family Counseling
This course provides an overview of the theories, therapeutic approaches, and empirically supported treatments specific to working with couples and families. Students will become familiar with the legal, ethical, and diversity issues applicable to the diagnosis and treatment of couples and families. The course will employ didactic instruction, role play and classroom demonstration. Prerequisite(s): Written permission.

PSY 5543 - Career Counseling
The course provides an introduction to the major career development and trait theories, career assessment techniques, and empirically based career counseling techniques. The course emphasizes the integration of theories, techniques, and counseling applications. In addition to the classroom, the on site counseling laboratory provides the opportunity for applied practice. Prerequisite(s): PSY 5473 with a minimum grade of "B".

PSY 5563 - Advanced Social Psychology
This course provides an in-depth study of the interaction of humans with their social environment with special emphasis on classic and current themes and methods of social research. Prerequisite(s): Written permission of instructor.

PSY 5633 - Modern Learning Theories
This course provides a comprehensive study of theories of learning and memory including a historical review and a survey of contemporary cognitive psychology. Prerequisite(s): PSY 4763 and written permission from psychology chair required.

PSY 5643 - Empirical Basis of Therapy
This course is designed to prepare the student for clinical work in counseling. The course will promote knowledge and understanding of those counseling variables and counseling techniques that are supported by empirical research. Prerequisite(s): PSY 5473 and written permission.

PSY 5683 - Advanced Counseling
This course provides an in-depth view of the theories, therapeutic approaches, and empirically supported treatments specific to working with various individual client populations. Students will become familiar with the legal, ethical, and diversity issues applicable to the diagnosis and treatment of various types of individual clients and diagnoses. The course will employ didactic instruction, role play and classroom demonstration. Prerequisite(s): PSY 5473 with a minimum grade of "B" and written permission of instructor.

PSY 5722 - Introduction To School Psychological Services
This is a course designed to aid school psychometrist and school psychologists in exploring their role and functions. Ethics for their discipline, legal implications, current research on assessment of children and adults, school placement, management, referral sources, therapeutic intervention strategies, consultation, and professional affiliation will also be covered. Prerequisite(s): Written permission from psychology chair required.

PSY 5753 - Advanced SPSS
This course emphasizes coding data for data files, writing SPSS control files to read the data file, and completing SPSS procedures. Procedures covered range from basic data transformations to complex multivariate procedures. Prerequisite(s): PSY 3813; PSY 4383 preferred and written permission from psychology chair required.

PSY 5803 - Individual Testing Techniques-Wechler
This course is a study of the rationale and administration of the Wechsler tests. Emphasis is placed on the administration and diagnostic uses of both adult and children scales. Prerequisite(s): Admission to the program and written permission of instructor.

PSY 5813 - Diagnostic Testing Techniques
This course is a survey of diagnostic techniques which deal with sensory motor skills, language development, and social and emotional development. Emphasis is placed on the rationale and functions of such instruments which would help specialists in reading, counseling, and psychometry to evaluate those aspects of behavior not currently assessed by traditional testing procedures. Prerequisite(s): PSY 5793 or 5803 and written permission of instructor.

PSY 5823 - ABA I: Found in Behavior Anal
This is the foundational course in Applied Behavior Analysis. The course is designed to cover the basic elements in 10 of the 11 core areas of applied behavior analysis. The course focuses on the ethics and basic characteristics, processes, concepts, terminology, and learning principles upon which ABA is based. Assessing behavior and designing intervention outcomes and strategies using principles of experimental evaluation including displaying and interpreting behavioral data is emphasized. ABA is compared to other explanations of behavior and students are guided in the creation and application of individualized behavioral programs for teaching functional skills.
Gradient Course Descriptions

PSY 5833 - ABA II: App Tech Ap Beh Analy
ABA II: Application of Techniques in Applied Behavior Analysis is the second of five courses in the BCBA approved sequence. The course takes basic ethical foundations and principles of ABA articulated in eight of the Core Areas to a higher level of understanding and application. Students are expected to apply knowledge and skill from both the introductory course and ABA II in the development of extensive training modules for fellow professionals using the principles of ABA. Training modules include treatment for all age levels (In Oklahoma that encompasses Sooner Start to Waivered Services Independent Adult Living). Training design includes ongoing supervision of comprehensive and intense programs for functional behavior. This course also examines the effects of the use of psychotropic medications for behavior control and dual diagnoses (Ex. Mental Illness and a developmental disability). Prerequisite(s): PSY 5823 and graduate standing.

PSY 5843 - Autism II: Autism/PDD-NOS Adv
This course is an intensive examination of the autistic spectrum and the ethical use of ABA principles in the treatment of disorders within the spectrum. Students will learn to administer a broad range of diagnostic instruments with emphasis on those used in early intervention such as ABLLS, AEPS, Social Skills Checklist, PASS skills, and the Brigance. Students learn to develop IFSP goal, IEP goals, and IP goals [for individuals on waivered services] using data secured through the evaluation process. Finally, students develop and implement intensive programs covering all core skills areas for individuals with autism using the methods designed with the foundations of ABA (verbal behavior, natural environment teaching, discrete trial teaching, and others). Prerequisite(s): PSY 5823 and PSY 5833 and graduate standing.

PSY 5853 - ABA III: Topics in Applied Behavioral Analysis
This course compares the ethics of ABA versus Behavior Modification and other ethical and legal considerations of ABA in a practicum setting. The course engages aspects of 8 of the 11 Core Areas of ABA including the study of organic syndromes and brain injury. The course takes concepts introduced and studied in ABA I and ABA II and raises the intensity of study to a more intense level, requiring student to develop extensive training modules for fellow professionals. Training modules include all age levels of treatment from early childhood services to Waivered Services Independent Adult Living and include ongoing supervision of comprehensive and intense programs for functional behavior. This course also examines the effects of psychotropic medications for behavior control and the factors to consider in dual diagnoses. Prerequisite(s): PSY 5823, PSY 5833, PSY 5843 and graduate standing.

PSY 5863 - ABA IV: Single Subject Design
This course is the culminating application level course in the 5 course training sequence covering all 11 BCBA Core Areas. Students are responsible for demonstrating to a board of examiners the student’s understanding and skills in the field of ABA through a multiple baseline study. Additionally, the course requires students to demonstrate to the instructor the process of diagnosis, intervention planning, and the broad array of intervention techniques required in the application of ABA principles. Prerequisite(s): PSY 5823, PSY 5833, PSY 5843, PSY 5853 and graduate standing.

PSY 5893 - Consultation in School Psychology
The course focuses on developing appropriate cognitive and academic goals for students with different abilities, disabilities, individual needs. An emphasis is placed on implementing interventions through consultation and collaboration across a range of systems including school, home, and community. Prerequisite(s): 19 hours of School Psychology. Enrollment open to School Psychology majors only.

PSY 5900 - Practicum In Psychology
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Prerequisite(s): PSY 5483 or 5813 and written permission of instructor.

PSY 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Prerequisite(s): Written permission of instructor.

PSY 5920 - Workshop in Psychology
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

PSY 5930 - Individual Study In Psychology
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

PSY 5940 - Field Study In Psychology
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

PSY 5950 - Internship In Psychology
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

PSY 5960 - Institute In Psychology
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

PSY 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

PSY 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

PROFESSIONAL TEACHER EDUCATION (PTE)
Department of Professional Teacher Education

PTE 5013 - Foundations Of Educational Research
This course provides an interdisciplinary approach to developing criteria for utilization of research methodologies relevant to the varied professionals working in educational settings. Included in this course will be practical experience in conducting and/or writing research proposals appropriate to the programs reflective of these educational settings and a computer simulation of the handling of statistical data.

PTE 5112 - Modern Philosophies Of Education
This course is a study of current educational philosophies with a special emphasis on those of the United States. It provides for an understanding and application of philosophical theories within the educational setting.

PTE 5142 - History Of Education
This course examines the historical perspective and impact of the political economy, prevailing ideology, educational practices, educational problems, and major contributions by educational leaders and theorists in American schools. This course also analyzes key educational issues dealing with how diversity has impacted American schools.
Graduate Course Descriptions

PTE 5153 - Advanced Developmental Psychology In Educational Setting
This course provides an advanced level review of human development across the life span and of developmental changes from the prenatal phase to late adulthood. Special emphasis is provided for examination and application of developmental theories and research relevant to professionals working in educational settings.

PTE 5172 - Educational Sociology
This course examines the school's functions in a democratic society and its relationship to the total culture particularly to social problems.

PTE 5203 - Advanced Educational Psychology
This course is a study of the principles of learning and factors that affect learning motivation. Various theoretical perspectives and research findings regarding human development, learning, and motivation are examined as these influence educational decisions and practices.

PTE 5222 - Contemporary Class Issues
This course has four major components. Classroom management, urban education, wellness, and legal and professional practices will be addressed. The course also examines the historical and philosophical foundations of classroom management and legal issues and their impact on secondary education. It is required of all students in the FAST TRACK Teacher Preparation Program. Prerequisite(s): Eligibility for the FAST TRACK Teacher Preparation Program. Enrollment open to General Education majors only.

PTE 5283 - Fundamentals Of Curriculum Development - Secondary School
This course provides an in-depth study of the design and delivery of a school system's curriculum and instruction components. Students will study the basic constructs of curriculum, teaching and testing, enabling them to recognize and implement quality curriculum standards at the middle school and high school levels. This course will focus on the process of curriculum development, evaluation, improvement and leadership with emphasis on the relationship between the written, taught, and tested curriculum.

PTE 5322 - Problems Of Teaching In Secondary Schools
This course provides a critical study of the major problems of instruction common to secondary schools.

PTE 5333 - Meeting Secondary Students' Needs
This course focuses on understanding adolescents' physical, cognitive, and psychosocial development and the impact of family, community, and culture. Understanding these influences, as well as the needs of special learners, will foster the choice of appropriate strategies to meet the developmental and instructional needs of secondary students. Field Applications in secondary schools allow students to apply course concepts in actual classrooms. Prerequisite(s): Enrollment open to Secondary Education majors only.

PTE 5383 - Principles Of Tests & Measurements
This course examines test and measurement principles (psychometric statistics, reliability and validity). Major emphasis is placed on different types of educational and psychological assessment, including group and individual approaches to intelligence, aptitude, achievement, interest and personality.

PTE 5413 - Educational Statistics
This course provides an introduction to the basic principles of organization and treatment of statistical data as utilized by educational professionals in various educational settings.

PTE 5422 - Technology For Secondary Teachers
This course focuses on the utilization of current technology for classroom instruction, student assessment, and professional development. The course also examines the social, ethical, legal, human and equity issues surrounding the use of technology in the secondary classroom. The course is required in the FAST TRACK Teacher Education Program. Prerequisite(s): Eligibility for the FAST TRACK Teacher Preparation Program. Enrollment open to General Education majors only.

PTE 5522 - Designing Instruction Secondary Students
This course prepares students to design and teach effective lessons to facilitate student learning in secondary schools based on appropriate theoretical frameworks. Multiple strategies for enhancing student learning will be explored, including, but not limited to, lecture, demonstration, simulation, projects, experiments, dramatization, and group processes. Additionally, methods for differentiating instruction and integrating curriculum will be explored. Students will learn to utilize the Oklahoma Priority Academic Student Skills in lesson planning and delivery. Prerequisite(s): Enrollment open to Secondary Education majors only.

PTE 5533 - Managing Secondary Classrooms
This course prepares students to utilize current theory and best practices related to behavior, motivation, and communication to create learning environments that encourage positive social interaction, self-motivation, and active engagement in learning. Additionally, students will create and rehearse approaches to developing professional relationships with students' parents and/or guardians. Field Applications in secondary schools allow students to apply course concepts in actual classrooms. Prerequisite(s): Enrollment is open to Secondary Education majors only.

PTE 5623 - Secondary Class Assessment
This course focuses on the design, delivery, analysis, and utilization of results of classroom assessments to enhance student learning in the secondary classroom. Students will also learn to utilize data from standardized tests and make appropriate instructional decisions. Additionally, the course will examine the standardized testing process, as well as legal, ethical, and diversity issues in assessment. Prerequisite(s): Enrollment open to Secondary Education majors only.

PTE 5693 - Curriculum Development For Elementary Schools
This course is a study of the principles of curriculum organization in the elementary school setting. A major emphasis will be placed on curriculum development, modification, and the selection and evaluation of instructional materials.

PTE 5822 - Advanced Psychology Of Child Behavior
This course provides a study of the major theories of childhood. The relationship among child development, growth and educational/instructional practices and techniques is included with an emphasis upon the child in various educational settings including methods of child study.

PTE 5832 - Advanced Psychology Of Adolescence
This course is a study of the major theories of adolescence including an overview of the problems and characteristics of the period of adolescence. Emphasis is upon the various aspects of adolescent growth, development, and current research as these relate to educational settings, decisions, and practices.
PTE 5892 - Capstone Research Experience
This course requires students to demonstrate their cumulative knowledge in Professional Education and in their teaching specialization area to complete and present a research project. Prerequisite(s): PTE 5013 and complete a minimum of 19 hours of graduate coursework.

PTE 5900 - Practicum In Teacher Education
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

PTE 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

PTE 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

PTE 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

PTE 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

PTE 5950 - Internship
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

PTE 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

PTE 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

PTE 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

READ 5023 - Developmental/Correction Classroom Reading Experience
This course provides classroom experience for teachers meeting the needs of readers in developmental/corrective groups. Special attention will be given to the task of identifying, within the classroom, reading levels/problems.

READ 5443 - Assessment/Dyslexia & Reading Disorders
An in-depth study of various instruments which assess language processing/development, modality adequacy, and reading skills with suggested materials/techniques appropriate for work in those areas. Additional study will be directed to interpreting WISC-R profiles and relating them to the reading process. Prerequisite(s): READ 5843 with a minimum grade of “B”.

READ 5613 - Secondary/Adult Disabled Reader
This course is designed for the teacher desiring experience in testing and teaching the disabled secondary/adult learner. The course will be conducted for two hours, plus an hour arranged. The first two hours will be devoted to the clinical aspects of the course. Each clinical student will be assigned a disabled reader in a practicum for the purpose of remedial assistance. One hour will be devoted to consultations between the supervising professor and the class members. The main focus of concern is threefold: 1) explanation of diagnostic administration and interpretation 2) outlining measures of implementation for a prescriptive program and 3) understanding the psychological, social and intellectual needs of the secondary/adult disabled reader.

READ 5623 - Foundations & Survey Reading
An introductory course giving an overview of current practices in teaching reading, remedial and developmental reading techniques and a review of recent research in reading.

READ 5663 - Theoretical Basis Of Reading
The theoretical basis of reading includes the cognitive impact on how one learns to read using the psychological, physiological and cognitive model.

READ 5712 - Organization & Supervision Of Reading Programs
Policies and techniques of planning, implementing and supervising of reading centers and programs in schools and school systems.

READ 5833 - Diagnosis Intervention Reading
Candidates learn to identify children with reading difficulties and develop strategies for remediation. Methods of teaching reading and implementation are the primary focus of this class. The children, who are instrumental in this practicum experience, exhibit exceptionalities, individual differences, and cultural and linguistic diversity. A tutorial component requires that each candidate apply the knowledge and skills attained through assigned readings and class instruction in an authentic teaching/learning situation. Graduate candidates will work closely with faculty to analyze and synthesize course components. Prerequisite(s): SPED 4102 or 5102.

READ 5843 - Diagnosis & Correction Of Reading Disability
An overview of the principles and procedures for diagnosing and correcting reading disabilities. Under the supervision of a reading clinician, students will work with reading disability cases in the reading clinic.

READ 5853L - Clinical Practice In Reading Lab
Lab for READ 5853. Summer sessions only.

READ 5854 - Clinical Practices In Reading
A practicum in the reading clinic with enrollees working with disabled readers.

READ 5900 - Practicum In Reading
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

READ 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

READ 5920 - Workshop in Education
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

READ 5930 - Individual Study In Reading
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

READ 5940 - Field Study In Reading
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.
**Graduate Course Descriptions**

**READ 5950 - Internship In Reading**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

**READ 5960 - Institute In Reading**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**READ 5970 - Study Tour**  
Credit will vary. Subject matter will vary within the department’s field of study.

**READ 5990 - Thesis**  
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

**RECREATION (REC)**  
Department of Kinesiology and Health Studies

**REC 5362 - Therapeutic Recreation**  
History and principles of therapeutic recreation in the United States. The organization and management of programs serving the various exceptionality and age groups. Current opportunities for employment and required training.

**REC 5602 - Community Recreation**  
Investigation into the structure of community recreation systems and programs. Study of needs, leadership, facilities and personnel involved.

**REC 5910 - Seminar / Special Topics**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**REC 5930 - Individual Study In Recreation**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**REC 5940 - Field Study**  
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

**REC 5950 - Internship In Recreation**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

**SUBSTANCE ABUSE STUDIES (SAS)**  
Department of Sociology/Criminal Justice/ Substance Abuse Studies

**SAS 5273 - Substance Abuse and the Family**  
This course is designed to provide the student with an overview of the dynamics of functional family systems. The course provides insight into the effects of chemical dependency on the family. The student is guided in exploring and identifying many of the characteristics of healthy and unhealthy family systems, including physical, emotional, and sexual abuse issues. In addition, family structure, rules, roles, boundary systems, and cultural differences are addressed. Also included in this course are the basic techniques for prevention, intervention, family treatment, and recovery of the dependent person(s) and other family members. An in-depth research paper on an appropriate subject is prepared by each student. Prerequisite(s): 12 undergraduate semester hours in sociology and/or psychology.

**SAS 5303 - Substance Abuse In Special Populations**  
This course addresses various SOCcultural factors influencing use and abuse of alcohol and other drugs in selected subgroups of American society and the effect of these influences on the treatment and recovery processes for chemical dependency. Special populations included are women, adolescents, elderly, racial/ethnic groups, gays and lesbians, high-risk professional groups, criminals, the mentally ill.

**SAS 5333 - Advanced Counseling Skills/Substance Abuse**  
This course examines the helping relationship, including skills relevant to working with persons affected by chemical dependency. The course will include examination of qualities of a functional helping relationship and social-psychological issues involved in working with the chemically dependent persons such as denial, treatment goals, and when/how to intervene in the dysfunctional personal/social world of this person. The course will include demonstration and role-playing of techniques of a functional helping relationship. Prerequisite(s): SOC 3023.

**SAS 5343 - Prevention And Education In Substance Abuse**  
This course will examine contemporary prevention theories and the basic strategies of comprehensive prevention programming. The course will explore historical and current prevention programs. The course will examine the process of implementing prevention programs in communities through community mobilization and action planning. The course will explore prevention as a method of thinking about problems and issues.

**SAS 5900 - Practicum**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**SAS 5910 - Seminar / Special Topics**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**SAS 5920 - Workshop**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

**SAS 5930 - Individual Study**  
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. May be repeated for credit up to four hours.

**SAS 5940 - Field Study**  
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

**SAS 5950 - Internship**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in the professional field of an advanced or graduate student.

**SAS 5960 - Institute**  
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

**SAS 5970 - Study Tour**  
Credit will vary. Subject matter will vary within the department’s field of study.

**SAS 5990 - Thesis**  
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.
Graduate Course Descriptions

SAFETY (SFTY)
Department of Occupational and Technology Education

SFTY 5013 - Alcohol And Drug Education
This course is designed to explore the magnitude of the use of alcohol and drugs in our society. The individual is encouraged to explore the areas before making a decision concerning the use or nonuse of these substances.

SFTY 5083 - Industrial Safety II
This course provides an overview of the engineering and technological aspects of current industrial safety practice.

SFTY 5123 - Industrial Hygiene
This course is a study of environmental factors that occur in industry that contributes to worker illness and injury. Oxidative materials, radiation, heat and noise stresses, and other concerns of the industrial hygiene discipline will be considered.

SFTY 5133 - Industrial Hygiene II
A continuation of Industrial Hygiene I, with particular emphasis on the field application of industrial hygiene instrumentation to assist the practitioner in the elimination or minimization of worker exposure to health hazards in the industrial environment. Prerequisite(s): SFTY 2503 or MATH 1513; and SFTY 4123 or SFTY 5123.

SFTY 5142 - Respiratory Protection
A study of the anatomy and physiology of the respiratory system. Data will be presented as they relate to specific regulatory standards and management of a respiratory program. Prerequisite(s): SFTY 5152.

SFTY 5152 - Personal Protective Equipment
A study of the selection, use, care and maintenance of various types of personal protective equipment commonly used in industry, and an overview of the anatomy and physiology of the body organs that each type of equipment is designed to protect.

SFTY 5163 - Environmental Safety
A study of the characteristics of regulated hazardous wastes, the principles of hazardous waste management, and the OSHA regulations pertaining to the protection of workers in hazardous waste operations. Prerequisite(s): SFTY 2503.

SFTY 5173 - Fire Prevention & Protection
This course is designed to prepare the safety professional/other safety personnel for industry. Among the areas included are: factors contributing to industrial fires, the chemistry of fires, the classification of fires, special systems and agents, identification of hazardous materials, and fire prevention activities.

SFTY 5203 - Principles, History, & Philosophy Of Safety Education
This course reviews the philosophy of industrial safety in light of its historical context. In addition, system safety and quantitative risk management models will be studied.

SFTY 5213 - Chemical/Toxic Hazardous Material/Waste
A study of the major categories of hazardous chemicals, their chemical and physical properties, and their toxicological effects on the human body. Prerequisite(s): SFTY 2503.

SFTY 5222 - Industrial Fire Systems
This course is designed to prepare the safety professional and other safety personnel for industry. Areas include fire detection systems, extinguishing systems and fire safety systems. Prerequisite(s): SFTY 2343.

SFTY 5232 - Life Safety Code
Life safety codes are critically examined within the scope of pertinent standards and codes to assure safety from fire and its effects. All classifications of occupancies will be defined in the course.

SFTY 5243 - Industrial Noise Control
This course will provide an overview of the fundamentals of sound and sound measurements, audiogram interpretation, noise effects, noise legislation, effective hearing conservation, noise control management, and design for abatement. Attention is given to the prevention of hearing loss through engineering control and hearing conservation programs. Students will have the opportunity to analyze their own audiograms courtesy of a local safety consultant firm.

SFTY 5253 - Electrical Safety
This course consists of a study of the basic concepts of direct and alternating current, including the generation, transmission, safe use, and protective methods employed in industry. Prerequisite(s): Graduate standing.

SFTY 5303 - Driver & Traffic Safety II
Special attention is given to administrative policies and practices, and selection, organization, and program evaluation. A study on qualification and certification standards for teachers of high school driver education, community resources, instruction strategy, evaluation of instructional materials and equipment. Laboratory practices will include experience in programming. Prerequisite(s): SFTY 3203.

SFTY 5323 - Underground Storage Tank Management
This course will present information about the safety concerns associated with, and environmental hazards common to aboveground and underground petroleum storage tanks. The course will consist of lectures, guest speakers from regulatory and consulting arenas, and field trips. Particular attention will be paid to regulator requirements, environmental impacts, and remediation technologies for cleanup of spills emanating from leaking tanks.

SFTY 5333 - Storm Water Management
This course addresses the applicable laws, rules, and regulations that pertain to the control, management, identification, and analysis of storm water and its associated environmental problems. Included is a review of the Clean Water Act, EPA's proposed and final rules, the Federal Register and the Code of Federal Regulations.

SFTY 5402 - Supervision Of Transportation
A study of transportation as it relates to industrial concerns, including hazardous materials, driver selection, accidents, and other safety areas.

SFTY 5412 - Hazard Communication
Upon completion of this course, the student will be familiar with the principles of hazard and risk communication, the principles of design and delivery of hazard training programs, and the elements of an acceptable hazard communication program.

SFTY 5423 - Applied Ergonomics
This course explores methodologies and considerations involved with establishing an applied ergonomics program within industry included are methods for assessing ergonomic problems and needs, record keeping, work task analysis, investigation techniques, and corrective actions for reducing and/or eliminating ergonomic risk factors. Prerequisite(s): SFTY 3333.

SFTY 5433 - Occupational Risk Management
This course will prepare the prospective safety manager to plan, coordinate and control activities in the work place. Other physical risk and legal risk will be studied. Prerequisite(s): SFTY 3073.
Graduate Course Descriptions

SFTY 5443 - Asbestos and Lead Management
This is a course in methods and practices used to determine the extent of hazards posed by the presence of asbestos-containing materials and lead paint in the workplace, the environment, and in the home. The course will familiarize the student with federal, state, and local laws and regulations governing these hazards, and the methodologies used to either remove asbestos and lead paint, or to maintain them in situ while keeping personal and environmental risks within acceptable levels.

SFTY 5453 - Hazard Waste Operation & Emergency Response

SFTY 5463 - Industrial Ventilation
This course is a study of methods and techniques of industrial ventilation systems, including local exhaust systems as engineering controls for reduction of air-borne contaminants, as well as the basic concepts of heating, ventilation, and air-conditioning (HVAC) systems. Prerequisite(s): SFTY 2503 and graduate standing.

SFTY 5502 - Traffic Engineering
This course is designed to orient the driver and safety educator to the basic characteristics and operations of the traffic engineering Department; devices and techniques, signals, parking restrictions, coordination of traffic lights, channelization, redesign of intersections, utilization of reversible lanes or unbalanced flow, pedestrian controls and the use of signs and pavement markings.

SFTY 5522 - Industrial Process Safety
An examination of industrial processes, detailing health and safety consideration. Included are processes involving industrial coating, welding, robotics, lasers, conveyors, machine tooling, injection molding, forging and stamping. Prerequisite(s): SFTY 3073.

SFTY 5900 - Practicum In Safety Education
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SFTY 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SFTY 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

SFTY 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SFTY 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

SFTY 5950 - Internship In Safety Education
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

SFTY 5960 - Institute In Safety
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

SFTY 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

SFTY 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

SPEECH/LANGUAGE PATHOLOGY (SLP)
Department of Special Services

SLP 5013 - Foundations Of Speech-Language Pathology
This course presents a survey of the principles, concepts and terminology fundamental to the professions of speech-language pathology and audiology.

SLP 5023 - Fluency Disorders
This course includes a detailed examination of the nature and definition of fluency disorders (stuttering and cluttering). Theories regarding etiology and their implications for evaluation and treatment of fluency disorders are studied. Procedures for the evaluation of speech fluency, diagnosis, and treatment for different age groups are examined. Prerequisite(s): SLP 4713.

SLP 5112 - Speech And Hearing Science
This course presents an advanced study of physical and physiological aspects of speech production and reception. Topics include analysis of acoustic signals and speech synthesis. Prerequisite(s): Permission required.

SLP 5222 - Communication Disorders Infant/Toddler
This course presents an in-depth examination of high-risk infant/toddler development and implications for speech-language development. Topics include information relative to defining the at-risk population incidence of high-risk infants, medical terminology specific to the population, infant communication development, assessment data, and materials. Models for parent/professional facilitation of communication skills are discussed. Prerequisite(s): Permission required.

SLP 5232 - Advanced Normal Language Development
This course provides a detailed description of linguistic, behavioral, cognitive and social factors in language development. Specific emphasis is placed on analysis and coding of morphologic, syntactic, semantic and pragmatic features in the language of children and adolescents. Prerequisite(s): Permission required.

SLP 5243 - Diagnostic Methods Speech-Language Pathology
This course presents a detailed examination of the principles and procedures in diagnosis and evaluation of communication disorders. Special reference will be made to interpretation of medical/developmental history, application of standardized tests, informal methods of evaluation, and principles of caseload selection.

SLP 5252 - Advanced Language Disorders
This course provides an in-depth examination of the theoretical foundations, formal standardized tests, language sampling and analysis techniques for assessment of language disorders in children and adolescents. Topics include detailed study of various procedures for language treatment. Prerequisite(s): Written permission required.

SLP 5262 - Advanced Articulation Disorders
This course provides an in-depth study of the principles and procedures for assessment and treatment of articulation and phonological disorders. Evaluation and treatment of oral-motor disorders, including apraxia and dysarthria, are also examined. Prerequisite(s): Permission required.
Graduate Course Descriptions

SLP 5292 - Aphasia II
This course provides a detailed study of the procedures for evaluation and treatment of neurogenic communication disorders in adults including the aphasias, dementias, traumatic brain injury, and right-hemisphere syndrome. Prerequisite(s): SLP 5363, permission required.

SLP 5302 - Augmentative Communication
This course examines the selection, development, and use of augmentative alternative systems of communication with severely communicatively handicapped individuals. Prerequisite(s): Written permission required.

SLP 5314 - Language Disorders
This course presents a detailed study of the nature of language disorders in children and adolescents, including etiologies, classification, assessment and treatment. Specific emphasis includes principles and procedures for application of standardized test instruments, language sampling and analysis, informal assessment and developing treatment strategies. Prerequisite(s): Written permission required.

SLP 5323 - Voice Disorders
This course presents an in depth study of anatomy and neurophysiology of the vocal mechanism and various voice disorders. The course includes evaluation and treatment techniques for hyper- and hypofunctional disorders, neurogenic disorders and clients with laryngectomy. Prerequisite(s): Permission required.

SLP 5332 - Legal Aspects Speech-Language Pathology
This course presents a lecture series concerning the legal aspects related to the practice of Speech-Language Pathology. Topics include ethical bases of the profession and federal, state and common law requirements for both the private and public practitioner. Prerequisite(s): Permission required.

SLP 5343 - Dysphagia
This course represents a study of the etiologies, assessment, and treatment of disturbances in oral-motor functioning for speech and swallowing in children and adults. This course replaces SLP 5342. Prerequisite(s): Written permission required.

SLP 5352 - Cleft Palate
This course presents an in-depth examination of the anatomy, embryology, and etiology and classification related to clefts of the lip and palate. Topics include the evaluation of the effects of cleft palate on speech and the evaluation and treatment of cleft palate speech. Prerequisite(s): Permission required.

SLP 5363 - Aphasia I
This course presents a detailed study of the neurological and physiological bases of neurogenic communication disorders. Topics include evaluating the motor, cognitive, and communication features associated with the aphasias, dysarthrias, and apraxia. Prerequisite(s): Permission required.

SLP 5372 - Neuroscience In Speech Language Pathology
This course is designed to examine the human nervous system at an advanced level with special emphasis on human communication. Terminology and conceptual tools for studying neurological structure and function of the somatosensory, visual, auditory, and motor systems are included in the examination of neuroscience. These concepts will be related to disorders of speech and language encountered by speech-language pathologists in their clinical work. Prerequisite(s): Permission required.

SLP 5713 - Clinical Methods Speech-Language Pathology
This course examines the clinical foundations of speech-language pathology. Principles and procedures for the evaluation and treatment of communication disorders are studied. Methods for obtaining and analyzing behavioral data for clinical and research applications are examined in detail. Prerequisite(s): SLP 4054, 4673.

SLP 5990 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SLP 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SLP 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

SLP 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SLP 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

SLP 5950 - Internship
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

SLP 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

SLP 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

SLP 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

SOCIOLGY (SOC)
Department of Sociology/Criminal Justice/Substance Abuse Studies

SOC 5043 - Sociological Statistics
Statistical applications in sociological research are emphasized in this course. Students learn to use traditional statistical treatments to describe sociological data. They learn to use decision-making statistics to make inferences about the relations between variables. They also learn to employ computer applications of statistical procedures in the analysis of sociological data. This course replaces SOC 5783. Prerequisite(s): Undergraduate degree in sociology or related area.

SOC 5053 - Sociology Of Aging
This course is designed to acquaint students with the magnitude of the aging situation in America and to become informed about the social, psychological, economic, and political problems associated with the increasing number of people reaching retirement age in America. Prerequisite(s): 3 hours of sociology.
SOC 5103 - Urban And Rural Communities
Principles of community organization, the general attributes of communities, the special features of folk and modern city societies developed in contrast. Prerequisite(s): 9 hours of sociology.

SOC 5233 - Human Behavior/Social Environment
In this course, various social systems are analyzed in regard to their impact upon the quality of human life. Human development theories and research are studied chronologically, as they relate with environmental factors to determine the human condition. For each age group, sociological, psychological, and biophysical variables are examined, as well as the impact of diversity upon human behavior and social life.

SOC 5243 - Social Deviance
This course defines social deviance, analyzes theories of deviance, examines social reactions to and social control of deviance, and looks at the effects of deviant identity. The above information then is applied to an understanding of several specific types of deviance, e.g., child abuse, alcoholism, suicide. Prerequisite(s): SOC 2103 and 6 hours of sociology.

SOC 5403 - Social Ecology And Demography
An analysis of population movements and their effects on ecological and demographic factors in the society.

SOC 5443 - Social Stratification
Theories of class and caste; wealth, status, and power; the American class system. Prerequisite(s): 9 hours of sociology.

SOC 5463 - The Abused
This course is designed to equip students preparing for work in the helping professions to identify symptoms of abuse, and other forms of trauma, and to design and carry out treatment plans specifically developed to ameliorate resultant maladaptive behavior patterns. Matters of etiology, symptomology, and treatment techniques are examined with particular emphasis on research and theory. Prerequisite(s): Graduate standing in a program in the social and behavioral sciences, or in professional helping areas, and an introductory course in chemical dependency studies.

SOC 5513 - Contemporary Social Movements
A critical consideration of social problems, causes of social maladjustments, a consideration of means for the amelioration of social ills.

SOC 5573 - Sociology Of Childhood/Adolescence
A study of the group phases of childhood, child welfare, and the sociological analysis of child and adolescence.

SOC 5633 - Social Welfare Theory
Theory, structure and techniques of private, municipal, state, and federal welfare agencies.

SOC 5693 - Sociological Theory
A study of both classical and contemporary sociological theorists. Emphasis is on understanding the biographical, social, and philosophical context of theory. An understanding of how to apply various sociological perspectives is also presented. Prerequisite(s): SOC 3103 or 3633 or 4243.

SOC 5773 - Sociological Research
This course teaches students a variety of research designs used in social research, e.g., experiments, quasi-experiments, and correlational designs. The merits and shortcomings of each technique are reviewed, as well as related issues such as reliability and validity, correlation vs. causation, generalizability, the relationship between theory and research, and ethical considerations. Students also learn to design and implement several research projects. The major emphasis in this course is quantitative research design, with some attention given to qualitative research procedures. Prerequisite(s): Undergraduate degree in sociology or related areas.

SOC 5900 - Practicum In Sociology
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SOC 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SOC 5920 - Workshop in Sociology
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

SOC 5930 - Individual Study In Sociology
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SOC 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

SOC 5950 - Internship In Sociology
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

SOC 5960 - Institute In Sociology
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

SOC 5970 - Study Tour In Sociology
Credit will vary. Subject matter will vary within the department’s field of study.

SOC 5980 - Thesis In Sociology
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

SOC 5990 - Thesis In Sociology
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

SOCIAL STUDIES (SOST)
Department of History & Geography

SOST 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SPANISH (SPAN)
Department of Modern Languages, Literature & Cultural Studies

SPAN 5203 - Readings In Spanish Culture And Civilization
Prerequisite(s): Eighteen hours of Spanish.

SPAN 5223 - Advanced Spanish Grammar
Prerequisite(s): Eighteen hours of Spanish.
Graduate Course Descriptions

SPAN 5303 - Women Writing In Spanish America
This course provides a comprehensive overview of Spanish American literature by writers from diverse periods and geographic regions of Central and South America, Mexico, and the Caribbean. Concepts introduced include issues influencing women's roles in Spain, including such as silencing, otherness, and mythical images of women leading to the formation of false identities. SPAN 5403 - Contemporary Spanish American Drama
This course introduces students to Spanish American dramatic works dating from approximately 1950 to the present. Among the topics to be explored are the concepts of socially-committed theater, political oppression, dehumanization, lack of communication, and the isolation of the individual from self and society. Prerequisite(s): 17 hours of Spanish and permission of the instructor.

SPAN 5900 - Practicum In Spanish
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

SPAN 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. May be repeated for credit up to 4 hours. Prerequisite(s): Eighteen hours of Spanish.

SPAN 5920 - Workshop in Spanish
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of "P" or "F" is given.

SPAN 5930 - Individual Study In Spanish
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. May be repeated for credit up to 4 hours.

SPAN 5940 - Field Study In Spanish
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study.

SPAN 5950 - Internship In Spanish
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

SPAN 5960 - Institute In Spanish
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

SPAN 5970 - Study Tour
Credit will vary. Subject matter will vary within the department's field of study.

SPAN 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

SPECIAL EDUCATION (SPED)
Department of Special Services

SPED 5102 - Language Development In Special Education
This course will explore language acquisition, language development and components, communication progression, and recognition of non-symbolic communication. Language assessment, formal and informal language teaching strategies, remediation activities, and language service delivery models will be examined. Prerequisite(s): SPED 4123.

SPED 5123 - Teaching Individuals w/Disabilities
This course addresses special education categories of disabilities, related legal mandates, parent rights, and the role of general and special educators in meeting the needs of students with disabilities. Special emphasis is placed on instructional and cognitive strategies to assist these students to succeed.

SPED 5212 - Legal Aspects In Special Education
This course seeks to explore issues relating to the needs and concerns of parents of exceptional individuals. A survey of current legal issues affecting the rights and responsibilities of individuals with exceptionalities, their parents and teachers will be discussed. Prerequisite(s): SPED 4123.

SPED 5232 - Educational Strategies Young Child Disability
Educational Strategies for Young Children with Disabilities is a study of the growth and development of typical and atypical young children. Included will be an identification of specific disabilities with selection of developmentally and functionally appropriate materials, equipment, environments, and teaching strategies. Prerequisite(s): SPED 4123 or 5123.

SPED 5242 - Foundations Of Mild/Moderate Disability
The Foundations of Mild/Moderate Disabilities course is designed to teach characteristics and etiology of disabilities including learning disabilities, mental retardation, emotional disturbance, other health impairments, autism, physical disabilities, etc. and to apply this knowledge to the mild/moderate needs of students with disabilities in educational settings. In addition, case studies and a variety of interventions will be explored to analyze and determine services needed. A research component will be required. Prerequisite(s): SPED 4123.

SPED 5252 - Foundations Of Severe/Profound Disability
The course is designed to assist students in developing proficiency in recognizing and understanding the historical, legal, and ethical history of children, preschool to secondary level, defined as needing extensive and ongoing supports. The content of this courses includes characteristics, roles, and interactions effects of and to friends, society and the family. Motortic, emotional, cognitive, social, behavioral, physical, and health causes will also be explored. Prerequisite(s): SPED 4123.

SPED 5303 - Assessment/Exceptional Individual
This lecture and application course is an in-depth examination of educational evaluation instruments and their purpose. Emphasis is on a unified team approach of differential diagnosis and treatment. State and federal Special Education assessment mandates for grades K-12 will be covered.

SPED 5322 - Trends & Issues In Special Education
This course will address medical trends, litigation, legislation, controversial issues, curricular development and best practices in special education. It is designed to provide a means of investigation into the viewpoint of relevant research, societal changes and the impact on people included in this population. Prerequisite(s): SPED 4123 with a minimum grade of "C" or SPED 5123 with a minimum grade of "B".

SPED 5402 - Program Development & Administration In Special Education
This course involves the examination of the social and psychological factors involved in program organization and management in special education. Focus will be on the factors affecting the establishment and operation of services for the exceptional student. Prerequisite(s): SPED 4722.
Graduate Course Descriptions

**SPED 5431 - Attention Deficit Hyperactive Disorders**
This course is designed to provide information regarding etiology and intervention techniques appropriate to assist individuals with attention deficit hyperactivity disorders. Techniques for assessment, effective research-based intervention, parent and counselor intervention will also be addressed. In addition, students will be exposed to information regarding medications and a variety of alternative treatments that have proven effective for some individuals with ADHD. Prerequisite(s): SPED 4123 with a minimum grade of "C" or SPED 5123 with a minimum grade of "B".

**SPED 5443 - Behavioral/Classroom Management**
This course is designed to provide behavioral and classroom management techniques for teacher candidates, parents, and therapists. The course emphasizes applied behavioral analysis, cognitive behavioral techniques, informal behavioral assessment, functional behavioral assessment, behavioral intervention plans, and a variety of interventions to change behaviors. Prerequisite(s): SPED 4123/5123 with a minimum grade of "B".

**SPED 5452 - Curriculum Modification/Assistive Technology In Special Education**
This course will provide an overview of state and national requirements related to the instructional, assistive, and rehabilitation technology designed and adapted for students with disabilities. The emphasis of this course is on practical applications of technology and curriculum modification in helping students with disabilities gain independence in learning, communicating, and integrating into society together with the documentation required by the State of Oklahoma. Prerequisite(s): SPED 4123 with a minimum grade of "C".

**SPED 5543 - Counseling Families Of Individuals with Disabilities**
This course develops expertise in assisting families of individuals with disabilities and is designed for students pursuing professions in education, psychology, counseling, social work, and others. It will focus on the ethical issues and legal foundations needed for consultation and collaboration with parents and other professionals who provide services to individuals with disabilities. Prerequisite(s): Permission of graduate advisor.

**SPED 5582 - Secondary Special Education**
This course will include instruction in class organization, curriculum development and adjustment, and an introduction to methods and techniques of teaching middle and senior high school students with disabilities. Transition needs of students at this level will be emphasized along with the need for cooperation among agency and post-secondary service providers. Students may also be required to participate in a secondary field experience or service learning project. Prerequisite(s): SPED 4123.

**SPED 5653 - Procedures For Mild/Moderate Learning Disabilities**
This course examines the characteristics, identification, evaluation, program options, and learning needs of students who possess normal intelligence but experience difficulties in the ability to think, read, write, listen, speak, spell, and complete mathematical calculations. Prerequisite(s): SPED 4123.

**SPED 5693 - Procedures For Severe/Profound Physical Health Disabilities**
This course will study the academic, behavioral, emotional, and social procedures available to teach the student with severe to profound physical disabilities. Curriculum modifications will be researched pertaining to the wide range of physical and health problems of students with severe-profound physical and health disabilities. Specialized physical equipment and medical adaptations for this population will be explored in depth. Prerequisite(s): SPED 4123 or 5123.

**SPED 5743 - Procedures For Mild/Moderate Emotional Behavior**
A study of characteristics, problems of identification and educational programs for students with emotional disturbance and social maladjustment in public schools, day care centers, hospitals, and residential schools. Mental health principles for understanding, managing, and teaching emotionally disturbed children are included. Emphasis is placed upon the administrative provisions, theories of remediation, curriculum and materials utilized in prescriptive teaching. Prerequisite(s): SPED 4123.

**SPED 5753 - Procedures For Severe/Profound Emotional/Behavior**
This course is a study of teaching students with emotional/behavioral disorders in public schools, day care centers, hospitals, day treatment centers, and residential schools. Mental health principles for understanding, managing, and teaching individuals with emotional/behavioral disorders are included. Emphasis is placed upon the academic, behavioral, emotional, and social needs of this severe-profound disabilities population. Prerequisite(s): SPED 4123 or 5123.

**SPED 5763 - Procedures For Mild/Moderate Mental Retardation**
This course will introduce and investigate the learning needs of children diagnosed with mild educational needs. It will include a study of the history, diagnosis, characteristics classification, ideology, legal regulations, and classroom procedures that are implemented to improve the lives of students classified as mildly mentally retarded. Prerequisite(s): SPED 4123.

**SPED 5773 - Procedures For Severe/Profound Mental Retardation**
This course will study the application of classification, assessment, ideology, and characteristics of students with sever-profound/mental retardation. Biochemical, psychological, and socio-educational aspects are considered. Emphasis is placed upon classroom organization, curriculum adjustments and methods and techniques of teaching students with mental retardation at severe-profound levels. Prerequisite(s): SPED 4123 or 5123.

**SPED 5842 - Curriculum Development Mild/Moderate Disability**
The course is designed to teach skills necessary to design a program for students functioning at mild/moderate levels of Emotional/Behavioral Disorder, Learning Disabled, and Mental Retardation, and Early Childhood Development Delays. Emphasis will be placed upon academic, social, and emotional skill development. Prerequisite(s): SPED 4123.

**SPED 5852 - Curriculum Development Severe/Profound Disability**
This course will cover in detail integrated instructional settings, family interactions IEP, IFSP development, collaborative planning, effective behavioral supports, related services, functional independent living skills acquisition, cultural issues for children preschool to adulthood, who are taught in the public schools. A curriculum will be developed that is functional, relevant, and implemental. Prerequisite(s): SPED 4123 or 5123.

**SPED 5900 - Practicum In Special Education**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

**SPED 5910 - Seminar / Special Topics**
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.
Graduate Course Descriptions

SPED 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

SPED 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

SPED 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

SPED 5950 - Internship
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

SPED 5960 - Institute In Special Education
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

SPED 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

SPED 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

STATISTICS (STAT)
Department of Mathematics and Statistics

STAT 5103 - Applied Experimental Design
Topics for this course basic concepts of experiments and experimental error, analysis of variance of one-, two-, and three-way classifications, and nonparametric statistics. Prerequisite(s): STAT 3103 with a minimum grade of “C”.

STAT 5123 - Mathematical Statistics II
This course will introduce and investigate the central limit theorem, distribution about the mean, Student’s-t, chi-squared, and Snedecor’s F-distributions, point and interval estimation, hypothesis testing, regression and correlation analysis, and analysis of variance. Prerequisite(s): STAT 4113.

STAT 5213 - Applied Regression Analysis
Topics for this course will include multiple regression, logistic regression, survival analysis, proportional hazard models, and time series analysis. Data will be analyzed using SAS. Prerequisite(s): STAT 3103.

STAT 5253 - Quality Control
Topics in this course include random samples, frequency distributions of sample data, sampling distributions, sampling acceptance plans, rectifying inspection, and the general theory of control charts. Prerequisite(s): STAT 4113 or 5113 and 4303.

STAT 5263 - Computer Applications in Statistics
This course will include programming techniques, data organization, selection and interpretation of statistical tests as applied to SPSS (Statistical Package for Social Studies). Prerequisite(s): STAT 3013 with a minimum grade of C.

STAT 5303 - Non-Parametric Statistics
Topics in this course include distribution-free statistics, techniques of hypothesis testing with data drawn from a population that is not distributed in a particular manner, the binomial test, the sign test, the median test, the Cochran Q test. Prerequisite(s): STAT 3103 or 4113 or 5113.

STAT 5353 - Probability Theory
This course provides the student with a thorough treatment of the mathematical structure and application of probability. Topics include principles of combinatorics, the fundamentals of probability, conditional probability and independence, random variables, mathematical expectation, the Weak and Strong Laws of Large Numbers, and the Central Limit Theorem. Emphasis will be placed upon building a strong foundation for the more advanced study of probability and statistics. Prerequisite(s): STAT 4113.

STAT 5423 - Data Fitting
Topics in this course include fitting data to a linear equation, a polynomial, an orthogonal polynomial, and an exponential growth curve. Piecewise polynomial fitting will also be discussed. Prerequisite(s): CMSC 1613 and STAT 3103.

STAT 5900 - Practicum In Statistics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

STAT 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

STAT 5920 - Workshop in Statistics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

STAT 5930 - Individual Study In Statistics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

STAT 5940 - Field Study In Statistics
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

STAT 5950 - Internship In Statistics
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

STAT 5960 - Institute In Statistics
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

STAT 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

STAT 5980 - Graduate Project
A contemporary problem provided by business and industry and selected with consideration of the interests and abilities of the individual student. Prerequisite(s): Written permission of instructor required.

STAT 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.
Graduate Course Descriptions

TEACHING ENGLISH AS A SECOND LANGUAGE (TESL)
Department of Curriculum and Instruction

TESL 5123 - Foundations Of Bilingual/Multicultural Education
This course provides an overview of the history, philosophy and theoretical framework of bilingual/multicultural education, including the legal aspects of federal and state involvement. The purpose, instructional models, and populations served by bilingual education will be examined. Upon completion students will be able to discuss the issues concerning the development, the effectiveness, current trends, and future projections for bilingual/multicultural education programs in the U.S. Students will also develop a personal educational philosophy regarding cultural and linguistic diversity.

TESL 5133 - Methods & Materials Bilingual Instruction
This course is designed to provide knowledge of current trends, methods, strategies and resources related to instructional issues and practices in bilingual settings. Upon completion, students will demonstrate proficiency in designing and adapting curriculum materials for bilingual classrooms, and planning and implementing bilingual instruction. Prerequisite(s): permission required.

TESL 5143 - Teaching Reading To English Language Learners
This course will examine the basic considerations for teaching reading to limited English speakers. Topics will include: the role and importance of literacy, assessment, readiness, language comprehension/skills development, and instructional materials, strategies and resources.

TESL 5163 - ESL In Content Areas
This course will provide a rationale for cultural and linguistic considerations in content area instruction for students who are limited English proficient. Different approaches and specific techniques for teaching English as a second language in content areas will be examined, specifically in social studies, science, and math. Upon completion, students will demonstrate an ability to design curriculum which integrates content area processes and ESL methodology.

TESL 5212 - Cultural/Linguistic Diversity In Schools
This course will examine the influence of culture and language on individual learning styles, behavior patterns and understanding of academic content. Theoretical and practical considerations for synthesizing multicultural curriculum design with language and concept development will be explored. Upon completion students will be able to utilize techniques and strategies that promote cross-cultural awareness and understanding and academic achievement for all students in multilingual, multicultural classrooms.

TESL 5313 - Testing/Evaluation In The Bilingual/ESL Classroom
This course will examine the issues and concerns of language and achievement assessment in bilingual education and English as a second language programs. Various standardized test will be reviewed and analyzed. Principles and techniques of teacher-made test construction will be studied and applied in the development of an original assessment instrument. Upon completion students will prepare a professional quality assessment profile of an English language learner. Prerequisite(s): TESL 5783 or TESL 5143 or TESL 5163.

TESL 5413 - Language Structure For ESL Teachers
This course provides practical as well as theoretical information related to the fundamentals of the structure of language as it pertains to the teaching and learning of English language learners in the school setting. Students will be able to apply their understanding of the underlying processes of the ability to produce and interpret oral and written language by developing and analyzing teaching strategies and materials for second language learners.

TESL 5763 - Second Language Acquisition
This course will provide an extensive review of research and literature in the field of second language acquisition. Students will examine the developmental nature of second language proficiency and the various factors that influence the process.

TESL 5783 - Teaching English as Second Language
This course provides the theoretical and practical foundations for teaching English as a second language. Upon completion, students will demonstrate a proficiency in utilizing ESL methodology, managing an ESL classroom and in developing and adapting supplementary materials for ESL instruction.

TESL 5900 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

TESL 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

TESL 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

TESL 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department's field of study.

TESL 5940 - Field Study
Credit will vary from 1 to 9 hours. Subject matter will vary within the department's field of study.

TESL 5950 - Internship
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

TESL 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department's field of study.

TESL 5970 - Study Tour
Credit will vary. Subject matter will vary within the department's field of study.

TESL 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department's field of study.

THEATRE ARTS (THRT)
Department of Theatre, Dance and Media Arts

THRT 5213 - Shakespeare on Film
This course will guide students in exploring how Shakespeare’s plays have been adapted for film using both early cinematic techniques and modern technology. Reading a number of Shakespeare’s play and viewing movie interpretations will serve as a base for analysis, lectures, discussion and an in-depth research project and oral presentation. Prerequisite(s): Graduate standing.
Graduate Course Descriptions

THRT 5303 - Global Theatre
This course surveys the theatrical traditions of global theatre in a variety of forms including realistic and not-realistic performances. The theatrical arts of various countries will be studied not only for their intrinsic value, but as key to understanding the cultural components which compose our global world. Prerequisite(s): Graduate standing.

THRT 5353 - History Of Theatre Beginning -1660
This course provides the student with a comprehensive survey of the development, important issues, prominent artists, and pivotal events in the history of the theatre from its beginning to 1660. Students will conduct independent exploration into selected aspects of theatrical development. Prerequisite(s): Graduate standing.

THRT 5363 - History Of Theatre 1660-Present
This course provides the student with a comprehensive survey of the development, important issues, prominent artists, and pivotal events in the history of the Theatre from 1660 until present. Students will conduct independent exploration into selected aspects of theatrical development. Prerequisite(s): Graduate standing.

THRT 5713 - Play Production
This course is a study of the techniques and philosophies of directing plays in the contemporary theatre and emphasizes actual practice through the preparation and presentation of scenes from modern and classic plays, producing and directing a short play and preparing in-depth studies of modern professional theatre directors. Prerequisite(s): Graduate standing.

UNIVERSITY COURSES (UNIV)

UNIV 5000 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given. No more than 2 hours of workshop may be counted on a master’s degree.

UNIV 5900 - Practicum
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

UNIV 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

UNIV 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

UNIV 5950 - Internship
Credit will vary from 1 to 8 hours; subject matter will vary within the department’s field of study. Supervised practical experience gained in a professional field by an advanced or graduate student.

UNIV 5960 - Institute
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

UNIV 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

UNIV 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.

THRT 5900 - Practicum In Theatre Arts
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

THRT 5910 - Seminar / Special Topics
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

THRT 5920 - Workshop
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study. Normally involves lecture, films, guest speaker, etc. A grade of “P” or “F” is given.

THRT 5930 - Individual Study
Credit will vary from 1 to 4 hours. Subject matter will vary within the department’s field of study.

THRT 5940 - Field Study In Theatre Arts
Credit will vary from 1 to 9 hours. Subject matter will vary within the department’s field of study.

THRT 5950 - Internship In Theatre Arts
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

THRT 5960 - Institute In Theatre Arts
Credit will vary from 1 to 8 hours. Subject matter will vary within the department’s field of study.

THRT 5970 - Study Tour
Credit will vary. Subject matter will vary within the department’s field of study.

THRT 5990 - Thesis
Credit will vary from 1 to 6 hours. Subject matter will vary within the department’s field of study.
Governance

of the

Jackson College of

Graduate Studies
Governance of the Graduate College

Role of the College
The Jackson College of Graduate Studies (the "JCGS") at the University of Central Oklahoma is dedicated to providing leadership and support in the development of high quality graduate and research programs to serve the needs of students, faculty and the university community as they compete in a global society.

In its graduate studies function, the JCGS collaborates with the five UCO instructional colleges in offering six Master's degrees covering 31 Graduate Degree Programs with 54 different major areas of study serving approximately 1,300 students. In 2004, UCO celebrated its 50th year of offering graduate programs.

The JCGS supports the concept of shared governance and is teamed in that regard with the Graduate Faculty and the Graduate Council.

The Graduate Faculty
The Graduate Faculty is a select group of UCO faculty members who serve in a consultative role to the JCGS and the Graduate Council.

There are two membership levels in the Graduate Faculty: Full Members and Associate Members.

The Graduate Council must approve new memberships in the Graduate Faculty before the final printing of the semester schedule in which new members wish to teach. The JCGS allows emergency associate memberships of one-semester duration.

Full Members of the Graduate Faculty
The Graduate Council grants full membership to the Graduate Faculty to full time faculty possessing earned doctorates who are active in scholarship, creative endeavors, pure and applied research and who are dedicated to the professional enhancement of their students, their disciplines, their colleges, the University and the community.

The doctoral requirement does not apply to faculty in the Performing Arts who are eligible for Full Graduate Faculty membership if they possess an MFA degree and 60 graduate hours in the discipline. Deans and chairpersons will determine equivalence to terminal degrees. In addition, all graduate faculty must demonstrate the following:

1. Superior teaching ability and teaching innovation supported by student evaluations (when available), and chairperson evaluation.

2. Active participation in research leading to publications and/or other appropriate scholarly/artistic activities
3. Activities, performances, or exhibits commended by professionals in the candidate's field of study.
4. Willingness and ability to supervise theses and mentor students.

Associate Members of the Graduate Faculty
These faculty may teach graduate classes and serve on advisory committees and thesis committees, but their assignments shall be subject to periodic review.

Under no circumstance will faculty who are not members or associate members of the Graduate Faculty teach graduate courses.

Associate Graduate Faculty Membership Categories
1. Full-time faculty employed for more than one academic semester, or
2. Full-time faculty employed just prior to the first academic semester, or
3. Part-time faculty employed for more than one academic semester, or
4. Part-time faculty employed just before beginning their first academic semester.

The department chair or graduate program director initiates the faculty member's application for three-year associate membership on the Graduate Faculty by sending the Graduate Faculty Three-year Associate Membership Application form to the JCGS Dean. With it should go a current curriculum vitae, a letter of application, transcripts, and other appropriate information if requested.

The Graduate Dean will review the application and forward it to the Membership Committee of the Graduate Council for review and recommendation. A list of approved applications for Graduate Faculty Membership will be forwarded to the Graduate Council for discussion and vote, which will be reported to the JCGS Dean, the Vice President for Academic Affairs, the other Deans, and the Department Chairs.

Duties of the Graduate Faculty
Specific duties of the Graduate Faculty, in addition to other responsibilities of all university faculty members, include the following:

1. Teach courses open to graduate students.
2. Seek undergraduate students of outstanding ability and encourage them to pursue graduate study.
3. Conduct graduate classes and seminars which stimulate creativity and contribute to the growth and development of independent scholarly attitudes and performance.
4. Participate in research or creative activity which has intrinsic scholarly or artistic value and which will motivate the students to similar endeavors.
5. Supervise research/artistic projects of graduate students when requested.
6. Encourage informal activities among students leading to scholarly or artistic production.
7. Maintain standards of student performance to prepare graduates for the professional and scholarly responsibilities of an educated person in a free society.
8. Review the reports of the Graduate Council and the various committees of the JCGS and determine the general direction of the college.

The Graduate Faculty shall meet at least once each year, generally during the month of April. A quorum for transacting business shall be the number present at the meeting. Special meetings may be called by the Dean of the JCGS, whenever the action of the Graduate Faculty is needed. A special meeting must be called if ten percent of the Graduate Faculty so petition.

The Graduate Council
The Graduate Council is a group of full members of the Graduate Faculty and administrators concerned with policy recommendations as they relate to all graduate programs at the University of Central Oklahoma. The Council is composed of 19 members: 15 are elected from faculty 3 from each of the 5 academic colleges and 3 are appointed by the Dean of the JCGS, who is also the 19th member. Appointees from the Office of Academic Affairs, the Library, and Faculty Senate and AAUP serve as liaisons to the Graduate Council.

The Graduate Council consists of four standing committees: The Membership Committee, the Executive Committee, the Curriculum Committee, and the Admissions and Retentions Committee.

Duties of the Graduate Council
1. Hear reports and take action on recommendations of the standing committees.
2. Advise the committees in carrying out their duties.
3. Appoint ad hoc committees when necessary.
4. Make recommendations concerning Graduate Faculty policies and procedures.
5. Receive communications on any and all matters relating to the Jackson College of Graduate Studies.
6. Advise and make recommendations to the Graduate Dean.
7. Review matters which are to be taken to the Graduate Faculty.
8. Cooperate with the Undergraduate Faculty or its representatives and to appoint joint committees when needed.
9. Meet a minimum of once each semester.

Election Procedures of the Graduate Council
Election of Graduate Council members shall be conducted during the Spring semester by the deans of each of the undergraduate colleges in the following manner.

College deans will notify all eligible candidates of openings on the Graduate Council and call for applications to positions on a specific Graduate Council committee as a representative of the college for which the position is open. Terms of office are for three years.

An election will be conducted by ballots mailed from the college dean’s office. Each Full Member of the Graduate Faculty from the college shall vote for no more than one person for each committee position open. Ballots will be tabulated in the office of the college dean.

At the end of the election process, the dean of each college will provide the Graduate Dean with the name(s) of the newly elected Graduate Council member(s) from his/her college.

Committee members appointed by the Graduate Dean shall be announced following the annual election. In this way it will be possible for the Graduate Dean to improve the diversity of the Council, and attain the widest representation possible. Appointments are for three-year terms. The elected members will serve from the Fall semester to the end of the appropriate Summer semester. Appointed members usually serve for one year with reappointment possible.

The Graduate Executive Committee
The Graduate Executive Committee will:
1. Work with the Graduate Dean to prepare agendas for the council and faculty meetings.
2. Consult with the Graduate Dean whenever consultation seems necessary.
3. Take specific actions as directed by the Graduate Council or the faculty.
4. Advise the Graduate Dean in selecting the appointed members of each standing committee.
5. Assign business of the Jackson College of Graduate Studies and Research to a standing committee or recommend an ad hoc committee to be appointed as necessary.
6. Recommend items for the consideration of the Graduate Council.

The Membership Committee
The Membership Committee will:
1. Receive nominations and make recommendation for Full Membership and Associate Membership to the Graduate Faculty.
2. Make periodic reviews and recommendations for membership of individual Graduate Faculty Members.
3. Make periodic reviews of policies relating to Graduate Faculty Membership.
4. Undertake other assignments made by the Graduate Dean or Executive Committee.

**The Curriculum Committee**
The Curriculum Committee will:
1. Review, hold hearings, and recommend acceptance or rejection of proposed changes, deletions, and new graduate courses and degree programs.
2. Periodically review the graduate curricula and make suggestions for improvement.
3. Articulate its work with that of the departmental curriculum committees with regard to such matters as courses and programs which affect the Jackson College of Graduate Studies and Research.
4. Complete other assignments made by the Graduate Dean or Executive Committee.

**The Admissions and Retention Committee**
The Admissions and Retentions Committee will:
1. Review and make recommendations concerning admission procedures, to assure that policies are consistent with the admission philosophy of the Jackson College of Graduate Studies and Research.
2. Study registration procedures and policies as they affect the Jackson College of Graduate Studies and Research.
3. Review the list of graduate students on retention each semester and modify their status as appropriate.
4. Complete other assignments made by the Graduate Dean or Graduate Council.
